

## **Regarding railway related issues**

**SHRIMATI SATABDI ROY (BANERJEE) (BIRBHUM):** In my Birbhum the adjoining road from Lohapur railway station to Morgram railway station is in extremely poor shape. I have flagged this issue umpteen number of times, I spoke to hon. Minister, to the General Manager, but to no avail. The platform from Guskara to Nalhati-Muraroi-Rajgram is so short and the train compartments are so long in comparison that when a train halts there it becomes very difficult for passengers to board or deboard. It is so inconvenient. During the Corona time, some trains were started with special fare. Now Covid situation no longer exists, but those trains continue to charge hiked fare. Why the pre Covid fares are not reintroduced? Bardhaman-Malda Town Passenger train was introduced when Mamata Bandyopadhyay was the Railway minister. That train has been discontinued altogether, it is so surprising. Moreover there are some trains which stops while going up but does not stop in the down route and vice versa. I have raised these issues time and again with hon. Minister, with the GM, with DRM, but nothing happened. For last five years I have been making hue and cry and have become tired now. Kindly look into it.
