FINANCIAL POSITION OF INDUSTRIAL UNITS

1417. SHRI VIRENDRA SINGH :

SHRI CHETAN P. S. CHAUHAN :

SHRI DATTATRAYA BANDARU : Will the Minister of

FINANCE be pleased to state :

(a) whether the recent curbs imposed by the Reserve Bank of India and other public sector banks on credit availability to industrial units has adversely affected the liquidity position of industrial units;

(b) if so, the details thereof; and

(c) the steps proposed to be taken by the Government to make available adequate credit to industrial units?

THE MINISTER OF STATE OF THE MINISTRY OF FINANCE (SHRI DALBIR SINGH) (a) The Reserve Bank of India (RBI) has reported that it has placed restrictions on credit drawals in order to moderate monetary and credit expansion. Such restrictions will generally lead to a tightening of the liquidity position in industry.

(b) Banks were advised by RBI in May, 1991 that, for borrowers with aggregate credits limits of over Rs. 1 crore, the effective drawing power for the period May 9—September 30, 1991 would be limited to either 100 per cent of the peak level of actual utilisation during the period May 9 to September 30 during the past three years or the cash credit limits as they stood on May 8, 1991, whichever is lower.

(c) the restrictions on credit drawals have been imposed as a short-term measure applicable only to large borrowers. It is expected to lead to greater efficiency in inventory management and better use of credit by borrowers, thereby also enhancing productivity of capital. Given the large overhang of liquidity and the need to restrain the expansion in demand, it has become imperative to moderate the pace of monetary and credit expansion. Existing credit policy is thereby a part of the overall economic policy of rectifying current macro-economic imbalances. As these imbalances deminish, credit availability to industry can be expected to improve.
