INTRODUCTION

- I, the Chairman of the Estimates Committee, having been authorised by the Committee, present this Fifth Report of the Estimates Committee on the action taken by Government on the recommendations contained in the Hundred and Twenty-First Report of the Estimates Committee (Second Lok Sabha) on the Ministry of Commerce and Industry—Coffee Board.
- 2. The Hundred and Twenty-First Report was presented to the Lok Sabha on the 4th April, 1961. Government furnished their replies indicating the action taken on the recommendations contained in this Report on the 7th June and 8th August, 1962. The replies were examined by the Study Group 'F' of the Estimates Committee (1962-63) at their sitting held on the 22nd August and the 5th September, 1962. The draft Report was adopted by the Committee on the 15th November 1962.
 - 3. The Report has been divided into the following five Chapters:
 - I. Report.
 - II. Recommendations that have been accepted by Government.
 - III. Replies of Government that have been accepted by the Committee.
 - IV. Replies of Government that have been accepted by the Committee.
 - V. Recommendations in respect of which final replies of the Government are still awaited.
- 4. An analysis of the action taken by Government on the recommendations contained in the Hundred and Twenty-First Report of the Estimates Committee (Second Lok Sabha) is given in Appendix I. It would be observed therefrom that out of 18 recommendations made in the Report 55.6% have been accepted by Government and replies in respect of 27.8% of the recommendations have been accepted by the Committee. Of the rest, replies of Government in respect of 5.5% of the recommendations have not been accepted by the Committee while final replies to 11.1% of the recommendations are still awaited.

Estimates Committee.

CHAPTER I

REPORT

In para 11 of their Hundred and Twenty-First Report (Second Lok Sabha) on Coffee Board, the Estimates Committee referred to the anomalous position in which the Chief Coffee Marketing Officer who was an employee and not even a member of the Board, was not only entrusted with the duties of the Chairman in the latter's absence but also presided over the Board in preference to the Vice-Chairman. They considered that in the absence of the Chairman, the Vice-Chairman or in the absence of the latter a member of the Board should have been called upon to perform the duties of the Chairman and that a suitable provision to this effect might be made in the Rules, if necessary. In *reply, Government have stated that the observations of the Committee have been noted and that the recommendation to amend the rules is being examined having regard to the similar difficulties that may arise in other Commodity Boards. The Committee do not see why it should have taken the Government and the Board such a long time to examine their recommendation which is based on the practice generally followed in these matters. They hope that early action would be taken to implement their recommendation so as to avoid recurrence of such anomalous situations in future.

^{*}The Report was sent to the Ministry for factual verification on the 3rd November 1962. At the time of factual verification of the Report, the Ministry has intimated as follows:

[&]quot;The recommendation is accepted. No change is called for in the existing rules for implementing the recommendation."

Summary of recommendations/conclusions	3	The targets of coffee production fixed under the Board's Development Plan would appear to have been not merely very conservative, but wholly [Ministry unrelated to the possibilities. The Committee hope that adequate statistical data would be collected and current trends of production carefully analysed before revised targets under the Third Plan are fixed.

still so per cent of the world's average. There is, therefore, room for increasing per acre output. It would be interesting if the Board could give figures of increased production under the following heads in its reports :— 20

(ii) Yield from the reclamation of abandoned (i) Increased yield from the existing acreage; tracts of established coffee; and (iii) Expansion by way of new clearings and plantations.

The Board was not in favour of the Expert Committee's recommendation that there be a single Marketing and Publicity Committee in lieu of the existing two Committees. The Government of India had also agreed that mittee's suggestion regarding the merger of the Marketing and Propaganda Departments is accepted in principle and necessary steps status quo be continued. The Committee are of the view that the export of coffee has to be specially encouraged to increase

[Ministry of Commerce & Industry O.M. No. 14(20) Plant (B) 61, dated the 7th June, 1962]. The considerations set out in this recommendearnings of foreign exchange. Indian coffee is lower prices even though that may require pegging market and special m asures are called for not only to increase our exports but even probably mittee feel that it may be desirable for this purpose to export Indian coffee at comparatively now faced with keen competition in the world to retain them at the present level. The Com-

Much has not been done for foreign propaganda market. In view of the imperative necessity case it is considered that the resources available of increasing exports of coffee, the Committee be taken for making propaganda abroad. REPLIES OF GOVERNMENT THAT HAVE BEEN ACCEPTED BY THE COMMITTEE

Reply of the Government	4	With the growing realisation on the part of the small growers of the benefits of the Loan Scheme and the procedural simplifications introduced in the working of the scheme, the tempo of its working is expected to improve considerably.
Summary of recommendations/conclusions	3	The Committee feel that adequate thought was not given to the different aspects of the Loan Scheme before it was put into operation. They trust that the remedial measures taken by modification of the terms and conditions of loans would prove

effective and the Board would be able to show a much better performance from 1960-61.

The scheme for the supply of fertilisers and pesticides to the small growers had to be abandoned by the Board after the very first year of its inception. Thus another of the major schemes under the Development Plan has not proved successful.

The Committee feel that the Development Department has hardly justified its existence. It is time that it is wound up and its work re-distributed suitably

After careful consideration. Government have come to the conclusion that it would not be desirable to wind up the Development Department whose activities both in the matter of scrutinising loan applications and actual disbursement of loans as well as of keeping an effective control over the recovery of the loans already disbursed will increase considerably in future years. It has therefore been decided to continue the Department provisionally upto the 28th February, 1963, but with a considerably reduced strength,—its further continuance depending on the results achieved in the meantime.

[Ministry of Commerce and Industry O.M. No. 14(20) Plant(B) 61, dated the 7th June, 1962].

The Committee have no data to appreciate the adequacy or otherwise of the amenities provided to the workers by the planters themselves. The Committee recommend that a periodical assessment of the Working of the Coffee Board with reference to its prescribed objectives and functions should be undertaken by an agency independent of the Board, and its report presented to Parliament. They would further recommend that a similar assessment in respect of all the Commodity Boards/Committees under Government should also be undertaken.
