LOK SABHA

Tuesday, the 29th May, 1962/Jyaistha 8, 1884 (Saka).

The Lok Sabha met at Eleven of the Clock.

[MR. SPEAKER in the Chair]

ORAL ANSWERS TO QUESTIONS

Phizo in Pakistan

| Shri Hem Baru**; | Shri S. M. Banerjee: | Shri Warior: | Shri Daji: | Shri E. Madhusudan Rao: '1114. | Shri P. K. Deo: | Shri Rameshwar Tantia: Shri P. R. Chakraverti: | Shri A. V. Raghavan: | Shri Pottekkatt:

Will the **Prime Minister** be pleased to state:

Shri P. C. Borooah:

- (a) whether it is a fact that Mr. Phizo, rebel Naga leader, is already in Pakistan;
- (b) whether the attention of Government has been drawn to his statement on the eve of his departure from London, as reported in the Hindustan Times dated the 20th May, 1962; and
- (c) if so, what is the reaction of Government to this incident as also to Mr. Phizo's statement?

The Parliamentary Secretary to the Minister of External Affairs (Shri S. C. Jamir): (a) Yes. Sir.

(b) Yes, Sir. 782 (Ai) LSD—1. (c) Phizo is making wild and baseless allegations to gain publicity for himself and to boost his claim to leadership which has been repudiated by an overwhelming majority of the Nagas. Government are determined to take all measures necessary to see that there is no interference from Phizo or any other anti-social elements with the peaceful development of the State of Nagaland.

Shri Hem Barua: May I know whether the attention of the Government is drawn to the fact that Shri Phizo has sent a cable just on the eve of leaving London to the Chief Executive Officer of Nagaland which reads as follows:

"My dear friends, it will not do to let others kill our people; let us not plan to oppose—each other but to discuss and come to a mutual understanding. We must settle our case early."?

If so, may I know whether Government propose to invite the hostiles and to allow them to be represented in the interim Government in Nagaland?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): I saw something like that telegram; not identically the same thing. A report of it came to us. At the present moment there is the provisional Government in Nagaland functioning and there is no question of inviting anybody to discuss with them. Soon, I hope in this session, a formal Bill for Nagaland will come up to give them full powers of a State.

Shri Hem Barua: May I know whether Government are aware of the rumours that are floating in Naga-

7388

land at present to the effect that a parallel Naga Government is going to be established by Shri Phizo in Pakistan as also the fact that Shri Phizo has launched an appeal to the United Nations? If so, what steps have the Government taken to counteract this propaganda so that it may not step up the dying embers of the rebellion again?

Shri Jawaharlal Nehru: I do not know whether any rumours are circulating. But something of that nature reached me from London. I think, a few days back I stated that the Pakistan Government was embarrassed by these rumours and said that they did not intend to give any facility. I feel the more so because President Ayub Khan has stated again that they will not offer any such facility to Shri Phizo.

Shri S. M. Banerjee: May I know whether it is a fact that Shri Phizo, after reaching Karachi, disappeared from Karachi and reappeared in Chittagong and whether he is trying to enter Nagaland and if so what steps are being taken by the Government to check his entry into Nagaland?

Shri Jawaharlal Nehru: It should be known to the House that Shri Phizo is an absconder from justice and if by any chance he enters the Indian territory he is likely to be arrested and tried. I can hardly tell the hon. Member what steps we are taking to prevent his entry or to detain him or what we shall try to do. It is not certain—an odd person can enter; cross our vast territory and enter India.

Shri Warior: Does the Government know the Press report that Shri Phizo is consulting all the rebels who had fled to Pakistan in order to form a sort of a provisional Government there? If so, what is the reaction of the Government?

Mr. Speaker: He is there and if so he may have consultations.

Shri Warior: I want to know whether the Government of India has got any information from its Embassy.

Shri Jawaharlal Nehru: Government of India do not know exactly where Shri Phizo is except that he is in East Pakistan moving about. Whether he is meeting the group of Naga hostiles who went there, I do not know. It is quite possible he might have done so. There are many explanations of why that group went there, some not very creditable to them and some idea of forming a base there but as I said the Pakistan Government has clearly stated that they will not permit them to carry on any rebel activity there.

Shri Daji: As is now known, the Naga hostiles who escaped were actually delegates to a convention and Mr. Phizo has gone to that convention. These are the reports. If it is so, may I know whether the Government of India have protested to the Government of Pakistan for allowing the convention to be held and for Mr. Phizo to enter Pakistan and attend this convention?

Shri Jawaharlal Nehru: I am sorry my knowledge does not go thus far: whether he went to attend a convention. I do not know what convention it is, where it is going to be held, who has sponsored it. I know nothing about it.

Shri Tyagi: The Prime Minister was just heard to say that it is the intention of the Government to bring forward a Bill, giving full State powers to Nagaland. I want to know whether the same precedent will be followed in the case of other hill tribes although they have not started any struggle about it.

Mr. Speaker: It is a different question.

Shri Brajeshwar Prasad: Is there any information in the possession of the Government to support the view that the British Government is supporting Mr. Phizo both politically and normally?

Shri Jawaharlal Nehru: We no such information. It must remembered that Mr. Phizo is now a British citizen; he is not a citizen of India or of any other country. He is a British citizen. That also presumably makes it rather difficult for him to function in any part of India except as British citizen. To our knowledge, no help has been given to him morally, except the fact that he is a British citizen; I do not know. individuals in England have, I lieve, been giving him moral other support.

Shri P. C. Borocah: May I whether any arrangement exists between the Governments of Pakistan and India for extradition of criminals? If not, may I know whether the question of coming into some arrangement with Pakistan is under contemplation of the Government?

Shri Jawaharlal Nehru: No. not at present. In the last Parliament a general Extradition Bill was introduced and was referred Joint Committee of the two Houses, and the Joint Committee and the Parliament ceased to be. So, it will have to be introduced afresh in this Parliament.

हिन्दी टाइपराइटिंग टेनिंग योजना

The Deputy Minister in the Ministry of Labour and Employment and for Planning (Shri C. R. Pattabhi Raman): (a) No.

- (b) No.
- (c) As these offices are not handling correspondence in Hindi, they not depute any employee for training in Hindi type-writing. These offices, however, propose to depute their employees for training in future.

श्री प्रकाशबीर शास्त्री क्या में जान सकता हं कि जो व्यक्ति हिन्दी टाइयराइटिंग की ट्रेनिंग लेते हैं, क्या उनकी ट्रेनिंग को स्रौर ग्रागे वढाने के लिये उन्हें ग्रम्यास का मौका दिया जाता है ?

Shri C. R. Pattabhi Raman: There are various departments, wherein there are sections of Hindi There is no question of promotion for them. There is provision and they are being considered as and when they are eligible for appointment.

श्री प्रकाशबीर शास्त्री : क्या मैं जान सकता हं कि जिन व्यक्तियों ने ग्रव तक हिन्दी टाइपराइटिंग को ट्रेनिंग लो है, कुल मिला कर उनकी संस्या क्या है ?

Shri C. R. Pattabhi Raman: All the figures are with me. Main Secretariat: three in July, 1961; five in July, 1962 and two in July 1962 session. Total is ten. Then, in the DG, P&T, the total is six. I do not want to give all these figures. There is also the figure for the Chief Labour Commissioner. The whole list is there.

Shri Sinhasan Singh: May I know whether Hindi typists have to learn English typewriting and whether the English typists employed in the Government of India have also to learn typewriting-vice versa-and if so, what is the difference between the pay of Hindi typists and the pay of English typists?

Mr. Speaker: He is extending the question too far. The question whether they will have to learn both.

Shri C. R. Pattabhi Raman: Sir, I think it will be impairing their efficiency if they are to do both.

श्री बड़े : चंकि शासन ने हिन्दी टाइप-राइटर का एक नया कृंजी-बोर्ड निश्चित किया है, इमिलये क्या जितने हिन्दी टाइपिस्टम श्राज तक थे, उनको नई ट्रेनिंग लेने को जुरू-रत पडेगी?

Shri C. R. Pattabhi Raman: It is a question of their training being sufficient. If they are efficient enough, it will be taken into consideration.

Mr. Speaker: The question is whether they will have to undergo training or not.

Shri C. R. Pattabhi Raman: No, Sir. It is not necessary in every case.

Shri Heda: The number of trainees in Hindi typewriting is so low. there no greater need than this number indicates?

The Minister of Planning and Labour and Employment (Shri Nanda): This is a progressive arrangement. Every year this number is be-

ing trained. Therefore, the number Whatever degoes on increasing. partments have not made this arrangement so far, they have now decided to do so.

Raw Film Project

Shri Subodh Hansda: Shri Dharmalingam:

Will the Minister of Commerce and Industry be pleased to state:

- (a) the progress made in construction for the raw film project by the Hindustan Photo Films Manufacturing Company Ltd.:
- (b) when it is expected to be completed; and
- (c) when it will be first commissioned for production?

of Industry in the The Minister Ministry of Commerce and Industry (Shri Kanungo): (a) to (c). A statement is laid on the Table of the House.

STATEMENT

(a) The final Project Report received in July, 1961, from the French Firm of Bauchet and Cie. Land for the project has been taken over from the State Government and the levelling of the site has been completed. Contracts have been awarded for the construction of the production buildings. Orders for imported plant and equipment have been placed and shipments have started. Orders have also been placed for the indigenous equipment which is the responsiblity of the Company and Bauchet and Cie are placing orders for items they should supply. Deliveries of indigenous equipment have started.

(b)& (c). It is expected that the plant will go into production in 1963 and reach full production before the end of the Third Plan period.

Shri Subodh Hansda: From the statement, I find that the project will go into production by 1963 and it will go into full production by the end of the third Five Year Plan. If so, may I know what percentage of the country's requirements will be met by this project?

Shri Kanungo: In the first stage we hope to produce 5.4 square metres of cine film. That will be quite adequate for our demands.

Shri Subodh Hansda: From the statement, I find that for the construction of this project, Government is purchasing plant and machinery. May I know what is the foreign exchange requirement for this machinery?

Shri Kanungo: The contract provides that machinery will be supplied by the collaborators and whatever machinery can be manufactured here with the help of the collaborators will be made. Both programmes are progressing.

Shri S. C. Samanta: What is the sort of collaboration that will be made?

shri Kanungo: The collaboration agreement has been placed in the library of the House. They are furnishing part of the capital which will be paid back in the course of ten half-yearly instalments. It will carry interest at 6 per cent.

Shri S. C. Samanta: May I know what percentage of indigenous equipment will be available?

Shri Kanungo: That is being studied.

Rural Unemployment

Will the Minister of Planning be pleased to state:

(a) whether a regional conference was convened in Calcutta to discuss

unemployment and under-employment in rural areas;

- (b) if so, the recommendations of the Conference; and
- (c) how those recommendations are going to be implemented?

The Deputy Minister in the Ministry of Labour and Employment and for Planning (Shri C, R. Pattabhi Raman): (a) to (c). A statement is laid on the Table of the House.

STATEMENT

In pursuance of the recommendations contained in Chapter X (Employment and Manpower), Section IV of the Report on the Third Five Year Plan, a first series of pilot projects for utilising rural manpower comprising 32 projects were started during 1960-61. With a view to reviewing the working of these projects. pooling the experience gained in different States and considering questions relating to the implementation of the rural works programme during 1962-63, three Regional Conferences on Works Programmes for utilising Rural Man-Power were at Delhi, Calcutta and Hyderabad between 29th January and 7th February, 1962. A number of useful suggestions and recommendations were made at each of these Conferences. These recommendations have been communicated to State Governments for implementation, copy of which has been placed in the Parliament Library. The recommendations have been, or will be implemented by the State Governments in the light of the local needs and conditions.

Shri S. C. Samanta: The ILO Organisation appointed an expert committee, including one expert from India also and they have submitted their report. May I know whether in this conference, their recommendations were being considered?

Shri C. R. Pattabhi Raman: Sir; all these are part of the employment organisation in the here and they are being considered.

Shri Subodh Hansda: From statement, I find that 32 pilot projects were started to study the manpower. May I know what type of man-power-technical man-power or non-technical man-power-would be utilised in these pilot projects?

Shri C. R. Patabhi Raman: Actually 34 pilot projects were initiated in the first series by the end of 1960. A regular classification of the power is being made. An entire study is being made of that.

Shri S. N. Chaturvedi: May I know what is the employment potential of these pilot projects?

Shri C. R. Pattabhi Raman: Three regional conferences have been held and the figures have not been arrived at as yet. Actually today there are 227 projects. 600 more will be launched by the end of 1962. By 1963 there will be 800 pilot projects which will be in operation. There are about 40 selected areas and Rs. 20 lakhs are being spent in the four-year period ending 1966.

Mr. Speaker: He wants to know the employment potential.

The Minister of Planning and Labour and Employment Nanda): May I supplement the answer? By the end of the first series It will be 100,000. Next year it will be 400,000 to 500,000, then 1 million and finally 2.5 million.

श्री विभति मिश्र जो गांवों में लोग रहते हैं और जिन को कियी टैक्नीकल चीज का ज्ञान नहीं है और साथ हो साथ जिन की रोजी रोटी का कोई इन्तजाम नहीं है, उनके लिए भी सरकार क्या कुछ करने जा रही है ?

श्री नन्दा : यह जो योजना है, यह उन्हीं लोगों के लिये खास कर है।

श्री सरज पाण्डेय : इस स्टेटमेंट को देखने से मालूम होता है कि जो सुझाव इस कान्फ्रेंस में दिये गये हैं, उन्हें लागु करन की जिम्मेदारी राज्य सरकारों की है। मैं जानना चाहता हं कि क्या मन्त्री महोदय के पास इस तरह की मुचना है कि कितनी राज्य सुरकारों ने इस योजना को लाग किया है ?

आर्थे नन्दा यह कान्फ्रेंस धभा हो कर चुकी है। यह काम तो उन्हीं के द्वारा होता है। मगर हमारा इन्तजाम भी इसके साथ है। हम उसके ऊपर निगाह रखते हैं, जा कर देखते भालते हैं ताकि कामयाबी से काम हो।

श्री सरज् पाण्डेय वया राज्य सरकारों से कोई सुचना ग्राई है ?

ष्मध्यक्ष महोदय माननीय मन्त्री जी त कहा है कि सभी कान्फोंस हुई है। यह बात किंबल अज वक्त है। इसका अभी मौका नहीं श्राया है।

Shri S. M. Banerjee: It is mentioned in the statement:

recommendations have been, or will be, implemented by the State Governments in light of the local needs and conditions."

I want to know the conditions which warranted the implementation of those recommendations.

Shri Nanda: For example, there is the community contribution. How much can be raised will depend upon the conditions.

Shri Sham Lal Saraf: Will this employment mean that men and women will have to work on construction projects chiefly or jobs will be found for them in different avocations of life in those areas?

Shri Nanda: There are several projects. The idea is that this work is to be productive, which will increase the economic potential of that area so that afterwards employment can be sustained without any special programmes.

Transmitter in Raipur

- *1119. Shri Vidya Charan Shukla: Will the Minister of Information and Broadcasting be pleased to state:
- (a) when the medium-wave transmitter in Raipur will begin functioning; and
- (b) when regular studio is likely to be established there?

The Deputy Minister in the Ministry of Information and Broadcasting (Shri Sham Nath): (a) A 20 KW Medium-wave Transmitter at Raipur is expected to be ready for service in 1963.

(b) There is no proposal to establish regular Studios at Raipur. Facilities for recording of outside programmes such as folk songs by parties will, however, be provided.

Shri Vidya Charan Shukla: Are the Government aware that after the reorganisation of States, Nagpur radio station has become a Marathi station and Indore-Bhopal, which are supposed to cater to Raipur, are 'oo far to be audible to Raipur people? If so, may I know whether any demand has been made for the establishment of a station at Raipur and what are the reason for this demand not being accepted?

Shri Sham Nath: So far as I am aware, we have not received any demand in this connection.

Shri Vidya Charan Shukla: May I submit that I have been making this demand for the last three years? I have got the copies of that demand with me.

Mr. Speaker: Both of them are sitting close by. They can settle it now.

NEFA

- *1122. Shri Rishang Keishing: Will the Prime Minister be pleased to state:
- (a) the total allocation of funds made for NEFA for the Second Five Year Plan;
- (b) the amount spent and surrendered, if any; and
- (c) how the achievement compares with the expenditure?

The Parliamentary Secretary to the Minister of External Affairs (Shri D. Ering): (a) Rs. 509:56 lakhs.

- (b) A sum of Rs. 356.644 lakhs was spent and the balance was surrendered.
 - (c) Very well.

Shri Rishang Kelshing: What percentage of the total allotted funds is set apart for development schemes? Besides governmental machinery, what other machineries are there to desure proper implementation of the development schemes?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): I am sorry, I do not think it is possible for me to give the percentage. In the first five years, as will be noticed, a large sum was not spent because it was a novel venture which could not be compared with other areas. So, the whole sum allotted could not be spent. But that does not mean that things were not done. In fact, much more was done than the figures of amount spent might imply. As for the agencies, apart from the governmental agency, I do not know of any other agency. There may be some minor agencies also.

Shri Rishang Keishing: I find from the reply that a certain amount has been surrendered. May I know the reasons why this amount could not be fully utilized and had to be surrendered? What action is Government going to take to stop the surrender or lapse of money?

Shri D. Ering: The main reason for this was the reduction in costs and shortage of personnel and supplies. The schemes for the Second Five Year Plan were formulated during 1954-55, at a time when several parts of the Agency were yet to be fully opened up and only a start had been made in the development of communications. No close parallel to the situation obtaining in NEFA csould be found in the rest of the country. The estimates were, therefore, made on a rough and ready basis. This led to the curious result that while on the expenditure side approximately 30 per cent of the sum allotted for the Plan remained unutilised, the physical targets achieved were actually much higher than 70 per cent.

Shri Hem Barua: May I know whether it is not a fact.....

Mr. Speaker: He has replied that this would not occur again, the reasons why it occurred earlier have been given.

Shri Hem Barua: May I know whether it is not a fact that the tribal people of NEFA supplied voluntary labour also which computed in terms of money would come to about Rs. 1,70.000, and if so whether any recognition, formal or official, is given to these people for this voluntary labour?

Shri Jawaharlal Nehru: Recognition is no doubt given and appreciation shown.

Coconut Fibre Processing Factory in Kerala

Shri Maniyangadan:
| Shri Wartor:
| Shri Wasudevan Nair:
*1123. | Shri A. K. Goplan:
| Shri Imbichibava:
| Shri Koya:
| Shri Ravindra Varma:

Will the Minister of Commerce and Industry be pleased to state:

- (a) whether applications have been received for issue of a license for starting a factory in Kerala for processing coconut fibre and production of upholstery etc.;
- (b) if so, how many such applications were received;
- (c) whether there was any application for starting such a factory outside Kerala;
- (d) whether license has been issued to any such applicant; and
 - (e) if not, the reasons therefor?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhal Shah): (a) Yes, Sir.

- (b) Seven. Four proposals have been approved. Three are under consideration.
 - (c) Yes, Sir.
- (d) Yes, Sir, to one applicant other than Kerala State.
 - (e) Does not arise.

Shri Maniyangadan: In view of the industrial backwardness of the State, will Government see that these industries are started as early as possible?

Shri Manubhai Shah: As I said four licenses have already been issued; the other three are under consideration.

Shri Maniyangadan: Of the four licenses issued how many are from Kerala?

Shri Manubhai Shah: Al' excepting one are from Kerala.

Shri Warior: May I know whether these applicants have asked for any foreign exchange for the import of machinery, and if so, how much?

Shri Manubhai Shah: It is about a lakh and a half to two and a half lakhs.

Shri Vasudevan Nair: From the facts in the possession of Government, may I know whether Government is sure that these industries will come up within a reasonable period?

Shri Manubhai Shah: I hope, Sir, that within a year it will take place in all coir-producing States.

Shri Warior: Is there any proposal from any of the applicants that they would meet the requirements of foreign exchange without depending on the Government of India?

Shri Manubhai Shah: There is none; we would have been giad if they had said so

Valapattanam Irrigation Scheme

- *1124. Shri A. V. Raghavan: Will the Minister of Planning be pleased to state:
- (a) whether sanction has been accorded to the Valapattanam Irrigation Scheme in Kerala; and
- (b) if not, whether in view of the urgency of the scheme Government propose to expedite the mutter?

The Deputy Minister in the Ministry of Labour and Employment and Planning (Shri C. R. Pattabhi Raman): (a) Yes, Sir. The scheme has recently been accepted for inclusion in the Third Plan. The work on

the actual execution of the schemewould start after it has been technically examined in the Central Water and Power Commission and considered by the Advisory Committee on Irrigation, Flood Control and Power Projects and approved for implementation by the Planning Commission.

(b) Does not arise.

Shri A. V. Raghavan: May I know when the actual work will be started?

The Minister of Planning and Labour and Employment (Shri Nanda): That will depend upon certain conditions being fulfilled. The technical merits of the scheme are being examined by the Technical Advisory Committee of the CWPC.

Shri M. K. Kumaran: May i know whether it is a fact that the irrigation and Power projects from Kerala intended to be started this year are being delayed due to want of sanction from the Centre, and if so, what is the reason for the delay?

Shri C. R. Pattabhi Raman: No. Sir; it is not so.

Shri Warior. May I know whether the delay in the execution of the Valapattanam Scheme is causing large scale sea erosions in the coast-line of Kerala?

Shri C. R. Pattabhi Raman: Sea erosion i_S one of the matters for consideration in the whole Plan, it is under the consideration of the Planning Commission.

Industrial Potentialities of Goa

Shri Shree Narayan Das:

Shri Bibhuti Mishra:
Shri P. C. Borooah:
Shri Rameshwar Tantia:

Will the **Prime Minister** be pleased to state:

- (a) whether any steps heve been taken to assess the industrial potentialities of Goa;
- (b) whether the delegation which went to study the scope for establishing a range of major and minor industries has completed its task and submitted its report; and
- (c) if so, the important recommendations made therein?

The Deputy Minister in the Ministry of External Affairs (Shri Dinesh Singh): (a) Yes Sir.

- (b) and (c). Several teams have been sent into Goa by the Government for assessing the industrial potentialities of the territory. The more important recommendations made in their reports are given below:—
 - (i) Government's long term policy regarding the export of the ores should be announced.
 - (ii) A Department of Industries should be established in the Goa Administration.
 - (iii) A Branch of the Small Industries Service Institute should be established there.
 - (iv) An information Centre to disseminate information regarding industries and industrial possibilities should be opened.
 - (v) Steps should be taken to develop certain large and small scale industries in Goa.

Shri Shree Narayan Das: What is the total amount set apart for the industrial development of Goa during the remaining period of the Third Five Year Plan?

Shri Dinesh Singh: That can be assessed only after the reports have been considered.

Shri Shree Narayan Das: With respect to the teams that have been sent there, may I know whether any time-limit has been fixed for submission of their reports?

Shri Dinesh Singh: The reports have been sbmitted by them. They are under examination.

श्री विभूति मिश्रः क्या यह सही है कि गोंग्रा में ग्राइरन श्रीर सब से ग्रच्छा पाया जाता है ग्रीर इसलिये वहां पर सरकार लोहे का कारखाना खोलने जा रही है ?

भी विनेश सिंह सबसे प्रच्छा कहना तो मुश्किल है क्योंकि इतना फाइन प्राइरन भोर नहीं है जितना भीर जगह मिलता है। लेकिन हम भभी तक धाइरन भोर बाहर भेज रहे हैं।

Shri P. C. Borooah: May I know what are the main industries that can be beneficially started in that region?

Shri Dinesh Singh: That can be decided only after the recommendations have been fully considered.

Shri P. K. Deo: May I know if the techno-economic survey which is being conducted by the various States for developing their regions is being extended to Goa also?

Shri Dinesh Singh: There is no such proposal so far.

Shri Hari Vishnu Kamath: Is Government thinking in terms of co-ord-nating or integrating the development programme in Goa with the Third Plan programme of development for the rest of the country and, if so, what machinery is being set up in Goa for the purpose of this integration and co-ordination?

Shri Dinesh Singh: It may be necessary to have a more accelerated programme in Goa.

Shri Hari Vishnu Kamath: That was not my question. It may be necessary. My question was definite.

Is there a plan of co-ordinating and integrating the development programme for Goa with that of the rest of the country?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): When the Third Five Year Plan was prepared, the question of Goa was not considered.

Shri Hari Vishnu Kamath: That is true.

Shri Jawaharlal Nehru: But now gradually it will have to be intengrated with the res: of the programme. It cannot stand in an isolated way, but it is considered separately and then integrated. These are the matters to be considered.

Shri Hari Vishnu Kamath: Has a machinery been set up in Goa for the purpose?

Shri Jawaharlal Nehru: The machinery has been suggested by the Deputy Minister. Various committees have been formed; they have suggested boards and other things. I don't know if the hon. Member thinks that that is inadequate machinery, but it is some step towards that end.

Shri Hem Barua: In view of the fact that the traditional export trade of Goa consisted in the export of iron and manganese ore to Italy, Germany and Japan, and empty bottles to Pakistan, may I know whether Government propose to continue the traditional pattern of trade, especially the trade in the export of empty bottles to Pakistan?

Shri Jawaharlai Nehru: I was not aware, I am sorry, about empty bottles going to Pakistan.

Shri Hem Barua: It is a fact.

Shri Jawaharlal Nehru: I did not know that. I cannot say about empty bottles. But as regards the rest of the trade, the attempt has been to continue it as it is carried on: that is, finish the contracts made and enter into new contracts—according to the rules we lay down.

Shri Maheswar Naik: In view of the existence of certain contracts regarding iron ores and minerals, may I know whether after integration Government are going to honour those contracts or they want to change them and, if so, in what way?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): The mine owners were here, and we have assured them that we shall honour the old contracts. Not only that, but we have given a clear indication of the future also, that all their future contracts will also be honoured on a long-term basis, extending from ten to fifteen years, prices being revisable every three years.

Shri S. N. Chaturvedi: May I know whether any specific recommendations have been made about the industrics to be started there?

Shri Dinesh Singh: I cannot answer about specific industries. But regarding industries some suggestions have been made. They have to be examined.

Shri H. N. Mukerjee: May I know whether the port of Marmugoa is now being utilised in the usual way or what is the position? Is the position difficult even now?

Shri Dinesh Singh: It is being utilised.

Indian Immigrants to U.K.

Will the **Prime Minister** be pleased to state:

 (a) whether there has been an unusual rush of Indian citizens seeking to emigrate to the U.K. during the last few weeks;

- (b) whether this is connected with the deadline for unrestricted immigrant entry into the U.K.; and
- (c) steps taken by Government in granting passports in such cases?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): (a) No, Sir. Taking the figures for the country as a whole, there has been no unusual rush. There has, however, been some increase in the total number of applications received in the Regional Passport Office. New Delhi, in the last few months.

A statement, showing comparative figures of passport applications received during the period January to April, 1961 and 1962, is laid on the Table of the House. [See Appendix III, annexure No. 38].

- (b) The slight rush in the Regional Passport Office, New Delhi, for passports for the U.K. can be attributed to the Commonwealth Immigrants' Act, 1962, which will control immigration of Commonwealth citizens into the U.K. when it comes into force on 1st July, 1962.
- (c) The situation did not warrant any special steps to be taken by Government as the existing arrangements were considered adequate.

Shri Shree Narayan Das: May I know whether the U.K. Immigration Act and the various implications of that Act as they apply to India have been studied by the Government and if so what are their repercussions?

Shrimati Lakshmi Menon: It has been studied by the Government at all stages; when the suggestion was made, when the Bill was introduced and at the last stage, it was studied. The Government's reactions were explained to the House on various occasions when questions were asked on this Bill.

Shri Hari Vishnu Kamath: In connection with this matter, is it not a fact that the Prime Minister, some time ago, in a mood of righteous indignation, expressed himself very strongly against any emigration of Indian citizens to the U.K. and if so, does the Government propose to impose any curbs on the emigration of Indians to the U.K. except for those who have got previous letter of employment or appointment in that country?

Mr. Speaker: These are the provisions of the law itself.

Shri Hari Vishnu Kamath: The Prime Minister said, I believe three or four months back that he is strongly against any migration of Indians to the U.K.

Mr. Speaker: What is the question? The question is whether they propose to place any curbs—except in cases where students want to go...

Shri Hari Vishnu Kamath: Not students.

Mr. Speaker:or where employment is offered to them?

Shri Hari Vishnu Kamath: Firm offers of employment. There are many cases of people going without any sort of employment. That is how emigration takes place.

Mr. Speaker: I told the hon. Member that these are the very provisions of the Act that only those who have got firm employment can go.

Shri Hari Vishnu Kamath: Even today, thousands are going with forged passports and other things to the U.K., and then are repatriated from there. How does the Government propose to stop this?

Mr. Speaker: Forged passports is a different affair.

Shri Hem Barua: May I know whether the attention of the Government is drawn to the statement made by our High Commissioner, Shri Chagla, in London to the effect that the Immigration Act is diametrically opposed to the Commonwealth ideals and

if so, may know whether it is going to lead to a further deterioration of the Commonwealth relations?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): We have seen this particular statement in the Press. We have not received it directly. It appears that the Act will certainly have some effect on the Commonwealth. To what extent, it is rather difficult to say.

Shri Sinhasan Singh: May I know whether, if a declared Indian offender Shri Phizo goes to England and he is conferred British citizenship and he comes back to India, he remains a British citizen or he remains an Indian offender?

Mr Speaker: These abstract questions cannot be asked.

Shri Sinhasan Singh: Shri Phizo, an Indian citizen, was declared an offender. He goes to England and there the British Government confers on him British citizenship. If he comes back to India, does he remain a British citizen or does he remain an Indian offender?

Mr. Speaker: These are questions which will have to be studied in detail. These are abstract questions which cannot be answered in this marmer.

Shri Harish Chandra Mathur: If you look at the statement submitted, you will find that it is only in the New Delhi region that there has been a constant rise in the number of applications from month to month. In all the other regions, it is just the other way round. May I know what explains this situation?

Shrimati Lakshmi Menon: Because more people from the Punjab apply for passports from New Delhi, there is a large number.

Mr. Speaker: Next question.

Shri Harish Chandra Mathur: I wanted to know the reasons.

Mr. Speaker: More people from my State, namely Punjab, want to go there

Shri Harish Chandra Mathur: I wanted to know why they want to go? This is no answer to my question, that because more people apply, therefore, the number is more. That is obvious.

Mr. Speaker: Order, order. Now, next question.

Indian Aid to Nepal

- *1128. Shri Bibhuti Mishra: Will the Prime Minister be pleased to state:
- (a) the aid given to Nepal so far from 1952; and
- (b) to what extent Indian aid has been utilised?

The Parliamentary Secretary to the Minister of External Affairs (Shri D. Ering): (a) The total aid promised to Nepal for the period 1952—66 is of the order of Rs. 28.38 crores.

(b) The aid actually utilised amounts to Rs. 12.67 crores.

Mr. Speaker: Have any other amounts been asked for?

भी डा०एरिंगः थर्ड प्लान के बाद पूछ रहे हैं?

Shri Shree Narayan Das: May I know the various agencies through which the aid is being utilised there?

Shrimati Lakshmi Menon: We have got our Aid Mission in Nepal.

Shri Hem Barua: Besides getting aid from India, Nepal is also getting aid from China. May I know whether we can interpret it as Nepal trying to get the best of both the worlds?

Shri Jawaharlal Nehru: Nepal is getting aid from a number of countries including the USA, some from the Soviet Union, apart from the aid that she is getting from China and India.

Shri S. N. Chaturvedi: Has the aid been utilised specifically for the purposes for which it was given?

Shri Jawaharlal Nehru: I believe

News Regarding March of Chinese Troops into Ladakh

Shri S. M. Banerjee:
*1129.
Shri Mohammad Ellas:
Shri Indrajit Gupta:

Will the Prime Minister be pleased to state:

- (a) whether it is a fact that a news item was released by the French News Agency in India on the day of polling in North Bombay constitutency during 1962 General Elections stating that the Chinese troops had marched into Ladakh with Soviet tanks etc.;
- (b) whether this news was also released by Press Trust of India;
- (c) whether this was subsequently withdrawn by the Agency;
- (d) whether the Resident Correspondent of French News Agency in India, New Delhi confirmed this news before release from Government; and
- (e) if not, action taken in the matter?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): (a) Yes, Sir. The Agence France Presse in a report from Gangtok (Sikkim) dated 24th February, 1962, stated that 30 Russian type tanks manufactured in People's China rolled out of Lhasa for an unknown destination. The report further said that it was thought that these tanks were despatched to the Ladakh region.

(b) Yes, Sir. The Press Trust of India, being the distribution agents of Agence France Presse within India, released the item to the Indian Press on their behalf.

- (c) The item was, however, withdrawn by the P.T.I. within an hour of its release as they sensed the patently unreliable nature of the report.
- (d) The story was filed by a correspondent in Gangtok working for the Agence France Presse and was not cleared with the Government before its release.
- (e) When the attention of the Ministry of External Affairs was drawn to the report, the official spokesman, at his press briefing, pointed out the obviously ridiculous nature of the report and said that commonsense would suggest that no tank could undertake a journey of nearly 2000 miles through rugged and difficult terrain without completely wearing itself out. This statement had the desired effect in killing the story. Opportunity was also taken to impress on the Agence France Presse Representative in Delhi the need to check on all such stories with official sources before putting them out.

Shri S. M. Banerjee: I want to know whether Mr. Philip Mazar, the Correspondent in Delhi has once previously been warned for giving false and fabricated news and if so, whether he has been warned this time?

Shrimati Lakshmi Menon: He was warned this time; I do not know whether on a previous occasion he was warned.

Shri S. M. Banerjee: I want to know whether, when the PTI got this news item, they checked it up from the Government sources and if not, why?

Shrimati Lakshmi Menon: I have already stated in the main answer that it was not cleared from the Government.

Shri Hem Barua: In view of the fact that foreign papers such as the New York Times, London Observer and in the present case this news

service, indulge in certain political slants, may I know whether Government will institute a procedure of pre-censorship?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): No, Sir. Government does not like the idea of pre-censorship.

Shri Hem Barua: Because of these political slants which do much damage to the cause of our country.....

Mr. Speaker: He had asked a question and it has been answered.

shri S. M. Banerjee: May I know whether this particular news was released just at the time of elections with a political motive and Government could contradict it only on 25th February, 1962?

Shrimati Lakshmi Menon: We do not know the motives but it was on the eve of the elections.

Labour Situation in Raniganj Coal Fields

↑ Shri Daji:

Shri Daji:

Shri S. M. Banerjee:

*1130.
Shri P. R. Chakraverti:

Shri Hem Barua:

Shri P. C. Borooah:

Will the Minister of Labour and Employment be pleased to state:

- (a) whether Government are aware of the tense and disturbed labour situation in the Raniganj Coal Fields; and
- (b) if so, what steps have been taken to meet the situation?

The Deputy Minister in the Ministry of Labour and Employment and Planning (Shri C. R. Pattabhi Raman):
(a) A few cases of violence have taken place recently in some collieries in Raniganj Coal Fields; the situation in the area in general does not appear to be tense.

(b) A tripartite meeting was convened on May, 5, 1962, wherein it was decided that if the unions and managements do not set right their respective lapses and law and order situation in coal mines does not improve within a period of six months, the Government would appoint a High Power Commission to look into the matter.

Shri Daji: Is the Government aware that even after this tripartite meeting, the mines and coal fields in this area have continued the malpractices for which the meeting was held? What steps are being taken to counteract this?

The Minister of Planning, Labour and Employment (Shri Nanda): This meeting was on May 5th and not a very long time has elapsed since then. In consequence of those decisions certain steps had to be taken; they are being taken. Much has been said about the lapses and the law and order situation but actually when we asked the parties concerned including the trade unions, they did not submit information. Anything which has happened after that certainly could be communicated to us or to the officer who has been appointed to look into this matter.

Shri Daji: The information which the Minister sought for had been communicated by me personally on behalf of the union. Has the Minister looked into those complaints and have any steps been taken?

Shri Nanda: I will check it up. What was the date on which he has given that information?

Shri Daji: A week back I sent it to the Minister.

Shri Nanda: I will check it up.

Shri S. M. Banerjee: I want to know whether it is a fact that the agreement reached and the assurances given at the time of the settlement

of the dispute in the modern Satgram colliery have not yet been implemented by the employers and if so what steps are being taken against these employers?

Shri Nanda: This is part of the decision taken or recommendation adopted at that conference. It refers specifically to the situation in this colliery and it deals with the question which the hon. Member has in his mind.

Shri K. N. Pande: May I know whether the employers and the workers both are responsible for the disturbed condition or the employers only?

Shri Nanda: I could not pre-judge; there is an enquiry going to be made about it.

Shri Prabhat Kar: The hon, Minister has stated that if the law and order situation does not improve within six months, Government is going to institute a high power enquiry committee. The problem is between the labour and the employer. Inspite of taking steps against the employers why is the Government trying to appoint a highpower commission, for what purpose?

Shri Nanda: Whatever steps are needed to be taken, they are being taken and will be taken in the course of the next six months. A special officer, as I said, is being appointed to deal with the situation. Therefore, it is not that nothing is being done because of that declaration. The hope is that it will not be necessary to appoint a Commission.

Jute Mills

- *1131. Shri D. C. Sharma: Will the Minister of Commerce and Industry be pleased to state:
- (a) whether any measures have been taken or are proposed to be taken to modernise jute mills in the country an dincrease exports of jute; and

(b) if so, what are they?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): (a) and (b). A statement is laid on the Table of the House.

STATEMENT

Modernisation of the Jute Industry upto the spinning stage has virtually been completed. For this purpose, the Government sanctioned financial assistance to the mills in the form of loans to the extent of Rs. 7:19 crores through the N.I.D.C. The loan assistance will be continued during the Third Plan period for the modernisation of the post spinning stages. Government propose to allow expansion in the spinning capacity in mills to match the weaving capacity of all looms on one shift basis and also encourage diversification of production by the installation of additional broad looms to step up export of carpet backing cloth. Foreign exchange for importing machinery and broad looms is being released.

Shri D. C. Sharma: May I know when this process of modernisation will be completed?

Shri Manubhai Shah: As far as the spinning section is concerned, the process is already completed. But now we are expanding the jute spinning sector and also modernising the weaving and back processing.

Shri D. C. Sharma: I want to know when it will be complete.

Shri Manubhai Shah: It is already completed as far as the spinning section is concerned.

Shri D. C. Sharma There are three stages. The first stage is complete. The second and third stages are still there. When will all this be completed?

782 (Ai) LSD-2,

Shri Manubhai Shah: There are no three stages as such. As I said, the spinning part is already modernised. The weaving part is being expanded by broad looms and also replacement of the old looms; and the back process in spinning and processing is also being modernised. All this will be completed by the end of the third Plan or perhaps by the fourth year of the third Plan.

Shri D. C. Sharma: It is said there will be diversification of production. May I know the kind of diversification which is aimed at?

Shri Manubhai Shah: The major diversification programme is the lino-leum cloth, rubberised types of backing cloth, plasticisation of the adhesion cloth and broad loom for carpet weaving, which is used extensively in the United States.

Shri Sham Lal Saraf: After all this modernisation is completed, may I know what will be the result or the income with regard to the sales in foreign countries, especially in the light of competition from Pakistan and other countries?

Shri Manubhai Shah: As for the first part of the question, when modernisation and expansion are completed, the industry may yield about Rs. 25 crores to Rs. 30 crores extra by way of foreign exchange. As far as the competition from other countries is concerned, all care is being taken to see that in whatever we are capable of producing we maintain the leadership.

Shri Prabhat Kar: May I know, as a result of modernisation and introduction of this new scheme, how many labourers in the jute mills will be declared surplus?

Shri Manubhai Shah: None.

Shri Heda: The hon, Minister has stated that the present spinning capacity has been modernised and he has referred to expansion also. May I know whether Government have decided upon the expanded capacity and, if so, whether new mills would be located in different States?

Shri Manubhai Shah: There will be vertical expansion. It will not be new units. The existing units will expand their spinning capacity by 15 per cent.

श्री विभूति मिश्र : मैं जानना चाहता हूं कि जूट मिल्स का मौडर्नाइजेशन श्रीर ऐक्स-पैशन हो जाने के बाद जूट ग्रांग्रर्म पर क्या ग्रसर पड़ेगा श्रीर बफर स्टाक हमारी मर-कार कितना बढा देगी ?

श्री मनुभाई शाह : यह तो जूट ग्रोध्यमं की ही तरफ है । उसके दाम ज्यादा से ज्यादा मिलें । मेम्बर साहत्र को पता है । उसकी कोशिश कर रहे हैं । वफर स्टाक एजेंसी ने ५ लाख मन जूट खरीदी है श्रीर सरकार उसमें श्रीर भी मदद करने को तैयार है ।

श्री फ॰ गो॰ सेन: क्या यह बात सही है कि सरकार २ लाख ४पये की जूट बाहर भेज रही है घीर ग्रगर बाहर भेज रही है तो क्यों भेब रही है ?

भो मनुभाई शाह: ऐसी मुश्किलात नहीं भी लेकिन चूकि हम फीरेन एक्सचेंज धर्न करना चाहते हैं भीर चूकि वह हमारे काम नहीं भ्राती थीं इसलिये हमने २ लाख गांठ एक्सपीट करने का निश्चय किया है भीर उसकी इजाजत दे दी है।

Dr. Ranen Sen: Is it a fact that the Indian Jute Mills' Association has already declared that after this modernisation, nearly 60,000 workers will be declared surplus?

Shri Manubhai Shah: No such declaration has come to our notice. But, as the hon. Member knows, there is a working-time agreement which cannot render any workmen surplus.

Administration

Will the Minister of Planning be pleased to state:

- (a) whether Government had requested a former deputy chairman of Planning Commission to study and submit a report on steps to be taken to gear up the administration; and
- (b) if so, whether the report has been submitted?

The Deputy Minister in the Ministry of Labour and Employment (Shri C. R. Pattabhi Raman): (a) and (b). At the request of the Planning Commission, Shri V. T. Krishnamachari is engaged in studying two questions, (a) question relating administrative personnel at different levels in States, and (b) administrative problems arising from the introduction of democratic institutions at the district and block level. Shri Krishnamachari has completed discussions with State Governments. His report is under preparation.

Shri Bhagwat Jha Azad: Has he given any indication by what time he will be able to submit his report?

Shri C. R. Pattabhi Raman: I can only say shortly.

श्री भक्त वर्शन : श्रीमन्, मैं यह जानना चाहता हूं, कि इस समय जो प्रशासन की व्यवस्था है, उसमें कौनसी खास ग्रड्चन ग्राई थी जिसकी वजह में यह ग्रध्ययन कराया जा रहा है।

योजना तथा भम भीर रोजनार मन्त्री (भी नन्दा): यर्ड फ़ाइव यीग्रर प्लान के डाकुमेंट में ही बहुत मी नई बार्ते उसमें दाखिल की गई थीं, जिनके बारे में ज्यादा जांच करने की जरूरत थी। उसका एक हिस्सा उन को घोंगा गया है।

Shri Vidya Charan Shukla: Is it a lact that the Planning Commission made the special request for administrative reform, so that the third Five Year Plan itself could be executed after these reforms have been introduced? May I know if any steps are being taken so that the third Plan could be benefited by the administrative reforms?

Shri C. R. Pattabhi Raman: The question is under consideration now—firstly the question relating to administrative personnel and problems arising out of the introduction of the democratic panchayati raj and other things. Many more appointments have to be made. Many more tehsildars and Deputy Collectors have to be appointed. Many of the officers have to go to various development blocks and get training. All these are part of it.

Mr. Speaker: The question is whether the Planning Commission itself desired that there ought to be some reforms in the administration, so that the execution of the third Plan could go forward more smoothly?

Shri Nanda: Yes, Sir.

Shri Tyagi: This subject is more relevant to the Home Ministry. I wonder if the Home Ministry had been taken into consultation or the Planning Commission has started superseding, the Home Ministry?

Shri Nanda: No, Sir; it was done in consultation with the Home Ministry and the Prime Minister.

Rehabilitation of Tibetan Refugees in Orissa

*1134. Shri Maheswar Naik: Will the Prime Minister be pleased to state:

(a) whether an official of the Central Government visited Orissa to explore the possibilities of rehabilitating the Tibetan refugees there;

- (b) the outcome of his visit;
- (c) how many such refugees are expected to be settled there; and
- (d) whether the original plan for settling the Tibetan refugees at Dharamsala has undergone a change?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): (a) Yes, Sir.

- (b and (c). The Orissa Government are exploring possibilities of rehabilitating some 5000 Tibetan refugees in Ganjam district of Orissa.
- (d) There was no plan to settle Tibetan refugees in Dharamsala.

Shri Maheswar Naik: May I know whether the Government have considered the desirability of rehabilitating the Tibetan refugees in hotten regions and whether it will be convenient for them to settle them in hotter regions?

Shrimati Lakshmi Menon: The matter has been explained. Our Deputy Secretary visited the place and had consultations with the Orissa Government, who have agreed to provide enough land to settle 5,000 Tibetan refugees.

Shri Maheswar Naik: May I know whether the attention of the Minister has been drawn to the news report published today in the Hindustan Times to the effect that Tibetan refugees are sneaking into West Bengal in large numbers, whether it is a fact and what action is being taken?

Shrimati Lakshmi Menon: I have seen the report, but I do not know anything more about it.

Shri Hari Vishnu Kamath: Has the Dalai Lama, in his capacity as the former head of the Tibetan State made any substantial contribution towards the cost of rehabilitation of Tibetan refugees in India and if so, how much he has contributed appro-

ximately or at least what proportion does his contribution bear to the total cost of the rehabilitation of the Tibetan refugees in India?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): The Dalai Lama has contributed to some extent to the rehabilitation of the Tibetan children and in Dharamsala or wherever he is the present moment, a large number of children are accumulated. In fact, they are thinking of opening a children's village to some extent after the lines of the famous children's village in Switzerland-Pestalozzi. could not possibly say what proportion his contribution bears to the total cost: I should imagine that the proportion is relatively a small one.

श्री भक्त दर्शन: श्रीमन्, क्या महामान्य दलाई लामा अथवा उनके प्रतिनिधियों ने उस स्थान का स्वयं निरीक्षण किया है, ताकि कहीं ऐसा हो कि निब्बती शरणार्थी उसे पसन्द न करें ?

श्री जवाहरलाल नेहरू: जब कोई स्थान चुनने की सिफ़ारिश होती है, तो वहां दलाई लामा जी के कोई न कोई प्रतिनिधि जाते हैं श्रीर देखते हैं श्रीर उनकी सलाह से स्थान चना जाता है।

श्री सरजू पाण्डेय : इस समय तिब्बत के कितने शरणार्थी भारत में मौजूद हैं ग्रीर उन पर भारत सरकार कितना पैसा खर्व कर रही है

श्री जवाहरलाल नेहरू: मैं इस समय तो नहीं बता सकता, लेकिन उनको बताने की पूरी जिम्मेदारी हमारी है। इस सिलसिले में जो कुछ उचित समझा जाता है खर्च किया गया है श्रीर खर्च किया जायगा। जैमा कि श्रभी कहा गया है, उसमें दलाई लामा जी ने खुद ही कुछ सहायता दी है। कुछ श्रीर देशों से ---श्रा ट्रेलिया, न्यूजीलैण्ड श्रीर श्रम-रीका से ---भी हमें सहायता मिली है। Shri P. K. Deo: May I know if the cost of rehabilitation of the 5,000 refugees in my State will be borne by the Government of India, or by the State Government.

Shri Jawaharlal Nehru: By us completely, Sir.

Threat of President of the so called "Azad Kashmir"

*1135. Shri P. C. Borooah:
Shri D. C. Sharma:
Shri Hari Vishnu Kamath:
Shri Bhagwat Jha Azad:

Will the **Prime Minister** be pleased to state:

- (a) whether the attention of Government has been drawn to the reported statement of the President of Pakistan-occupied Kashmir made in an interview with BBC correspondent that his Government had decided to conduct a fight on the Algerian pattern to take over rest of Kashmir; and
- (b) if so, the reaction of Government thereto?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): (a) A report to this effect has been noticed in the Press.

- (b) Any such threat, if it materialises, will be suitably dealt with.
- Shri P. C. Borooah: May I know whether it is a fact that the military build-up on the Pakistan side of the cease-fire line has been strengthened and, if so, to what extent? What steps have he Government taken to tighten the security measures on the Indian side of the cease-fire line?

The Minister of Defence (Shri Krishna Menon): Government have enough resources to meet any emergency that may be reasonably anticipated in that area.

Shri Hari Vishnu Kamath: Considering that such threats have emanated from time to time, has this matter been taken up with the Pakistan Government, either at the Ministerial level or the Secretariat level, or through normal diplomatic channels and, if so, has Pakistan disclaimed any responsibility for the utterances and action of the President of so-called "Azad Kashmir"?

Shri Krishna Menon: When there is any violation of the cease-fire line, there is a procedure in regard to making a protest to the U.N. authorities. If he is making a speech of some kind, and if it is of a serious character, Government makes a protest.

An Hon. Member: The reply is not audible.

Shri Krishna Menon: If it is a threat of some kind, as was made the other day by Shri Zafrulla Khan in the Security Council, we give a suitable answer. If there is any attempt to violate our territory, as the hon. Minister stated before, it will be suitably met.

Shri Hari Vishnu Kamath: My question was different. It was not understood perhaps. Has the Pakistan Government disclaimed all responsibility for the utterances of the President of socalled "Azad Kashmir" in this regard?

Shri Krishna Menon: No, Sir, not so far as I know.

Shri Bhagwat Jha Azad: May I know whether it is not a fact that the head of the so-called "Azad Kashmir" is instigated by Pakistan and, if it is so, if such an attempted threat materialises, will the Government of India take action against against Pakistan also for encouraging "Azad Kashmir" to take that action?

Shri Krishna Menon: I have said that if there is a violation of our territory, from wherever it will come, it will be met to the best of our ability.

Shri S. N. Chaturvedi: Has the Government received information that preparations are being made on the other side of the cease-fire line to give effect to this threat?

Shri Krishna Menon: It goes without saying that Government always receives information from one source or another and deals with it in the appropriate way. At the present moment, we have not received any report saying that they are going to make an inroad into our territory tomorrow morning. But we have to be prepared always for any eventuality.

Shri Sham Lal Saraf: May I know whether the Government is aware that in so called "Azad Kashmir" area a Muslim Conference headed by Choudhari Abbas has been proclaiming that it is going to send its volunteers to this side of the cease-fire line to create trouble?

Shri Krishna Menon: I have said in regard to an armed attack that any kind of such intrusion will be suitably met other intrusion will be dealt with by the Jammu and Kashmir State civil administration. Whatever assistance is required by the defence forces would be given to them according to normal procedures.

Shri D. C. Sharma: Is it a fact that the so-called "Azad Kashmir" President thinks himself to be independent of Pakistan and thinks he is in a position to carry on negotiations with the Government of China?

Mr. Speaker: Should what he thinks about himself be answered by the hon. Minister here? Shri Hem Barua.

Shri Hem Barua: May I know whether the attention of Government is drawn to a statement by the President of the so-called "Azad Kashmir" on the 20th May, where it is said that if

the plebiscite is not held the position reverts to the pre-cease-fire conditions and, if so, whether Government have examined the validity of this argument?

Shri Krishna Menon: He has made many statements of this kind. But we cannot wage war on statement. any action follows we will meet them with reason and discretion.

Shri P. K. Deo: May I know if the landing of the American forces in Thailand has further complicated the explosive situation in Laos or has it been able to stabilise matters?

Shri Dinesh Singh: That is entirely a different matter-the landing of American forces.

Mr. Speaker: It is a matter of opinion also.

Shri Hari Vishnu Kamath: Is there any truth in press reports to the effect that the Chairman of the Control Commission, Mr. Parthasarathy, believe, has found evidence or proof of aggressive and subversive activities of North Viet Nam in the Southern States and if so what is Government's reaction thereto?

Shri Dinesh Singh: It is entirely a different question.

Shri Hari Vishnu Kamath: I said Southern States.

Mr. Speaker: The Question Hour is over.

(b) Does not arise.

WRITTEN ANSWERS TO QUESTIONS

Taxation by States

*1115 Shri Harish Chandra Mathur: Will the Minister of Planning be pleased to state:

- (a) which of the State Governments have raised in full revenues through fresh taxation targeted for them in the Second Five Year Plan; and
- (b) which of them have failed to do so and the shortfall in respect of each?

The Minister of Planning and Labour and Employment (Shri Nanda): (a) and (b). A statement is laid on Table of the House. [See Appendix III, annexure No. 39].

Minimum Wages for Mine Workers

*1120. Shrimati Renu Chakravartty: Will the Minister of Labour and Employment be pleased to state:

- (a) why minimum wages for working in mines other workers than coal mines have not yet fixed, especially for iron ore mines;
- (b) whether it is a fact that he promised to implement this within months at the industrial committee meetings (other than coal mines), held in 1958 and again in 1961;

- (c) the reason for the delay;
- (d) whether INTUC and AITUC have demanded abolition of contract system and improvement of working conditions prevailing in these mines; and
- (e) the progress in the proposal to hold a tripartite enquiry into the manganese industry?

The Minister of Planning and Labour and Employment (Shri Nanda):

(a) The Minimum Wages Act, 1948, is applicable to the mining establishments to a very limited extent, its coverage being confined for the present to mica mines and stone quarries only. As such, the Act is not applicable to other mining establishments.

- (b) Although no such promise was made, it was agreed at the meeting held in April 1961 that work—should be completed expeditiously.
- (c) This question required careful examination of various data.
 - (d) Yes.
- (e) The subject is expected to be discussed at the next meeting of the Industrial Committee on Mines other than Coal.

Sulphur Manufacturing Plant at Amjhore, Bihar

*1148. \int Shri Subodh Hansda: Shri Bibhuti Mishra:

Will the Minister of Commerce and Industry be pleased to state:

- (a) whether any progress has been made in setting up of a sulphur manufacturing plant at Amjhore, Bihar;
 - (b) if so, the nature of progress;
- (c) whether there is any foreign collaboration in this project; and
- (d) if so, the terms of collaboration?

The Minister of Industry in the Ministry of Commerce and Industry (Shri Kanungo): (a) to (d). Based on successful preliminary laboratory tests, some test trials were conducted at the works of Messrs. Orkla Norway with Amjhore Pyrites Ores, for the production of Sulphur therefrom. The Orklas report on these tests have shown a position of uncertainty regarding the suitability of Orkla process for treating Indian Ore.

Efforts are, therefore, being made to find out another commercially suitable process for the manufacture of sulphur from Amjhore pyrites.

- (a) whether the erstwhile proposal for the revision of the U.N. Charter has made any headway:
- (b) whether his attention has been drawn to a statement made by Shri U. Thant, acting U.N. Secretary-General to the effect that revision of the U.N. Charter was the first requisite for strengthening the world organization:
- (c) what is the reaction of Government thereto; and
- (d) whether India proposes to make any specific suggestion to further the cause of revision?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): (a) No. Sir.

- (b) Government have seen press reports of the statement.
- (c) For sometime past, the Government of India have felt that the structure of the United Nations quires changes in some respects. Government have, however, not raised this question because amendment of Charter required unanimity amongst the permanent members of the Security Council and it was desirable to wait till the atmosphere between the Big Powers improved and there were reasonable prospects of getting such unanimity.
 - (d) Not at the present moment.

Jute Buffer Stock Association

- *1153. Shri Indrajit Gupta: Will the Minister of Commerce and Industry be pleased to state:
- (a) whether Government's attention has been drawn to a statement the Chairman, Indian Jute Mills Association on 11th May, 1962 criticising the floor price of Rs. 30|- per maund for raw jute as being "unrealistic";
- (b) whether the Jute Buffer Stock Association has been buying jute for some time past at below-the floorprices; and
- (c) how Government propose to confidence among jute maintain growers in the buffer stock scheme?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): Yes. Sir. Indian Jute Mills Association has been expressing these views for a long time.

- (b) Purchases were made by Buffer Stock Association mainly of low grade jute at the ruling market prices, which has been satisfactory.
- (c) Apart from measures designed to accelerate buffer stock purchases so as to hold the price line, Government have decided to permit export of two

MAY 29, 1962

lakh bales of low quality jute. These steps have resulted in the Assam Bottom price rising up from Rs. 27 per maund to Rs. 29 per maund.

Special Session of the U.N. General Assembly

*1155. Shri Raghunath Singh: Will the Prime Minister be pleased to state

whether it is a fact that some Members of the British Parliament have cabled him to press for convening a special session of U.N. General Assembly?

The Minister of State in the Ministry of External Affairs (Shrimati Lakshmi Menon): Yes, Sir. Sixteen members of the British House of Commons sent a telegram to the Prime Minister on April 26, 1962 suggesting that a special Assembly meeting be held to reflect, as they put it, the world conscience for cessation of all nuclear tests. The Government of India have themselves repeatedly appealed for such cessation, and fully sympathise with the aims of the distinguished Members of the British Parliament. They do not, however, consider that a special session of the General Assembly as suggested would be a useful or practical proposition in the context of current conditions.

Production and Sale of Khadi

•1156. Shri P. R. Chakraverti: Shri Bibhuti Mishra:

Will the Minister of Commerce and Industry be pleased to state:

- (a) how far the Panchayats, Panchayat Samities and Taluka Boards have taken to the production and sale of Khadi;
- (b) the total amount of money realised from the sale through the agency of Panchayats and Panchayat Samities in 1961;
- (c) whether the Panchayat Samities have set up cooperative societies for undertaking this work; and
- (d) the number of such societies formed and the transactions carried out by them?

The Minister of Industry in the Ministry of Commerce and Industry (Shri Kanungo): (a) to (d). Panchayats have been specifically recognised as one of the several agencies

to which funds may be given by the Khadi and Village Industries Com mission. So far as its programme of integrated development (Naya Morh) is concerned, the Commission intends to associate Panchayats and Panchayat Samities with it. In this programme, Panchayats will be the recommending bodies for the organisation of gram ekais, while Panchayat Samaties will be both sponsoring, recommending as well as planning bodies. Panchayats and Panachayat Samities will also assist the Commission and State Boards etc. in organising co-operative societies for the production and/or sale in their respective areas. As the work of organising gram ekais is still in the primary stage, it is too early to indicate, either in quantitative or qualitative terms, the extent of progress achieved in this regard.

The Minister of Industry in the Ministry of Commerce and Industry (Shri Kanungo): (a) As on the 31st March, 1962, the National Small Industries Corporation had accepted applications for 26,036 machines. Of these orders have been placed for 10,851 machines and 6,041 machines have been delivered.

- (b) According to the rules of the Corporation, before they apply for an import licence or place an order, the small scale industrialist has to remit earnest money. This amount of earnest money depends on the total value of application. 10 per cent of the value of the machines is collected in the case of applications upto Rs. 50,000 and 20 per cent. where the value is over Rs. 50,000. Where deliveries are protracted beyond three months, the rates of earnest money are half of what is given above.
- (c) Information is not available. It is considered that the labour involved in the collection of this data will not be commensurate with the results achieved,

Rising Cost of Living

2135. Shri P. R. Chakraverty: Will the Minister of Labour and Employment be pleased to state whether Government propose to make a comprehensive survey to find out how far the real earnings of workers have been affected by the rising costs?

The Minister of Planning and Labour and Employment (Shri Nanda): Indices of both money earnings and real earnings in respect of persons employed in factories and mines covered under the Payment of Wages Act and the Mines Act are already being compiled. No special surveys are necessary.

Printing Industry

2136. Shri A. S. Saigal: Will the Minister of Commerce and Industry

be pleased to state:

- (a) whether it is a fact that the printing industry is facing great difficulty;
- (b) if so, whether it is due to the decision not to entertain applications for the supply of machinery under hire purchase scheme by National Small Industries Corporation:
- (c) whether it is a fact that the printers are not getting the same import facilities as are given to newspaper establishments; and
- (d) if so, what action Government propose to take to remove the difficulty of the printing industry?

The Minister of Industry in the Ministry of Commerce and Industry (Shri Kanungo): (a) and (b). Government have received certain representations against their decision not to allow the National Small Industries Corporation to accept applications for supply of printing machinery on hire purchase. Government, however, do not consider that the printing industry is facing any great difficulties because of this decision.

- (c) Quality printers and newspaper establishments are allowed the same facilities for direct import as 'Actual Users'. To meet the requirements of printers who are not considered to be quality printers, the established importers are allowed a quota.
 - (d) Does not arise.

Spinning Mill at Raichur

2137. Shri Chandriki: Will the Minister of Commerce and Industry be pleased to state:

- (a) whether Mysore State has made any recommendation for grant of a licence for starting a spinning mill at Raichur; and
- (b) if so, whether the required sanction has been given?

The Minister of International Trade in the Ministry of Commerce and In-

- dustry (Shri Manubhai Shah): (a)
 The Mysore Government have recommended for grant of a licence for
 setting up a co-operative spinning
 mill at Raichur.
- (b) No, Sir. Certain clarifications have been sought for from the Mysore Government.

Forward Trading

2138, Shri Yajulk: Will the Minister of Commerce and Industry be pleased to state:

- (a) whether it is a fact that forward trading in foodgrains, oils and other edible commodities results in speculative rise in prices; and
- (b) if s₁, the action Government propose to take to stop such forward trading in the country?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): (a) No, Sir. There is also a ban on forward trading in foodgrains and many other edible commodities.

(b) Does not arise.

Shortage of Water Supply in Delhi

- 2139. Shrimati Savitri Nigam: Will the Minister of Works. Housing and Supply be pleased to state:
- (a) whether the pumping stations in Delhi installed in 1939 have broken down or are otherwise inadequate with the result that there is acute shortage of water supply for public and private gardens in Delhi and New Delhi; and
- (b) what action Government propose to take to provide sufficient water to these gardens so that flora of the city is not destroyed thus damaging the beauty of the Capital?

The Minister of Works, Housing and Supply (Shri Mehr Chand Khanna): (a) and (b). The pumping stations in Delhi have not broken

down. The shortage of unfiltered water supply in Delhi and New Delhi is due to change in the course of the river which has moved away towards the eastern bank. Consequent upon this change, there is shortage of water every year during summer months on the western bank to feed the irrigation pumps. Constant dredging which is now being done in the intake channel has improved the position of supply of unfiltered water. This is, however, a temporary expedient and the question of finding a permanent solution to this problem is under the consideration of Government.

Attack by Hostile Nagas

2140. Shri P. C. Borooah: Will the Prime Minister be pleased to state:

- (a) whether it is a fact that an armed gang of 150 hostile Nagas attacked the village of Nachangjal in N. C. Hills on or about 26th April, 1962 and kidnapped two forest guards;
- (b) if so, what casualties, if any, were involved in the incident; and
- (c) what action has been taken to secure the release of the forest guards?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): (a) On 26th April, 1962 a party of Naga hostiles raided Nachangjal village in Cachar District of Assam and kidnapped 2 villagers. The kidnapped persons were not forest guards.

(b) and (c). The two kidnapped persons were released by the hostiles on 29th April, 1962 prior to the party's escape into Pakistan. A hostile who took part in the raid has been taken into custody.

Haj Pilgrims from Kerala

2141. Shri Koya: Will the Prime Minister be pleased to state:

(a) the number of Haj pilgrims proceeding from Kerala each year during the last five years;

- (b) the number of Moallims allowed to them in Mecca;
- (c) whether Government are aware of the fact that Kerala Hajis are put to much difficulties and hardships due to the monopoly of Moallims; and
- (d) if so, the steps Government propose to take in the matter?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nebru): (a)

1057	326
19; 8	1227
1659	1504
IONO	1224
1951	1705

- (b) Two.
- (c) and (d). No complaint has been received in the recent past regarding difficulties experienced by Kerala Hajis due to the monopoly of Moallims. The Government of India are, however, aware that there is a general feeling among Indian pilgrims that they should be left free to select their own Moallims in Saudi Arabia. The question of having the monopoly system of Moallims changed is being pursued.

Indo-British Collaboration for Tea Marketing

- 2142. Dr. Ranen Sen: Will the Minister of Commerce and Industry be pleased to state:
- (a) whether Government have allowed the formation of an Indo-British collaboration for tea marketing business;
- (b) if so, the names of the collaborating Indian and British firms;
- (c) the reasons for allowing foreign capital to operate for a marketing business:
- (d) whether the said firm has approached Government for financial help;

- (e) whether Government are considering to give financial help in the shape of loan etc. to the said firm; and
- (f) if so, the conditions which cover the interests of the British counterpart of the collaboration?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): (a) Yes, Sir, for setting up a packaging company has incidentally, been allowed only 49 per cent. of the issued equity capital.

- (b) Messrs. Tata Industries Private Limited Bombay and Messrs James Finlay and Co., Ltd., Calcutta, a company incorporated in the U.K.
- (c) The collaboration arrangement was approved in order to help arrest sale of adulterated teas for internal consumption and also to earn additional foreign exchange by the export of more packet teas. The foreign Company has incidentally, been allowed only 49 per cent. of the issued equity capital.
 - (d) and (e). No, Sir.
 - (f) Does not arise.

Hostile Nagas

2143. Shri Hem Barua: Will the Prime Minister be pleased to state:

- (a) whether it is a fact that Naga hostiles of late have established contacts with the Chinese through the help of Burmese Communist rebels; and
- (b) if so, the nature of these contacts and the measures taken to counteract them?

The Prime Minister and Minister of External Affairs and Minister of Atomic Energy (Shri Jawaharlal Nehru): (a) The Government have no such information.

(b) Does not arise.

 - (b) if so, the reasons therefor;
- (c) whether there is any increase in work-load at Calicut Divisional Office due to the closing down of the Office at Kottayam; and
 - (d) how many of the staff at Kotta-

yam will be retrenched consequent on the closing down of the Office there?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): (a) to (d). The information is being collected and will be laid on the Table of the House in due course.

Foreign Tours by Officials of Coffee Board

- 2147. Shri Maniyangadan: Will the Minister of Commerce and Industry be pleased to state:
- (a) the amount spent in the last two years on foreign tours by the officials of the Coffee Board;
- (b) results achieved by the foreign tours;
- (c) whether the work done by these officers in foreign countries could not have been done by the trade attaches of the Indian Embassies; and
- (d) the countries toured by these officers?

The Minister of International Trade in the Ministry of Commerce and Industry (Shri Manubhai Shah): (a) Rs. 19,798.88.

(b) to (d). Two delegations officials of the Coffee Board, visited foreign countries in the last two years. In one the Director of Research, Coffee Board was deputed to attend the First Technical Meeting on Coffee Production and Processing, convened by the F.A.O. in October, 1960, at Abidjan, Ivory Coast, West Africa, which was attended by technical experts from all over the world. conference discussed several technical aspects of coffee production, like plant breeding plant nutrition, processing etc. and afforded an excellent opportunity for the Research Department of the Coffee Board to gain first-hand knowledge of modern methods adopted in more advanced coffee producing regions of the world in tackling various problems that face the coffee industry with a view to adopting such

methods to the extent possible in our own.

The second delegation, consisting of the Chairman and the Chief Coffee Marketing Officer of the Coffee Board, toured England, Holland, West Germany, France, Switzerland, and Italy in October, 1961 to study the market conditions in these countries, explore ways and means of stepping up our coffee exports etc., explain the Board's marketing policy to the important coffee trade interests abroad and clear certain misunderstandings. siderable measure of success was achieved in the realisation of these objectives.

The purposes for which the two delegations were sent abroad were such that substantial results could not have been achieved except by on-thespot discussions and personal contacts in the respective countries by the officials of the Coffee Board concerned who had full knowledge of the subject and could speak with finality on the issues arising.

RE. PROCEDURE

Shri U. M. Trivedi (Mandsaur): Mr. Speaker, Sir, I had asked your leave for raising . . .

Mr. Speaker: I have so many times requested hon, they have any grievance against me, they can come and settle it with me in the chamber. They should discuss the matter with me and then raise it in the House. I hope that convention, healthy as it is, would be developed here. We shall now take up the Adjournment Motion.

MOTION FOR ADJOURNMENT

STATEMENT MADE BY INDIAN AMBASSA-DOR TO U.S.A. REG. INDIA'S DEFENCE FORCES

Mr. Speaker: I had received notice of an Adjournment Motion by Shri H. N. Mukerjee, Shri Prabhat Kar, Dr. Ranen Sen and Shri Warior regarding the statement made by Shri B. K. Nohru, Indian Ambassador to the USA regarding India's defence forces. That was held over on the 25th May, because Government had not full facts in their possession at that time. May I know whether the facts have been received and they are now available?

The Prime Minister and Minister of External Affairs and Minister of Atomic Eenergy (Shri Jawaharlal Nehru): Sir. first of all may I express my deep regret that due to my absence some inconvenience was caused to you and to the House when this matter was first brought up. As a matter of fact, even if I had been present then, all I could have said was that we should get the full transcript of the television interview that was given by our Ambassador, because that is the real fact to be considered.

Immediately we did send a telegram to our Ambassador asking for the full transcript and also exactly he said. He sent a reply which did clear up some matters. He said he was sending the transcript. We thought we may better wait for his transcript instead of taking bits of it. This transcript apparently arrived in the evening of day before yesterday or yestereday morning. I was not here. I understand it was here yesterday morning. And with a little, perhaps, difficulty it might have been placed before the House yesterday morning-it takes some time to make copies of it and all that. As I am informed, a copy of it was sent to you, Sir, yesterday afternoon. And now I am placing a copy of the transcript of the interview on the Table of the House. [See Appendix III annsure No. 48].

I need not say much about it at this stage anyway, because it is for you and for the House to judge from the actual transcript. But I should I just give a brief summary of it because hon. Members have not had the time to read it yet.

The Programme Moderator as he is called, who is in charge of the television interview referred, to begin with, to the Senate Foreign Relations Committee's cut of 90 million dollars from the Administration's request for 815 million dollars for aid to India. In this connection he wanted to know what the effect of this was on our Government; and he pointed out that the principal question to be considered by this television interview, the central issue, was whether the United States should or should not try influence the foreign policy of recipient countries through the money they give them. And our Ambassador was asked as to how his Government felt about this cut. Our Ambassador said that he had not had any reactions from his Government, but he supposed that his Government would feel badly about it because it would somewhat affect our development programme.

Then some reference was made, in this and the questions to the proposed purchase of M.I.Gs from the Soviet Union and how that would be paid for, and how it would save foreign exchange. To this our Ambassador replied that the Indian defence forces were badly equipped, they did not have the latest equipment and have not been able to equip them because of shortage of money. He referred to the threats from Pakistan and also to the more fundamental question of our border with China; we had to defend ourselves against both, and in order to do so we seek to buy wherever we can do it to our advantage, wherever it is the best and cheapest method, and specially when it does not affect our foreign exchange situation. And we try always to link this with the programme for the manufacture of equipment in India.

[Shri Jawaharlal Nehru]

Also, it has to come in time—the question of time is important. Any trading with the Soviet Union, presumably, would be in terms of rupees and would not involve foreign exchange. The Indian goods sent to them would not be in terms of foreign exchange abroad.

The Correspondent then, questioning our Ambassador, said something about India making the best of both worlds. Our Ambassador replied that this was not so; all the aid that we got from the West and the East was less per capita on the combined basis from both sides than what the American allies have got from one source only.

Reference was then made by the correspondent to the strong feeling on the part of Members of the Foreign Relations Committee of the that the attitude of our Defence Minister had probably influenced the cut. Our Ambassador replied that it was difficult for him to answer this question. He knew that our Defence Minister was not popular with the Senate Committee and the Senate Committee was therefore displeased with us. But this had nothing to do with our policies in the United Nations. He then referred to Indian forces in the Congo but which the Congo situation would have worsened much more. The Correspondent then referred to the case of Goa. The Ambassador replied that Goa was a matter of national policy. The Correspondent then asked if this cut by the Committee would influence any change in Indian policy. The Ambassador replied that he could not think this was the proper way of looking at it and foreign aid should not be used to influence Indian policy and this would mean expecting the country to sell itself to the highest bidder.

Briefly, this is the substance of the interview which hon. Members and you, Sir, will read or have read. The main question, as I said right at the beginning was, how far the United States should try to influence the

foreign policy of the country to whom it gives aid. To this, the Ambassador replied that this would be highly improper and in any event, India did not function in this way. He made it perfectly clear that India would make her purchases all over the world and decide what was best for her and this would not mean any change in her policy.

It should be remembered that this interview was in answer to ad hoc questions. The American way these television interviews is rather odd from that which we are used to here. The questioner often puts words into the mouth of the persons interviewed. But, in so far as the policy question was concerned, it was made clear, and I wish to make it perfectly clear, it is obvious that we do not seek any aid from anywhere with strings attached or conditions attached. May be that we may be hard pressed for help. But, no pressure because of local conditions or others will induce us to change our policy in that respect.

In defence, of course, it is obvious that we should like to increase our capacity to manufacture defence equipment. But, we have often said that this does not mean that we are weak today. It is all a relative question of aircraft or other things, equipment. But, whatever our position may be, we propose to defend our country, I think, adequately whatever happens and from source the danger might come. It is obvious we want to have equipment and that is the why we have approached various countries for this equipment and more particularly to manufacture it here.

That is all I wish to give as brief summary.

Shri Hari Vishnu Kamath (Hoshangabad): On a point of clarification, Sir . . .

Several Hon. Members rose-

Mr. Speaker: Order, order. The only point that is definite before the

motion.

House so far as this adjournment motion is concerned is that sentence, despite impressions to the contrary; our defence forces are not sufficient to safeguard our country. That is the only sentence so far as this adjournment motion is concerned. We are not at present concerned with the other parts of the statement because this is the definite matter that is brought before us in the adjournment

Shri Tyagi (Dehra Dun): It is not defence forces; it was about equipment.

Mr. Speaker: Order, order.

Shri Jawaharlal Nehru: The actual words were:

"... defence forces inspite of impressions to the contrary are certainly insufficient for protection and security of country because they are badly equipped."

This is what he said. I am not very happy about what he said there. Even what he said, I am not happy. But, it is clear that he was laying stress on the equipment and our desire to improve it.

Shri Hari Vishnu Kamath: On a point of clarification,

Shri H. N. Mukerjee (Calcutta Central) The Prime Minister has not only by implication but very clearly admitted that it was not very happily put. And actually, if we read the whole transcript, which I am sure we would have the opportunity to do, then we shall find what the tenor of the interview was like.

I do not wish to discuss the merits, because you have not permitted us to do so as yet, but I do feel that since this matter has been bruited about and circulated all over the world, and from what the Prime Minister says, essentially and substantially there is hardly any difference between what the transcript says and what the PTI

reports, I do feel that your consent should be forthcoming, and if the House permits, we can have a discussion of this matter.

Public

Mr. Speaker: Then, I shall ask the hon. Member to ask for the leave of the House.

Shri H. N. Mukerjee: If there is no objection, I suppose....

Mr. Speaker: The hon. Member must move the motion first, and ask for the leave of the House under rule 60.

Shri H. N. Mukerjee: I beg leave of the House to move my adjornment motion.

Shri Tyagi: I oppose this.

Mr. Speaker: Has the hon. Member leave of the House? I shall ask those hon. Members who are in favour of leave being granted to rise in their seats—

I find that only 45 Members have risen in their seats. As the requisite number under rule 60 is not there, leave is not granted.

Shri H. N. Mukerjee: In view of the attitude of the ruling party and some of its allies and their decision to withhold discussion on a matter of this description, I feel as a protest against this kind of procedure that we should walk out of the House.

12.15½ hrs.

[Shri H. N. Mukerjee and some other hon. Members then left the House.]

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

STATEMENT MADE BY INDIAN AMBA-SSADOR TO U.S.A. ABOUT INDIA'S DEFENCE FORCES

Shri Harl Vishnu Kamath (Hoshangabad): Under rule 197, may I call the attention of the Prima Minister to the following matter of urgent public importance and request

7494

[Shri Hari Vishnu Kamath] that he may make a statement thereon:

"The statement reportedly made by the Indian Ambassador to the United States of America in the course of a television interview that 'Indian defence forces are, in fact, totally insufficient.."

—it was reported as 'totally' but the actual word used seems to be 'certainly'; so, there is a slight difference there—

...for the protection and security of India.".

, Mr. Speaker: The actual words that have been used have come before the House now. These words had not been correctly reported in the press. Has the hon. Prime Minister anything to say?

The Prime Minister and Minister of External Affairs and Atomic Energy (Shri Jawaharlal Nehru): I have read it out earlier. I shall read it out again. The words were:

"Indian defence forces, in spite of impressions to contrary, are certainly insufficient for protection and security of country because they are badly equipped. We have never been able to equip them properly because we have been short of money. Now, India is a large country . . ."

These were the words.

Shri Hari Vishnu Kamath: On a point of clarification. Apart from whether what the Ambassador is reported to have said in New York represents the true state of affairs or not with regard to our defence forces, is it not a fact that certain norms or rules of propriety in utterance and action have been set for our diplomats as for all diplomats the world over, and the Prime Minister himself has stated in the House often in the past that our Ambassadors and diplomats should be seen more and heard less? If so, may I know whether in this particular case, the Ambassador has not over-stepped the bounds of propriety so set by Government for our Ambassadors and diplomats?

Mr. Speaker: The Prime Minister has already answered it. he has said that he is not very happy with that statement.

Shri Hari Vishnu Kamath: That is hardly the answer to my question. He has to answer this particular question whether norms and rules have been set, and whether the Ambassador has overstepped the bounds of propriety or not?

Shri Jawaharlal Nehru: About this particular statement, I accept that I am not happy at it. Certainly, I would not have said so; if I could not have said so, I do not like anyone else on our behalf to say so. But the hon. Member is right that in America a practice has grown; it is a local practice; and some ambassadors have adapted themselves to this practice. They say much more than in any other country in the world. They give television interviews. We do not television interviews here. There, television interview is a well established thing. When one goes in for television interviews and Press interviews all the time the chances are that sometimes one goes beyond the limit. That has happened. There are several things in this matter which I would have wished to express differently. Very often leading questions are put to catch a person and words are put which are supposed to come from the person questioned . . . (Interruptions.)

Shri Hem Barua (Gauhati): Times should avoid such interviews.

Mr. Speaker: Order. order. Shri Hem Barua may put one question.

Shri Hem Barua (Gauhati): Times without number, our Prime Minister has been saying, very rightly, that we are capable of defending our frontiers but here comes an ambassador who makes a statement that goes counter to our national policy . . . (Interruptions.) I do not say that he

is to be removed in midstream but I want to know whether the Government are ready to administer an admonition to him, if not to recall him?

Mr. Speaker: That could not be replied at this time. Has Shri D. C. Sharma got any question?

Shri D. C. Sharma (Gurdaspur) No, Sir.

REMARKS MADE BY INDIAN AMBASSADOR TO U.S.A. ABOUT MINISTER OF DEFENCE

Mr. Speaker: There is a calling attention notice by Shri Bhagwat Jha Azad.

Shri Bhagwat Jha Azad (Bhagalpur): Sir, under rule 197, I beg to call the attention of the Prime Minister to the following matter of urgent public importance and I request that he may make a statement thereon:

"The following remarks made by Shri B.K. Nehru, Indian Ambassador in USA about the Minister of Defence"

I am quoting:

"Mr. Menon is not popular in this country and that many things he does and in fact the manner in which he often speaks at the United Nations irritates the American people. We are aware of that and I suppose that is one of the reasons for the Senate Committee being trifle displeased with us."

Mr. Speaker: It has been read out. Does he want to put any particular question?

Shri Bhagwat Jha Azad: From what has been said, it is clear that the made this statement. I would like to know whether there is any rule which prohibits our ambassador or any officer, however highplaced he may, expressing such views and casting such aspersions against a member of our Government. If there is such rule, what action is going to be taken against him?

Mr. Speaker: Probably this mistake is due to the fact that the hon. Mem-

ber has not yet read the statement laid by the hon. Prime Minister. The hon. Prime Minister may again give the context to the hon. Member.

Importance

7496

Shri Tyagi (Dehra Dun): It is totally indiscreet.

Shri Jawaharlal Nehru: I shall read out the context; certainly it depends upon the question. The question put was:

"In announcing cut Fulbright said this that there was strong feeling among members on Committee that attitude of Krishna Menon who is India's Defence Minister especially his un-cooperative attitude in United Nations and otherwise perhaps influenced cut. Now do you think that this is true and do you think that Committee by this action will induce Krishna Menon to change his ways?"

Now, that was the question. The answer of the Ambassador was:

"You know that is very difficult question to answer. You ask me as Indian Ambassador—I know very well that Krishna Menon is not popular in this counttry and manner in which he often speaks at United Nations irritates American people. Yes, we are aware of that. And I suppose this is one of reasons for Senate Committee being trifle displeased with us. But as regard our policies in United Nations I wish people would be little more specific what they complain about . . "

Shri Hari Vishnu Kamath: He should have refused or declined to answer that question.

Shri Jawaharlal Nehru: If this question were put to me, I would have dealt with it differently. I do not wholly like the way he dealt with it. It is not very well to repeat what the question has said about Shri Krishna Menon being popular or not. It is difficult to judge one's popularity.

[Shri Jawaharlal Nehru]
And popularity among what group and what sect? But he was dealing with that question and said that policies were national policies which were pursued and that it was wrong and improper for the American Government to think that they could affect our policies by pressures of this type.

Shri Tyagi: It is very obviously indiscreet of a Government servant to speak about a Minister.

Mr. Speaker: Do the signatories to this notice want to put any questions?

Pandit D. N. Tiwary (Gopalganj): There is no doubt that the statement made by Shri B. K. Nehru was very indiscreet. May I know whether Government is going to take any steps or ask him for his explanation?

Mr. Speaker: That would be for the Government to decide; they cannot disclose it just now.

Shri J. P. Jyotishi (Sagar): Has any Government servant a right to make such a public statement?

Mr. Speaker: That has been answered.

FIRE IN SADAR BAZAR IN DELHI

Dr. L. M. Singhvi (Jodhpur): Sir, under rule 197, I beg to call the att. ntion of the Minister of Home Affairs to the following matter of urgent public importance and I request that he may make a statement thereon:

"Fire in Sadar Bazar area in Delhi on 28-5-1962 which destroyed several houses, shops and goats and rendered a large number of persons homeless."

The Minister of State in the Ministry of Home Affairs (Shri Datar): Sir, there were two fires and I am making a statement in respect of each of them.

At about 2:10 A.M. on the 28th May (on the night of 27th and 28th May) a fire broke out in the huts situated at Idgah Road in Motia Khan, Police Station Saddar Bazar. On receipt of information at the Police Station all the available force was immediately rushed to the spot for rescue work. Fire Brigade which reached the spot immediately took about an hour to bring the fire under control, which was completely extinguished by about 5.30 A.M.

Attention to Matters of

Urgent Public Importance

The exact cause of fire is still under investigation. Since the fire started late in the night no person in the vicinity appears to have noticed as to how and where it started. The fire spread quickly in the affected area as the same consisted of thatched huts. Though there was no loss of human life yet there was considerable damage to property which is estimated about Rs. 72,000 15 shops mostly of Kabaris (dealing in second-hand motor parts), sirkies and chick makers, coal and bhoosa dealers were and affected by fire. Two purely residential and two shop-cum-residential huts were also burnt. Five families residing in these huts lost most their domestic belongings. One enclosure where cattle were being kept also caught fire and as a result 128 sheep kept there were burnt to death.

Relief work is being undertaken in the affected area by various authorities including the Delhi Red Cross and the Home Guards. In order to provide immediate relief to the fire affected families, the District Magistrate has sanctioned a grant of Rs. 25 to each affected family.

Now, I come to the next one. At about 11.08 a.m. on 28th May, 1962, some huts in Nabi Karim graveyard in police station Paharganj caught fire. The fire spread rapidly. 30 thatched residential huts were affected by this fire including 23 huts which were completely burnt and seven which were demolished in order to prevent the spreading of fire. The fimilies living in these huts have been ren-

7500

dered homeless. The Fire Brigade reached the palce of occurrence immediately and it took about one and a half hours to extinguish the fire completely.

No person is reported to have been injured although the loss of property is estimated at about Rs. 16,000.

The cause of fire could not known. Such fires are usually caused in summer months due to slight, negligence on the part of the individuals residing in the area and the spreads fast due to fast wind and heat, particularly when there is some combustible material nearby.

In order to provide immediate relief to the affected families, the District Magistrate, Delhi, has sanctioned an amount of Rs. 500 as gratutious relief. The Delhi Red Cross and other organisations are undertaking relief work in the affected area.

Dr. L. M. Singhvi: What rehabilitation facilities are proposed to be provided to those who have lost their properties and who have been rendered homeless? May I also know whether the Government considers the sanction of Rs. 500 an adequate sanction for the purposes of rehabilitaion of so many people?

Shri Datar: Government have called for an immediate report in this respect and more relief will be provided for, as soon as the exact nature of the fire and the reasons are Rs. 500 is only to start with.

Mr. Speaker: The House will now take up further discussion of the Demands for Grants under the control of the Ministry of Information and Broadcasting. Four hours have already been taken, and there is only one hour left. Shri Prakash Vir Shastri:

श्री प्रकाशवीर शास्त्री (विजनौर): ग्रध्यक्ष महोदय, कल जहां से मैं ने भ्रपने भाषण को क्रारम्भ किया था उस में इस मंत्रालय के भत्रवर्व मन्त्री डा० केसकर के सम्बन्ध में मैंने यह निवेदन किया था कि जो परम्पराए पिछले वर्षों में उन्होंने भ्राकाशवाणी से सम्बन्धित विभागों के लिए डाली थीं उन परम्पराग्रों में किसी प्रकार का कोई परि-वर्तन नहीं म्राना चाहिए उन परम्पराम्री की ग्रीर ग्रधिक प्रोत्साहन मिलना चाहिए । भाज भी मैं उसी से सम्बन्धित दो. तीन भाव-

श्यक बातें कहना चाहता हूं । पहली बात तो यह कि जिस समय हमारा यह देश स्वतन्त्र हम्रा था उस समय इस विभाग को इतना महत्वपूर्ण विभाग समझा गया तत्कालीन गृह मन्त्री सरदार वल्लभ भाई पटेल ने अपने हाथों में इस विभाग को रखा था। सरदार पटेल की स्नाकांक्षा थी कि इस विभाग को ग्रौर भी ग्रधिक परिमार्जित रूप दिया जाय । मेरी तो अपनी इस प्रकार की अभि-लाषा है कि जहां सूचना एवं प्रसारण मन्त्रा-लय सांस्कृतिक दृष्ट से ग्रीर बहुत से कार्य करता है, सूना यह जाता है किइस अधिवेशन के समाप्त होने के पश्चात हमारी कैविनेट में ग्रीर विभागों में कुछ परिवर्तन होने वाला है । मेरा माननीय मन्त्री से इस सम्बन्ध में यह सुझाव है कि सांस्कृतिक कार्य मन्त्रालय का वह भाग जो सांस्कृतिक कार्यों तक सीमित है उसे यदि सुचना एवं प्रसारण मन्त्रालय के साथ जाड़ दिया जाय तो वहत अधिक उप-यक्त होगा । उससे इसमें एक सृब्यवस्थितपन भी स्रा जायगा । फिर प्रश्न यह रह जायगा कि यह साइंटिफिक रिसर्च स्रथवा वैज्ञानिक अनुसन्धान विभाग का क्या हो पर क्योंकि विश्रुद्ध रूप से वह तो शिक्षा मन्त्रालय का एक विषय है इसलिये उस को शिक्षा मन्त्रालय के साथ जोड़ दिया जाय इससे दोनों विभागों में एक व्यवस्थित रूप भी भ्रा जायगा साथ ही उसके विकास का भी ग्रवसर मिलेगा।

दूसरी बात जो मैं कहना चाहता हूं वह भारतीय भाषात्रों को प्रोत्साहन देने के सम्बन्ध मे है । ग्रभी माननीय सूचना एवं प्रसारण मन्त्री डा० गोपाल रेडी ने कुछ दिन पहले एक स्थान पर भाषण देते हुए यह कहा था कि समय की मांग है कि भारतीय भाषात्रों के पत्रों ग्रीर भारतीय भाषात्रों को · र्याप्त प्रोत्साहन मिलना चाहिए । इस सम्बन्ध में मेरा भ्रपना सुझाव इस प्रकार का है कि भारतीय भाषात्रों को प्रोत्साहन देने के सम्बन्ध में पांच स्तर हैं। पहला भारतीय भाषात्रों के

पत्र, दूसरा भारतीय भाषात्रीं के प्रकाशन, तीसरा भारतीय भाषात्रों की फिल्में, चौथा भारतीय भाषात्रों की समाचार-एजेंसियों ग्रौर पांचवां भारतीय भाषाग्रों में काम करने वाले सम्पादक, उप-सम्पादक ग्रादि । भार-तीय भाषात्रों ग्रीर समाचारों को ग्रागे लाने के यह पांच साधन हैं।

जहां तक भारतीय भाषांग्री के पत्रों का सम्बन्ध है यह दुर्भाग्य का विषय है कि अभी तक १४ वर्ष व्यतीत हो जाने के पश्चात भी कोई भी भारतीय भाषा का पत्र इस योग्य नहीं हो पाया है जिसकी कि सब दिष्ट से पूर्ण समा¹चार पत्र कहा जा सके । मैं नहीं कह सकता कि प्रान्तीय स्तर के पत्रों की स्थिति क्या है ? लेकिन दिल्ली चंकि भारत की राज-धानी है और भारत की राजधानी दिल्ली से हिन्दी के दो इस प्रकार के पत्र निकलते हैं---एक हिन्दस्तान ग्रीर दूसरा नवभारत टाइम्स, यदि इन दोनों पत्रों को सम्बद्ध विभाग की स्रोर से पूर्ण सुविधाएं प्रदान हों तो मेरा स्रपना म्रनुमान है कि यह दोनों पत्र पूर्ण विकसित पत्र हो सकेंगे । उसके लिए जो भी व्यावहारिक सुविधाएं हों, वह इस विभाग को देनी चाहियें त्रेकिन देखा यह गया है कि भारतीय भाषात्रों में प्रकाशित होने वाले पत्रों के सम्बन्ध में इस विभाग की जो नीति है वह बहुत किसी हद तक उपेक्षापूर्ण है ।

ग्रभी कुछ दिन पहले मुझे पता चला कि बम्बई से, जो कि महाराष्ट्र की राजधानी है, एक महाराय्ट्र टाइम्स नाम का पत्र निकलने की लगभग पूर्ण व्यवस्था हो गई थी उसके लिए १०४ कर्मचारियों की नियुक्तियां हो चुकी थीं। उस पत्र का एक डमी रूप भी निकलने लगा था था लेकिन विभाग की ग्रोर से पूरी सुविधा न मिलने के कारण उसको भ्रपना कार्यऋम स्थगित वज्ना पड़ा स्रौर १०४ कमचारी जिनकी कि नियुक्तियां हो चुकी थीं उनको फिर से वापिस भेजना पड़ा।

भारतीय भाषात्रों के पत्रों के सम्बन्ध में दूसरी बात जो कठिनाई उत्पन्न करने वाली है वह यह है कि जो कागज इन्हें मिलता है उसके लिये पहले तो प्रेम रिजस्ट्रार के यहां से अनुमित लेनो पड़तों है और फिर बाद में जो दूसरा काममं एण्ड इण्डस्ट्री मिनिस्ट्री का सम्बन्धित विभाग है वहां जाकर उसकी स्वीकृति लेनी पड़ती है। अब इस को दो विभागों से सम्बन्धित न करके एक ही विभाग से यदि इसको सम्बन्धित रखा जाय तो यह अधिक उपयुक्त होंगी।

इसके अतिरिक्त भारतीय भाषात्रों के पत्रकारों के सम्बन्ध में भी देखा यह गया है कि सम्बन्धित विभाग जितना अंग्रेजी के पत्र-कारों को सम्मानित स्थान देते हैं उतना सम्मानित स्थान भारतीय भाषाग्रों के पत्र-कारों को अभी तक प्राप्त नहीं हो सका है। में चाहता हं कि डा० गोपाल रेडडी स्वयं इन वातों के सम्बन्ध में विचार क**ें।** जहां वह भार-तीय भाषात्री को प्रोत्साहन देना चाहते हैं तो उनके पत्रकारों को भी उसी प्रकार का सम्मा-नित स्थान देने के सम्बध में सम्बन्धित विभागों को उन्हें स्रादेश देना चाहिये । स्वर्गीय सरदार पटेल के हाथों में जब यह विभाग था तो उन्होंने उस समय इस के भारतीयकरण के लिये कुछ कार्य किया था। रायटर की समा-चार एजेंसी बर्मा लंका म्रादि देशों के समाचार संग्रह किया करती थी ग्रीर यहां से उनकी लन्दन भेजा करती थी। वह वहां सम्पादित होते थे ग्रीर ग्राडिट होने के बाद तब वह समाचार प्रसारित किये जाते थे । सरदार पटेल ने इस परम्परा तथा प्रवत्ति का विरोध किया और उन्होंने इसके स्थान पर कहा कि टोकियो, हांगकांग भ्रौर पेकिंग भ्रादि के सब समाचार भारतीय माध्यम से सीघे हमें क्यों न प्राप्त हों। सरदार पटेल ने इस पद्धति को श्रच्छा नहीं समझा । उन्होंने कहा कि इस प्रकार की एजेंसी का क्या लाभ है ? क्यों न हम भारतीय स्तर पर एक एजेंसी स्थापित करें जो टोकियो, हांगकांग, बर्मा और लंका

म्रादि सभी स्थानों से समाचार हमारे पास सीधे ग्राये ग्रीर उनको ग्रीडिट करके समाचार पत्रों में दें ? उस के लिये उस समय प्रेस ट्रस्ट म्राफ इण्डिया की स्थापना हुई । मैं यह नहीं कह सकता कि यह समाचार एजेंसी उस कार्य को पूरा करने में कितनी सक्ष्म हो सकी लेकिन मैं एक बात अवस्य कह सकता हं भ्रौर वह यह कि हमारे भारतवर्ष में भी भारतीय भाषाश्रों में समाचार देने वाली = एजेंसियां हैं जिनमें कि हिन्द्स्तान समाचार का विशेष रूप से श्रपना एक स्थान है। यह एजेंसी समाचार प्रसारित करती हैं लेकिन जितना प्रोत्साहन इस समाचार एजेंसी को मिलना चाहिए वह नहीं मिलता है । प्रेस कमीशन ने श्रपनी रिपोर्ट में इसको मेजर एजेंसी बताया है। प्रान्तीय समाचारों को भी यह संग्रह करके उन स्थानों पर पहुंचाती है। भारतीय भाषात्रों को प्रोत्सा-हन देने के लिये जो ऐसी भारतीय भाषाश्रों की समाचार एजेंसियां हैं उन को विशेष रूप से प्रोत्साहन दिया जाना चाहिए।

भारतीय भाषात्रों के वृत्त चित्र के सम्बन्ध में मुझे विशेष बात यह कहनी है कि जो श्रापके यह छोटे छोटे चित्र तैयार होते हैं उनके बारे में पता यह लगा कि पहले इन को इंग्लिश में तैयार किया जाता है फिर उन को ग्रनुवाद कर के हिन्दी में तैयार किया जाता है। श्रव यह सभी जानते हैं कि ग्रंग्रेजी जानने वालों की संख्या इस सारे भारतवर्ष के भ्रन्दर केवल दो प्रतिशत है लेकिन दुर्भाग्य इस बात का है कि हमारी सरकार के जो वत चित्र ग्रीर प्रकाशन होते हैं वह ज्यादातर अंग्रेजी में ही होते हैं। इस रिपोर्ट में बताया गया है कि सन् ६१-६२ में जो प्रकाशन निकले हैं उनमें श्रंग्रेजी के प्रका-शनों की संख्या ७२ है, हिन्दी की ४३, बैंगला की ७, और गजराती की ५ और असमिया भीर दूसरी भाषाम्रों के भी थोड़े थोड़े प्रकाशन निकले हैं। जिस देश में केवल दो प्रतिशतः भंग्रेजी जानने वाले हों वहां भंग्रेजी के प्रकाशनों पर इस प्रकार का भारी व्यय करना यह कहां तक इस देश की परम्पराध्रों के धनुकल

[श्री प्रकाशवीर शास्त्री] हो सकेगा ?

यही बात वृत चित्रों के सम्बन्ध में कही जा सकती है। जो व्यय ग्रंग्रेजी के वृत चित्र तैयार करने में होता है ग्रीर जो व्यय भारतीय भाषाग्रों के वृत चित्र तैयार करने में किया जाता है उस में भी बहुत बड़ा ग्रन्तर है। मैं चाहता हूं कि जब इस मन्त्रालय के खर्च की मांगों की स्वीकृति के लिये सदन में विचार हो रहा है तो इसके उपर विशेष घ्यान देना चाहिए।

एक ग्रन्य बात जो मैं विशेष रूप से कहना चाहता इंवह है भारतीय भाषात्रों के उप-सम्पादकों वेः सम्बन्ध में । गत वर्ष भी जब इस मन्त्रालय की बजट मांगों पर चर्चा चल रही थी तो मैंने इस प्रश्न को उठाया था। मैंने माननीय डा० केसकर को कहा था कि श्राकाश-वाणी में भारतीय भाषात्रों के जो उप-सम्पादक हैं उनकी स्थिति को स्रागे वढाना चाहिये। डा० केसकर ने उस समय यह कहा था, मैं इसके लिये सम्भवतः उनको उतना दोपी नहीं मानंगा जितना उन के विभाग को, जिस विभाग ने कि उनको गलत जानकारी दी। डा० वेसकर ने कहा था कि वह लोग तो एना-उसर्स. ट्रान्सलेटर्स अर्थात् अनुवादक के रूप में नियक्त हुए थे इसलिये उनकी पद बृद्धि के सम्बन्ध में कोई प्रश्न ही उपस्थित नहीं होता। लेकिन स्थिति ऐसी नहीं है कि य० पी० एस० सी० के द्वारा विधिवत् उनकी परीक्षा हुई, जिसमें उत्तीर्ण होने के बाद उनको नियुक्तियां हुई । लेकिन यु० पी एस० सी० जैसी सर्वोच्च ग्रौर निष्पक्ष संस्था की परीक्षा उत्तीर्ण करने श्रीर उसकी स्वीकृति प्राप्त करने के पश्चात् उन को सबसे निचले ग्रेड में डाल दिया गया है ग्रीर यह शर्त लगा दी गई है कि ग्रब उनकी एक विभागीय परीक्षा भौर होगी । क्या वह विभागीय परीक्षा यू० पी॰ एस॰ सी॰ की परीक्षा से नड़ी हो सकती हे ?

श्रध्यक्ष महोदय, मैं श्राप को बताना चाहता हं कि भारतीय उप-सम्पादकों की स्थिति स्राकाशवाणी में क्या है। स्रतारांकित प्रश्न संख्या ४०७ के उत्तर में बताया गया था कि ७००-१२५० रुपए के पहले ग्रेड में कूल मिला कर ७६ उप-सम्पादक हैं, जिनमें से ६६ स्रंग्रेजी के स्रौर १३ समस्त भारतीय भाषात्रों के हैं; दूसरे ग्रेड में, जिसका वेतन-क्रम ४००-६५० रुपए है, कूल ३१ व्यक्ति हैं, जिनमें १८ श्रंग्रेज़ी के हैं श्रीर १३ भारतीय भाषात्रों के; तीसरे ग्रेड में, जिसका वेतन-कम ३५०-५०० रुपए है, कूल मिलाकर १२५ व्यक्ति हैं, जिनमें ७६ भ्रंग्रेजी के भ्रौर ५२ समस्त भारतीय भाषात्रों के हैं ग्रीर चौथे ग्रेड में, जो कि सब से छोटा ग्रेड है ग्रौर जिसका वेतन-ऋम २७०-४८५ रुपए है, १०४ व्यक्ति हैं. जिनमें ११ ग्रंग्रेजी के ग्रौर ६३ समस्त भारतीय भाषात्रों के हैं।

इन म्रांकड़ों से यह प्रतीत होता है कि चौथा ग्रेड उन भारतीय भाषामों के उप-सम्पादकों के लिये ही बनाया गया था । मैं समझता हूं कि भारतीय भाषामों के उप-सम्पादकों को हुगना काम करना पड़ता है, क्योंकि म्रंग्रेजी में समाचार म्रांते हैं, जिनका उन्हें मृत्वाद फिर से श्रपनी भाषा में तैयार करना पड़ता है। पिछ्नवी बार डा० केमकर ने इस स्थिति की फिर से देखने की चर्चा की थी। म्रज डा० गोपाल रेड्डी के हाथों में यह विभाग म्राया है । मैं भ्राचा करता हूं कि वह इस विषय में विचार करके भारतीय भाषामों के उप-सम्पादकों के साथ हो रहे

श्राकाशवाणी के द्वारा प्रसारित होने वाले समाचारों के संबंध में में कुछ शब्द कहना चाहता हूं। वैसे तो भारतीय समाचार पत्रों की भी वह ही स्थिति हो गई है—पराधीनता का श्रभिशाप श्रभो हमारे ऊपर से नहीं गया है श्रीर कहा नहीं जा सकता कि दासता की हीन मनोवृत्ति से कब हम लोगों को मुक्ति मिलेगी जो विदेशी समाचारों को वे जितना महत्व देते हैं, वह स्नानुगतिक दृष्टि से बहुत स्निधिक हैं। दूसरे देशों के समाचार पत्रों की स्थिति इससे विल्कुल भिन्न है। मैं निवेदन करना चाहता हू कि स्नाकाशवाणी के न्यूज बाडकास्ट की स्थिति भी लगभग समाचार पत्रों जैसी है। कभी कभी तो स्नाधा समाचार खुनेटिन विदेशी समाचारों से भरा हुझा रहता है, जबिक दूबरे देशों के ब्राडकास्ट्स में किन्नाई ने एक दो मिनट का नमय विदेशी समाचारों को पढ़ दो मिनट का नमय विदेशी समाचारों को दिया जाता है। मैं चाहता हूँ कि मानवीय मन्त्री जी इस प्रतन पर भी विचार करें।

इस सम्बन्ध में मैंने गत वर्ष भी कहा था कि केवल राजनीतिक समाचारों को ही अधिक महत्व न देकर सामाजिक प्रोर सांस्कृतिक समाचारों को भी महत्व दिया जाना चाटिए ग्रांर उन को समाचार-वेलेटिन में उचित स्थान देना चाटिये। डा० केयकर ने इस बात को स्वांकार भी किया था, लेकिन मेरा ग्राव्मान है कि ग्राभी तक इस सम्बन्ध में कोई दिनेय प्रकार का परिवर्तन नहीं हो पाया है।

विदेश रोजा जिभाग के सम्बन्ध में मन्त्रा-लय का रिपोर्ड में ये अब्द दिये गये हैं, ? "इन प्रसारणों का मून उद्देश्य बाहरी दुनिया के सामने भारत को सच्चा स्वरूप प्रस्तृत करना हैं।" लेकिन देखा यह जाता है कि जब ग्रम-रीका के प्रेजिडेंट आइजनहावर यहां आए, तो विदेश सेवा विभाग ने दूसरे देतों के लिए पांच रीलें ब्राडकास्ट की ग्रीर इसकी तुलना में जब डा० राजेन्द्रप्रमाद बारह माल तक राष्ट्र-पित रह कर पद-मुक्त हुए, तो उनके सम्बन्ध में विदेश सेवा विभाग ने एक भी रील प्रसारित नहीं की । मैं जानना चाहता हूं कि क्या इस विभाग का उद्देश्य भारतीय समाचारीं या भारतीय बनान्तों को प्रोत्माहन देना है या उनकी सर्वथा उपेक्षा करना है । मेरा विद्यास है कि इस विभाग की नीति में परिवर्तन की म्रावश्यकता है।

चिल्ड्रन्ज फिल्म सोसायटी के बार में मैं यह कहना चाहता हूं कि मन्त्रालय की रिपोर्ट में बताया गया है कि जनवरी से मार्च, १६६१ तक की अवधि में २४,००० रुपया और अप्रैल, १६६१ से फरवरी, १६६२ तक की अवधि में ६,५३,७२२ पया इस सोसायटी को अनुदान के रूप में दिया गया। कल इस बात की विशेष रूप से चर्चा की गई थे। कि इस सोसायटी के बार में एस्टोमेट्स कमेटी की रिपोर्ट आंखें खोल देन बाली है कि किएता गोलमाल इस सोसायटी में चल रहा है। मैं चाहता हूं कि मन्त्रालय निराक्ष अधिकारियों के द्वारा इस सम्बन्ध में एस्वायरी कराये, जो कि उच्च-स्तरीय होती चाहिये और उसके पश्चात् इस बारे में उचित निराध्य जीर जसके पश्चात् इस बारे में उचित निराध्य जीर जाये।

श्रव में फिल्म सेंसर वार्ड के बारे में दो शब्द कहना चाहता हूं। जिल्लो दिनों झावार्य विने वा भावे ने, जो कि राजनीतिक स्तर से ऊपर उठ कर देश-निर्माण के लिए कार्य कर रहे है, एक झान्दोलन चलाया था कि गन्दे चिश्रों को चौराहे गर से फाड़ा जाये। पिछ्नती बार सदन के माननीय सदस्य, श्री त्यांगी जी ने भी इस जिभाग की ग्रीर कुल्ल शंड़ा सा संकेत किया था, लेकिन ग्रभी तक उसकी कार्य-प्रणाली में कोई परिचर्तन नहीं हो पाया है। में ग्रापको धनाना चाहना ह कि जो गाँत संसर्व बोर्ड पास करना है, उनमें इस प्रकार के गीन भी होते हैं:

"चांद तारे भी हैं, तन्हाई भी है, तुमने क्या दिल कौ जलाने की कसम खाई है"

ग्रध्यक्ष महोदयः मातीय सदस्य वेगीत यहां पर मुना कर हमे उसी कीचड़ में न ले जापें।

श्री प्रकाशवीर शास्त्री : मैं समाप्त कर रहा हूं।

[श्री प्रकाशवीर शास्त्री]

मैं चाहता हूं कि सेंसर बोर्ड को इस प्रकार कड़ा किया जाये कि देश का नैतिक और चारित्रिक स्तर न गिरने पाए, अन्यथा अगर यह प्रवृत्ति इसी तरह चलती रही, तो मैं सूचना और प्रसारण मन्त्री को चेतावनी के रूप में कहना चाहता हूं कि अभी तो आचार्य विनोवा भावे की और से यह आन्दोलन चला, लेकिन अगर सरकार ने जनता की भावनाओं की इसी तरह ने उपेक्षा को, तो देश भर में एक भयंकर आन्दोलन चलेगा, जिसकी जिस्मेटारी सरकार पर होगों। इसिजये में चाहता हूँ कि इस विषय में कुछ गम्भीरता से निर्णय लिया जाये।

The Minister of Information and Broadcasting (Dr. B. Gopala Reddi): Mr. Speaker, Sir, I am grateful the hon. Members who have participated in the debate. They have offered very useful suggestions with gard to the working of the mass communication media. All told, I must say that our media received support from all sections of the House and hon. Members had a good word to say about them. They want that they must be utilised more effectively in order to bring out our plan publicity on the one side and the integration which we are seeking for on other side, and in the third Plan, all the media must work for the advancement of our prosperity.

Indeed, as I look back on the discussion yesterday and today, there are not many things which were not very friendly to the department. they were all complimentary, I take it, sanctioning these demands with a little commentary and sometimes a suggestion for improvement. There is no hard-hitting criticism against the department under my change. Anyway, the need for improving our mass media is recognised. They have to play a very important part in coming few years of our advancement. We have perhaps to unfold our ideologies and ideas before the people through all the media—the press, the radio, the film, etc., because we will have to utilise them for the benefit of our people.

There are large sections of people who are still illiterate. cannot read newspapers; they can only listen to some talks over the and sometimes see a film and try to get some idea of what is being done in our country. These media can be utilised to improve our technology. Talks about improvement of agriculture or industry can also thought of and the way in which we have to carry on our and agriculture. trade and trv commerce can also be good subject matters for these media. Anyway, without losing our roots in our holy heritage, we have to advance into the new age of technology. We have to remember that our society itself is changing to a large extent. Our approaches and attitudes change and the advent of industrial age is having its impact on the society. So, there is no use saying, we do not want television for the next 15 years. That is not the way of looking at it. When we see that the entire country is moving towards technology, we cannot say we do not want television and even the little unit in Delhi may be closed down and the provision for the television unit in Bombay also may be cut out. After all, for some time it is bound to be an urban amenity, but it does not mean that we should cut it away altogether. We should make a beginning somewhere and try to extend it to our villages also.

We have to be constantly unfolding our ideals to our people and we have to take them also with the spirit of the time. Otherwise, there will be a hiatus between the urban people and the Government on one side and it is not at all desirable. But our media also can prosper and progress only according to our economic advancement. In all the economically advanced countries, these media also are very much advanced. Take the radio licences or

newspaper reading public or cinema theatres. They are all in large numbers in advanced countries. But because we are economically poor, our newspaper reading public also is very limited. The number of radio licences is very limited. The exhibitions are also limited. We are unable to reach a vast majority of people through our media. Therefore, we have to effectively strengthen our media and utilize it to the maximum extent possible to reach the people, because the ideas have to be carried to the people. Whether it be the spoken word, or written word in the press or films, whatever it is, we have to carry them to the people, and thus take them also with us in the march towards prosperity and integration.

As I said, we are still backward. We have only one newspaper for every 86 persons, as against one for every ten persons, as visualized by UNESCO as the minimum standard for developing countries. While they want newspaper for every ten persons, in our own country we have only one for every 86 persons. Then, we have only one radio for every 219 people, as against the minimum standard of one radio for every twenty persons. So, one can imagine what progress we are yet to make in strengthening our media, in making our people mediaminded. We have to take up challenge of the future by utilising them to the maximum extent.

The All India Radio received a good deal of compliment in the general compliments paid to the Ministry. Compliments were paid to AIR for restoring the prestige of classical music and for extending patronage to a number of able poets, musicians and authors. Also, along with other or-ganisations, the All India Radio is working for national integration. I am sure, the All India Radio brought people together either in their conferences and seminars or by their music and spoken word put on the air every day. Naturally, therefore, the All India Radio deserve this congratulation and, I am sure, it will become

a powerful media of bringing people together and in giving them entertainment, education, technology and other fields of industry and agriculture. I want the All India Radio to make rapid progress.

The listening range must also be increased. We are taking all steps in the Third Plan to increase it to 74 per cent. It is now round about 50 or 55 per cent. With the 66 transmitters that we are trying to have in the Third Plan, it will go up to 70 per cent by the end of the Third Plan.

My hon. friend, Shri Kumaran, complained about the Trivandrum station. It is true that it is a weak station. It is only a 5 kw medium-wave station. But very soon we will have a 20 kw station there, which will be powerful enough to be heard all over Kerala. Likewise, even Hyderabad has now only a 5 kw medium wave station. A big State capital like Hyderabad....

Shri Warior (Trichur): Will the transmitter at Trichur also be strengthened?

Mr. Speaker: That does not necessarily follow.

Dr. B. Gopala Reddi: Our whole country is not in the listening range of medium wave stations. Short-wave stations canbe heard perhaps in all parts of India. My hon. friend, Shri Bhakt Darshan, wanted a station in the Himalayan heights.

Shri Bhakt Darshan (Garhwal): In the Himalayan region, not in the Himalayan heights.

Dr. B. Gopala Reddi: All right There is a short-wave station at Lucknow which all those parts can hear. I do not know whether a medium-wave transmitter will be an ideal thing in a hilly region. Anyhow, we shall try to examine it. When the present programme is finished, we will have ample opportunities to review the position and see what could be done.

Shri Bhakt Darshan: That is to say, after the Third Plan?

Demands

Dr. B. Gopala Reddi: Yes, because the programme for the Third Plan has already been decided.

Mr. Speaker: Now the hon. Member will realise that it was not wise on his part to have put that question. Sometimes, interruptions are harmful.

Dr. B. Gopala Reddi: The programme for the Third Plan has already been fixed and there is no scope for any deviation in the programme. Anyway, the All India Radio has brought music to its full stature and film music, tribal music, saral sangeet. Vivid Bharati all these aspects music are put before the public. listening public have generally preciated the music that is being put on the air every day, and we are really happy about it. So, it continue to make good progress, trying to bring all regions together, all communities together, all States together through the medium of music. The melody of music must be the unifying force and not the dividing force. Music has no language and it can be melodius without crossing the frontiers of language.

But when we come to the question of language, perhaps we come to a difficult terrain. Because, we have so many languages in our country, which is very peculiar to All India Radio. We are broadcasting in many languages in India today. BBC does it only in one language but, so lar as our internal services are concerned, we have to do it in SO many languages, so many tribal dialects and languages. All this means huge organisations. Sometimes we cannot pronounce some proper names correctly because we have so many languages from Trivandrum to Kashmir, from Nagaland or NEFA to Gujerat and sometimes it is very difficult or not possible for one single announcer to get all correct pronunciation.

Shri Hem Barua (Gauhati): The other day I was taken aback to hear the name of Shri Phyzo, the Naga rebel leader, pronounced as Phyzo.

Dr. B. Gopala Reddi: We are thank. ful to the hon. Member for giving us the correct pronunciation. We are trying to have a pronunciation unit in the All India Radio. I do not like, for instance, Ghalib being pronounced as Galib or Visweswarayya in some other manner, as these does not add to the credit of the All India Radio. But the difficulty is one announcer has to pronounce some names of Travandrum, some other proper nouns of NEFA and Kashmir. So, he cannot be expected to pronounce all proper names correctly. Of course, we are making constant efforts to improve the pronunciation aspect also. Yet, in spite of that, there are mistakes. we realise that, an our constant endeavour is to improve the pronunciation of proper names.

Then I come to the question of languages, which is a difficult one. Even outside and inside the House we have heard speakers pleading that some sort Hindi which of is understood by all Hindi regions should be introduced. There are others who say that an ideal language has now been attained and should not be weakened and if at all any steps are to be taken, they should be to improve upon it, and we should not deviate from the present path. Three or four speakers have demanded that there should be intelligible Hindi and, yet, there are others who say that the Hindi that is now being adopted is quite all right. Anyhow, that is a big controversy that is going on both inside and outside the House. In this matter we have to take a very broad view. It is our endeavour to see that our broadcasts are understood by as many people as possible. After all, the very purpose of broadcasting is lost, if it is not understood. So, the language should be such that it should be understood by all. It is a matter which has to be gone into very carefully with experts and perhaps a survey of the listening public is necessary. Therefore, I do not want to say anything on that.

But if there is a genuine complaint from the Hindi-speaking area of Western or Eastern UP or Punjab or Bihar that they cannot follow the present language broadcasts, then I think there is a necessity for conducting a survey to see what could be done to make our broadcasts understandable. Otherwise, if large chunks of people do not follow our broadcasts, it is a sheer waste of time and money to continue those broadcasts. So, we have to look into all these things.

When I was a student, and even later when I was in the Congress circles, it was being said that Urdu and Hindi are the same language and the only difference is in the style of expression. I think even the late Pantji and Gandhiji used to say both are the same language with different styles of expression. But I am sorry to say that the policy that is now adopted by the All India Radio is that we have bifurcated them into two categories of Hindi and Urdu. have put them into two different com- \mathbf{w}_{e} partments. are having Hindi broadcasts and Urdu broadcasts, so much so it is no longer the same language. The average man will get the impression that they are perhaps two different languages and they are broadcast separately. I do not know whether it is a correct thing to do, or whether we should bring them together, the interest of integration. in the interest of common understanding. whether we should allow them drift in parallel lines like this.

13 hrs.

An Hon. Member: Gandhiji used to call it Hindustani.

Dr. B. Gopala Reddi: I was present in Madras when that discussion took place.

Mr. Speaker: In the beginning it might perhaps have been one language. Then the writers of Urdu 782 (Ai) LSD—5.

began to draw more profusely from Persian and Arabic and the writers of Hindi used to draw more from Sanskrit. Therefore that division started and a difference was created.

Dr. B. Gopala Reddi: I am aware how it started.

श्री भक्त दर्शन : संविधान में भी तो ये दो अलग अलग भाषायें मानी गई हैं, जैसे कि अन्य भाषाओं उसके अन्दर हैं। उस सूची में "हिन्दुस्तानी" नाम की कोई भाषा नहीं है।

Dr. B. Gapala Reddi: I do not know whether we should make an attempt again to bring them together or allow them to continue in these parallel directions. It is a matter which I want to consider myself and I want the House to tell me and perhaps we will have to consult many people outside, educationists, people interested in communicating ideas to the people, etc., whether they should be allowed to drift separately or to come together.

Anyway I am not quite happy that they have drifted apart. There is absolutely no controversy about the language spoken by Gandhiji, by Sardar Patel, or even the language of Indian films. It is understood. And than anything else it is the language used by our Prime Minister, which Mr. Bhakt Darshan says is not understood by some people. Whether it is understood or not our Prime Minister would have addressed hundreds meetings and millions of people; has imparted a little of his fire and idealism to the people and they have benefited by his words. If that language is not understood, to some of our friends, but thing else is understood, I do not know whether . . .

श्री भक्त बर्शन: मुझे क्षमा करें, मैं मम-झता हूं कि मेरा जो उद्देश्य था उसे मन्त्री महो-दय गलत समझ रहे हैं। मेरा मतलब यह था कि जो श्रहिन्दी भाषी लोग हैं, जैसे बंगला

[श्री भक्त दर्शन]

बाले या तेलगू बाले, उनको उर्दू मिश्रित हिन्दी समझने में कठिनाई होती हैं। मैं इस को सिद्ध करना चाहता था।

Dr. B. Gopala Reddi: This is a kind of argument which I do not appreciate.

Shri M. K. Kumaran (Chirayinkil): There are many people in the Congress who cannot understand the Prime Minister's language.

Dr. B. Gapala Reddi: Hindi broadcasts are meant for Hindi regions and not for Maharashtra or Gujarat. They are primarily meant for the area coveed from Rajasthan to Bihar. The criterion is whether the people of this area understand these broadcasts, and not whether Bengalis or others understand it

I want Hindi broadcasts to be confined to the Hindi regions. I must take into consideration whether the people of Delhi, or the people of U P or Punjab understand the language put out. It is no use saying that Bengalis would be able to understand some other type of Hindi better.

Shri Khadilkar (Khed): When we are trying to evolve Hindi as our national language, the All India Radio is not making an attempt to make it intelligible to the whole of India, if the broadcasts are meant to be confined to Hindi speaking regions. Then you have to adopt a different policy.

Dr. B. Gopala Reddi: You must have some other broadcasts for all-India purposes. These are broadcasts essentially meant for Hindi regions. What is the use of saying that Bengalis would understand it better and Keralites would understand it better if some other type of language were employed. In that case there would be a complaint from a large section of Hindi speaking people themselves.

श्री भक्त दर्शन : क्या कोई शिकायत श्राई है ? हमें तो कोई शिकायत नहीं है ।

Dr. B. Gopala Reddi: We have to make a survey of the matter into it. Ιf and look vou want you can have а language which is understood from Kashmir and Trivandrum to Assam to Saurashtra. That is a different matter. But these broadcasts are mainly meant for the people of the Hindi speaking regions.

We have made Hindi separate; we have made Urdu separate. I do not know whether it is a correct policy.

Shri A. N. Vidyalankar (Hoshiarpur): Do we understand that we are making two forms of Hindi, one for Hindi speaking areas and the other for other areas?

Dr. B. Gopala Reddi: I take it that the Bengali broadcasts are meant for Bengalis and not for Madrassis living in Bengal who are trying to pick up Bengali. Similarly Hindi broadcasts are meant for Hindi regions and whether it is being understood there or not in the main criterion, and not whether it is understood by a Malayalee or an Assamese.

Shri Khadilkar: Do you mean say that the All India Radio is not to play any part so far as the evolution of a national language is concerned? Instead of integrating, you are going to keep them apart. You are following a disintegration policy.

Dr. B. Gopala Reddi: I want the Hindi regions to understand my Hindi broadcasts first, before they are understood by Gujerathis or others.

Shri Sham Lal Saraf (Jammu and Kashmir): The hon. Minister said that Bengali broadcasts are meant for Bengalis and similarly Hindi broadcasts are meant for Hindi speaking regions. If this policy is followed, the all-India purpose of AIR is not served.

Mr. Speaker: He has made it clear.

Shri Hem Barua: By his policy he has reduced Hindi to a regional language.

श्री प्रकाश वीर शास्त्री : ग्रभी ग्रापन कहा कि यह हिन्दी भाषी क्षेत्रों के लिये है। लेकिन जैसी मेरी जानकारी है जो हिन्दी का ब्लेटिन है वह हैदराबाद, बैजवाड़ा, मद्रास, त्रिचर, बंगलौर ग्रौर पारवाड से भी बाडकास्ट हाता है। तो जिस हिन्दी की श्राप हिन्दी भाषी क्षेत्रों के लिये निर्धारित कर रहे हैं, वह जब उन क्षेत्रों से ब्राइकास्ट होगी तो उन स्थानी की जनता ं लिये उस हिन्दी की समझना वया कठिन नहीं होगा ?

Dr. B. Gopala Reddi: After all the point is very clear; whether I use a language which will be understood by the Hindi speaking people or not. I do not know how many people South India or Bengal listen to the Hindi broadcasts. Asfar know, there are not people except perhaps Hindi pracharaks and people like that, who would be listening to the Hindi broadcasts. The average man there is not interested in Hindi bradcasts. I do not mean to suggest that I am going to discontinue that. What is being done will be continued. But I am more anxious that my broadcasts must reach must be understood, by all the Hindi speaking public first before it is understood by Bengal, Assam or South India.

It was alleged that our Hindi broadcasts are not understood by the people in Western UP, Punjab, Kashmir and Delhi. I do not know. So, this is a matter which has to be considered dispassionately. It is no use arguing it out. I am not going to do anything in a hurry or huff. It is a matter which has to be considered deeply. But I was rather pained to hear that the Urdu broadcasts are different and Hindi broadcasts different. If there is a way of bringing them together, I should be very very happy and Gandhiji, Sardar Patel and our Prime Minister will be certainly happy if the languages brought together in the interest of integration, understandability and commonness of our purpose.

I am not saying that I am going to discontinue Hindi broadcasts coming from Hyderabad or Trivandrum I am going to change Hindi and Urdu broadcasts straightway. This is matter which should be looked very carefully, with a view to seeing whether we can arrive at a solution. I am only suggesting that.

As I said, in the films I do not see any controversy at all. Whether it is in Hyderabad or Delhi they see the films, they do not complain about the language. When the question comes of the radio this controversy comes. Therefore, if the films could solve the problem, the radio must also be able to solve it.

Mr. Speaker: In the films there is something else also!

Dr. B. Gopala Reddi: A large number of people in South India, everywhere, are learning Hindi. It is good. It is being made compulsory. It is also made an examination subject. And I know, except perhaps in Madras, everywhere attempts are being made to teach Hndi to people. In this connection, again, I want more Hindi people also to learn some non-Hindi language. And I want people in U. P., Bihar and Rajasthan learn South Indian languages, Gujarati, Marathi, Bengali, Assamese and all these things. As far as All India Radio is concerned we are going to launch upon a programme of making it compulsory somehow for the non-Hindi people to learn Hindi and far as the Hindi people who are working at Madras, Bangalore or Hyderabad are concerned they must be able to learn the local language. For this purpose we may give them a reward. For nine months or fifteen months the man may be kept there, and if he learns the local language, a reward or an incentive in the form of an increment may be given to him. You can make them understand as many languages as possible. It will be useful in the radio, because we have to deal with so many languages. Therefore, we are thinking of giving such incentives and rewards.

[Dr. B. Gopala Reddi]

Shri Hem Barua and other people wanted that this should be made into a Corporation. This question has been before Parliament for a number of years. A number of speakers on previous occasions have also been pleading that it must be made into a Corporation. I suppose at the back their minds they have a feeling Government is interfering in its dayto-day work. If they are interfering, they are doing it for the good of the country, in the matter of music literature or things like that do not think that Government should interfere with the day-to-day administration or dictate the policy.

Shri Hem Barua: Bu' you admit the interference.

Dr. B. Gopala Reddi: Suppose we wanted classical music, is it an interference by Dr. Keskar to re-establish classical music. I do not say that we are using it for any political or party purposes. Sometimes that is alleged. I totally deny that. The idea of a Corporation can certainly be considered, in good time. We are expanding; so many stations have vet to be installed, and a lot of expansion has to be undertaken. When all that is done, perhaps the time will be ripe for considering the question of making it into a Corporation. But just now

Shri Warior: Has it become a profitable concern already?

Dr. B. Gopala Reddi: No, no.

Shri Warior: Then it is not yet time.

Dr. B. Gopala Reddi: We had a loss of Rs. 1.32 lakhs or so. The income of Rs. 22 lakhs from the licence fee is not sufficient to meet the expenditure incurred by the All India Radio. So it will be some time before we can make it a self-paying proposition. When the time comes and when there is a demand and a need, we can make it into a Corporation. We do not stand in the way of its becoming a Corporation, though we do not see

any obvious advantages in making it into a Corporation, or any obvious disadvantages in not making it a Corporation. We do not see any difference at all. Anyhow, if the people want it, it can be made into a Corporation according to the wishes the people, as reflected in Parliament.

Shri Sham Lal Saraf: Sir, on a point of information.

Mr. Speaker: There is no provision in the rules anywhere to raise a point of information!

Shri Sham Lal Saraf: My point is Radio Colombo is popular all over India, and I am told that they are making tons and tons of money. Why are we not in a position to do that?

Mr. Speaker: That has been answered here several time, that we cannot make it a commercial broadcast. That is a commercial radio.

Shri Hem Barua: That is a commercial radio. That is why they are making money.

Dr. B. Gopala Reddi: Anyhow, that point was not raised during the debate. Therefore I am not replying to

Mr. Speaker: Those who did not get an opportunity then are now raising those points!

Dr. B. Gopala Reddi: About staff artistes a good deal was said, that they must be made permanent, that there is no security for them, no security of tenure and things like that. I do sympathise with that plea and that demand that people must have a sense of security. There is no doubt about that. Otherwise they will be just hanging in the balance, and it is not good for them or for the institution; because they do not know whether they will be there in the next month or six months hence, and they will not be able to give their best to the institution. But what happens? These Demands

staff artistes are ad hoc recruits. He may be a tabla man, musician sitar man. They are being recruited irrespective of any qualification age. More than that, they are free to accept outside engagements. Once he becomes a government servant he cannot do all those things. Take a man like Ravi Shanker who is a staff artiste with the All India Radio. He would not like to be a government servant and be confined to the All India Radio all the while. He goes to Bombay, Calcutta and accepts engagements in the Diplomatic Enclave and other places. He works in the All India Radio as staff artiste. Take, again, a man like Bismillah Khan who works in the All India Radio, or a man like Harin Chattopadhyay. Some of them have served for five years in that capacity. I do not know whether all of them would like to become government servants with all the limitations attaching to government servants.

Shri Hem Barua: Every staff artiste is not a Bismillah Khan or a Ravi Shanker. Those people would not like to be called government servants; otherwise they would automatically leave. But there are other staff artistes, a number of them.

Dr. B. Gopala Reddi: "Staff artistes" means that all people are included in this category. And they also get gratuity. The only thing that they do not get is pension. There is no question of age of retirement for them, and no question of qualification. The general qualification is all right, but there is no particular educational qualification of asking them "Have you passed this examination or that?" That kind of thing is not being insisted upon. And there is no question of retirement also. There some advantages and some disadvantages. And the contract is generally for three years. Previously it used to be for one year, it seems. Now it has been made into three years. If you want a greater sense of security for them, we can increase it perhaps to five years.

Shri M. K. Kumaran: Like Members of Parliament.

Dr. B. Gopala Reddi: Is it good? Will it satisfy the House? If it is going to satisfy the House, we can certainly consider making it a contract for five years instead of three years, terminable at three months' notice. That is, he can leave the service after giving three months' notice and the Radio also, if it find that his voice has deteriorated or his throat has gone bad, must be able to terminate his service by giving him three months' notice.

Shri Khadilkar: It is not a question of artistes only but also with respect to people recruited on the News side. Some people are taken on three years' contract, some on monthly contract, some on three-monthly contract. What is the position?

Dr. B. Gopala Reddi: If it is for a special purpose, as for instance in connection with a drama festival, people are recruited for three months and so on. But the ordinary staff artistes are recruited for a period of three years. But for specific purposes in connection with a festival or something, some people may be taken for short periods. A tabla man may be taken.

Shri Khadilkar: Excuse me. I think you have not followed my point. Even on the News side, I know definitely that two or three people, taken by the U.P.S.C., are made permanent all benefits are given to them. But as regards the others, they are taken for three years, four years or five years, and their contracts are renewed after three months. Formerly it was month. But thanks to the offices of some people, this is what is being done. It is a question which affects about a thousand people, not an artist like Bismillah Khan.

Dr. B. Gopala Reddi: We want all of them to become Bismillah Knans.

Shri Hem Barua: The hon. Minister was pleased to say that where an

[Shri Hem Barua]

artiste loses his voice he is out of service and so on. You don't destroy your horse when it becomes unserviceable. You don't have to kick out a person because he loses his voice. There must be some sort of security for them.

Dr. B. Gopala Reddi: We do not recruit these people at the age of twenty-three, twenty-four and so on. We recruit people even when they are fifty-five.

Shri Hem Barua: That does not matter.

Mr. Speaker: Order, order. The hon. Minister should go on. The trouble is that he yields so easily that I cannot help him!

Dr. B. Gopala Reddi: The matter of staff artistes will have to be considered very carefully, and we will certainly see what could be done to give them a longer contract.

With regard to external services also, it is not true that all of them are manned by non-Indians. Out of 13 languages, seven are manned by Indians and only four are manned by foreigners-French, Suvali, Bhasha Indonesia and Tibetan. Chinese being manned by our own man. are trying to send our people abroad and to see that they acquire proficiency in those languages, and we shall see as early as possible that we man these external services with our own people.

13.20 hrs.

[MR. DEPUTY-SPEAKER in the Chair]

The other point that was raised was that concentration of the press power may lead to regimentation of ides. Many hon. Members have spoken on this matter taking the cue from the Press Commission report of 1954. They based their statistics on the 1952 figures. We have been watching whether any serious development has taken place between 1952 and 1961.

We are studing closely the figures of 1961 which have been supplied to us by the Registrar. We do not find a great variance between 1952 and 1961. They themselves said that there is a sort of a tendency towards monopoly and concentration of power and things like that. We are trying to watch it. We are trying to study the figures of 1961. If there is a case we shall see what is to be done. Even the Press Commission did not tell us directly what should be done if you find some monopoly, what powers they should have and things like that. Therefore, we have to study what is being done in Ceylon, in Great Britain, etc. before we can come to any conclusion. It is a very ticklish question, constitutional question whether we can put any impediments in their way of expansion.

Shri Khadilkar: The Press Commission suggested the price page schedule.

Dr. B. Gopala Reddi: I am asked not to yield. We do want that ownership should be diffused and diversity of opinion should also be promoted. We are certainly in sympathy with the demand that there must be adequate choice of new paper for the reading public. They should not be fed by only one paper alone in a particular town. There must be availability of a number of newspapers for them so that they can make a choice. We are studying the changes that have occurred since 1952. My trouble is that they did not indicate any particular method of breaking a monopoly. Any way, if a new Press Commission is appointed, they can go into the question and suggest and ways and means of breaking a monopoly.

Shri Bhakt Darshan: Are you appointing a new Press Commission?

Dr. B. Gopala Reddi: No, no. We are studying the question. A prima facie case must be made out whether any serious proportions have been

reached or whether there is still the status quo of 1952. We are studying the question. We have an open mind in the matter. We shall see what is to be done.

Demands |

In this connection, many people have raised this-Goenkas, Dalmias and Birlas. What happens if a large number of newspapers are owned by a political party"

Shri M. K. Kumaran: That is not a business concern. A political party and a business concern are different. (Interruption).

Dr. B. Gopala Reddi: If a number of papers give the same type of news with the same slant, day in and day out, whether it also constitutes a monopoly or not is a matter which has to be considered carefully. (Interruption).

Mr. Deputy-Speaker: Order, order.

Dr. B. Gopala Reddi: There are 24 papers belonging to one political party. If all of them from Trivandrum to Bengal or Delhi gave the same type of news with the same slant . . .

Shri M. K. Kumaran: Is it the opinion of the Minister that a business concern and a political party are the same? (Interruption).

Mr. Deputy-Speaker: Order, order.

Dr. B. Gopala Reddi: They may have a thousand shareholders. They have 25 papers. Wherther it is a monopoly or not is a matter to be considered. Whether a political party having a large number of papers constitutes a monopoly or not- these are matters to be considered carefully.

Shri Warior: Let not the bureaucrats decide this issue. This is a very important issue. Let not the Press Registrar say this in his report; let him not certify that such and such papers are a monopoly.

Dr. B. Gopala Reddi: He can supply the data.

Dr. Khadilkar: The question is a hypothetical one . . .

Mr. Deputy Speaker: Order order. Mr. Khadikar, you cannot go on like this. He is not yielding to you. Please sit down.

Shri Khadilkar: This is very strange.

Dr. B. Gopala Reddi: Any way, we want the quality of the papers to be improved without much concentration. We have to reach a large section of the people. Still, the newspaper reading public is less than 5 million people. Taking all the Hindi, Hindi, English, all daily newspapers, the reading public is less than 5 million. It is only 45 lakhs out of a total of so many millions. We have to make headway in popularising the papers. Therefore, we have to keep this idea and see whether we ca nimprove the quality of the papers and also the circulation, also without much concentration in the hands of a few people.

The question of giving advertisements to language papers has been raised. We are certainly anxious to support language papers in every possible manner we can, because, ultimately, it is they who have to deliver the goods to the rural people. English knowing people are very limited. They have their position, of course, in the urban areas. In the rural areas, it is the language papers that can reach the people. Our policy in the matter of advertisements is to encourage them to some extent. In recent years, they have come up very well. We want to further strengthen them by giving them advertisements. But, advertisement by itself is not a sort of a gift. It is not a question of a favour that anybody candemand. Therefore, it is no use saying, why not give that paper which has got so much of circulation. There are so many factors to be considered before you can give an advertisement to a particular paper. It is not a question of favour or patronage vested in the hands of the Government. Any way, our policy is to encourage language papers as much as possible. We shall

[Dr. B. Gopala Reddi]

see whether in the matter of giving advertisements we can increase the proportion which they are receiving today.

Lastly, I come to the question of films.

Shri Bhakt Darshan: What about the Press Council?

Dr. B. Gopala Reddi: I am going to have a Press Consultative Committee first. That Consultative Committee will think out the details of the Press Council. It will come, because it has been recommended by the Press Commission and important personalities also want the Press Council. Therefore. we are not standing in the way of the Press Council, First, as a preliminary Step, we will have a Press Consultative Committee. It will work out the details it will lead on the formulation of the Press Council. It is a question of time. First, the Consultative Committee will come.

Coming to films, this year, they are completing 50 years of their useful existence in our country. In they had the first film. In 1962 they are celebrating their Golden Jubilee. The film industry, with all its defects perhaps, has done a good service to our country. Because a number of people get entertainment and number of people are also employed in the industry, in the various theatres. It has given a fillip to our music, songs, and drama. Many literary have joined the films-men who were otherwise not getting a livelihood. It has definitely done some good work. It is not an-mixed evil. Therefore, I pay a compliment to the film industry which is cerebrating its Golden jubilee this year. I wish them well. I also want them to put out good films and not any films that are vulgar. We are all aiming at better quality of pictures, aesthetic, purposeful. I am sure they also will realise the need of the country, the need of our people and see that they serve the cause by putting up nice pictures and not vulgarise our taste or induce people to crime.

Censorship is a ticklish question. Some people say that we are very strict in censorship. Some people say that we are too liberal and we are allowing all sorts of songs, situations on the screen which are not having a salutary effect on the minds of our younger people. These are matters which have been canvassed from time to time on the floor of the House. Some people say that we must be liberal. Sometimes, they say that we must be very strict and we must not allow any vulgar things to go on the screen. We have to take a very considered view in this matter. Censor Board is also taking the necessary precautions in this regard. We do not allow things that are supposed to be vulgar or cheap. In spite that, there are complaints occasionally about some songs, some situations or shots. We would like to go into the question more carefully and see how best we can improve the situation. Recently, Professor Eric Bernard of Columbia University came to India -he is in India-and he is writing a book on Indian Universities in the last 50 years. He came to see me. I asked him about censorship in our country as compared with other countries. He told me that censorship in India is very strict compared with Japan, or European countries or African countries or African countries or any country in the world. That is what the Professor said. Of course we think that it is not so. Therefore, we have to take an overall picture compared with other films also and see what could be done. It is a very ticklish question. The industry is always nervous. They spend an enormous amount of money and suddenly the Censor board cuts a large footage. Therefore, we have to go into this question very carefully.

Shri Hem Barua said about a sort

of pre-censorship of the script. But, I thought about it and I feel that it would not serve any purpose. The script may be as innocent as a lamb, They may provide some situation, they may take some shots which may be very vulgar, cheap. Mere script or spoken word or song will not improve matters. An overall picture of the entire film has to be taken into consideration whether it leads to crime or it is vulgar or it has a salutary effect. That must be considered.

Shri Hem Barua: I said that that would help the industry.

Dr. B. Gopala Reddi: We are trying that. There is also a small Board in Bombay which occasionally looks into the script. But that is no solution to the problem, because the word is not the most important thing.

With regard to the Children's Film Society, there was a good deal of criticism by some hon. Members. We are certainly looking into the matter. The executive council of the Children's Film Society is seized of this complaint, and they themselves have asked for the appointment of three Government servants to look into their organisational set-up and all that, and I hope that very soon, probably within less than a month or so, things will be set right, and everything will go on well with the Children's Film Society, and we shall look into the question as to how it should be organised, what its responsibilty to Government or to the masses should be and so on; we shall see that all these things are laid down properly, and that it is put on a sound basis, so that there would not be any room for any complaints hereafter.

Shri Prakash Vir Shastri: What about the financial enquiry?

Dr. B. Gopala Reddi: That also is being looked into; their accounts and other things are also being looked into.

Then, there is the question of field publicity. During the Third Five

Year Plan, we are trying to improve our field publicity also with regard to the Plan. We are trying to reach a large number of districts. We have only a few units now. That number is not adequate. We are unable to reach many villages. During the Third Plan, we hope to increase the number of units by another 50 per cent, and we shall see what can be done further with regard to these units.

I am very thankful to the hon. Members for the support they have generally given to the Demands of my Ministry. They need not misunderstand me for having raised this controversial issue of language, because nothing will be done in a hurry. The thing has to be looked into carefully, and we want to enlist the co-operation of as many people as possible in regard to this question.

Shri K. R. Gupta (Alwar): What about changing the name 'Akshvani' into 'Vanoli' which was raised by an hon. Member belonging to the DMK Party yesterday?

Dr. B. Gopala Reddi: We shall deal with them separately.

Shri Hari Vishnu Kamath: In Madras itself.

Dr. B. Gopala Reddi: Anyway, I am thankful to the hon. Members for the support they have generally given to the Demands.

Shri Khadilkar: May I seek a clarification? One point has not been answered. There was a judgment of the Supreme Court regarding the pricepage schedule. I raised that point in the course of my speech. After that, nothing has been said. Is the Ministry pursuing the matter further?

Dr. B. Gopala Reddi: The hon. Member may better raise it in the course of the discussion on the Demands for Grants of the Law Ministry. My hon colleague the Law Minister is more competent to deal with it.

Mr. Deputy-Speaker: I shall now put all the cut motions to the vote of the Huose.

All the cut motions were put and negatived.

Mr. Deputy-Speaker: The question is:

"That the respective sums not exceeding the amount; shown in the fourth column of the Order Paper, be granted to the President, to complete the sums necessary to defray the charges that will come in course of payment during the year ending the 1st day of March, 1963, in respect of the heads of Demands entered in the second column thereof against Demands Nos. 63 to 65 and 129 relating to the Ministry of Information and Broadcasting."

The motion was adopted.

[The motions for Demands for grants which were adopted by the Lok Sabha are referred below—Ed.]

DMAND No. 63—MINISTRY OF IN-FORMATION AND BROADCASTING

"That a sum not exceeding Rs. 11,43,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Ministry of Information and Broadcasting'."

DEMAND No. 64—BROADCASTING

"That a sum not exceeding Rs. 4,27,90,000 be granted to the President to complete the sum necessary to defray the charge which will come in course of payment during the year ending the 31st day of March, 1963 in respect of broadcasting."

DEMAND NO. 65—Over Revenue Ex-PENDITURE OF THE MINISTRY OF IN-FORMATION AND BROADCASTING

"That a sum not exceeding Rs. 3,14,51,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Other Revenue Expenditure of the Ministry of Information and Broad casting'."

DEMAND NO. 129—CAPITAL OUTLAY OF THE MINISTRY OF INFORMATION AND BROADCASTING

"That a sum not exceeding Rs. 2.10,00,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March. 1963, in respect of 'Capital Outlay of the Ministry of Information and Broadcasting."

Mr. Deputy-Speaker: The House will now take up the Demand; for Grants under the control of the Ministry of Law. Three hours have been allotted for the discussion of these Demands.

Those hon. Members who are desirous of moving cut motion: may please send chits indicating the numbers of the selected cut motions at the Table within fifteen minutes, and they will be treated as having been moved, subject to their being otherwise in order.

Mr. Deputy Speaker: Motion moved:

DEMAND NO. 73-MINISTRY OF LAW

"That a sum not exceeding Rs. 33,98,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Ministry of Law'."

DEMAND No. 74-ELECTIONS

Mr. Deputy-Speaker: Motion moved:

"That a sum not exceeding Rs. 1,26,23 000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Elections'."

DEMAND No. 75-OTHER REVENUE Ex-PENDITURE OF THE MINISTRY OF LAW

Mr. Deputy-Speaker: Motion moved:

"That a sum not exceeding Rs. 2,43,000 be granted to the President to complete the sum necessary to defray the charge which will come in course of payment during the year ending the 31st day of March, 1963, in respect of Other Revenue Expenditure of the Ministry of Law'."

Shri Warior: It is rather presumptuous on my part as a layman to speak on a subject which is very technical and which is not generally understood by the common people, but I am at the same time glad that according to our Constitution, the law-makers in this House and in the other House are not wholly lawyers; there is a majority of laymen as elected members, who are the real law-givers in this country. Therefore, I think that I can make out a case for those things for which I have a special interest.

The first point that I would like to urge is that it is essential that the administration of law should also be taken over by the Law Ministry. The reason for my suggesting it is this. I sent in a few cut motions relating to the Demands of this Ministry but all of them were transferred to the Ministry of Home Affairs. Then only I looked into the matter and found that however much the Law Ministry

makes liberal laws, there is this danda of the Home Ministry . .

An Hon. Member: Law and order.

Shri Warior: There is only order there; there is no law at times.

Shri K. C. Sharma (Sardhana): The 'danda' is an objectionable word.

Shri Warior: If the word 'danda' is objectionable, then I shall use the word 'shoola', becuase I want to use some word to denote what I feel.

Shri Hari Vishnu Kamath (Hoshangabad): Do not use the danda here.

Shri Warior: However liberally the Ministry makes laws for the country, the Home Ministry sees to it that those liberal provisions are not administered to the best advantage of our people.

In regard to the administration of law, the most important point is that it must not only deter people from acting in certain unlawful ways but it should instil also a sense of respect for law and justice among the general public. We say, for instance, that the judiciary must be independent. the judiciary is independent, then the general public-I am not talking of in dividuals or individual cases-expect certain justice from that big sanctum. But when they find that that justice is not given to them, that there are certain hidden things behind the judiciary, that the all-powerful Home Mnistry not only in the Centre but in the States too, can have a say and rather they employ certain subterfuges to deny the proper dispensation of justice leading to miscarriage of justice, then, naturally, the respect that we expect among the general public for general administration of justice and for law goes away.

I may cite to you instances after instances from the expericence I had in the national movement as well as in the movements when the Congress had taken over the leadership of the

\$Shri Warior]

country, or the administration of the country. In 1937, we as a body of workers, under the State Congress, were hauled up at Alleppey, when we fighting the regime of our esteemed friend who is always heading many of the commissions and committees, especially those appointed by the Law Minister himself-I do not want to mention his name; but, if you like, I can mention his name; it is Dr. C P. Ramaswami Iyer . .

Mr. Deputy-Speaker: The hon. Member need not mention any names.

Shri Warior: When we were hauled up we came very close to the operation of law. Five or seven of us, who were the ring leaders, so to say, were asked to stand in a line, and some friends were brought from somewhere; we did not know them, and they did not know us; and they were coached day in and day out to name the persons and identify the persons from amongst us. But actually, in the sessions court, when the witnesses were put in the box and asked who was who, naturally, they mistook the identity of the different persons. For that not only we were penalised but the witnesses who condescended to the pressure of the police were also beaten. How much respect can any educated man have? How much respect will remain in me when I see that law is operated and administered in this way. If I tell this instance to people, will the people at least the people who have belief in me, have respect for law? Again in 1948, I had the same treatment but that was under our benevolent Congress Government. There also the same thing was repeated under the same police official. The only difference was that at Alleppey he was only an ASP but in 1948 he became the chief of the police force in that State. I do not mention the inhuman tortures we had undergone.

The Minister of Law (Shri A. K. Sen): You mean, before 1948?

Shri Warior: In 1948. In 1937 it was imperialistic treatment and now in 1948 it was alimsaic treatment. were torturned; we were beaten by rods. The signs of beating were on our backs; even then the magistrates could not take cognisance of that and protect our lives. We were marched without a shirt for about 15 miles, the distance from the lock-up to the magistrate court; we were having this procession daily and all the onlookers were all seeing. This beating signs on the back could not come out of asthma; there were reports like that medical jurisprudence dealt with it in such a way. I sencerely believe that if the administration is also transferred to the department of law, there will be a coalition of ideas operation. Our Law Minister is of the Cabinet rank. Why should the Mnistry be a simply drafting committee on law

In modern times the concept of social justice is not stagnant. It is a dynamic and changing thing. former concept of justice was dictated by foreign dominated interests in India. Justice is often marked by a symbol of a balance. If it is like the balance of an ordinary kabadi, I do not know whether it will balance itself properly. In the kabadi's balance however much you may put on a particular side, it will not come down; the balance will not move. It should not be a rotten and rusty balance. Whenever the British interests or the interests of the British subjects were concerned, the interests of the ordinary Indian people will be sacrificed. We have done away with British domination. I do not say that all their laws and procedures should be abolished or that they are all bad. There is need for change; they should be simplified. An ordinary man cannot today go and seek justice in the hands of the highest judiciary. At the most they can go to the sessions court of appeal if it is a magistrate's court on the criminal side or munsif's court on the civil side. I am not taking up court fees now because it comes under the Stamp Act which is administered more by the States and so we have to address the people there. The intention and purpose of justice should not be that a culprit or those who are denied justice go to some place where they may have it; rather justice must go to the people; it must be easily reachable and it must be less costly. People should have the impression that justice is being done to them; otherwise there is no use. Law should be framed to simlify the procedure so that ordinary people can seek it, can seek justice.

When I speak of social justice, I remember something which was written by the agriculture panel of the Planning Commission. I searched for but I could not get it. Whenever land legislations are undertaken, the primary consideration should be of safeguarding the interest of the tenantry. Whenever the question of fixity of tenure comes, subterfuges are employed and the loopholes in the law are employed in order to defeat the purpose of that legislation. For instance, when the tenants at will did not have fixity of tenure, there was agitation and then legislation gave fixity of tenure to the tenants at will but within five or ten years we find that all those tenants who receive this fixity of tenure were brought under the category of share croppers. Thereby the object of the legislation was completely defeated. Perhaps they sold that right but whatever it is they became share croppers. Then the next time the legislation was amended and a new and comprehensive legislation gave fixity of tenure to the share croppers. Now we find that all the share croppers are considered as wage labourers and not share croppers. Whenever social necessities and compulsions make the Government to take legal action in the form of framing of suitable laws, the loopholes in the law are employed in order to defeat the very purpose of that legislation. Such things must be looked into so that the interests of the people will be safeguarded. So also in the

labour lays what justification is there that there should be a deposit of a huge amount on behalf of the labour unions when appeals are filed in the Supreme Court? How can we do that? They know the condition, economic condition of our trade unions. You know how they are moving about without the necesary equipment and without the necessary funds. So, this must be looked into. In a new pattern of society, in a new evolution of our Indian society, the interests of people must have the maximum consideration. That must be the paramount consideration behind any legislation and the law must be changed accordingly.

I now come to the third point, namely, contempt of court. There is the Sanyal Committee which has been appointed. I hope that the Committee will report very soon. This subject has hit up so much dust at one time, before 1960. That aspect also is coming to my mind. Why I give so much importance to it is because, as Dr. Gopal Reddi was just now saying, we are having in our country one newspaper for 86 people. This contempt of court is the main or at least one of the main things which is hanging like the sword of Damocles on the press of India. I myself have had experience of being hauled up several times on this score. It is subjective and objective. That is why I have an added enthusiasm in bringing forward that subject here. I am speaking on criminal side only and not on the civil side. I want to make it very clear because, I have no knowledge of the civil side. Suppose, I publish a report today and after two days the police culprit. I am up the hauled up in the high court or court which has got the jurisdiction, for having committed the crime of contempt of court. But I did not have any knowledge or I could not have any knowledge of the thing.

Shri A. K. Sen: If that is the fact he will be acquitted in no time. If the fact, are as the hon. Member says, he will be acquitted in five minutes.

Shri Warior: I was not acquitted. Not only was I not acquitted had to give the usual apology for it and get scot-free. The point is, if possibility of is any action being taken by the police an incident, you should report it. That is how the lawyers say and the judges also concur with them. They say that the dence is prejuldiced, and there is a chance of justice being miscarried. If the press in India is not given the freedom to report certain things, I can say that the entire executive will sleep on a thousand and one cases of corruption. What are you going to do? When the pressmen expose the e things, the executive is compelled to take certain action. Otherwise, what will be the position? If there is no free press in this country, with all its defects, with all its shortcomings, with all its inherent and historical shortcomings, I would just ask the Ministry of Law as to what will be the position in India. Nobody can report anything especially any incident in which the police is interested.

I have read how this problem had been tackled in Britain. In the United Kingdom this became a very problem, and this was raised by no less a personality than Lord Shawcross. In justice to him it must be said that he first brought this matter in the House of Lords and then he suggested certain remedies. I have with me the report of Lord Shawcross. Lord Shawcross has given a very comprehensive report on this subject, although it is not a voluminous one. He has given the historical reasons which had arisen in his time for contempt of court and how it must be dealt with. He says:

"The need to consider this is particularly urgent because the present state of the law tends particularly to impede free discussion in these newspapers and other organs of public opinion which are most responsible, while

others tend to treat the law of contempt less seriously."

I am all for keeping the dignity of the courts. I am all for the general public to have the utmost respect for the judiciary. I do not say for one moment that that must be impaired. But, at the same time, it is the imperative necessity of our society at present, as it is constituted and as it is developing, that the freedom of the press must be defined in clear and specific terms, For that matter, I hope that the Committee now constituted will take into consideration the major party interested in this, that is, the press, especially the vernacular press

The press in India has a history of its own How many hurdles has it jumped? How many difficulties has it suffered? How much repression, suppression and oppression has it undergone?

Shri P. K. Deo (Kalahandi): The communist press?

Shri Warior: Communist, non-communist and Rajas' press also. The press, especially, the vernacular press, has suffered much from the draconian laws passed by the imperialist government. We are now breathing free air, and if that free air is not given to us,—even now whenever these things are considered, the old ideas still linger on—we do not know whether the law will help us in developing a free press which is an essential adjunct of our democratic set-up.

Shri P. K. Deo: Mr. Deputy-Speaker, Sir, it would not be proper to pass the Demands of this Ministry without making certain observations. So, instead of dilating on several aspects of this Ministry, I would like to pinpoint my observations on certain functions of the Ministry.

In these Demands, I am reminded of the minutes of the conference of Law Ministers which was held at Srinagar sometime in 1960. The Law Ministers from various States had assembled together and decided that it was high time that legal aid was provided to

the poor people. I am very sorry to remark that hardly any step has been taken in that regard. The Government should seriously consider whether it is not high time that they considered this problem in all its aspects. As has been pointed out by the previous speaker, litigation is very expensive and it is only the rich people who can afford to have the luxury of going to the highest level, up to the Supreme Court. So, with all humility, I beg to submit that legal aid should be provided to the poor people at expense of the State. If it is not possible on the part of the State Governments to provide the sum, a 50 cent subsidy should be given by this Ministry to the various State Governments as they have been doing in the case of the uplift of Scheduled Castes and Scheduled Tribes.

About the separation of the judiciary from the executive even though there has been a mandatory provision in the directive principles of the Constitution nothing has been done in that regard so far as my State is concerned. In some of the States have seen that there has been complete separation of the executive from the judiciary. Whatever little has been done in my State was done only during the period of the Coalition Ministry. For all these days this important provision of the Constitution has been kept in cold storage, and only during the period of the Coalition Ministry this was given a trial in five or six districts. I am afraid up till now further step has been taken to extend this provision to the other parts of my State. So, I think it is now high time that direction should go this Ministry to the Orissa Government asking them to go ahead the implementation of the directive principles of the Constitution, that is, separation of the judiciary from the executive, in all the remaining tricts.

14 hrs.

Regarding the appointment of High Court Judges after their retirement, I beg to submit that that practice should come to an end, Our High

Court Judges or Supreme Court Judafter retirement should seck any favour from the Government—from firm, any Τf that be in their would mind. cannot expect that judiciary would be independent in this country. In this connection, I may point out a statement made by the Prime Minister on 27th May in a circular to the various Ministries that retired Government servants should not be appointed in any private employment. That is the proper thing. The same apply to our retired High Court Judges or Supreme Court Judges and they should not seek further employment. If this House considers that their age of retirement should be further hanced or there should be better conditions regarding pension, etc., shall be too glad to provide those amenities to our Judges. But should not retire in any expectation that they would be given further employment like ambassadorial appointments, election tribunals or some such

Article 143 of the Constitution provides that the President may take advice from the Supreme Court in legal matters. But I beg to submit that this provision has not been properly utilised. We pass legislations and even the State Legislatures have got the power to legislate. They pass such volumes of legislation at breakneck speed that whenever it goes to the anvil of the court, it is declared ultra vires and every time we, the legislators, are put to blame. If we meet any members of the Bar or any outsider, we are the subject of criticism such a piece of legislation should not have been passed by a supreme body like the Parliament or the State Legislature. So, before the President gives his assent to any of these Bills he should take the advice of the Suprema Court under article 143 of the Constitution.

In this connection, I beg to submit that whatever legislations are passed in any of the Houses are simply passed by the brute majority of the party in power. Take the case of the Kandu

[Shri P. K. Deo]

Leaves Trade Control Bill, which was passed by the Orissa Assembly the other day, even though it infringes the fundamental rights of the tenants by controlling the trade. I am sure whenever it goes to the court, it will be declared ultra vires as it infringes article 19 of the Constitution. Even then it was passed by the majority of the Assembly. The members of the opposition brought it to the notice of the President that assent should not be given, but still assent was given. I hope it will receive the same fate as any of the legislations which are passed with ulterior motive.

If you scrutinise the Preambles of the various pieces of legislation passed by this House, you will find that nasty sentence excluding Jammu and Kashmir. Up till now I have not understood why Jammu and Kashmir should be excluded from the operaof our various Jammu and Kashmir is an integral part of our country and the operation of all the laws passed by this Parliament should be extended to Jammu and Kashmir and to Goa and other former Portuguese possessions.

Even though the various legislatures have got the right to legislate on substantive law, I do not think there will be any two opinions regarding the operation of the procedural law. The Cr. P. C. was amended in 1956 and the operation of that Code has not been extended to the territory of Jammu and Kashmir.

Regarding the delay in the disposal of cases, I beg to submit with all humility that justice delayed is justice denied. There should be occasional inspection of our High Courts and the Supreme Court by the competent authority and adequate number of Judges should be provided without waiting for formalities.

One interesting aspect of the working of the Ministry of Law is that they have appointed a Hindu Religious Endowments Commission. So far as the purpose and the intention is concerned, it is a good thing that the endowments should be properly spent for the purposes for which they are meant and they should not be utilised as private property of any individual. At the same time, I beg to submit that such scrutiny on the part of Government should not be confined only to the Hindu religious endowments, but it should be extended to Muslim wakfs and other endowments to various churches, etc. I submit that this aspect of the question should be examined by this Ministry.

Regarding the working of adalati panchayats, it is nothing but a farce. I know that in our endeavour for the successful working of the panchayati raj, we have gone to the extent of giving powers to the panchayats of inflicting fines or small sentences for minor offences. But we have come across several instances where they have encroached upon the usual working of the various courts and they have done various unlawful acts. Before an individual is competent to serve as a member of the adalati panchayat, there should some qualification for him for post. So, instead of throwing open the doors of adalati panchayats any voter, there should be some qualification prescribed for a person to become a member of the adalati panchavats.

My remarks regarding this Ministry would not be complete without a reference to the election laws. Everybody in this House will agree with me that it is high time that we had a radical change of the election laws. As pointed out by the Prime Minister and by Shri Tyagi also during the debate on the President's Address, we have learnt so many new values the last elections. The vote-purchasing power of money has been very well proved in the last elections. We have seen how money power and official power were utilised to fulfil the electoral ends of the party

power. This prescription of limit on election expenses is just a farce. Coming from the horse's mouth, I quote a statement of the Chief Minister of our State, who happens to be the P.C.C. Chief there. Immediately after the elections, he came out with a statement that the Congress Party had to spend Rs. 12 lakhs . . .

Shri A. K. Sen: The hon. Member should not say something against a person who is not here to answer it.

Shri P. K. Deo: I am quoting a press statement.

Shri A. K. Sen: For that the proper forum, in my submission, is the Orissa State Assembly.

Shri P. K. Deo: I am it question a public statement, where he said the Congress party alone had to spend a sum of Rs. 12 lakhs in the last general election when there was election only for the Lok Sabha. Since 19 seats were contested, roughly it will come to Rs. 63,000 per seat which the party alone had spent. Then, the individual candidates must have spent something of their own to further their own election prospects. So, in my opinion, this prescription of Rs. 25,000 is nothing but a farce.

Various malpractices were resorted to by the party in power during the elections. Promises like cash donations are very well-known. know very well that where persuasion and temptation failed, threats were held out like starting prosecution for encroachment of land, discontinuance of forest rights, harassment by commercial tax officers etc. People were also told that if they do not vote for the party in power, no development work will be carried out in their area. So, all these things were most shamelessly carried out by the party in power.

782 (Ai) LSD-6.

Last of all, the noting down the number of the ballot paper against the name of the voter in the working copy of the electoral roll in the booth by one of the presiding officers is highly objectionable. That entry makes secret voting a myth. It is an opportunity for the party in power to threaten the voter of future victimisation. So, all these things have to be remedied.

Then, the marking system of voting is an improvement on the previous system. But, at the same time, after the ballot papers are counted, they should be properly preserved. have seen that Shri Dhandekar, who won by 1,500 votes in the counting, had to lose by 500 votes in the recount. This is the state of affairs which we are witnessing now. hon. Deputy Minister, who comes from my State, knows very well that in the Ranpur Assembly constituency. first, the Congress candidate declared elected. On recount the non-Congress candidate was declared elected by a margin of five votes. Again, in the tribunal stage, when the same ballot papers were recounted, the defeated Congress candidate was declared elected. So, unless some arrangement is made for the security of these ballot papers, it will create havoc. In this connection, I beg to submit . . .

The Deputy Minister in the Ministry of Law (Shri Bibudhendra Mishra): May I inform the hon. Member that the recount in that case was not due to any defect in the keeping of the ballot papers, because the law provides that the ballot papers shall be sealed and kept? In this case, it was opened only on the order of the Election Tribunal. It so happened that in this particular case the difference was so small, five votes or so. So, three vote this side or that side would have made all the difference.

Shri U. M. Trivedi (Mandsaur): They were kept open all the time.

Shri Bibudhendra Mishra: No such complaint was made. The difference of votes was small, the election tribunal ordered a recount.

Shri P. K. Deo: I thank the Deputy Minister for the amount of interest that he takes in these affairs, because I had the privilege to stand his crossexamination for seven days when he appeared on behalf of the defeated Congress candidate before the Election Tribunal without success.

My remarks about the elections will not be complete unless I make a reference to the various posters and pamphlets that have been used in the last elections. It is a good thing that the Home Minister has directed that the various posters and leaflets from all the various States should be collected and a scrutiny should made. I am sure when that scrutiny is made many startling revelations would be made regarding the length and breadth of the meanness and crudeness to which the party power stooped in the last general elections. The most objectionable and vulgar posters in very bad taste. depicting falsehood and misrepresenting facts to create hatred against other parties and individuals were profusely used by the party in power. So, it is high time that such things are stopped. Unless these things are banned in time, democracy would be a farce in this country.

Shri Frank Anthony (Nominated-Anglo-Indians): Mr. Deputy-Speaker, I start with a certain difficulty. My learned friend, the Law Minister, usually feels that we bring into this field matters which do not really relate to this Ministry.

I want to deal primarily with what I would describe as the erosion of the rule of law. As a distinguished lawyer at one time, the Law Minister will perhaps remember that the classic interpretation of the rule of law has been made by Dicey. Dicey postulated three aspects of the rule of law. Firstly, the supremacy of law; that is. no individual can be punished except for a distinct breach of the law. Secondly, equal application of law; that is, no one should be above the law. The learned Law Minister will say: well, both these aspects apply in India. I would perhaps be prepared to concede that these two aspects do exist in India, but I am more concerned with the third aspect. as enunciated by Dicey, and that is the predominance of the legal spirit. I say with a great deal of respect, but I say it also without qualification, that there has been a steady recession of the legal spirit in the country.

You may say that our democracy is young, the Government is young, perhaps inexperienced, but there is no doubt that the Government or the executive have shown increasing impatience of constitutional and judicial controls. I am quite aware that you have a certain spreading of executive tentacles with nationalisation and that form of executive creeping paralysis is part of the welfare State and of a planned economy. The most dangerous edge has been given this kind of creeping paralysis by the fact that although in form we subscribe to democracy, in fact we have a monolithic political structure, we have an overwhelming ruling party which gives a tremendous edge to this danger of invasion of individual freedom. and there is this, as I said, progressive erosion of the rule of law in our country.

I want to illustrate it just by a few examples of what has happened in the past few years. My learned friend was not here when the amendment to the Criminal Procedure Code was brought in with a tremendous amount of fanfare. I am against, anyone, any reasonable person, must be against inordinate legal delays. But let us not be caught up in mere slogan-mongening, we are tempted to fall victims to slogan-mongering. remember, at that time, when Code of Criminal Procedure Amendment Bill was introduced in this House, the then Home Minister ac-

claimed it as something which was an offering to cheap and speedy justice. I do not know how much criminal law my hon. friend has done, but I can tell you this without qualification that your amended Criminal Procedure Code has not added one iota either to the speed or cheapness of criminal trial in this country. On the other hand, what happened? Government took the opportunity of imparting a hangman's pattern to the Criminal Procedure Code of this country, Vital rights, rights vital to an accused person, rights of cross-examination were taken out. The capacity, and it is an infinite capacity, for the prosecution to do mischief, that capacity was increased and affirmed.

Then, what has happened to much-proclaimed fundamental rights. Somebody, some people, seem to think that any reference in some kind of disparaging way to our fundamental rights is sacrilegious. In fact, what is the position of our fundamental rights? What content, if any, is left in our fundamental rights chapter today? What has happened to article 31? My hon friend knows that article 31 was a clause which protected property rights. It has been not only emasculated but it has been denuded of all content, as my hon. friend knows very well. The guestion of compensation has been completely taken outside the purview of courts in this country. What has happened to article 19? Thank God, there is some little content in Article 19 which gives us the seven freedomsfreedom of speech and freedom of property, etc., some little content. But my hon, friend was not here, and is not aware how we protested. On the pretext of an alleged interpretation which the Supreme Court is supposed to have given in Romesh Thapar's case—which the Supreme Court never gave-a coach and four was driven through Article 19 Before that restrictions could be introduced in the interest of the security of the State The expression "security of the State" as my hon friend knows

has a settled, stringent legal connotation. It confines restrictions within prescribed limits, But you bring in public order. The term "public order" is so wide that nobody knows the scope and content of public order. As I said, Government drove a coach and four through Article 19.

Then, Sir, my hon, friend knows this. We are given to the habit of cliche and slogan-mongering in proclaiming our Fundamental Rights. But what happened? Some of us, when the Constitution was being framed fought for the application of the "due process clause" in our Constitution. The majority of the framers of the Constitution scouted the idea. But what is the result? What, in fact, have we given to our citizens or to our people in our Constitution? Provided a law is passed by a competent legislature, if it is harsh, if it is immoral, even if it is a lawless law, the courts are utterly and completely helpless, because unlike the American constitution the courts cannot test, they cannot strike down legislation against the background of legal conscience and natural justice. That is the stark position so far as our much proclaimed Fundamental Rights are concerned.

Add to this we have this-what. I regard as a-serious danger. And I have some hope that my hon, friend as an outstanding member of the Bar will at least privately accept this position. We are in an unfortunate stage in our country today. We are in a stage of judicial recession. Added to governmental and executive encroachment, judicial interpretation has combined to bring about the erosion of the rule of law in the country. My hon friend will know it. What has happened to Article 14? If tomorrow he is consulted by clients, would he in his wildest moments ever suggest invoking Article 14? It mocks at the framers of the Constitutionthe equality clause. There is not one iota of content left. We have come a long way from Anwar Ali

[Shri Frank Anthony]

7553

Sarkar, By a series of decisions of the Supreme Court all content has been taken out of Article 14. This is a process of judicial erosion. Today you can discriminate against an individual, provided there is some kind of intelligible differentia and differentia is easily seized upon the courts.

There is, as I say, this process of the erosion of the rule of law. And one of the worst and the most disturbing manifestations is the extent our judiciary has not only been emasculated, but also has been increasingly demoralised. And I say this without qualification.

I do not want my hon, friend to say: Why do you make the e allegations? Everybody makes them; the Supreme Court Bar makes them, leaders of the Bar in the country make them. But we make them not irresponsibly. We make them from a sense of sadness. Today that is the rule, not the exception.

When the States Reorganisation Bill was on the anvil, I fought alone but unfortunately I fought an unsuccessful battle. I said take thi evil thing, the Governor out of the constrtium that appoints judges. I know that as soon as you put the Governor into the consortium that is the end of judicial independence. The Governor will say nothing. He is a figure-head. But behind the facade of the Governor the Chief Minister will make appointments to the judiciary. That is happening increasingly in many High Courts in the country. It is a scandal. I know. I will give my hon. friend instances; I do not want to make it on the floor of the House. The Chief Justice of India approves of the appointment of an individual the Chief Minister, unless he feels that that person has the necessary political accomplishments-and what is the accomplishment to kowtow to Government whenever it is necessary -he will ensure that people recom-

mended by the Chief Justice will never get to the Bench. That is happening. We know it. The Law Commission has pointed it out. Today that is the rule. People without any practice at all are raised to the Bench. This matter came up in Basudev Prasad's case. But the Supreme A leading Court acquitted him. Member of the Patna High Court was constrained to say that Members are being raised to the Patna Bench who have absolutely no visible means of practice. The sensitive Patna Judiciary called him to the bar and convicted him. But the Supreme Court said: No, this is within the privilege of leading members of the Bar.

And what happened in that strange case of Alagiriswami in Madras? Unfortunately, the Bar Associations also have sought to enter this general atmosphere of emasculation. But even they were provoked indignantly to go to the High Court. A non-practising lawver was made a Government pleader with the obvious intention of ultimately sending him to the Bench through the back-door.

My hon, friend may say: But what have I get to do with all this? Why don't you attack my hon. friend Mr. Lal Bahadur Shastri? I do not make the appointments. I have nothing to do with it. I have a feeling, and I am appealing to him, that I may be able to strike some responsible cord him personally because he has been an outstanding lawyer. He knows these things are happening. knows to what extent the legal conscience of the Government has become increasingly deadened. I regard him in effect as the repository of the legal conscience of the Cabinet. And when these things are happening, he may not have a final say in the matter, but certainly he can point out to his Cabinet colleagues that these things have become the general practice in the country today.

My hon, friend who spoke before me, asked: Why do you allow judges

to be appointed to executive and administrative appointments? I have asked that question over and over again, and I have had no answer. Any reasonable person will accept the position that you should make use of the legal talents of judges after they retire, but only in a judicial or quasi-judicial capacity. Nothing has been more ill conceived, nothing has been more utterly pernicious, and I say it without qualification that you have demoralised the judges. The whole political atmosphere has become vitiated. We know this that the sedulous sycophant, the accomplished courtier, is at a premium in political life. But you have brought about the same state of affairs in the iudiciary

When I came back after arguing a case members of the Bar told me that in a particular High Court judges wait on Ministers. When I put this to the Chief Justice, he cynically remarked that if they only waited on Ministers it would be something; but they usually wait on Deputy Ministers! The Chief Justice of India told me this. I say it is a matter which should sadden us. I do not say this in anger; I say it with sadness. What has happened to the high traditions of the judiciary in this country? Judges have joined the queue of courtiers. On the occasion when the conditions of service of judges comes up I shall say: give them a pension equal to their salaries; but do not demoralise them. When they are on the eve of retirement with the prospect of retiring with a pension which is one third of their emoluments, they are looking around for jobs. The tragedy is that our Government encourages it. You have brought not only the judiciary into a sort of contempt; you bring the whole rule of law into contempt in the country.

Sir, I shall end on a last note. It is a bad thing. People accuse us of pointing a finger irresponsibly judges. But who does it more irresponsibly than the Government from the Prime Minister downwards? Not

only is it in not good taste; definitely in bad taste. The Prime Minister has pilloried the judges of this country. This is not good. The executive pillories them and they unfortunately cannot reply. Today the judiciary is under so much executive pressure that they have become demoralised. They are pilloried for delay and for mounting arrears. They are not entirely to blame. But what has happened? Today what is the supreme hall-mark of justice in the higher reaches? It is a careful patient hearing. Is that hall-mark of justice existing in our High Courts, and even in our Supreme Court, I ask with a great deal of respect. No one more zealous than I am of the need to maintain the utmost respect for our judiciary. But what is happening? I know there are delays, My hon, friend will say that justice delayed is justice denied. But to a greater extent, hurried justice is justice denied. And that is the kind of justice we are getting in the High Courts and the Supreme Court today, I say fetish for disposals is destroying the whole atmosphere of judiciality. I ask my hon, friend-I am not making any statement in an irresponsible manner-let him call for the disposals in the Supreme Court four years ago and the disposals today. Let him see the percentage of dismissals in criminal matters, particularly in death matters. Let him see the percentage of dismissals in fundamental right matters. He will be surprised. At one time many of us considered that these matters had been so eliminated by hurried disposals, criminal and fundamental right matters, that the Supreme Court had converted itself in fact into a superior industrial tribunal or an Income-tax tribunal. I say this. I do not know what my hon, friend regards, as a distinguished lawyer, what he regards as the supreme and the over-riding functions of the Supreme Court. I should have thought it is the protection of fundamental rights. As one of the earlier Chief Justices said, it is the sentinel on the qui vive to enforce

[Shri Frank Anthony]

fundamental rights. It has become a cliche that mocks at the people of India today.

Fundamental rights! To begin with, there is a preliminary hearing. five or ten minutes, even the most competent and the most able judges are not able to assess the worth of a fundamental rights petition? Most of them are eliminated in the preliminary hearings. Then what happens if they are admitted? My friend agreed with me last year. I said, "Fundamental rights! You mock at the citizen of this country before a person can even pursue his right he has to deposit Rs. 2,500." Two thousand five hundred rupees! What citizen in this country can do it? My friend may ay that the Supreme Court has prescribed this procedure. But, surely, in the final analysis, somebody, either the Government or this House, has to do it. We are the custodians of the intention of the framers of the Constitution. Did we not intend that the Supreme Court should be something more than an Industrial or Income-tax tribunal? Of course we did. We intended that it should be there to vindicate fundamental rights. Last year when I asked my friend, he said, "Well, I can only convey the feeling in this House that this imposition-and almost impossible imposition-of Rs. 2,500 should be brought to the notice of the Supreme Court.

Shel A. K. Sen: I did.

Shri Vanal, Anchony: And probably Le did It, but nothing has happened. I hope he will do it again, because I feel that the time has come....

Shri A. K. Sen: I did it with all the sincerity and earnestness that I could command.

Shri Frank Anthony: I am making an appeal to my hon friend, because this whole atmosphere which encourages erosion of the rule of law has to change. We have to re-assess what was our intention with regard to the function of the Supreme Court, and I hope that when he replies, the Law Minister will give us some hope in this matter.

Shri K. C. Sharma: Today we are dealing with a very important Ministry, because civilization and law go together. Law was there which settled human relations. Even when there was the divine law, in the name of law men lived together. So, empires and kingdoms passed away, but the law remains as it was.

So, with the democratic set-up, as my friend has just stated, and stated seriously—and I agree with every word of what he has said—, it should govern the relations between man and man, between citizen and State. We have gone so far as to bring within the orbit of law even things which were sacramental, marriage and other things.

Another aspect of it is that law is not mainly the book of law; it has to be administered by judges. Judges, in order to administer law to the satisfaction of the people, must not only be independent, they should be capable. And justice should not only be administered impartially, but it should also appear to be administered impartially. My friend is right when he says that the judges should not look to any favour whatsoever from the executive. There should be no such suspicion in the mind of the citizens, even in the remotest way possible. We are a new State and it is all the more necessary, and we have got to create new traditions

In this land of ours there was no such thing as an equal citizen for centuries together, not only centuries but for thousands of years. A Brahman was a different man from the Shudra. The Shudra had not the same right, as a human being, as a Brahman. It is for the first time in

this land of ours, with its great history and ancient glamour-whatever you may call it-that one man stands up and looks into the eye of another and claims equal right as a citizen of this country. Therefore it is all the more important that today the law should be supreme, and it should be the rule of law and not the rule of man

In this respect I would like to make two submissions. One is that the judges should be capable. They should be mentally and intellectually capable to understand the law. I beg to state that law is not a static thing. Law is not what it was two thousand years ago. It is a dynamic, growing knowledge of men and things as they progress in the changing, dynamic State. No judge is capable of understanding the law and administering justice unless he has some knowledge of the social, economic and cultural conditions of the country unless he has some knowledge of criminology, unless has has some knowledge of psychology. It is a strange phenomenon, A man who has decided hundred-rupee cases, perhaps about two thousand such cases, as a district munsiff can be raised to the High Court without any further study, without any inkling of the social and cultural studies about conditions of the country. What justice can that man administer to the people? Justice is not something abstract it is something concrete. It cannot be administered unless the man knows what happens in country, unless the judge knows what dynamic changes are taking place in the country in the relations of the country with other countries, in the relations between man and man, the relations between man and woman. As I said, law is not something static. It is dynamic. It is changing. It has to do with human bones and flesh.

Judges are a privileged class. How many judges have libraries in their houses? How many judges have been conversant with up-to-date legal literature? I have moved among them

and I say with the limitations that a lawyer should have, with all the respect for the judges, that I have found many of them wanting. Many of them are wanting in the elementray sense of duty to the people. It is a thing. My respectful submission is. whatever the procedure, a judge must know the history of law, he know the origin of law he must be a student of the various systems of law. He must be a student of Roman law. He must have comparative studies in law. It is impossible to administer justice without the capacity to know law. It is a strange phenomenon. Can a doctor administer medicine without knowing the science of medicine? a doctor cannot administer medicine to a sick man, do you think a man's life is cheaper than the fever of a man? You have to train a doctor so that he can give a doze of medicine for fever. You have to train a Judge so that man's life may be safe. Man's life does not mean his bones blood only. Man's life means dynamic energy, his capacity for work, his social relationship society. There are so many elements that a Judge has to understand, My point is that there should be learned and well trained judges.

The second point is about the appointment of judges. I would very much like that the Chief Justice of the High Courts should recommend the appointment of Judges and Chief Justice of the Supreme Court should look into the recommendation and that recommendation should be accepted. The President or the Government may lay down certain norms because they are finally responsible for the government of the country. But, this is a strange phenomenon. I know the Chief Justice of India had to turn down many recommendations from one of the States. What were the recommendations? In preference over Judges whose ability was never disputed, whose judgments were read by the Chief Justice of India himself, the recommendation from the was for candidates from the dignified

office class, that is the Secretary or Registrar's man who had a say with the Chief Minister or the Governor or the Government. This is strange. It is sad. Do you think we can mock at the administration of justice and claim to be a civilised people? Anybody to claim himself to be a civilised Government must be able to stand and say before the world, I believe in the rule of law, my administration is an administration which is under the law and not under man.

One more word and that is, administration of justice and the appointment of judges of the Supreme Court-all these should come under the Ministry of law. My simple point is this. There is such a thing as social stratification. Do you think that lawyer and judges are to look to what may be called a semi-educated man whosoever he may be in the Ministry of Home? No Judges should placed in a position to bow down before anybody except a man of law. There are only two studies which have made man cultured and civilized in the world. One is metaphysics another law. Greek philosophy and Roman law have civilized the people. These have made man civilised; these have made man what is called a cultured animal. But for these two studies which range over a period of 4000 years, man would have been up to this day merely an animal, a beast. These two studies gave refinement, gave a sense of decent relationship to man. Do you expect that the lawyer and judges would bow down before a man who knows not what right relationship between man and man is, what culture is how man has evolved, what human relationships there are, what justice is. This is not justice to the judges; this is not justice to the lawyers. In the name of dignity of law, in the name of dignity of justice, I would respectfully submit with all the strength at my command that the Supreme Court, the High Courts and administration of Justice in all its aspects should be under the

administration of the Ministry of law and not the Ministry of Home.

श्री बड़े (खारगीन) : उपाध्यक्ष महोदय विधि मन्त्रालय के काम के बारे में समय समय पर इस सदन में और सदन के बाहर भी कई तरह के विचार प्रकट किये जाते रहे हैं. देश में प्रजातन्त्र की एक स्वस्थ ग्रौर लोकप्रिय पर-म्परा कायम करने के लिये और साधारण जनता को न्याय दिलाने हैं लिये ला मिनिस्ट्री पर विशेष जिम्मेदारियां स्राती हैं। मैं इस मन्त्रालय के काम काज के बारे में तीन चार बातों की तरफ विधि मन्त्री जी का घ्यान ग्राकपित करूंगा।

सबसं पहले जिस बात को मैं रखना चाहता हूं वह चुनाव भ्रायोग भ्रीर चुनावों के सम्बन्ध में है । अपने देश में आजादी मिलने के बाद हमने प्रजातन्त्र को अपनाया है। अब तक देश में तीन चुनाव हो चुके हैं। चुनावो को ठीक तरह से सम्पन्न कराने को व्यवस्था भी प्रःयक्ष रूप से इसी मन्त्रालय की करनी होती है। यह कार्य एक स्वतन्त्र चनाव स्रायोग के जिम्मे साप दिया गया है। यह बात ठीक भी है, लेकिन में स्रनुभव करता हूं कि देश में तीन बार ग्राम चनाव होने के बाद भी प्रजातन्त्र में श्राम जनता की ग्रास्था जितनी गहरी हो जानी चाहिये थी, उतनी नहीं हुई है।

Shri A. K. Sen: May I request the hon. Member to read his speech a little more slowly because I am afraid it is rather difficult to follow him?

Shri Bade: I am not reading; am only referring to my notes where I have put down three important points.

Shri A. K. Sen: In any event, may I request the hon. Member to proceed a little more slowly?

श्री बड़े: मैं चुनाव भ्रायोग के बारे में भ्रपने कुछ विचार रख रहा हूं। तीन भ्राम चुनाव हो जाने के बाद भी जनता की जितनी श्रास्था प्रजातन्त्र में होनी चाहिये थी वह श्रव तक नहीं हुई है। इसका कारण भी यह है कि चुनावों में ग्रनियमितता ग्रौर धांधलियों की शिकायतें बढती ही गई हैं ग्रीर ऐसा स्पष्ट होता जा रहा है कि हमारा जो चुनाव श्रायोग है वह पूरी स्वतन्त्रता ग्रीर निष्पक्षता के साथ श्रपना काम नहीं करता । वह हमेशा शासन के हाथों में एक हथियार है, शासन के हाथ में खेलता है, ऐसा मालम पडता है। सन १६५७ में जब डिलिमिटेशन कमेटी बैठी थी तब मैत देखा था कि विधान सभा का जो मेरा क्षेत्र था सेंधवा का जो कि पहले जनरल था, उसकी तोड़ मरोड़ कर ग्रादिवासी क्षेत्र कर दिया गया, उसके बाद राजपुर का क्षेत्र भी तोड मरोड कर म्रादिवासी क्षेत्र कर दिया गया । वह इस दिप्ट से कि उस वक्त कांग्रेस का प्रचार चल रहा था कि यदि उस को ग्रादिवासी क्षेत्र न बनाया गया तो वहां पर जनसंघ का ही उम्मीदवार चुन कर ग्रा जायेगा । इसांलये २१ दिसम्बर, १६५७ को वह क्षेत्र ग्रादियासी डिक्लेग्रर किया गया । इसलिये साधारण जनता में यह इम्प्रेशन हो गया कि वह एक स्वतन्त्र चुनाव ग्रायोग नहीं है बल्कि शासक दल के हाथ में रहते वाला खिलीना है ग्रीर शासन का उस पर काफी प्रभाव है। जो रूलिंग पार्टी है, याती कांग्रेस पार्टी, जब चनाव श्रायोग उसके लाभ के लिये काम करता है तो जनता में यह विश्वास हो जाना साधारण सी बात है कि जो कांग्रेस पार्टी है वह जैसा कहती है चुनाव श्रायोग वैसा ही करता है।

जम्म ग्रौर काश्मीर में ग्रभी हाल में चुनाव हुए हैं। वहां पर बैलट वाक्सेज रखे गये थे। हमारे यहां जो पद्धति थी उस में यह था कि चुनाव के लिये छाप लगाना होता था, छाप लगाना होता है। वह पद्धति जम्मू श्रौर काश्मीर में लागु नहीं की गई । इसी लिये चनाव भायोग ने कोई सबल कारण नहीं

दिया है।

Shri Sham Lal Saraf: I question this statement.

श्री बड़े : ठीक है। Do you agree with me or not?

Shri Sham Lal Saraf: I do adt agree.

बैलट बाक्सेज थे लेकिन टिकट लगाये गये थे :

भी बड़े: यहां पर जो प्रजा परिषद् के लोग आये थे उन्होंने दिल्ली में यह बतलाया था कि वाक्सेज कैसे खोले जाते हैं। इसके साथ साथ जो बैलट पेपर्स थे वह वहां की रूलिंग पार्टी को कैसे मिल इस के बारे में "ब्रार्गेनाइ-जर" में ग्रीर "हिन्दुस्तान टाइम्स" में फोटो भी स्राये थे। लेकिन वह बैलट पेपर्स वहां किस तरह से मिले इस के बारे में न तो चनाव भ्रायोग ने ही कोई स्पष्टीकरण दि<mark>या है श्र</mark>ीर न चनाव अधिकारी ने ही कुछ बतलाया है। जनता चाहती है कि चनाव श्रायोग इस के बारे में जानकारी दें । उसको इस का स्पष्टीकरण देना चाहिए था कि यह जो बैलट पेपर्स के फोटो ''श्रागॅनाइजर'' श्रीर टाइम्स' भें छापे गये हैं वे बैलट पेपर्स वहां की रूलिंग पार्टी को कैसे मिले । प्रजा परिपद का ग्रारोप है कि वे बैलट पंपर्स वहां की रूलिंग पार्टी के पास देखे गये थे। इसका कोई स्पष्टीकरण नहीं हुन्ना है। वास्ते स्पष्ट है कि चनाव ग्रायोग हमेशा शासन के साथ जाता है । ऐसी धारणा साधारण जनता में फैली हुई है।

Shri Sham Lal Saraf: On a point of clarification about what the hon. Member is mentioning.

Mr. Deputy-Speaker: Order, order. If the hon. Member wants to clarify anything he may speak later.

भा अप : मुझ मालूम है कि जो मैं कह रहा हं उसके बारे में मेरे मित्र की दूसरी राय है । लेकिन ग्रारगेनाइजर में ग्रीर दूसरे बहुत से पेपर्स में इस है बारे में किटिसिज्म था।

[श्री बड़े]

सन् १६५२ ग्रीर सन् १६५७ में चुनाव प्रायोग ने म्राल इंडिया पार्टीज की प्रथा रखी थी जिसमें कांग्रस, जनसंघ, सोशिलस्ट पार्टी श्रीर कम्युनिस्ट ग्राते थे। लेकिन इस चुनाव में चुनाव ग्रायोग ने इस प्रथा को बदल दिया श्रीर इसके बारे में कोई स्पष्टीकरण नहीं दिया। मध्य प्रदेश की जनता में यही स्याल है कि क्योंकि पुरानी प्रथा कांग्रस के लिए लाभकर नहीं थी इसलिए उसको बदल दिया गया। इसलिए पुरानी प्रथा को तोड़ कर प्राविशियल पार्टीज की प्रथा इस बार रखी गयी। इससे जनता में ग्रच्छा इस्प्रेशन नहीं बना है।

इसके प्रतिरिक्त मेरा निवदन है कि चुनाव प्रायोग में ब्राईं० ए० एस० के लोग न रख कर हाईकोट के जज के केडर के व्यक्ति रखे जाने चाहिएं ताकि व निष्पक्षता से काम कर सकें।

बैलट पेपरों पर स्टाम्प लगाने में भी गड़बड़ी हुई है। श्रादिवासी क्षेत्र में जब वोटर स्टाम्प लगाने गए तो उनसे कहा गया कि टिबल पर जाकर स्टाम्प लगा श्राश्रो । श्रादिवासी बेचारे टेबिल पर स्टाम्प लगा कर कोरे बैलट पेपर अन्दर डाल रहे थे। श्रौर इस प्रकार १५ हजार बैलट पेपर इनवैलिड ठहराए गए। मैंने लिखा था कि इस बारे में इस क्षेत्र में गड़बड़ी हुई है लेकिन मुझे कोई जवाब नहीं दिया गया।

इलेक्शन ला के प्रनुसार जो हिसाब देने की प्रथा है उसको समाप्त करना चाहिए। एक तो बड़े गलत तरीके से हिसाब दिया जाता है। सब जगह मालूम होता है कि कांग्रेस ने इतना खर्चा किया है ग्रीर दूसरों ने इतना खर्चा किया है लेकिन हिसाब जब दिया जाता है तो १२ हजार १३ हजार या २४ हजार के ग्रन्दर होता है। शिड्यूल्ड कास्ट ग्रीर शिड्यूल्ड ट्राइब्स के लोगों को हिसाब देना नहीं स्राता । वह हिसाब बनवाने के लिए इस उस के पास जाते हैं । उनको बड़ी कठिनाई होती है । स्रभी कुछ समय पहले महामहिस राप्ट्रपति ने स्रपन भाषण में कहा था कि चुनाव का खर्चा बढ़ता जा रहा है । तो मेरा कहना है कि हिसाब दाखिल करने के कानून से इस खर्चे पर तो कोई कंट्रोल होता नहीं, केंवल बोगस हिसाब दे दिया जाता, तो इस कानून से कोई श्रच्छा परिणाम नहीं स्राता । मैं समझता हूँ कि इस कानून को निकाल देना चाहिए । इसके बाद मैं कोर्ट फीस के बारे में कुछ निवेदन करना चाहता हूँ ।

भी ग्र० कु० सेन : वह तो स्टेट सबजेक्ट है ।

श्री तुला राल (घाटनपुर) प्राप्त शिड्यूल्ड कास्ट श्रीर शिड्यूल्ड ट्राइब्स की जगह श्रगर बेपढ़े लिखे लोग कहें तो ठीक होगा क्योंकि जो शिड्यूल्ड कास्ट श्रीर शिड्यूल्ड ट्राइब्स के लोग पढ़े लिखे हैं उनको हिसाब दाखिल करने में कठिनाई नहीं होती।

श्री बड़े: ग्रापके यहां के शिडयल्ड कास्ट वाले ज्यादा होशियार होंगे । तो मैं कोर्ट फीस के बारे में बोल रहा था। यह सही है कि कोर्ट फीस स्टेट सबजेक्ट है लेकिन इस मंत्रालय को राज्यों को इस विषय में गाइडेंस तो देना चाहिए । पहले होलकर के समय में ७ रूपया सैकडा कोर्ट फीस थी, फिर मध्य भारत में उसको **६ रु**पया प्रतिशत कर दिया गया श्रीर ग्रब उसको दस रुपया कर दिया गया है । ऐ**सा** लगता है कि इस बारे में राज्यों में ग्रापस में होड सी लग गयी है स्रौर कोर्ट फीस बराबर बढ़ायी जा रही है। इधर कर वृद्धि होती है उधर कोर्ट फीस बढायी जाती है। म्राज भवस्था यह है कि जो गरीत ग्रादमी कोर्ट में जाता है वह अपने घर के गहने गिरवी रख कर जाता है भ्रौर इस प्रकार उसको महंगी न्याय मिलता है। मेरा सुझाव है कि कोट

फीस बन्द होनी चाहिए । इसके बारे में ला कमीशन ने कहा है:

"Other States provide hospitals which give free treatment to persons who are physically afflicted but if a person is injured in the matter of fundamental or other rights, we bar his approach to the courts except on payment heavy fee".

में समझता हं कि विधि ग्रायोग की इस राय पर सरकार को ध्यान देना चाहिए श्रीर कोर्ट फीस को हटा कर न्याय प्रदान में लोगों को मुविधा देनी चाहिए ।

ग्रभी हमारे एक माननीय सदस्य ने कहा कि सुप्रीम कोर्ट में ढाई हजार रुपया डिपाजिट करवाना पडता है। मझे मालम है कि एक व्यक्ति के पास ढाई हजार रुपया नहीं था इसलिए उसे सुप्रीम कोर्ट से न्याय मिलना कठिनहो गया। सारे संसार में कोर्ट फीस का कानुन कहीं भी नहीं है। इसके बारे में ग्राप ला कमीशन की रिपोर्ट देखें । उन्होंन कहा है कि जो हमारे पौरांग प्रभ थे उन्होंने १८७० में यह कोर्ट फीस के रूप में टैक्स लगाया था न्याय देने के वास्त । ग्रीर यह ग्रव बराबर बढता जा रहा है श्रीर राज्यों में इस बारे में होड सी लगी है। इसके दारा सिविल कोर्टस का खर्चा निकालने का प्रयत्न किया जाता है। क्या इसको न्याय दान कहा जाए या न्याय की बिकी कहा जाए। selling of justice. इस प्रकार न्याय की बिकी होती है न्याय दान नहीं होता है। एक वैलफेयर स्टेट के लिए तो यह शर्म की बात है कि पहले न्याय के लिए पैसे लिए जाएं और फिर उसको न्याय दिया जाए । यह ठीक नहीं है ।

तीसरी बात मैं हिन्दी के बारे में कहना चाहता हं। श्रापने हिन्दी को राष्ट्र भाषा स्वीकार किया है लेकिन प्रदालतों के जजमेंट भभी भी श्रंजाजी में लिखे जाते हैं। मध्य प्रदेश में पहले लोग्नर कोर्टस के श्रीर हाई कोर्ट के

जजमेंट हिन्दी में होते थे लेकिन ग्रब ग्रंग्रेजी में होते हैं। भ्रदालतों के जजमेंट हिन्दी में होने चाहिए । मैं तो कहता हूं कि सुप्रीम कोर्ट के जजमेंट भी हिन्दी में होने चाहिए । चीन की हाईकोर्ट के जजमेंट चीनी भाषा में होते हैं। श्रमरीका में जजमेंट वहां की भाषा में होते हैं। जापान में जजमेंट जापानी भाषा में होते हैं। फिर क्या कारण है कि हमारे देश में सुप्रीम कोर्ट के जजमेंट हिन्दी में न हों। श्रब इस प्रथा को बदलना चाहिए श्रौर इस तरफ तेजी से कदम उठाना चाहिए ग्रौर हिन्दी में यह काम करना चाहिए।

अभी तक न्यायपालिका श्रौर कार्य-पालिका को श्रलग श्रलग नहीं किया गया है। श्रमी भी रेवेन्यु के केसेज श्रीर दफ़ा १०७ के केंसेज कार्यपालिका के द्वारा किए जाते हैं। हमारे बहत से जनसंघ के लोगों पर १०७ के केस चलाए गए श्रीर उनकी २२--२३ पेशियां डाली गयीं श्रीर उनको पचास पचास ग्रीर साठ साठ मील से जाना पडता था ग्रीर एस० डी० ग्रो० दौरे पर चले जाते थे। इसलिए मैं चाहता हूं कि जुडिशियरी ग्रौर एग्जीक्युटिव को अलग अलग किया जाए। जो न्याय दान की सत्ता एग्जीक्युटिव के हाथ में है वह नहीं रहनी चाहिए । स्रभी तक वही चीज चल रही है ।

मेरा एक निवेदन यह है कि जो पब्लिक प्रासीक्यटर हैं उनको हाई कोटं का जज बनाया जाए । मध्य प्रदेश में चार पब्लिक प्रासीक्यटर हाई कोर्ट के जज नियक्त किए गए हैं, राजस्थान में दो और ग्रान्ध प्रदेश में एक पबलिक प्रासी-क्युटर को हाईकोर्ट का जज नियुक्त किया गया है । इन पब्लिक प्रासीक्यटमं को केवल किमिनल ला का ज्ञान रहता है ग्रीर सिविल लाका नालिज अच्छा नहीं होता।

Dr. L. M. Singhvi (Jodhpur): In Rajasthan, they were Government advocates, not public prosecutors.

Shri Bade: They are Government advocates, but not from the Bar Association.

[श्री बड़े]

बार एसोसिएशन में जो भ्रच्छे वकील हैं उनको लें । लेकिन उसके बजाए पबलिक प्रासीक्युटर्स को लेते हैं। स्राप चाहे उनको गवर्न मेंट एडवोकेट कहिए । जो हाईकोर्ट में काम करते हैं उनको गवर्नमेंट एडवोकेट कहते हैं लेकिन उनका काडर तो एक ही है। वे भी पवलिक प्रासी-क्यूटर के काडर के ही होते हैं।

Demands

Therefore, there is no difference between the cadre of public prosecutors and that of Government pleaders; there is a difference of name only.

मैं कहता हं कि ला कमीशन ने इतनी टीका की है लेकिन शासन वैसे ही चल रहा है। मैं ने गत लोक सभा के प्रोसीडिंग पढ़े । उनमें भी यह टीका हुई थी श्रीर श्राज भी वही टीका हो रही है लेकिन गवर्नेबेंट इतनी थिक स्किन्ड हो गयी है कि उस पर प्रभाव नहीं पडता और काम वैसे ही चल रहा है और पवितक प्रासी-क्युटर्स को हाईकोर्ट का जज नियक्त किया जाता है। उनको खाली किमिनल ला मालम रहता है सिविल ला के बारे में कोई जानकारी नहीं रहती है श्रीर नतीजा यह होता है कि जब ऐसे जजेज के सामने वकील लोग बहस करने जाते हैं तो उनको कानुन पढ़ाना ग्रौर सिखाना पडता है । उनको बतलाना पडता है कि योर लौर्डशिप द ला इज लाइक दिस ग्रौर नौट लाइक दिस ।

15 hrs.

उपाध्यक्ष महोदय : ग्रव माननीय सदस्य का समय समाप्त हो गया है।

श्री बड़े: बस ग्रापकी इजाजत से केवल नास्ट प्वाएंट मैंशन कर देना चाहता हूं। मेरा कहना यह है कि भ्रादिवासी ऐरियाज में जो पंचायत कौर्टस होते हैं तो ग्रव भील भिलालों को तो पढना लिखना कुछ श्राता नहीं है इस वास्ते उनका जो सेकेटरी रहता है पेड कारकुन रहता है, ५० रुपये माहवार उसको मिलते हैं वह सब जजमैंट देता है। में ने पहले भी शासन को सुझाव दिया था श्रीर म्राज फिर देता हूं कि हमें पंचायत कोर्टस के वास्ते ट्रिंग मजिस्ट्रेट स रखने चाहिए जो कि उनको डायरैक्शन दें ग्रीर उनको मुकद्दमों के बारे में ऐडवाइस दें। बस इतना ही कह कर मै ग्रपना भाषण समाप्त करता हूं।

Mr. Deputy-Speaker: These cut motions are before the House.

Shri D. C. Sharma wants to speak?

Shri D. C. Sharma: I want to speak on Defence-not on this.

Shri Sham Lal Saraf: By way of clarification, if you permit me I will say a few words about what Shri Bade has said.

Mr. Deputy-Speaker: I will call him later

Shri R. Barula (Jorhat): Mr. Deputy-Speaker, I am in complete agreement with what my hon. frieds said about deterioration that is creeping into the department of law. I am concerned with this subject because democracy can survive only when there is the rule of law. I need not quote history or instances to show how democracy depends upon cardinal principle of the rule of law. is whv our Constitution makers made definite provision for separation of the executive from the judiciary. But in spite of so many years, no real attempt has been made to separate, the judiciary from the executive. There seems to be a subtle attempt to influence judiciary by various means and some amount of new despotism seems to have eroded this field.

In the matter of appointments to Supreme Court or High Courts, there is sufficient safeguard to ensure independence of the judiciary and the dignity of the judiciary. To that extent I have no quarrel but the way and the manner of appointment in other places is causing some concern to every sensible citizen in India. I am completely in agreement with Shri Frank Anthony when he said that the method of recruitment is highly reprehensible and I need not dilate on it. There has been a tendency on the part of the executive to criticise the wisdom of the Judges and their judgment on the floor of this House outside. Sometimes even Prime Minister seems to have a tendency to bring down the dignity of Judges. In the Sholapur Mills case if I am right, I feel some seathing remarks were made against the judgment of the Supreme Court by Prime Minister and that was followed by the hon. Home Minister also That is not a good tendency. The other day. my hon, friend Shri Khadilkar made a very caustic reference about the judgment of the Supreme Court here and he quoted Mr. Denning support of his argument that the Supreme Court Judges were no good or at least were not competent to give the judgment. If I have read Denning right he meant something other than what my hon, friend wanted to say. Denning has said that there is a new impact in our present society; there has been scientific researches and technological improvements. All these things have brought about revolutionary changes in our social relations and political behaviour and economic adjustments. When we frame our laws we should do it in such a way as to give weight to all these aspects. That is what that jurist of eminence wanted to impress. It is entirely a different matter. The Judges are there to interpret the law as we make it here. So this tendency of new despotism is highly dangerous and it is high time that some checks were put here and now.

The executive has become verv powerful in the nature of things. In this modern State we expect the executive to exercise more of delegated powers. That is also another reason why we want an independent judiciary; it should be so in the interest of democracy. Parliament or the legislatures cannot sit all the year round and even if they sit they cannot afford to go through all the detailed laws. Therefore, powers are delegated to the Ministers and officers to frame rules. While framing these rules which have got the force of law we find there is a tendency to eliminate control of the courts of law. That is a dangerous tendency creeping into the various rules made by different departments. In order to give a correct interpretation to these rules in the light of what the legislatures have actually meant, we want an independent judiciary and to that extent we want the dignity of the courts and of Judges should maintained.

There seems to be a dangerous practice of patronising the retired judges by giving them some temptations. That is a bad practice. Article 124 of the Constitution wanted that the Supreme Court Judge should not practise in any High Court. Our Constitution makers were no fools to incorporate a provision like that. In the same way we expect that our execunot to tive should behave in a way give such patronages to the Judges and make them occupy some governmental offices after they retire. people in the country have got a desire to maintain the sapling of democracy and they are even prepared to pay higher emoluments and a higher pension to the Judges if only Ministers and our Government come up with such demands. They should not, when the Judges retire and are in need of some additional emoluments.

again offer them patronages. Human nautre being what it is, it is natural that some of these Judges may hobnobing with Ministers or Deputy Ministers. I am not opposed mixing of Ministers and Judges but it is really very unfortunate that Judges are to hobnob with these persons simply because after they retire they have to get employment, in addition to some pension. Therefore, from these points of view, I want that the judiciary should be independent and be separated from the executive. some States atempts are being made to separate the judiciary from executive. But, in fact, it is neither complete nor real. In some cases, the lower subordinate judiciary is already under the control of the high but there is no machinery to implement the orders of the judiciary that they can function freely. The result is that there is very little cooperation between the executive the judiciary.

I do not make any fetish about law's delays. I completely agree with Shri Frank Anthony that we are making much of law's delays. If we go to the districts, and see the functioning of the district or sessions court, you will be surprised to find that sessions judges sit for hours together, waiting for the witnesses and for getting the exhibits ready. It is the duty of the executive to produce the witnesses and the necessary materials the judges for trying the case before him. There was a time when everything was ready for the sessions judges to try the case, the Government did its best or utmost to see that the case was not adjourned due to any delay on the part of the officers. But today you find the reverse of it. Therefore, when you talk of law's delays, it is not that the Criminal Procedure Code is defective; it is that the judges are bad; it is not that the courts are not functioning. But it is because the executive is completely callous about the functioning of the judiciary. The result is that we find the common man suffers immensely.

[Shri R. Barula]

About the accumulation of cases in the high courts and the Supreme Court, my hon. friend Mr. Anthony has already made mention of it. With regard to the cases that are pending in the lower courts, namely, the district courts and the magistrates' courts, I submit that most of these delays are due to the lack of co-operation. And the worst sufferers in these matters are the common men. come and wonder how things happening. On the one hand, there is the executive which always pressure on the magistrates and judges for quick disposal of case. On the other hand, the executive switch their machinery or gear up their machinery to help the magistrates or the courts or the judges to try cases quickly. The result is that these judges who are dependent on the sweet will of the executive for promotion, for transfer, etc., must satisfy the whim of the executive; must satisfy the Ministers concerned and the Governments concerned so that they could cut a good figure in regard to their quick disposals! Therefore, in many cases the common man suffers from ill-considered dismissal of cases and denial of justice thereby. If that be the standard of disposal cases by which we are to eliminate the delay in the disposal of cases. submit we are heading towards crisis.

Then comes the question of legal aid. This question of giving legal aid is not a new thing. This matter has been agitating the people both inside and outside the Parliament. Even before Independence, we had a provision whereby the poor people could have the privilege of filing suits informa pauperis in the courts. That provision or principle was there. But nothing has so far been done to extend that principle so that more poor people can be covered.

An Hon. Member: Very complicated.

Shri R. Barua: What I submit is that the principle of giving aid to the poor is not a new one. already in Civil there the Procedure Code. But nothing so far has been done to extend the system to a larger number of people. On the top of it, at the present time, there are so many pieces of legislation to help the tenants and marginal landowners and there are many pieces of legislation to help the poor people to free themselves from the clutches of landlords and moneylenders. These people cannot fight against the landlords and other monied people because they have to vindicate their right in the court of law. When they have to go to the court of law, they must have sufficient money; they must incur sufficient expenses. Those people who could not just ged rid of their landlords or the moneylenders have no money and so they cannot fight their cases in the courts of law. The result is that in spite of there being so many good pieces of legislation to help them, these people cannot get proper advantage out of these laws. Therefore, I submit that something should be done to help the helpless people.

In matters of succession certificates, I may just point out one thing. I have come across many people, mostly Government servants, and petty officials, who, on their death, may be leaving anything between Rs. 1,000 and Rs. 5,000 or so either in the postoffice savings bank or in other banks. But when the people concerned have to get succession certificates, they have to pay a lot. Of course, it is a matter relating to the states. but the Law Ministry should do somea co-ordinated thing to have policy and that will be a good step to give aid to the poor.

श्री भु० ना० मंडल (सहरसा) : उपाध्यक्ष महोदयः सब से पहले में श्राप का ध्यान इस ग्रोर खींचना चाहता हूं कि जिस तरह इस देश में टेक्निकल रेबोल्यूशन हो रहा है

भीर विकास का काम चल रहा है, उस सिलसिले में सरकार का ग्रधिकार दिनों-दिन सामाजिक जीवन के हर क्षेत्र में बढ रहा है। ऐसी हालत में, जब कि सरकार का ग्रधिकार लोगों के जीवन पर दिनों-दिन बढ़ता जा रहा हो, भ्रौर गडबडी होने पर उस के खिलाफ़ लोगों को प्रतिकार का कोई उपाय न रहना मेरे विचार में जनतंत्र के लिए भ्रच्छा नहीं है। इन दिनों मैंने देखा है कि बिहार विघान सभा में जितने भी कानुन पास हो रहे हैं, उन सब में इस तरह की व्यवस्था रहा करती है कि सरकार की कार्यवाही से लोगों को जो नक्सान होगा, उस के सम्बन्ध में कोई सरकार के खिलाफ़ दावा नहीं किया जा सकता है ग्रीर कोर्ट के जरिसडिक्शन को बार कर दिया जाता है। उसी तरह से उन कानुनों में यह भी व्यवस्था कर दी जाती है कि सरकार के कर्मचारियों के कारण अगर किसी को नुक्सान होगा, तो उस के कारण उन के खिलाफ़ कोई दावा नहीं चलेगा । इस ढंग का प्राविजन स्राज बिहार के हर एक कानुन में मुझे देखने को मिला है और मैं समझता है कि इसी तरह की बात भ्राज समचे हिन्द्स्तान में हो रही है।

मेरे कहने का मतलब यह है कि जब लोगों के जीवन पर सरकार का श्रधिकार उत्तरोत्तर बढ़ता जाता हो, तो कोर्ट के जरिसडिक्शन को एक्सीक्युटिव के एक्शन से हटा देना एक तरह की डिक्टेटरशिप कायम करना है। इस लिए में ला मिनिस्ट्री का ध्यान इस ग्रोर खींचना चाहता हं ग्रीर में चाहता हं कि उस की ग्रोर से इस बात की जांच की जाये-चाहे किसी कमीशन या कमेटी के जिरये या जो ला कमीशन श्रालरेडी कायम है, उस के जरिये-कि अंग्रेज के जमाने की तुलदना में स्वतंत्रता के चीदह पंद्रह बरसों में लोगों के व्यक्तिगत जीवन में कहां तक स्वतंत्रता की विद्धि हुइ है, या कहां तक स्वतंत्रता संकृचित हुई है।

म्राज जो हमारा समाज है, उस में ग्रधिकांश भ्रादमी पिछडे समाज के भौर गरीब हैं। म्राज स्थिति यह है कि म्रगर किसी 782 (Ai) LSD-7.

ने किसी ब्रादमी को मारा भौर ब्रगर वह ब्रादमी शिकायत ले कर कोर्ट में जाना चाहै, तो उस को कम से कम छ : सात रुपए चाहिए. तभी वह कोर्ट में जा कर फरियाद कर सकता है । ग्रगर जनतंत्र के जमाने में, जहां सब लोगों को बराबरी का ग्रधिकार है ग्रीर वरावरी के स्राधार पर उन की मान्यता होनी हो चाहिए, किसी भ्रादमी को नाजायज तरीके से मारा जाता है या गाली दो जाती है स्रीर उस के प्रतिकार के लिए वह न्यायालय में जाना चाहता है, लेकिन वह इस लिए नहीं जा सकता है कि उस के पास पैसा नहीं है, यह मैं समझता ह, जनतंत्र का मखील करना होगा । इस लिए सरकार को इस ग्रोर ध्यान देना चाहिए ।

इस सम्बन्ध में मैं सुझाव देता है कि जिन लोगों की भ्रामदनी २५० हाए से कम हो, उन को यह अधिकार होना चाहिए कि जब वे ला कोर्टमें जायें. तो उन को पैसान देना पडे। जिस लायर को वे एतगे ज करना चाहें उसको एनगेन कर सकें स्रीर सरकार को चाहिये कि वह उस लायर को फोस वगैरह अपने पास से अदा करे। टिकट वगैरह भो सरकार की तरफ से उसको मुक्त दो जानो चाहिये और इनकी भी व्यवस्था की जानी चाहिये ।

अब मैं गत आम चनाव के बारे में कुछ कहना चाहता हूं जो श्रभी खत्म हो चुका है। मैंत देखा है कि सिर्फ मेरो के स्टिट्य रंसो में हो करीब एक लाख म्रादमियों के नाम बोटर लिस्ट में नहीं दर्ज थे । इतने ग्रधिक लोगों थ नाम बोटर लिस्ट में न होना जनतंत्र के लिये वहत ही बरी बात है। संविधान में कहा गया है कि हर बालिंग को बोट देने का भ्रधिकार है। लेकिन उनका नाम वोटर लिस्ट में ग्रगर इस वजह से नहीं छापा जाता है कि श्रापक पास जो इंतजाम है वह नाकाफी है तो जो फंडेमेंटल राइट हर बालिग बोटर का है भ्रौर जिससे श्राप यह श्राशा करते हैं कि वह श्रपना मत दे करके भ्रपनी मर्जी की सरकार चने, वह

संविधान का उद्देश्य कैसे पूरा हो सकता है और किस तरह से जनतंत्र चल सकता है। मैं समझता हूं कि जो वोटर लिस्ट्स बनतो हैं और उन कें कई किसियां रह जाती हैं तो वे इस कारण रह जाती हैं कि सरकार सारा काम करने ें योग्य नहीं है और उसकी आयोग्यता की वजह से वे लिस्ट्स ठीक में तैयार नहीं होती हैं। मैं समझता हूँ कि इस तरह की चीज होना हिन्दुस्तान ें संविधान के राज्य एक विजावड़ है।

भी द्वा॰ ना॰ तिवारी (गोपालगंग) : जसमें ऋमेंडमेंट भी हो सकती है ।

भी भु० ता० मंडल : माननीय सदस्य न मुझाया है कि उसरे लिए दरस्वास्त दो जा . सकती है और लिस्ट को एपेंड करवाया जा सकता है। ले कन याज जो देश की स्थिति है जिसमें लोग सांस्कृतिक दण्टि से बहुत नीने पड़े हुए हैं, बहुत ही गरीब है, जिनको न इन सब काननों की जानकारी है और न हो हो सकती हैं, उस में सरकार ग्रपनी जिम्मेदारी से बच नहीं सकती है। पहली बात तो यह है कि सरकार को बोटर्ज लिस्टम को हर पहल से कम्पलीट दनाना चाहिये ग्रीर देखना चाहिये कि कोई नाम छटने न पाये । दूसरी बात यह है कि जिस ब्यक्ति का नाम ग्राम पंजायत की पारिवारिक पुस्तिका में दर्ज हैं. उसका नाम तो जरूर हो वंदर्ज जिस्ट में दर्ज होना चाहिये। लेकिन देखा जाता है कि यह भी नहीं होता है। कितने ही ऐसे उदाहरण मेरे नोटिस में स्राये हैं कि वोटर का नाम तो दर्ज होता है लेकिन उसई बाप का नाम कोई दूसरा ही दर्ज कर दिया जाता है। इससे जब वह बोट देने दे लिए जाता है तो बड़ी गड़ाड़ी होती है ग्रीर उसकी वडी परेशानी का सामना करना पडता है। प्रेस में जा कर भी बहत गड़वडी होती है। कहीं यह चीज जान बुझ कर तो नहीं की जाती है, इसको भी देखा जाना चाहिये । मैं चाहता हूं कि ग्रगर इस चीज को

ला मंत्रालय देख सता है तो उसको देखना चाहिये। जिस पार्टी दे हाथ में सरकार की वागडोर होती है, उसको कई प्रकार दे एडवटेजिज प्राप्त होते हैं । इस कारण से दह बोटर्ज लिस्ट में तरह तरह की गडबडियां करवा दे सकती हैं। देखा गया है कि ग्रगर वोटर का नाम हिन्दू है तो उसरे बाप का नाम मुस्लिम कर दिया जाता है। इस तरह को चीज को आप ब्रिटिंग मिस्टेक नहीं कह सकते हैं। जानबझ कर इस तरह की चीजें की जाती हैं। इस तरह की गडबडियां न हों इस तरफ श्रापका ध्यान जाना चाहिये । ग्रगर जानवझ कर इस तरह की गडबडियां नहीं की जाएंगी तो इस तरह की चीज़ें नहीं हो सकेंगी: । मैं चाहता हं कि ला डिपार्टमेंट ग्रीर इलैक्सन कमिशन का ध्यान इस स्रोर जाए । सरकार का यह देखना कर्त्तव्य है कि हिन्दुस्तान का हर बालिग जो कि बोट देने का ऋधिकार रखता है. उसका नाम बोटर लिस्ट में दर्ज हो । ग्रगर सरकार की लापरवाही से कोई गडबड़ी की जाती हो तो भी उसको बोट दें। में कोई बाधा उत्पन्न न हो, इस ढंग की कानन में कोई व्यवस्था की जानी चाहिये। में चाहता हं कि ला कमिशन रिप्रिजेंटेशन श्राफ पीपल्ज एक्ट पर विचार करे ग्रगर ग्रवने ग्राप उसने विचार नहीं चरना है. तो विशेष तीर पर मेरे सुझावों पर विचार करे और इसको एंडि करते वक्त इन सब बातों का रूतल रखे।

श्रव में कंटैम्पट श्राफ कोर्ट के बारे में कुछ, कहना चाहना हूं। एक माननीय सदस्य श्रापका इस ग्रोर ध्यान खींच चुके हैं। मृझ भी कुछ, कंटैम्प श्राफ कोर्ट के केशिस का अनुभव है श्रीर मैंने देखा है कि श्रीर बातों के साथ साथ एक बात की बड़ी गड़बड़ी होती है। वहां का जो प्रिजाइडिंग श्राफिसर होता है उसकी डामिनेटि ड पोजीशन होती है श्रीर कभी कभी उसका जो कंडक्ट होता है बहुत ही फ्लैगेंट होता है श्रीर लोगों के प्रति उसका व्यवहार श्रच्छा नहीं होता है। एसी हालत में श्रगर लोगों की श्रीर से

कुछ गड़बड़ी हो तो उनको कंटैम्पट ग्राफ कोर्ट की जह में वह ला सकता है। भ्रगर उसका कंडक्ट फ्लैग्रेंट हो दूसरे की बेइज्जाती करने वाला हो तो वह चीज कंटैम्पट श्राफ दी कोर्ट में त्राती है या नहीं स्राती है, में समझता हं इस बारे में काननी पोजीशन साफ नहीं है। ला कमिशन की ग्रोर से जो इस बारे नें रिपोर्ट होने वाली है उसमें इस बात का खयाल किया जाना चाहिये कि कोर्ट की जो डिगनिटी है, उस डिगनिटी को मेंटेन करने के लिए अगर प्रिजाइडिंग स्राफिसर का कंडवट फ्लैग्रेट हो, उसका एटोशरा कंडक्ट हो और उसकी वजह से ग्रगर बीच ग्राफ पीस की स्थिति पैदा हो तो वह भी उतना ही दण्डनीय हो जितना कि कोई दुसरा आदमा हो सकता है।

हाल के ग्राम चुनावों के सिलमिले में मैं एक श्रीर बात कहना चाहना हूं। सरकार का कानन है कि एक लोक सभा कैंडाडेट इलैक्शन पर पच्चीस हजार से ज्यादा रुवया खर्च नहीं कर सकता है। लेकिन कितने ही क्षेत्रों मे पचास पचास हजार श्रीर एक एक लाख रूपया या इसमें भी ग्रविक खर्च किया गया है श्रीर यह चीज सिर्फ ग्रांख से देखने मात्र से ही पता चल सकती थी । ग्राज शायद कानन में कोई इस तरह की व्यवस्था नहीं है कि ग्रान दी स्पाट किसी को पकड़ा जा सके ग्रौर उससे पूछा जा सके कि क्यों इस तरह से खर्चदारी हो रही है. क्यों इस लिमिट से बाहर जा कर कोई खर्च कर रहा है भ्रौर उसको वहीं पर दंडित किया जा सके। मैं चाहता हूं कि इस तरह से उसको दंडित करने की व्यवस्था कानन में होनी चाहिये। मुझे रिपोर्ट मिली है कि हिन्द्स्तान के प्रधान मंत्री की कंस्टिट्युएंसी में तथा कानून मंत्री की कस्टिट्यएसी में कई अनियमिततायें बरती गई है। मैं अपनी कंस्टिट्युएंसी की ही बात ग्रापको बतलाता हं कि मेरे खिलाफ एक उपमंत्री खडा हम्रा था भीर लाख रुपय से नेशी उसने खर्च किया और उसकी कितनी ही मोटरें चल रही थी, चार चार चल रही थीं। प्राइम मिनिस्टर की कंस्टिट्युएंसी में मैं

सूना है कि हिन्तुस्तान के बड़े बड़े कांट्रेक्टर यैलियां ले कर खड़े हुए थे। यह भी मेरे सूनने में ग्राया है कि ला मिनिस्टर की कंस्टिट्यु-एंसी में कांट्रक्टर थैलियां ले कर खड़े थे भीर वहां जो मोटरें चलती थीं उनका कोई ठिकाना नहीं था। सिर्फ ग्रांखों से देखने से मालम हो सकता था कि कितने बड़े पैमाने पर कैम्पेन को चलाया जा रहा है। ग्रगर इस तरह की बातें लोगों की नजर में ग्रायें जो कि कानन के खिलाफ हो और खास तौर पर उनके क्षेत्रों में हों जो कि सरकार को चलाने बाले स्रादमी हैं तो कैसे यह जनतन्त्र ग्रागे चल सकता है, यह श्रापके सोचने श्रीर समझने की बात है। इयालिए मैं चाहता हूं कि कोई इस तरह का कानुन बने, चाहे गवर्नमेंट के जरिय या इलैक्शन कमिशन के जरिये जिससे कि ग्रान दी वेरी स्पाट ऐसे कैंडीडेटस को दंडित किया जा सके ग्रीर उनको चुनाव लड़ने से डिबार किया जासके।

एक बात यह भी मैं कहना चाहता हूं कि स्राजकल जितने भी एक्ट्स या बिल्ज बनते हैं वे पहले अंग्रेजी में तैयार होते है । मेरा सुझाव यह है कि पहले उनको श्रंग्रेजी में तैयार न करके, राप्ट भाषा में तैयार किया जाए स्रीर फिर उनके ट्रांस्लेशन दूसरी भाषात्रों में करवाये जाये। मै चाहता हं कि इसका कोई इंतजाम श्रापकी तरफ से किया जाना चाहिये।

मैं समझता हं कि जनतंत्र को सफल करने के लिए ग्राज जो कानून का ढर्रा है, शासन का ढर्रा है, इसको बदलने की जरूरत है। इसको बदलने के लिए तीन नीति को कारगर करने की जरूरत है। मैं जानता हं कि कान्न बनाने के लिए सजैशन देने का श्रधिकार ला डिपार्टमैंट को भी है। ला डिपार्टमैंट की तरफ से ऐसा सर्ज शन किया जाए जो मेरे सुझाव तीन नीति कार्यक्रम के अनुरूप हो। समुचे प्रशासन का जो काम चलता है, चाहेवह विकास का काम हो भौर चाहे शासन सम्बन्धी काम हो, वह सभी इस तीन नीति के म्राघार पर होना

चाहिये। इन तीन नीतियों में एक नीति तो दाम के बारे में है, दूसरी भाषा के बारे में है श्रौर तीसरी जात के बारे में है शासन यंत्र का सोशल कम्पोजीशन कैसा होना चाहिये इसके वारे में है। इस सम्बन्ध में संक्षेप में मुझे यह कहना है कि अगर हिन्द्स्तान की जनता को ग्रपने पैरों पर ग्रापको खडा करना है, ग्रौर देश का विकास उसके जरिये करवाना है. तो इन तीन नीतियों को शासन का स्राधार बनाना वहत जरूरी है। सब से पहले में जाति नीति पर कुछ कहना चाहता हूं। ग्राज जो शासन चल रहा है ग्रीर जो स्थिति है, वह यह है कि शासन ऐसे लोगों के जरिये चल रहा है जो लोग की शासन के काम को बहुत पूराने जमाने से चलाते श्रा रहे हैं। हिन्दू शासन के जमाने से लेकर श्रब तक यही लोग शासन को चलाते श्रा रहे हैं। हिन्दू जमाने में समाज दो टुकड़े में बंट गया था । एक बड़े लोग थे ग्रौर दूसरे छोटे लोग । शासन ग्रौर शोषण का उनका पूराना यन्भव है ग्रीर वहीं ग्रन्भव ग्राज भी उनका पीछा नहीं छोड रहा है। इसलिए यह जरूरी है कि शासन में ऐसे लोगों को स्नाना चाहिये जो पिछडी समाज के ब्रादमी हैं। इस पिछडी समाज में मैं, स्त्रियों को रखता हं, हरिजनों को रखता हूं, भ्रादिवासियों को रखता हूं, पिछड़े हुए क्रिश्चियनों को रखता हं, श्रौर मसलमानों में श्रनसार, धुनिया इत्यादि को रखता हूं । इन लोगों को बासन में ६० प्रतिशत से कम नहीं लेना चाहिये। ऐसा होने से म्राज जो शासन का तरीका है म्रीर यांजना का भी जो तरीका है वह तरीका एकदम वदल जायेगा । स्राज मझे ऐसा देखने में ब्राता है कि जो कुछ भी सरकारी कार्रवाई हो रही है, उस कार्रवाई में जो हिन्द्स्तान का जो वास्तविक हिन्दस्तान है, हिन्दुस्तान का जो गांव है, उस की ग्रोर ध्यान नहीं दिया जाता है, उस के स्वार्थ को पायोरिटी नहीं दी जाती है। उस के स्वार्थ को प्रायोरिटी देने के लिये यह इस नीति को सफल करना

जरूरी है। इस लिये में चाहता हूं कि इस तरह की जाति नीति यह सरकार ग्रपनाये।

for Grants

इस के बाद में भाषा के बारे में भी कहना चाहता हूं कि भ्रं ग्रेजों ने भ्रपने जमाने में ऐडमिनिस्ट्रेशन को सम्भालने के लिये ग्रौर श्रपनी सहलियत के लिये ग्रंग्रेज़ी को चलाया था । स्राज जब हिन्द्स्तान के लोगों का हिन्दुस्तानी राज्य है तो उस में जो देश की भाषा है उस में ही सब राजकाज चलना चाहिये ताकि यहां के लोग उस को समझ सकें।

इसी तरह से जो दाम की पालिसी है उस में भी मैं समझता हूं कि बहुत ध्यान देने की श्रावश्यकता है। प्राइस के लिये बहुत सी बातें कही जाती हैं, लेकिन उस सिलसिले में मैं कहना चाहता हं कि तीन बातों को करने की ग्रावश्यकता है। एक यह कि किसान की जो फसल है उस फसल का दाम इस ढंग से तय करना चाहिये कि उस में जो लागत खर्च पडता है उस पर कुछ, मनाफा जोड कर दाम उस को मिले। इसी तरह से जो श्रागेनाइज्ड इंडस्ट्रीज हैं उस का दाम भी तय करने में यह ध्यान रक्खा जाय कि उस की जो लागत खर्च हो उस के डेढ़ गुने से ज्यादा दाम किसी चीज का नहीं होने पाये, ग्रीर तीसरे यह कि दोनों तरह की चीजों के दाम में सन्तूलन कायम किया जाय । मैं चाहता हं कि इस तरह का कोई कानुन ला कमिशन की तरफ से स्राये।

श्री क्यामलाल सराफ: जनाव, मै ग्रर्ज करूं कि एक ग्रानरेवल मेम्बर ने कुछ बातें कहीं कार ीर राज्य के बारे में । इत्तफाक से वहां उस पार्टी की गवर्नमेंट है जिस ने मझे यहां भेजा है। एलेक्शन के बारे में हकीकत यह है कि जैसे हिन्द्स्तान की ग्रौर जगहों पर एलेक्शन कमीशन का जूरिस्डिक्शन है उसी तरह से वहां पर भी है ग्रौर उन्हीं के हाथ में एलेक्शन का सारा काम था । उन्होंने फरमाया कि वहां सरकार की तरफ से बाक्सेज दिये गये,

उन में यह नुक्स था, वह नुक्स था, ऐसा ग्रखबारों में खपा। इस में हकीकत यह है कि उस में न किसी सरकार का हाथ था ग्रौर न किसी पार्टी का हाथ था। ग्रसलियत यह है कि वह बाक्सेज एलेक्शन कमिशन के जरिये से म्रान्ध से भेजे गये थे ग्रौर उन की ग्रपनी ग्रथारिटी से थे। किसी ग्रौर के हाथ में नहीं थे। तब तक न कोई एलेक्शन हो चुका था ग्रौर न एलेक्शन की पर्चियां बांटी गई थीं। ग्रगर किसी के हाथ में बोट था, तो वह कैसे आ गया, इस के बारे में यह तो नहीं कहा जा सकता कि वहां की गवर्नमेंट ने उन को दे दिया।

श्री शिवमृति स्वामी (कोप्पल) : उपाध्यक्ष महोदय, कानूनी शासन के बारे में बहुत कुछ कहा जा सकता है। एक हिन्दुस्तानी को या यहां के सिटिजन को न्याय हासिल करने के लिये जो जो तकली फें पेश ब्राती हैं, उन के बारे में इस भवन में बहत से हमारे भाइयों ने बतलाया है। मैं इस के बारे में प्रया १० मिनटों में ग्रपने सुझाव रखना चाहता हं।

पंचायती कोर्ट स स्थापित करने के बारे में जो सोचा जाता है उस के लिये मैं समझता हं कि शासन को जो न्याय देने के हुकूक हैं, जो उस के कानन हैं उन को सिर्फ पंचायतों के हाथ में नहीं देना चाहिये। इस के बजाये एक एक ताल्लुका में जो दो या तीन रेवन्य विलेजज होते हैं वहां पर जो एक एक वकील या कानन को चलाने वाले होते हैं, उन के हाथ में देना चाहिये। इसी तरह से जो ट्रिंग कोर्ट स होते हैं वह सफर किया करें ग्रीर हर मवाजियात में जा कर न्यायालय की तरह से जांच कर सकते हैं।

दूसरी बात यह है कि आज भारतवर्ष में हम सोशलिज्म की तरफ जा रहे हैं । लेकिन भाज जो गरीब और पिछड़ा हम्रा वर्ग है भौरतों का उस को कानन से अपने हकक हासिल करने में जो तकलीफ हुन्ना करती है, उस को धनभव से ही जाना जा सकता है। मैं जानता

हूं कि एक बहुत बड़े घराने की भौरत, १०० एकड़ जमीन की मालिक होते हुए भी, उस को न्याय हासिल करने में इतनी तकलीफ होती है जिस का ठिकाना नहीं है। मुझे मालुम है कि उस ग्रौरत को न्याय हासिल करने के लिये परसों गवर्नमेंट को एक मर्सी पैटीशन दाखिल करनी पड़ी क्योंकि मैसूर स्टेट में कोर्ट फीस इतनी बढ़ी हुई है कि ७ या ७।। परसेन्ट तक हो जाती है। एक श्रौरत को न्याय हासिन करने के लिये ग्रपनी हजारों की ग्रामदनी इस कोर्ट फीस में लगानी होती है। उस श्रीरत को ग्रपना शेग्रर हासिल करने के लिये. जो कि ५० परसेन्ट हो सकता है, ४० परसेन्ट हो सकता है, ३० परसेन्ट हो सकता है, श्रदालत तक जाने में तमाम मश्किलों का सामना करना पड़ता है । वहां से न्याय हासिल कर पाने से कासिर रहते हुए इस कानन के मातहत पंचों के पीछे पड कर भ्रपने हिस्से की मांग करने के लिये उसे बेइज्जती का तरीका ग्रपनाना पडता है। इस से बचने के लिये म्रगर वह मर्सी पैटीशन देने जाती है तो भी बड़े ग्रफसोस से कहना पडता है कि उस का काम नहीं हो पाता है । इस तरह से मैं किसी एक इन्डिविज्ञल केस की ताईद नहीं कर रहा हं। मैं तो सिर्फ यह कहना चाहता हं कि हिन्दुस्तान के कानून में यह दोष है कि उन को न्याय हासिल नहीं हो पाता है। श्राज १०००, २०००, ५००० या १०,००० रु० फीस दाखिल करके जजमेंट की कापी हासिल करना एक मामूली स्रादमी या एक स्रसहाय ग्रीरत की ताकत के बाहर की बात है।

मैं ला कमिशन के बारे में इतना बतलाना चाहता हूं कि

"That less administered country is the best administered country."

जिस मुल्क में जितने कम कानून होंगे वह उतना ही बहतर समझा जाता है । लेकिन हम श्रपने भारतवर्ष में इतनीं तेजी से कानन बन। रहे हैं कि शा**यद**ेंही कोई वकील उन सब को याद रहा सकता होगा। इस लिय जो जो बेकार MAY 29, 1962

[श्री शिमुर्ति स्यामी]

के कानून हैं, या जो हमारी बुनियादी भ्राजादी को एनकोच करने वाले कानून हैं उन्हें खत्म कर के जो बहुत भ्रावश्यक कानून हों उन को ही कायम रखा जाये।

इस के बाद मैं एलेक्शन के बारे में ग्रौर एलेक्शन कमिशन के बारे में चन्द सुझाव रखना चाहता हूं । स्राप जानने हैं कि इस मुल्क में पोलिटिकल पार्टीज हैं । मैं पोलिटिकल पार्टीज के खिताफ नहीं हूं । लेकिन सरकार या लोक सभा में पक्ष की दिष्ट से देखा जाना या पक्ष की दृष्टि से वोट्स की मांग करना यह हुकुमत करने के उनूलों भे विलाफ जरूर है। इसी लिये महारम जी ने पार्टीलैन डिमोकेसी के उनुल को रखाथा। हमें इस को जांच करनी चाहिये स्रीर ला कमिशन के पाल कोई कारण नहीं होना चाहिये जिस से कि वह पीनिटिकल पार्टीज को रिकम्नाइज करे और उन के तिये एक एक सिम्बल किक्स करे। ऐसा करते से जो दूसरे इन्डिपेन्डेन्ट लोग हैं या जो दूसरे कारकृत है उन का एलेक्सन लड़ो में बड़ी मरिकलात का सामना करना होता है। सिम्बल को किश्स कर देने ने मल्क के अन्दर पार्टियों की ग्टबन्दी चलती है और वह नैजन र इंटेब्रेशन के खिलाफ भी पड़ता है। म समझता हं कि मुक्क में इस तरह की चीज कभी नहीं हो सकेगी। ,एक पार्टी दूसरी पार्टी के खिलाफ स्रावाज उठा कर श्रीर बहुमों में पड़ कर पार्टियों की विभिन्नना पैदा करती है ग्रौर मत्क उस से सकर करता है। अगर इस तरह से चत्रता रहा तो एक दिन प्रायेगा कि पार्टियां ग्रापस में लड़ कर इस मुक्त ने जो आजादी हासिल की है उस को सम्भात नहीं पायेंगी । इस लिये हम को यहा पर एक नैशनल गवर्तमेंट का वाता-वरण ही कायम रखना चाहिये। पार्टियां इस हाउस के बाहर रह सकती हैं । पार्टियों के हुकूक को जिस तरह से हमारे संविधान में नहीं माना गया है उसी तरह से हम को भी नहीं मानना चाहिये। इस पार्टी सिस्टम के वजुद में होने के बावजद मैं एलेक्शन कमिशन को बधाई देना

चाहता हूं कि उन्होंने किस खुबी से एलेक्शन को कंडक्ट किया है। इस के बारे में तो शायद ही कोई यहां पर शिकायत कर सके । फिर भी मैं चन्द सुझाव उस के कंसिडरेशन के लिये रखना चाहता हूं। जब भी एलेक्शन कमिशन को कोई पालिसी चाक ग्राउट करनी हो तो वह कम से कम एंडेक्शन के एक या दो साल पहले करना चाहिये । यह नहीं होना चाहिये कि जब एलेक्शन के एक या दो महीने रह जायें उस वक्त एलेक्शन कमिशन उस को शुरू करे । ऐसा नहीं होता चाहिये कि कुछ दिन पहले किसी पार्टी को रिकम्नाइज न कर के वह फी सिम्बल रखे लेकिन एठेक्शन के दिन मालम हो कि वह फी सिम्बल नहीं है और उस को फनां पार्टी को अलाट कर दिया गया है। इस तरह के प्रेसनोट देखने में प्रान हैं। मैं उन के खिताफ हं। मैं एंडेक्सन कमिशन को मंत्री महोदय के द्वारा इतला देन चाहता है कि बह इस बात का खयान रखे कि जो भी पानिसी उस को बनानी हो वह उस की वह एडेक्शन से कम से कम दो साज पर है बना ले । एडेक्शन के नजदीक कोई नई पालिसी न बनाई जाये।

में एक दूसरी बात श्रापक लामने रखता चाहता हूं । याप जानते हैं कि इस मुल्क में सेंटोमेंट रखते वाले लाग हैं । कांग्रेस के लिए जो बैल की जोड़ी का सिम्बल फिक्स कर दिया गया है उसके कारण बहुत से लोग बहकावे में स्राकर बैलों की जोड़ी के कारण कांग्रेस को बोट दे देते हैं। तकरीयन २० पर सेंट बोट तो इस सिन्यन के कारण ही दिये गये हैं। मेरा मुझाव है कि या तो इस बैल की जोड़ी के सिम्बल को रोटेशन में फिक्स किया जाये या इसको सिम्बल्स की लिस्ट से निकाल दिया जाये । मेरा निवेदन है कि लोग समझते हैं कि वैल हमारी खेती करता है इसलिए उसको बोट देना चाहिए । भ्रापन करप्ट प्रैक्टिसेज मे यह रखा है कि किसी के रिलीजस सेंटीमेंट को न उभारा जाये श्रौर ग्रगर ऐसा किया जायेगा तो वह करप्ट प्रैक्टिस

होगी । करनाटक में बैलों की पूजा होती है श्रौर में समझता हूं कि विहार में श्रौर दूसरे राज्यों मे भी होती होगी । इसलिए मेरा निवेदन है कि यह जो बैलों का सिम्बल कांग्रेस के लिए रिजर्व कर दिया गया है इसको खत्म कर दिया जाये।

श्री द्वा॰ ना॰ तिवारी: पूजा तो पेड की भी करते हैं लेकिन उसके लिए कोई वोट तो नहीं मांगता ।

श्री शिवमृति स्वामी : लेकिन वैल की शक्ल दिखा कर तो बोट लिये जाते हैं।

पोलीटिकल पाटीज का इलेक्शन के करीब रिकासनीयन करने के कारण जो गलतियां हाती ह उनका उदाहरण देने के लिए में एक ट्राइब्नल के जजभेंट से चन्द लाइने पढ़ कर गुनावा चाहता है। यह इस प्रकार है

"Then the petitioner received a telegraphic reply as per Ex. P. 105, dated 7th February 1957 that symbol "Cart" would be allotted to him and that he might apply immediately. From this correspondence, it is clear that the symbol of "Cart" could have been given to the Petitioner and his party members at the ver outset even. As none of the officers concerned in the matter has been examined it is not possible to find out who was responsible for this bungle. At any rate, I am inclined to believe that this affected the Petitioner's election prospects to some extent."

श्रन्त में मैं कहना चाहता हूं कि सिम्बल प्रदान करने की नीति ऐसी होनी चाहिए कि उससे किसी पार्टी को हानि न पहुंचे । मैं अपनी पार्टी का उदाहरण देना चाहता हूं कि जब हम ने दरखास्त दी तो पक्षातीत दृष्टि से कल्टीवेटर विनोइंग ग्रेन का सिम्बल दिया गया । इस सिम्बल का विकास महात्मा गांधी के सेकेटरी निर्मल घोष ने किया था । इसी सिम्बल को लेकर चुनाव लड़ कर पांच ग्रादमी एम० एल०

ए० हए ग्रौर एक एम० पी० हम्रा । उसके बाद इलेक्शन के २५-३० दिन पहले प्रेस स्टेटमेंट निकाल दिया गया कि लोक सेवक संघ का रिकागनीशन विदड्डा किया जाता है। इसका कारण मुझे मालूम नहीं । मैं भी लोक सेवक संघ से चन कर भ्राया था। इसी पार्टी से पांच श्रादमी एम० एउ० ए० चुने गये श्रोर एक एम० पी० चना गया श्रीर करनाटक में इसी पार्टी के नाम पर सत्याग्रह करके ४०-५० म्रादमी जेल गये । इतनी एक्टिव यह पार्टी करनाटक में थीं जिसका रिकागनीशन विदड़ा कर दिया । यही एक पार्टी करनाटक में कांग्रेस के खिलाफ था। इसके लिए मैं इलेक्शन कमीशन को दोष नहीं देता लेकिन इसमे उनका मैशिनरी का दाप है जिसने गलत रिपोर्ट दा । उनको दूसरे चुनाव तक ठहरना चाहिए था ग्रांर ग्रगर तीन या चार पर सेंट वाट न आं। तो रिकागनीशन विदड़ा कर लेते ।

श्री सिंहासन सिंह (गोरखपुर): उपाध्यक्ष महोदय, माननीय मंत्री ने जो इलेक्शन ला में पिछुठे सदन में धारां १२५ का निर्माण किया था उसका उद्देश्य देश में एकता। कायम रखों का था नाकि जानि बाद और धर्म बाद के जो उस समय नारे लग रहे थे वे चुनाव में न ग्रा जायें। शायद सरकार का यह विचार हो रहा था कि कम्युनल स्नारगेनाइजेशन्स को रोका जाये। इन उद्देश्य से ही दफा १२५ का निर्माण किया गया था । उसमें कहा

Promoting enmity between classes in connection with election. Any person who in connection with an election this Act promotes or attempts to promote on grounds of religion, race, caste, community guage, feelings of enmity or hatred between different classes of the citizens of India shall be punishable with imprisonment for a term which may extend to three years, or with fine, or with both'. इन बातों के लिए ग्राई० पी० सी० की दफा ३५३ में दो वर्ष की सजा की व्यवस्था है।

[श्री सिंहासन सिंह]

लेकिन इस में भ्रापने इन बातों दें लिए तीन साल की सजा रखी है, इसी ग्रभिप्राय से कि इन चीजों को रोका जाये।

इस सदन में भी यह प्रश्न उठाया गया था कि कुछ पार्टियों ने धर्म के नाम पर और जाति के नाम पर प्रचार किया और पोस्टर निकाले ग्रौर नोटिस निकाले । उनका संकलन कर रही थी इस विचार से कि क्या कदम उठाया जाये। यह दफा बनायी ही इस विचार से गयी थी कि ऐसी बातों की रोक थाम हो । लेकिन रोकथाम न करः इसका दूरुपयोग हुन्ना न्नौर शायद सारे देश में एक जगह भी ऐसी पार्टियों या व्यक्ति विशेष पर मकदमे नहीं चलाये गये जिन्होंने इस प्रकार का प्रचार करने बोट मांगे। भ्रापने इसलिए कानन बनाया कि देश में जाति वाने भ्रौर धर्मवाद की भावना न फैलने पाये श्रौर देश में राष्ट्रीय भावना रहे । लेकिन ग्रापन इस कानून में पुलिस को मुकदमा चलाने का भ्रधिकार नहीं दिया । परिणाम यह हुन्ना कि कहीं भी मुकदमा नहीं चला । ग्रगर प्रतिद्वन्द्वी म कदमा दायर करता है तो उसं∴ खिलाफ कहा जाता है कि यह प्रचार नहीं करन देता ।

Shri A. K. Sen: Mr. Deputy-Speaker, Sir, I have listened with very great interest to the various speakers representing all the Groups and Parties here taking part in this discussion, and I am glad to say that I am happy to notice a large area of agreement. As we find every year, so far as the Demands of this Ministry are concerned, we do not exactly expect a polarised attitude, and it shows how deeply this country and this House feel about a proper legal system serving the needs of a growing society and yet preserving the essential of freedom which our Constitution guarantees. And I apprehend that all the speakers who have spoken with different strains have really been motivated by these larger considerations.

While taking the points that have been raised, may I take the important points leaving out the details and try to say something which will express not only my own personal point of view but, I concive the point of view of the people regarding these matters?

Let us take the question of legal aid, raised by Shri P. K. Deo. I do not think there is any controversy over the subject. And we have during the last five years also gone ahead in formulating a scheme which might be of general application. It will be remembered that so far as the Scheduled Tribes and the Scheduled Castes are concerned, the Central Government already bear fifty per cent of the costs of litigation. It has been said occasionally, "Is it presumed that every member of the Scheduled Castes is a pauper. Or every members of the Scheduled Tribes is a pauper? Is it presumed that every member of the non-Sceduled Castes or non-Scheduled Tribes is not a pauper? I am afraid that that argument has certain substance, because we cannot cut across different groups and yarddetermine, on the stick of whether a litigant is a member of the Scheduled Caste or not, the question of eligibility of legal aid that is to be made available to him. Poverty does not follow the lines of division of Scheduled Castes or Scheduled Tribes. It is not certainly beyond our experience that there are individual members of Scheduled Castes who are much richer possibly than individuals of other castes. But the wider consideration of bringing the fruits of free Government to the door of certain castes who have been more less deprived of the benefit of a just society for a long time was felt paramount that in such cases, not only in regard to legal aid but also in facilities gard to educational various other matters, we have, and large, followed the division Castes and Scheduled Scheduled Tribes in the matter of making available to them just assistance. I think, in the larger interests of the country, these considerations have

Demands

properly, and brought justice to these people who were oppressed for a long time and who are just coming realise their importance. The question of making legal aid available to poorer sections of other communities is, as I said, not a matter which controverial at all. We are all agreed about it. But, the question is, where are the funds? In the last Law Ministers' conference to which reference was rightly made by several speakers, we did approve of a scheme, but was resolved that the Centre should find 50 per cent of the funds necessary. 16 hrs.

The demands on Central assistance for many areas and for many purposes are so great that, unfortunately, I must confess I have not succeeded in making the Central Government agree to treat legal aid to the poor on the same leval of urgency as matters. It is no secret and I admit that possibly a power house or irrigation dam or a steel factory would assume a much more important place in our sale of priorities than matters like legal aid. I hope that it will be possible before long to find the resources not only from the Centre but also from the States to enable a proper scheme of legal aid to worked out as in other countries like England where the scheme now operation has been remarkably cessful.

The next question raised by Shri P. K. Deo is a larger question, namely, that of no appointment of Judges to executive or administrative posts. Shri Frank Anthony joined him that. I think all of us feel that our Judges occupy a special position cause in this country, we have come to regard the institution of free courts as an essential element in our Constitution, without which many of features of our Constitution will fall to pieces. We, therefore, always like to keep our Judges away from the field of controversy, and all administrative posts naturally bring the holders into the arena of controversy. There is no doubt about that. By and large, I do

not think tthere will be much disagree. ment amongst us on this proposition that Judges should not normally be appointed to administrative posts. But, as will readily be conceded, there are many posts to which Judges should rightly be appointed. Take our Election tribunals which should be entrusted to adjudge disputes in which important persons are involved-let us say, Ministers are involved. It has been our practice to appoint ex-High Court Judges to abjudicate on these disputes. Naturally, this is a where ex-Judges would admirably fit it. Those who have had no judicial experience would not at all be a happy choice for doing this particular work. let us take the work of the Commission. Here would be a field where our Judges would be suited for the purpose of not only guiding the work, but also for the purpose of to bear bringing their experience, talent and wisdom, need not elaborate all the fields which would be of a similar nature, where our Judges, by reason of their training, temperament, education and various other qualities, would be admirably suited for the purpose of performing the task assigned to these bodies, diverse tribunals. commissions and so on. I do not think anybody dispute that our Judges should be appointed there.

[Sor Mulchand Dube in the Chair]

But, as I said, I am very sorry, taking notice of a few lapses here and there, we tend to indulge in generalisations that might possible create an impression that our judiciary has really come to a state of disgrace or that they have fallen low in their standards. I am sure it has not been eiher the intention of Shri Anthony or other hon. Members who given expression to views on these lines, to create such an impression in the public mind that our judiciary has deteriorated. Lapses there would be anywhere. I think we shall be doing the gratest disservice not only to ourselves, but also to the country if we allow our respect for the judiciary our confidence in the

[Shri A. K. Sen]

judiciary to wane at all. I am a firm believer in the majesty of the court. I do not acknowledge the accusation of Shri Frank Anthony hat we have been pillorying our Judges, Judges are also not above criticism in matters in which criticism would be appropriate. But, it would be very unfair to accuse either the Prime Minister or any of his colleagues or myself. Shri Frank Anthony will agree with me that, on the floor of the House, every year, I have defended the Judges. I have said that I have been a proud member of the bar who hae always admired our judiciary. I personnally feel that our Judges have set a standard which is still to be reached by many other countries. Whenever our Constitution has come to test any where in India whether in times of crises or emergency our Judges have risen the occasion. That shows that have been drawing good elements. But who can guarantee every one woud be a gem? Even if Shri Frank Anthony were to make a selection he cannot guarantee selection of undiluted gems always, especially in a field where the future can be only tested by guess work, by current performance. It is true that there have been cases where, as he says, people have been appointed to High Court in preference to others who have, possibly, enjoyed, in terms of money or busy work, a heavier would like him Ι practice. single instmention а to selections have ance where such been made by the Government. Not a single instance can be given. I have been here for the last six years. The case that he referred to the case coming from Patna, referred to a person selected by the Chief Justice The Chief Justice took exception and hauled up the person making the accusation for contempt. The accusation was not that the Government had appointed them, but that the Chief Justice had appointed the people who had no practice. I think it is most unfortunate to make any such accusation even if that be a fact, because it brings down the High Court. From

my own limited experience, I can say—and there are others who are coming from other High Courts; Shri Frank Anthony himself is an emient member of the Bar, and he will bear me out when I say—that it is not always the man who had the heaviest practice who proves the most successful judge.

Shri Frank Anthony: But they must have some practice.

Shri A. K. Sen: That is a different matter. But to say that the having the heaviest practice always be the most successful judge is a mistake. I have seen that it is not so. From my own limited experience, I can say-I do not want to mention names-we have had judges who have turned out into fine judges, who when they were in practice were not thought so much of, but raised to the Bench, their talents really blossomed and they made their mark It is not, therefore. always right to make such generalised accusations which create an impression that our judiciary has come to a state when the public have lost confidence in it.

Many of the things that Shri Frank Anthony has been expressing on the floor of this House year in and year out have evoked complete accord, so far as I am concerned, because I personally think that ours should be a very solid society to live in. If our fundamental rights had come nought if we found that it impossible to enforce the great rights which not only our Constitution but our laws provide for us and were judges who were, only on considerations of expediency or expedition, loath to attend to cases where a challenge against individuals' rights was involved, then it would be a sorry state of affairs. And there the great role of the courts comes in. have to play their role rightly and truly as the guardian of our Constitution. I shall be very sorry myself if ever a citizen finds the door of the court barred against him only on the

ground that there are too many cases with which the court is bothered and, therefore his would be possibly one of the too many. I am sure that that is neither the intention of the judges themselves nor of those who administer our courts. But, nevertheless, certain things have happened, when possibly we have started to emphasise the role of speed more than it should be. After all, when a man comes to the Supreme Court, which is the last court of appeal, it is not always the speed which should determine the value of the justice that he gets. There is the quality of the justice too which will impress upon the public mind, and it is, therefore, absolutely necessary that the man who comes to the last court of appeal does not find that the procedure is such that speed has assumed a more paramount and important role, and the needs of the individuals have been relegated to the background.

On the question, therefore, of the imposition of a condition of furnishing security of Rs. 2000 by any person who comes up to the Supreme Court to make an application under article 32. I expressed my own concern last year, when Shri Frank Anthony raised it. I took it up with the Chief Justice, and told him that we were ourselves reluctant to pass a law here telling the Supreme Court how to try its own cases. Well, we have allowed them under the Constitution the right to frame rules, subject, of course, to the paramount authority of Parliament. I do know if I have been able to convince the Chief Justice, but it appears that that condition has still not removed. It will be for Parliament to decide in the future whether this is a matter which would iustify interference by Parliament, and whether Parliament would think it wise to impose a rule of procedure on the Supreme Court or not. I hope that such a course would not be necessary, because, as I have always said here, and I have found complete un-

animity on this, we should not interfere with our courts in the matters of procedure and similar things, except by employing the method of persuasion to express our own points view as citizens. Because Parliament has a certain super-riding authority which would be binding on our courts, and because it is endowed with these great powers it should exercise those powers with restraint. especially when those powers concern our courts. It is in the measure that we observe this restraint that the dignity Parliament particularly in the field of its relations with our law would endure.

I, therefore, hope that it will not be necessary for Parliament to interfere in this matter and that whatever impediments there are at the present moment, which appear to be genuine, would be attended to by the Supreme Court itself.

The next point raised by Shri P. K. Deo and various others—I do not want to mention the names of each individual speaker—is about our election laws. I was surprised when he made this bold statement that our election law should be changed, and he has said that everyone was agreed. I must say that he is very free with his inferences and assumptions.

Shri P. K. Deo: I am very optimistic.

Shri A. K. Sen: To say that everyone was agreed that our election law should be changed was a very bold assertion, because if everyone was agreed upon one point in this House and outside, it is this that our election laws have set a standard for the rest of the world, and if any machinery has worked well and impartially, it has been our elections have been held, from time to time,

[Shri A. K. Sen]

some amendments have been made in our election law. All the amendments have been made after consultation with the representatives of the different parties, and then Parliament had ample scope for expressing its point of view, and never have we carried any amendment to our election law simply by using our majority. Shri P. K. Deo may say that we have used our brute majority. But what is brute majority? What is a majority which is not brute, is very difficult to define. Majority there must be for a decision. Bruteness comes when the other side is stifled from speaking. I do not think that Shri P. K. Deo has ever been stifled. On the countrary, I think he has enjoyed, and I have always been glad to hear him—the largest measure of freedom, not only in regard to his comments on our election law but in regard to his comments on every law.

One branch on which many speakers have dwelt on is the question of election expenses. The Election Commissioner in his report on the second general elections had said that this formality of filing election returns should be dispensed with because he felt that nobody possibly, in the ultimate analysis, furnished a correct return, and thefore, by imposing this condition, one was possibly putting a premium on filing incorrect return. Government felt that if they had acceded to this demand Shri P. K. Deo and other possibly supporting would have been the very first to say 'Look at the wretched Congress Government; they have removed this necessity of filing election returns, so that they can spend as much money as they want on the elections'. I am not prepared to believe that Shri P. K. Deo's party has not been spending....

Shri P. K. Deo: It is much less than what the Congress Party has pent.

An Hon. Member: They are insisting

because then they will be able to come back on the strength of money.

The Minister of Parliamentary Affairs (Shri Satya Narayan Sinha): They have exceed the limit in any case.

Shri A. K. Sen: I shall be very glad to be convinced that Shri P. K. Deo's party has kept to the limit fixed by law, I am open to conviction in this matter, as in all others. Thereore, if the blame is to be foisted I do not think that it should be foisted only on one head. As I said, every party spends, and it is very difficult to abolish party expenditure on individuals. Some parties show their expenditure and openly proclaim them; others do not. There is no law which can compel a party to disclose its own expenditure because that law again will possibly involve incorrect declarations. The Chief Minister of Orissa was quoted. I am glad that he made such a declaration which shows the forthrightness and the candour with which he disclosed the election expenses of the Congres Party in Orissa. Far from criticising it, I should have welcomed it as one to be followed as a matter of candour by other parties.

Shri P. K. Deo: That would invalidate the entire election.

Shri A. K. Sen: Party expenditure would not do that. You remember the great debate held on the floor of this House. It is only individual expenditure that matters. Party expenditure is a continuous factor. A party in a democracy works only or election. After all, ultimately, it is only an election machinery because a party in a country like ours works for capturning power and without power it cannot achieve anything. Therefore, in a parliamentary democracy, the party is nothing but an organised election machinery. Over all the five

years it works as part of an election machinery which is geared to the purpose of winning tre next general election. This is a matter which has defied other countries and it will continue to defy this country, so long as you make it compulsory for a candidate to file election returns. First of all even correct returns will be assailed. I found some hon. Member here discussing the amounts pent in the Prime Minister's constituency and other constituencies. Living in Palamau, I do not know how he could have had uch specialised knowledge about the expenditure incurred in the Prime Minister's constituency or other constituencies. One has to marvel at thin. People have possibly specialised knowledge in these matters which others do not have. I do not grudge them that knowledge. But in order to arrive at a general conclusion, to use a specialised knowledge of a few cases would be rather precarious.

What impresed me was the level at which Shri Anthony spoke. I am happy to say that whenever it is a matter of law, he moves to the high level and keeps to the great traditions of the bar and I am always happy to see a fellow-member of the bar keeping to our lofty traditions. He says there is a dangerous tendency which is manifesting and he calls it the erosion of our devotion to the rule of law. For that the other parties are, I suppose equally responsible. The rule of law i to be upheld by the party in power as much as by the party which is not in power.. ruptions). Let us not throw blame on each other. I agree that no democracy can survive unless it stands on the solid rock bed of the rule of law but no rule of law is sustained by law alone The ultimate sanction for the rule of law in every country where it has survived is the faith of the people in the rule of law and the faith that in observing the rule of law justice is assured for the common man Every one has his due if everyone observes

the rule of law. He has to obey the rule of law and unless the law is changed he has right to try to defy it. The executive has to obey and if it does not, the court is there to correct it, and those over whom the executive assumes control have equally to obey. They cardinal policies on which it rests are two, apart from this psychological foundation. They are, firstly, everyone has to submit before the law as the paramount authority and secondly, everyone is equal before the law. These two things govern our every way of life under a democratic Constitution

Our courts as Shri Frank Anthony right laments, have no doubt to meet the exigencies of a socialist economy, the growing needs of a progressive community, and have dealt with this rule of law not from the purely technical point of view, and have refused to follow the rigid precedents of American cases. It is true that deliberately we did not introduce the requirements of the due process clause in our Constitution, because we knew that the Government would be the main instrument in creating a welfare State and the Government must necessarily act according to law. That law must necessarily, therefore, deviate from the rigid canon; of equally which the American courts had enforced.

Let us thefore, not be obsessed. If the courts have made article 14 weaker than it would be elsewhere, let us not lament over it, and I think let us congratulate our courts for being visionaries in allowing our progressive legislation to curvive the challenge on the rigid notions of equality.

Many of our laws would have been struck down. I remeber I argued myself the case where we had challenged the amended provision of section 34A of the Income-tax Act which was introduced after the Income-tax Investi[Shri A. K. Sen]

gation Commission Act was struck down. The decision was critised on the ground that the courts had stretched to the maximum point the article in question which might be contrary to orthodoxy notions. But judging in retrospect, and judging from the result I think the decisions of our courts have been very good. While they have kept rigidly to the basic ideal of equality before the law they have not shirked from doing away with those forms of equality which fetter the Government in pushing forward with progressive legislation and bring about more rapidly a socialist economy.

Demands

With regard to the panchayat courts, the committee which was appointed after the last Law Ministers' Conference has now made the report. It would be printed very soon and would be laid on the Table of the House immediately after the Government have considered it or even before that possibly. I shall not be anticipating very much if say that its work will commend itself to all. It has done a magnificent piece of work and the report would be of valuable a sistance for us in the future.

I think Shri P. K. Deo and Shri Warior said that we have no work and asked why we should not have more work. I think Shri Frank Anthony said the same thing. I shall draft a memorial for him if he wants to, but that memorial has to be addressed to the Prime Minister and not to me. I shall voluntarily give him my assistance if he wants to increase our scope of work, because I am not afraid of more work.

There has been some minor criticism about ballot-boxes being defective here or there. The rules are quite adequate in order to meet such situation as in Jammu and Kashmir where the

boxes were found mechanically defective. They were changed immediately when they were brought to the notice of the Election Commission.

Shri Bade: After the mischief was done.

Shri Sham Lal Saraf: The faults were detected long before the actual elections took place.

Shri A. K. Sen: Can the hon. Membe guarantee perfect mechnical performance without any failure? If he does certainly I shall recommend him to assist the Chief Election Commissioner. The hon. Member possibly has not seen these boxes. These boxes mechanically quite complicated in order to prevent any tampering. Whenever ther are mechnical complications, failures also occur. I think there is no rule which can guarantee against mechanical failure. All that the rules can guarantee against is that when these failures occur, the rules would be adequate to provide for their remedy. If the rules are deficient in that respect. I am prepared to consider. But to say tht there will be no mechanical failure would be indulging in comething which is not practical,

This is all I have to say. We have come to the end of our time exactly to the second. I thank once again all the hon. Members for their valued suggestions. I have done five years of my work in this Ministry, a few more months now. I have recived the co-operation of this House till now and I hope so long as I am here, I will continue to receive that cooperation.

Mr. Chairman: I think there is no objection to all the cut motions being put to the House together.

All the cut motions were put and negatived.

Mr. Chairman: The question is:

"That the respective sums not exceeding the amounts shown in the fourth column of the Order Paper, be granted to the President, to complete, the sums necessary to defray the charges that will come in course of payment during the year ending the 31st day of March, 1963, in respect of the heads of demands entered in the second column thereof against Demands Nos. 73 to 75 relating to the Ministry of Law."

The motion was adopted.

MINISTRY OF DEFENCE

Mr. Chairman: The House will take up discussion of the Demands relating to the Ministry of Defence.

DEMAND No. 8-MINISTRY OF DEFENCE

Mr. Chairman: Motion moved:

"That a sum not exceeding Rs. 35,06,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending 31st day of March, 1963, in respect of Ministry of Defence'."

DEMAND No. 9—DEFENCE SERVICES, EFFECTIVE ARMY

Mr. Chairman: Motion moved:

"That a sum not exceeding Rs. 1,84,74,75,000 be granted to the President to complete the sum necessary to defray the charges that will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Defence Services' Effective—Army'."

DEMAND No. 11—DEFENCE SERVICES, EFFECTIVE—AIR FORCE

Mr. Chairman: Motion moved:

"That a sum not exceeding Rs. 60,05,80,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of Defence Services, Effective—Air Force'."

DEMAND No. 12—Defence Services, Non-Effective

Mr. Chairman: Motion moved:

"That a sum not exceeding Rs. 15,75,00,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Defence Services, Non-Effective'."

DEMAND No. 114—DEFENCE CAPITAL OUTLAY

Mr. Chairman: Motion moved:

"That a sum not exceeding Rs. 24,99,75,000 be granted to the President to complete the sum necessary to defray the charges which will come in course of payment during the year ending the 31st day of March, 1963, in respect of 'Defence Capital Outlay'."

Dr. Ranen Sen (Calcutta East): Sir at the outset, I pay my compliments to the jawans and officers who liberated Goa from the Portuguese imperialists. This act of the Government of India, though much belated, roused, the deepest praise from the people who cherish freedom and peace. This act of the Government of India was supported by the socialist countries namely, USSR, China and the new-born States of Asia and Africa. This action in Goa was opposed by certain military powers. Certain military powers, who are now in CENTO and SEATO and who are in the Pakistan-U.S. Pact, have shown [Dr. Ranen Sen]

their real faces and the defence of India is endangered from these quarters. Our long and continued association with the Commonwealth tries, with the U. K., and our dependence on the western powers for our equipment and armament are dangering the defence of our country. Even now our Army officers go for the Commonwealth military exercises. On page 16 of the Report of the Ministry of Defence we find that a highpowered delegation on behalf of the Defence Department, went to a conference at Oxford in 1961, presided over by Earl Mountbatten. Is it not showing respect to our imperialist master even now? Again, from the same Report we find that for a military tattoo in Edinburgh in 1962 our Indian soldiers were sent. Are these things not derogatory to the national prestige? Are these things not derogatory to the anti-imperialist tradition of India?

While discussing the defence budget, we have to find out who are our friends and who are our cenemies. It has been proved again and again that the United Kingdom, the United States of America and other military powers are not our friends. We get our equipments, outmoded equipments at higher prices from them. Let me here quote a news item which appeared in The Indian Express:

"Six or seven years ago when the Canberra-bombers were due to arrive, it was found that they were without installation of latest radar equipments. Even when they came, the heat in the cockpit was unbearable even for the Indian who at a pinch can insulate himself against 115°F."

Such scandalous affairs are going on because of our association with Commonwealth countries and the United States.

We all remember that some time back there were newspaper reports about the desire of the Government of India to purchase from the Soviet Union MIG jet fighters. It was also reported in the papers immediately that the US Ambassador and the UK High Commissioner in New Delhi became very busy. They started protesting, making enquiries and putting pressure on the Government of India. It is also reported—I am again quoting—:

"On May 19, the Commonwealth Relations Office in London publicly stated that the British High Commissioner in Delhi had delivered a note to the Secretary-General of the Ministry of External Affairs and that the High Commissioner was next day received by the Prime Minister himself. In the same statement, the Commonwealth Relations spokesman expressed the hope that the Government of India might still decide otherwise about the deal."

What gives them the authority, audacity to decide as to what equipments India should buy; or what not to buy, and from where? We know that conspiracies are being hatched round India. We all know the nature of the Pak-US Pact. What is this hullabaloo about the MIG jet planes? Under the Pak-US military Pact, the United States has supplied Pakistan with jet fighters F-104, which are much more powerful in match power than the British and French planes that we have. With the Pak-US military in force, cannot expect to get such type bombers or fighters from America, So in the interests of the defence of our country, we will have to get jet fighters from somewhere else. who else would help us in this respect? It was the Soviet Union, undoubtedly one of the most, if not the most, powerful countries in the world. which came to our rescue. And the MIG jet planes are cheaper than the British and French planes and do not entail any foreign exchange. If Dr. Seokarno and President Nasser can defy the imperialists and get in touch with Czechoslovakia and the Soviet Union, why can we not? We are a

bigger country, a much more powerful country than Indonesia or the United Arab Republic. Ιt is a question of national prestige also, question of national fence. This morning we know what happened in this House. Our Ambassadors abroad is only to give the information they get from here. In this House our Defence Minister has more than once declared that our defence measures are strong. But our Ambassador in America gives out before mollions of Americans and billions of the people of the world that India is very weak. If India is weak, it is the Parliament of India that will discuss and find out measures to strengthen it. But what happened? Even Prime Minister did not say that this was a most despicable thing for our Ambassador to have done.

Demands

Sir, our Ambassador cringes crawls before the American imperialists knowing fully well the role they played in the United Nations after Goa. We should be ashamed of such talk India's representatives abroad. Therefore, I say that the SEATO and CENTO powers who have armed Pakistan are the real danger to the defence of India. China is not a real danger to the defence of India It is no good fencing in the air against an imaginary enemy, while the border differences have to be settled peacefully. It is the Government of India that has said that as between war and peaceful settlement, peaceful settlement is the path of the Government of India. Therefore, I say that the Government of India must be very careful. We must all be very vigilant about the SEATO and CENTO powers. Governments of the United Kindgom and the United States of America.

The second thing I wish to bring to the notice of Government is the question of raising the morale the army. This is a very important question. The strength of our defence depends on two factors. One is the growth of heavy and defence industries; the other is the morale of the army personnel. Sir, it is a welcome

sign that our total defence productivity is being fully utilised. What surplus capacity there is must be utilised for civilian needs. It is at the same time a welcome sign that defence production is making inroads into the private sector also. So are making trucks and tractors-and very good ones also. But I would like to know why there is a shortfall. Audit report mentions about the shortfall. I must say that the Ministry is still a little complacent about the defence industries. In all matters, even for conventional weapons we go to Great Britain and America or France. Therefore the first thing to be done is to strengthen the defence industries.

Next comes the morale of the army. I must say there is not the least trace of domocracy or fairness in the army. I have to say this with regret. There are discriminations practised even today. In the Ministry of Defence Report page 86 we find that a subedar gets a family gratuity of Rs. 1,100, while a Jemadar gets only 525. Are lives graded in such manner? Is this conducive to the morale of the army? Sir, it is high time that this discriminatory treatment meted out to the different ranks is removed.

Secondly, our army is completely detached from the people. It is known to everybody that army personnel cannot mix with the people . They cannot attend any political meetings not event election meetings. are used sometimes, I am sorry to say, to break strikes as the Army was used in 1958 in Jamshedpur to break a strike, to break the food movement in Calcutta and Howrah as the Army was paraded in the streets of Howrah.

As I have said before, there is no democracy inside the Army. In fact, in the name of discipline the army jawans are put down. (Laughter). Well some getlemen may laugh. But if they had known the plight of the jawans they will not do so. If a soldier has any grievance against officer, he has to pass his petition

[Dr. Ranen Sen]

through that officer, and he is always at the mercy of that officer.

An. Hon. Member: That is discipline.

Dr. Ranen Sen: What happens in the Sainik Sammelans? Formerly they were called Fauj Durbars or something like that. These sammelans are a mere fuss. If you have any experience of them you will bear me out that they are a mere fuss. No army private, no jawan can open his mouth there. It is known to everybody. I ask the Congress friends sitting there to make enquiries in this respect, and they will then say that all that I am saying in this respect is correct.

Shri Tyagi: Don't try to infiltrate into the army.

Dr. Ranen Sen: There is the Territorial Army, there is the Lok Sahayak Sena, there is the N.C.C.—very good organisations. We must strengthen them. But should they be used against the people? The Territorial Army was used two years back, during the Central Government employees' strike, to break the morale of the strikers. It happened in Calcutta, and in so many other places. It is known to everybody. This thing was discussed in this House also.

In the course of this debate I am compelled to refer to another topic which is the topic of the day.

Shri Tyagi: You want to pave the way to infiltrate into the Army or what?

Dr. Ranen Sen: That is for you to discuss. You will get your chance to speak. If you cannot bear any criticism, please keep quiet.

In the course of this debate I must raise the affair of $^{\bullet\bullet}$ a fine officer. He is the seniormost officer, most meritorious officer. . .

Shri U. M. Trivedi: Can an officer's name be mentioned like this, Sir?

The Parliamentary Secretary to the Minister of Education (Shri M. R. Krishna): It is very bad.

The Miinster of Defence (Shri Krishna Menon): It has been the understood practice that names of individual officers who can neither plead nor defend themselves here are not to be mentioned.

Dr. Ranen Sen: All these things have appeared in the press. The press is discussing it.

Mr. Chairman: The press is different from the House.

Dr. Ranen Sen: I am not putting the name. But if a seniormost officer and most meritorious officer is superseded, is it not for the Defence Minister to get up and explain and clarify the position? If this officer or if an officer had held important positions in the past, and all of a sudden such officers are superseded, naturally that does not go to help the morale of the army, the morale of the navy or the morale of the air force. Therefore, I say there should be no hush-hush in this respect and the Defence Minister should clarify the issue as far as possible in this House.

Shri S. N. Chaturvedi (Firozabad): Sir, on a point of order. When the name of the officer has been brought in, I think these remarks should be expunged from the proceedings of the House.

Dr. Ranen Sen: I have already said that I withdraw the name of the officer. I have done that.

The Deputy Minister in the Ministry of Finance (Shri B. R. Bhagat): He has said all those things already.

Mr. Chairman: The name of the officer may be struck off.

Shri B. R. Bhagat: Those remarks may also be expunged.

Shri B. R. Bhagat: Those remarks to the officer's name should be struck off. But, as Dr. Ranen Sen indicated

^{**}Expunged as ordered by the Chair.

earlier, in many reputable papers like the Amrit Bazar Patrika, which supports the Congress Party wholeheartedly, there have been reports and editorial comments in regard to this particular alleged supersession, the name has been mentioned and discussed in the press and all that. It is our duty, as Members of Parliament, on such occasions to bring such instances to the notice of Government and to get satisfaction. Merely by expunging the name and preventing it from being mentioned in the House. we do not solve problems. I wish to have your ruling in this matter. We want satisfaction from the Government.

Mr. Chairman: Even so, I do not think it is possible to bring in names here. Even though it may be in the press, it is a different matter altogether. The press is not the same as Parliament. Anything can be talked outside. Everything cannot be talked here.

the Dr. Ranen Sen: I withdraw name.

Mr. Chairman: He has withdrawn the name. There the matter ends.

The Minister of State in the Ministry of Defence (Shri Raghuramaiah): The hon. Member not only mentioned the name of the officer but also went on to make a few remarks which are comprehensible only in the light of reference to an officer. These are not general statements. The name as well as all the consequential remarks which have a bearing on that have to be expunged. I would submit, in any case, since the remark has been made, there has been no supersession here. The higher posts are all selection posts and the Government selects the best officers.

Mr. Chairman: Since the name is withdrawn, I do not think any further objection is admissible.

Shri Khadilkar: If these remarks are kept there, it would be very diffi-

cult to maintain discipline. quoted one reputed journal from Calcutta which is taking shelter under some sort of chauvinism while criticising promotions and other things. Therefore, I would certainly support the plea made by the Minister of State just now that these remarks may be expunged.

for Grants

Mr. Chairman: I agree with you But, I do not think it is open there. to me to strike off all these remarks.

Tridib Kumar Chaudhuri (Berhampore): Sir, I rise to a point of order. On a previous occasion, in this very House, in the previous Parliament, this question of promotions and supersessions was discussed in extenso. I remember, on that occasion the present Speaker, who was then the Deputy-Speaker was in the Chair. He merely advised that individual names might not be cited. But, it was never the ruling in this House and it was never the parctice in the House Commons to avoid references to individual officers when certain questions of principles are involved. Here, in this case, which has been referred to, it has been alleged that Navy rules which are seldom superseded have been superseded. Allegation has been made in public. Whether it is outside the House or inside the House, it does not matter. The Government owes an explanation. I specially make this point because an hon. Member here has made a charge of chauvinism. In these matters, I do not know what We chauvinism is there. are Indians here. If a particular officer belongs to some particular State, there are other officers equally senior coming from other States also. This kind of vague reference to chauvinism and regionalism is very objectionable.

Some Hon. Members: What is the point of order?

Shri Tridib Kumar Chaudhuri: The point of order is, I seek a ruling from the Chair that so far as references to individual officers are concerned, they cannot be ruled out.

Mr. Chairman: The ruling is not before me. He is only saying something orally. I cannot rely on oral statements where a ruling is referred to.

The hon. Member may go on.

Dr. Ranen Sen: My point has nothing to do with provincialism or chauvinism.

I come to the last point, in respect of labour relations in Defence industries. The report claims that the labour relations are good. But, unfortunately, I have to say here that the workers in the defence industries do not enjoy mostly the benefits of the Industrial Disputes Act. Section 10 of the Industrial Dispute Act is never applied to the defence industries. There is no permanent negotiating machinery functioning in the Defence Ministry. These are all facts. The majority union representing the majority of the workers represented in the Defence Federation is not recognised by the Ministry, whereas the minority union which is affiliated to the INTUC is recognised by Government.

Shri K. N. Pande (Hata): How does my hon, friend say that they are in a majority The matter has been enquired into.

Dr. Ranen Sen: It is known to everybody. Therefore, I say this. It is known to everybody. Even the hon. Minister himself knows that the union recognised by Government is not a representative union, whereas the representative union is not recognised as yet. Therefore, all that I say is that all is not well with labour relations, and, therefore, something has to be done in this respect.

Shri Surendra Pal Singh (Bulandshahr): I rise to support the Demands for Grants of the Ministry of Defence.

Our Defence Forces have given a magnificent account of themselves on

all occasions, and in all sorts of trying situations, and our soldier has earned for himself a unique reputation in the world that he is not only a good valiant fighter but he is also perhaps the best behaved soldier in the world; he is respected everywhere, and this is something we can be proud of.

The only thing that our Defence Forces are in need of is good and modern armament, and it should be our Government's endeavour to see that all the requirements of our Defence Forces in regard to arms, ammunition and equipment are met at the earliest.

I congratulate the Ministry of Defence for having achieved a great deal in this respect, in so far as the defence production has gone up by leaps and bounds during the past few years, and we are assured that very soon we will be absolutely self-sufficient in regard to all our requirements of basic weapons and equipment etc. This is very good and very heartening news.

On this occasion, I would like to draw the attention of the Minister of Defence to the question of the automatic rifle. We have been hearing about the introduction of this rifle for the last six or seven years, but this weapon has not made its debut yet. We are naturally curious to know what decision the Ministry of Defence has taken in this regard. The automatic rifle is a very useful and basic weapon, which has been adopted by practically all the modern countries of the world, and I am given to understand that even the Chinese have adopted it. So, I cannot understand why we have not gone in for it so far. We cannot afford to manufacture or purchase such sophisticated weapons as guided missiles, rockets, and nuclear weapons of all sorts and types. But there should be no difficulty in our way to go in for this useful and basic weapon, namely automatic rifle, which can easily be manufactured at home.

17 hrs.

As for the Navy, Sir, we all know that we have acquired an aircraft-carrier, which I am told, has enhanced our prestige considerably. We have also increased the number of surface all types and sizes. of But I fail to understand why we have not introduced submarines in the navy upto now. I dare say there is no connection between the aircraftcarrier and submarines but the fact remains that there is no other country in the world today which has carried expansion programme out a naval without introducing submarines at a much earlier stage and the question naturally arises as to why we not been able to introduce submarines till now.

As for the Air Force, I am not an expert in aeronautics nor do I presume to possess a very thorough knowledge of the things concerning the Air Force. But from a layman's point of view and from the common sense point of view, in my humble opinion in our expansion programme we seem to be purchasing too many makes of aeroplanes of the same type, same performance and same class. That in my opinion would only create difficulties in the work of repairs, maintenance and stocking of spare parts, and it will create a lot unnecessary confusion at all levels. It is my suggestion that in future we should purchase all our planes of any one particular type and class from one source only, and we should not buy them from all the four corners of the earth and just multiply their breed.

I would like to say a word about the welfare of troops. In the post Independence period there used function a women's voluntary organisation. It was called AFWWO-Women's Welfare Armed Forces Organisation-which consisted service wives and civilian wives and these ladies used to get together occasionally and arrange amenities and entertainments for our troops serving in Jammu and Kashmir and

other far off places. This organisation did wonderful welfare work for our troops. They sent gift parcels of woollen garments, sweets and books and magazines to the troops in far off places and they also arranged entertainment shows and concerts which were greatly liked and appreciated by our troops. The things they sent as gifts may not have been of very great value materially and it can be said that our soldiers could do without them easily, but the fact remains that the very idea at the back of the whole scheme was so good; it made our soldiers feel that there were some people way back home who interested in their welfare happiness. and kept their that morale high and that is a very great thing. I am sorry to learn that this very useful and beneficial organisation does not function any more. We wonder why. I have been told-I cannot youch for the authenticity of the information I have received-that this organisation stopped functioning because there were some differences of opinion and misunderstanding the higher echelons of the organisation. I cannot say whether it is correct but whatever it is I would earnestly appeal to the hon. Minister of Defence to take personal interest in this matter and use his good offices to persuade these kind hearted and good ladies to come forward, revive that useful organisation theirs once again for the welfare our troops.

for Grants

A word or two about the family accommodation for our troops. We all know that there is a tremendous shortage of family accommodation for our armed forces. Our Defence Minister was at one time very much interested in this subject and I believe a few years back he tackled this problem very energetically and he launched several schemes building quarters and houses for our troops. But subsequently, for some unknown reason, his enthusiasm cooled off, or he lost interest in it, with the result that the whole scheme lost

[Shri Surendra Pal Singh]

its momentum. So much so that today it is moving at a snail's speed, and at this rate it might take anything from 30 to 40 years to finish the work. This is not a very satisfactory state of affairs. I would request the hon. Minister of Defence to revive his interest in this subject and get the work expedited.

Then the question of resettlement of our defence personnel is also very important one and I am sorry to say that not enough is being done in Thousands of ableregard. bodied. disciplined willing and workers leave the services every year, and they have great difficulties in finding employment in civilian life. I know there are Soldiers', Sailors' and Airmen's Boards in every district, and these Boards are supposed to look after our ex-servicemen in all such matters. But my experience is that these Boards do not function effectively and their achievements in this regard upto now are not very laudable. And generally the men, are left to fend for themselves.

There is a so-called Resettlement Directorate in the Defence Headquarters in Delhi which for all pracfunction tical purposes does not either. This is a very important question from the point of view our military personnel. While are in service they give of their best, and they are even prepared to give their lives for their country. naturally they want an assurance from the Government that when their normal tenure of service is over, when they retire, the Government will give them all possible help and assistance to resettle them in civilian occupations. This is a very legitimate demand of theirs, and in my opinion, the Government should come forward and give them this assurance; and not only give this assurance but they should implement this assurance.

Sir, with your permission, I would like to air a grievance of the people of my State of Uttar Pradesh.

Considering the size of our State. both in population and in area, and considering the representation of our people in the armed forces of this country, which is considerable, we are at a loss to understand as to why we were completely overlooked by the Ministry of Defence when they were making out their scheme for establishing Sainik Schools all over the country. We were hoping that we would get at least one Sainik School in Uttar Pradesh, if not two at the stage, but unfortunately we did not get even one, and naturally we are very disappointed. I would request the Minister of Defence on my behalf and on behalf of the people of my State that he may very reconsider our case and concede our request and give at least one Sainik School to Uttar Pradesh straightaway.

The RIMC, at Dehra Dun, is an institution that is in a class by itself, It caters for students from all over the country, and it can harly be said to cater for the demands of Uttar Pradesh alone. It does not fall in the category of the new Sainik Schools. We want a Sainik School of the type which have been opened in other places recently.

Now, a few words about the NCC. In my humble opinion, the scope of the NCC should be increased to such an extent that all our students are able to join this very wonderful organisation. For imparting all-round training, for building up of charter for inculcating the spirit of sacrifice and loyalty in the paths of country, in my opinion there is no other training better than the NCC, and no expense and no effort should be spared by the Government of India to make this scheme more popular and more widespread.

Shri U. M. Trivedi: Mr. Chairman, Sir, the Demands of the Ministry of Defence are really very big and they touch every Indian and every countryman of ours. They feel that the expenditure that we incur may not

be grudged but it must be wisely spent. What we find, by looking at the various reports about this Ministry, is that the handling of expenditure is very haphazard and reckless. We cannot understand why it costs more to get a thing done by the military engineering service than by the Central P.W.D. The Central P.W.D. is already a notorious body and the expenditure incurred by it is not that of a wise and prudent man. expenditure within which it can be done by a private person is always exceeded by the Central P.W.D, but our military engineering service beats the record.

Our report shows that when it costs only Rs. 50,000 to Rs. 60,000 for a mile of road to be constructed by Central P.W.D., it costs Rs. 4 lakhs if it is constructed by the military. In December, 1952, 308 and odd miles of road were undertaken to be constructed by the military. By December, 1958 about 98 miles of road were constructed. The original project was going to cost us about Rs. 304 lakhs, but already the construction of these 98 miles cost the exchequer Rs. 392 lakhs. Why this extraordinary expenditure was incurred could not be explained by the Defence Ministry even before the Public Accounts Committee.

It is the same Indian engineers who work; it is the same Indian labour which works; it is on the same soil that the work is carried out. And yet, this difference exists between the expenditure. That merely shows the carclessness and recklessness on the part of those who have to administer our funds. I will only give a very few instances of this waste of money, which is not of a fruitful nature.

There is the expenditure on naval dockyards and the expenditure by the naval headquarters for the purchase of store carrier. Let me give this illustration. The naval headquarters wanted to have a store carrier. We purchased an old and decrepit thing for Rs. 38 lakhs, because

we were in a hurry. You remember, we were in a hurry and we said, "All right, let us not have anything new; let us have anything that we can get". We were in great hurry and we purchased an old and decrepit thing for Rs. 38:30 lakhs. We find that it is not very useful for us. We spend another Rs. 8:30 lakhs for alterations. After we have made these alterations and taken one two years over it, we think that the necessary machinery must be fitted on it. We purchase the machinery worth Rs. 20 lakhs to be fitted on it. We fit in the machinery and take time over it. Our hurry is there. we find that although the machinery has been purchased, we must instal the machinery on the store carrier. It takes another 2 years to instal it and we spend another Rs. 16 lakhs over it. What a waste! Where has our hurry disappeared? What would have happened to us if there was some battle or warfare? In the year of grace, 1959, we find that all this expenditure has not been very useful and we start quibbling about it. this the method by which such a big Ministry should be run? Or are we merely running the show in the same form in which the whole thing had been handed over to us by British?

One very great thing which appear apparent to anybody who studies this problem is that all these years the whole complement of officers who had to work on this carrier, who were appointed in the year 1952 and were there till 1959 without doing any work, were paid full emoluments. What a colossal waste of money?

We all know that we started a defence production organisation. It has manufactured certain items. It is a sorry tale for anybody who looks into it. Items after items have been manufactured by this organisation, and items after items have been rejected by the services. 30 per cent, 40 per cent or even 50 per cent of items are rejected and yet we are

[Shri U. M. Trivedi]

running the show. And it is a very big organisation that we have got with all the officers. It is a very big show indeed. Perhaps, we have this wasting of money in an epidemic form in India. Other Ministries are so vying with each other, as whosoever wastes more is the bigger one. I had occasion to criticise this in the case of the activities of the Transport Ministry. Perhaps, the Defence Ministry cannot lag behind in wasting money. But there must be some limit to it.

The constitutional control this Parliament can exercise and is trying to exercise must be welcomed by the Ministers and not shunned by the officers concerned. It is a very healthy sign. Nobody grudges as I said before, the expenditure has to be incurred for the purpose of defence of our country. We are all one in this respect, whether we are in this side or that side. Of course, I am not talking of friends on my right. Excepting them, all agree that expenditure has to be incurred for the defence of our country.

Shri Warior: We are thankful that he is not representing us.

Shri U. M. Trivedi: I do not represent them.

Shri Raghunath Singh (Varanasi): He represents the people.

Shri U. M. Trivedi: Yes, I represent the people of India.

Apart from these questions, which from a cursory glance certain criticism has been offered by there are other problems of our defence which have to be studied. We have a big border. What have we done with the borders? We have got people infiltrating into our country, whose loyalty is questioned. What have we done to protect our borders against these persons? What law have we made that within a particular area of the border people of questionable

loyalty should not be allowed remain? We are in a very dangerous position. Infiltration is going on in Assam and Tripura. Our whole border on the western side of India is entirely open

[Mr. Deputy-Speaker in the Chair]

How many raids into our territory have taken place? What have we done? Are we depending on the State Police to do it for us? Or are we going to utilize the army for purpose? I do not know whether it will be conducive to the good of my country if I were to disclose the strength of the Central Reserve Police today, which is also counted as a sort of armed force in our country. The definition of "armed force" has been given to it by the Election Commission with a desire for 12,000 or 15,000 votes to be secured by the Congress party. That is why that definition was given to it. I know that it was constituted under the Central Reserve Forces Act of 1949. That Force is not governed by the Army Act; nor is it governed by the martial law regulations. It is considered by the courts of this land as armed force and yet the municipal bodies are controlling it. It is there. The point is that even if we were to give the protection of our borders to the Central Reserve Police, their strength must be sufficiently increased. Our borders must be properly protected; the arms supplied to our armed forces must be of such a nature as could be used against those who are so well-equipped.

This morning we had an admission, a very sorry admission, that our army is not so well-equipped. This is a most disgusting state of affairs that we have been today that army is not so well-equipped. have been told in season and out of season, year in and year out, that our army is strong enough to repel any attack on our country and I do believe it is so. But the assertion

coming from an Ambassador, well placed and well posted is not a very happy assertion. If really the facts are such, we must do our best and do it immediately to raise the standards of our equipment. know that we are surrounded on all sides. Unfortunately, due to our socalled non-alignment and neutral policy, we have not been able to engender many good friends. Our friends are those who want to take hold of our country. One friend has taken 30,000 square miles; another friend of ours has taken 18,000 square miles. We are patting the latter on his back and giving him loans and supplying him water.

The Deputy Minister thinks that mine is an under-estimate and he would correct me. It is not a very happy sign that our Ministers do not take to this in a very serious manner. We know it, Sir, that even our so-called friends on whom we counted and who have given us money, are not our real friends.

Shri Raghuramaiah: I am sorry to intervene. The hon Member said that Ministers do not take his remarks seriously. I was actually pointing out to my colleague that the remarks are meant for him.

Shri U. M. Trivedi: Then I withdraw my remark.

As I was saying, special type of border training for our armed forces is necessary. We do not know when we might be involved in some sort of an imbroglio.

Ours is a big country, with a big name. We are five times the size of Pakistan. Yet today it is they who are raiding our country every now and then. How many raids have been there, we do not know. We have lost count of them, and we feel it is enough for us to have sent strong protests. These are of no avail. We had in fact to yield our land. We had to pass a law and Berubari had to be given away. The trouble still remains.

So we are dealing with persons who are not satisfied with polite methods.

As regards these persons we must be prepared to meet all eventualities. We cannot sit with complacency and say that we have done enough. We have not. They will learn only by our action. We know that the consequences of war are not very good. But war or no war, we cannot afford to be complacent so far as the defence of our country is concerned.

I also personally do not like the idea of favouritism shown by the Ministry in promotions of officers; because it is this force on which we are dependent; it is on the blood of these people that we are dependent saving our country from going to dogs. At least we must be very very fair in the matter of the promotion these officers. We should give cause whatsoever, either to the rank or the file, to feel that there is some sort of injustice done to them. proper machinery must be set up, either by way of an administrative tribunal or by some other method, so that any injustice may be stopped and nipped in the bud.

The report says that in our recruiting power, in these days we require men with scientific knowledge in our country Hundreds thousands of science graduates turned out by our universities. Yet the Defence Ministry's report says that we are lacking in scientific manpower. Why is it so? Is there anything wrong with your method of recruitment, or is there anything wrong in the emoluments that are being offered? Are they not sufficiently attractive? Do you want to place them at a par with the ordinary jawans, or do you want that every one who has to sacrifice his life for the sake of the country, and give his knowledge also, should be paid sufficiently well to keep his belly and soul together? There is something wrong. Why is the attraction not there? I was just wondering whether the caste system of recruitment in the army prevails. I know that times without number it has been said that after the enactment of our Constitution it would be entirely illegal

[Shri U. M. Trivedi]

to have recruitment on a caste basis. But we cannot keep our eyes shut. The strength in the army, the personnel in the army indicates that recruitment is not spread over the whole of the country. In February 1961, I went to Ujjain and I found a notice in the notice board hanging in the Tahsildar's office. It asked for recruits. In asking for recruits, I was surprised to read that in the recruits wanted as military transport drivers, the reservation was for Mohammedans. I can never conceive of the idea that still in our country Hindus are taboo for the purpose of recruitment of motor transport drivers. was wondering that it must have been a notice before 1947. So, I walked over to the Tahsildar and asked him when this notice was posted on his notice board. He said, I received it from the military recruitment department only a week back. This is going on. I would urge on the hon. Minister to look into this affair and put a stop to it. We cannot afford to have this method of recruitment.

Shri K. R. Gupta: You have not given an example of caste; this is an example of religion.

Shri U. M. Trivedi: It means the same thing, whether it is a question of caste or religion, as I have already said. You were not there.

When I was talking of Pakistan, the note that was lying by the side of Mr. Kamath reminded me of the note by the Chinese Embassy. Attack by the Chinese on our soil is growing. Infiltration of Chinese in Nepal is a source of menace for us. We do not know how to stop it. Unfortunately, as I said, although Nepal is another sovereign State, it is our own flesh and skin and with that Nepal we are not carrying on very well. We must exert ourselves in this direction and our relations with Nepal must be smoothened. Because, Nepal has for all time provided to the Indian Army even in the British days, the largest number of fighting forces in the infantry. We cannot afford to lose sight of that fact. I have not offered my criticism on the wasteful expenditure in this Ministry for the sake of just criticising them. I have offered it in the view that the Government must look into it and with the stopping of the waste, we could have better men, more materials and more equipment and a large Army and more money to meet the requirements of our State.

Deputy-Speaker: These motions are now before the House.

Shri D. C. Sharma (Gurdaspur): Mr. Deputy-Speaker, if there is one service in free India about which one can feel proud in an un-qualified way, it is our defence forces. I believe our defence forces have given an excellent account of themselves wherever they have been called upon to help our country: in Kashmir, in Goa, Daman and Diu, in other places, in our international commitments, in the time of famine, in the time of breakdown of law and order, in the time of the breakdown of some of our In all these emergencies our defence forces have come rescue of Indian citizens. And believe that anyone who has the good of this country at heart will pay his humble tribute to our Defence Services. I think of Karam Singh (and his companions) who braved the ruthless cruelty of the Chinese, and who came here with his feet frost-bitten. I think of the four airmen who were the prisoners or the captives of the Naga hostiles, and who are luckily with us today. I think of the people who are doing a magnificent job on behalf of the country in the Congo. I think of the International Supervisory Commission in Indo-China

I believe that if there is any thing about which any Indian can be proud. it is our defence services, and I believe that not a word should be said about our Defence Forces which may destroy their morale. The morale is not built up only by means of material resources, by means of pensions and gratuities and salaries, the morale is not only built up by means of houses; all these things are necessary, no doubt, but every word that is spoken here is out either to build

[Shri D. C. Sharma]

up the morale of the Defence Forces or to destroy that morale. Far be it from any Member of this House, to whatever party he may belong, to do or say anything which will destroy the morale of the Armed Forces.

Having said that, I ask myself one question. I want to know whether our defence policy, as it has stood up to this time, needs revision or not. I believe that the time has come when our defence policy should be reoriented. I have got here before me the report of the British Defence Ministry, and this is what they say:

"The responsibilities of Defence are heavy. But we must not, and most of us do not with to, shed the burden. We have peace and we believe that we can continue to have it, if we are prepared to play our full part in deterring war. This is the inspiration and reward of those who served the defence of their country in many fields."

This is what the British Government are thinking. They are living in the midst of peace. Are we living in the midst of peace? Look at our ceasefire line in Kashmir. It is so sensitive these days. There is a military buildup on the Pakistan side of the coasefire line. Look at our border with China. I was amazed to hear an hon. Member saying that we have nothing to fear from China, I think that such soothing words can do more harm to our country than anything else. We have to fear every harm from China. China is out to do as much harm to us as possible. It has grabbed illegally and unconstitutionally such a big chunk of our territory. Unless China vacates that aggression, and unless China clears out of that area, I do not think that we can look upon China as our friend, even though some of my hon friends sitting over there may try to sing a song of praise.

What I was saying was that we are not living in a state of peace. Every day, there are questions put on the floor of the House about what is happening on the border between India and China, about what is happening on the cease-fire line between India and Pakistan and so on. All these things are there to show to us that we are not living in a state of peace, that our borders are live and sensitive and that we face danger not only from one quarter but from two quarters. A country that is situated like that has not to think that it is living in peace with its neighbours or with anybody else.

So, I believe that our defence policy which was a policy based upon nonalignment, which was a policy based upon peace, and which was a policy based upon the security of our country. should be revised now. We stand for peace; we stand for non-alignment, and we stand for the security of our country, but we have got to build up strength so that Pakistan which is getting military and economic aid from the USA, the UK and countries, and China which is brandishing the big stick before us, may feel that India is not to be trifled with. Therefore, the time has come when we should try to think of building up deterring strength. How can we do that? I think we can do that by taking into account all those factors which are necessary in order to make India not only strong in the field of industrial production but also strong so far as military power is concerned. Far be it me to suggest that we should use military power against anybody. But I will be failing in my duty if I do not say that we should have military power so that no nation dare look with covetous eyes and avaricious eyes upon our territory. I think this is what we should do.

Now, how are we going to do that? I look at the Budget that has been given to us. Of course the Army gets Rs. 224.66 crores. That is good; I welcome it, But look at the Navy.

Shri Raghunath Singh: Yes.

Shri D. C. Sharma: What kind of a Navy have we got? I am afraid, Sir, that I am standing next to a man who

 $i_{\rm S}$ a sailor on land, not a sailor on sea. Therefore, I am very much afraid of him. We gave our Navy Rs. 19.34 crores last year and we give Rs. 19.53 crores this year. It is like giving a school-boy a prize which is worth one or two annas more than the prize he got last year. $I_{\rm S}$ this Navy worth our country? We must have a very puissant, a very might Navy.

Now, on the Air Force we are going to spend Rs. 78.37 crores and odd. It is not sufficient but I think it is ecceptable. But India which has such a big coastline should not be so neglectful of its Navy.

The day of conventional weapons is gone. The conventional force is now only a kind of a police force. In this report I have been wanting to read something about the word 'nuclear' or something like that. Of course words like 'radiation', etc. are there in the report but the word 'nuclear' has not been mentioned. Other countries are thinking in terms of nuclear weapons, atomic powered submarines and all those things but in our country we are still in the stage of conventional weapons. Even if we want to have conventional weapons, what kind weapons can there be when the country is spending a paltry, miserable and pitiful sum of Rs. 19.53 crores on the Navy?

The foot soldier or the infantry will be important as long as this world lasts but it is the age of aeroplanes and airman and I believe, therefore, that something has got to be done so that our resources in Navy, in Army and Air Force go up. I will be told by the Defence Minister-he is a very resourceful man and ingenious debater and it is very difficult to argue with him-and I may be told by the Defence Minister: "What can I do: I have to cut my coat according to my cloth; I have got to frame this Budget within the resources that are made available to me." Quite right. I think he can ask for more resources because as I have said we are now living in n era of competitive strength with the two nations that are there; we have passed from the era of peaceful living.

The other point that I want to make is this. I have no doubt that our defence production has gone up. For that, I think the credit is due to the new look that our Defence Minister given to the industry. We have done very good work during the last two or three years. I feel happy about it. I feel happy when I find that we going to build trucks and tractors and so many other things. But I would say that even in the matter of these conventional weapons we are not selfsufficient. I would like to say that the Defence Minister should have a programme of production by means of which we can become self-sufficient so far as even these conventional weapons are concerned. Of course, there are projects to produce supersonic aircraft and all that kind of thing. There is a project to produce a kind of aircraft at Kanpur. All these things are welcome, but I want to see the Indian army equipped with Indian weapons. Unless that happens I think our Indian army will not be true to itself. As has been pointed out by my hon, friend here, it is no use getting this kind of equipment from country and that kind of equipment from that country. I think it is no use having this kind of hotchpotch in this country. I believe that in this matter we should have our own resources and I believe it is not difficult to build up those resources.

Now, I will say a few words abou the NCC, I believe the NCC is a good thing. Our young men and women have taken enthusiastically to it. I feel that there is more eagerness for the NCC than for anything else. But I would ask the hon. Minister, what about the ACC. Why are they keeping this ACC going? What good is ACC doing? I want to ask, what is our Territorial Army doing. I respect those members and I salute the men of the Territorial Army But then, I would say that he ACC is nothing but a kind of elementary drill-giving machinery. That is also not very properly done. It does not provide any kind of training either physically, mentally or militarily. Therefore, I think [Shri D. C. Sharma]

7649

this ACC should be scrapped and in its place we should have the NCC all along the line.

At the same time I say that the Defence Minister should appoint a committee in order to go into the question of the Territorial Army. I believe our Territorial Army has been a half-dead and half-alive affair. I want that the Territorial Army should be worthy of ts name and for that we must try to give it a new look, and we should go into this question very patiently and very sedulously. Unless we do that, I believe our defence potential will remain as it is.

Then there is the question of cantonments. Unfortunately, when India was divided, we left most of the cantonments in what is now called Pakisan. We inherited very few cantonments from the British Government. I feel that in spite of all this Amar Jyoti business—that is a kind of eye-wash—and all that kind of thing our cantonments have not been constructed at that rate which was necessary for this country.

We must have cantonments. Without cantonments, you cannot have a contented army and without a contented army, you cannot have a proper of defence for our country. How many cantonments have we got? Very few. So, I submit very respectfully that we must build more cantonments and family stations. Unless you have family stations for these army men, the morale of the army men is bound to go down.

I would like to say a few words about the ex-servicemen. In our country, ex-servicemen are the neglected children of the defence forces. I have something to do with them; I know some of their grievances, some of their needs, trouble and complaints and I feel that the Ministry of Defence is not taking as much care of these exservicemen as they deserve. The exervicemen are sore. It is a continuous process. If the ex-servicemen are not contented, people will think that the army business is not good on the

whole. Therefore, I would submit respectfully that the ex-servicemen should be looked after more carefully and more properly and that a new setup should be organised in order to make these ex-servicemen happy and contented.

My last point is, we should try to build up some kind of voluntary force, as was suggested by the hon. Member who preceded me. Unfortunately, in this country, we are not defence-minded. We read the dailies, but it is very seldom that they write any article on defence. It is very seldom that we ready any article which has anything to do with the army.

Shri Khadilkar: Do they not write about the Defence Minister?

Shri D. C. Sharma: I am told that they have enough Information Officers in the army and they write something. I do not know where it is published. Our defence is a neglected subject, sfar as this thing is concerned. The subject of defence should become popular with all sections of our people from the school boy up to retired people, men and women, scheduled castes, Harijans. It should cover all types of society, without any distinction of caste or creed.

Shri M. R. Krishna: Brahmins also.

Shri D. C. Sharma: Therefore, we should build up a kind of social service organisation, covering not only women, but also men, so that they can be a source of strength to the army and they can do some welfare work for the army.

I have no doubt that these suggestions of mine will be taken for what they are worth. I have no doubt that our defence forces are doing a very good job and our defence forces are the pride of this country.

Shri Bhagwat Jha Azad (Bhagalpur): Mr. Deputy-Speaker, many hon. Members have spoken on the defence budget in different strains but, all the same, they have complimented what is stated in the annual report, namely.

that the morale and the efficiency of the armed forces have remained high throughout the period under discussion. There is no doubt that in whatever field our armed forces have been called upon to work, be it in the case of national calamities, relief work or maintaining law and order, they have acquitted themselves very well. Apart from what they have shown within the country, outside also we have seen that in the case of Congo and Gaza they have acquitted themselves remarkably well. When we find in other countries armies are being sent air-lifted to fight and kill and complicate the issues, our army is carrying on a very humane mission of maintaining peace in the world. So, in that sense, we can say that our army, both within the country and outside, doing a good job.

In this context, when we see some of our friends making statements that our army is not sufficiently strong or efficient or equipped to maintain or defend our frontiers, we feel sorry that such unfortunate statements are being made. Only this morning we heard the Prime Minister saying that our army is sufficiently strong, we are sufficiently efficient and we are sufficiently equipped to defend our country. That is a good thing. I hope the Defence Minister or the Government will take care that in future at least such unfortunate statements are not made regarding our defence forces

Though we have been shocked by such statements, we were amazed much more at the statements of the leader of the so-called free world dictating terms to us. We heard only this week that the leader of the free world, viz., the United States of America, protested to us regarding our intended purchase of fighter planes from Soviet Union, Here I would like to ask one question. Have we ever interfered or said anything to any country about any matter of its defence? No. We are not interested in re-armament. Rather, we are interested in in disarmament. We used our energy and full efforts at the Geneva Conference for disarmament and have shown that we are not interested in building armaments. We are interested in building up arms aggression, as in the case of USA or USSR. We are not interested in building nuclear weapons which are doubly cursive in the sense that they kill or destroy not only the target but also the nation which produces them. That is why those countries which are producing nuclear arms are concerned and are not happy that they are in an advantageous position to hit their enemies, because they are afraid that it will recoil round their own neck. We We are not interested in things.

18 hrs.

We know our economic limitations. We feel that a country in order to become strong enough to defend itself has to become economically strong first. Therefore, we are giving importance to our economic position; though we give equal importance to our defence, none the less, we are not in the arms race in which the free world and their allies are entering, creating tension and anxiety in world. And yet, those very countries are coming and telling us: look, you should not do this.

Sir, I think our Government will take note of the resentment in the country, in the Parliament, that we are at liberty to purchase our requirements from anywhere we like and we will not allow any nation to dictate to us in this matter

Mr. Deputy-Speaker: The hon Member may continue his speech tomorrow.

The Lok Sabha then adjourned till Eleven of the Clock on Wednesday May 30, 1962/Jyaistha 9, 1884 (Saka). [Tuesday, May 29, 1962/Jyaistha 8, 1884 (Saka)]
