- (d) if so, the details of such industries/firms which were granted said clearance, State-wise; and
- (e) the action taken/to be taken against the industries/firms who started work before clearance indicating their names, State-wise?

Answer

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT AND FORESTS (SHRI NAMO NARAIN MEENA)

(a) to (e) Forest (Conservation) Act, 1980, is applicable only on notified forest areas under Indian Forest Act, 1927, and the areas covered under the definition of forests, as identified by the respective State / UT Governments as deemed forests in pursuance of the orders of the Hon'ble Supreme Court. No industry/firm can start the mining work in forest areas without seeking necessary statutory clearances including Environmental and Forestry clearances. It is the responsibility of the State / UT Governments to check such industries/firms who do not abide by the requirements of laws. The mining over forest lands, prior to seeking necessary clearances amounts to illegal breaking of forest lands, which is dealt under Section 26 of Indian Forest Act, 1927 and various other State Acts in force for the time being. Indian Forest Act, 1927, and other State Acts are enforced by the respective State / UT Governments, and, therefore, records of prosecution/action against law-breakers are maintained by them. However, as per the available information, the list of proposals cleared since 1995, for diversion of forest lands for mining under Forest (Conservation) Act, 1980, is at Annexure.
