## EDITORIAL NOTE

---

Conducting elections in a vast country like India is a challenging task. Since 1952, India has been conducting credible, free and fair elections. The elections to the Sixteenth Lok Sabha were held in ten phases during April-May 2014. The National Democratic Alliance (NDA) led by the Bharatiya Janata Party (BJP) secured a clear mandate in the Sixteenth General Election. The BJP also emerged as the largest party, securing 282 out of 543 elected seats in the House, followed by the Indian National Congress (INC) with 44 seats. The Sixteenth Lok Sabha was constituted on 18 May 2014 with the Election Commission issuing a notification under section 73 of the Representation of the People Act, 1951. We include in this issue of the *Journal*, the events relating to the constitution of the Sixteenth Lok Sabha under the feature titled 'The Sixteenth Lok Sabha: Abiding Faith in Democracy'.

The first Session of the Sixteenth Lok Sabha was held from 4 to 11 June 2014. Article 87(1) of the Constitution of India provides for an Address by the President to both Houses of Parliament assembled together at the commencement of the first session after General Election to the House of the People and at the commencement of the first session of each year. On 9 June 2014, the President of India, Shri Pranab Mukherjee addressed members of both the Houses of Parliament assembled together in the Central Hall of Parliament House. The text of the Address by the President is reproduced in this issue of the *Journal*.

The election to the Office of the Speaker was held on 6 June 2014. A veteran parliamentarian of repute and widely admired public figure, Smt. Sumitra Mahajan was unanimously elected as the Speaker of the Sixteenth Lok Sabha. The Prime Minister and Leaders of various political parties and groups warmly felicitated Smt. Mahajan on her election to the august office of the Speaker. Accepting the felicitations Smt. Sumitra Mahajan emphasized the need for greater cooperation among all parties to enhance quality of parliamentary functioning. We extend our heartiest congratulations to Smt. Sumitra Mahajan on her assuming the office of the Speaker and include in this issue a feature titled 'The Election of the Speaker of the Sixteenth Lok Sabha'.

At a function held in the Central Hall of Parliament on 10 February 2014, the President of India, Shri Pranab Mukherjee unveiled the photographs of the Presidents of the Central Legislative Assembly and portraits of the former Speakers of Lok Sabha, which were subsequently installed in the outer lobby of Lok Sabha as token of recognition of

their contribution to our rich parliamentary tradition. Voicing concern over disruptions in Parliament, the President stressed that Parliament functions through debate and it is important that all stakeholders follow sound parliamentary conventions and rules. The Vice-President and Chairman Rajya Sabha, Mohammad Hamid Ansari, the then Prime Minister Dr. Manmohan Singh and the then Speaker, Lok Sabha, Smt. Meira Kumar were present at the function. The texts of the Addresses delivered at the function are included in this issue of the *Journal*.

We also carry in this issue the other regular features, *viz.* Parliamentary Events and Activities, Privilege Issues, Procedural Matters, Parliamentary and Constitutional Developments, Sessional Review, Recent Literature of Parliamentary Interest and Appendices.

In our constant pursuit of making the *Journal* more enriching and useful, we always invite and welcome suggestions for its further improvement. We also welcome practice and problem-oriented, non-partisan articles in the field of parliamentary procedures and institutions from members of Parliament and State Legislatures, scholars and all others interested in the field of parliamentary political science.

## ADDRESS BY THE PRESIDENT TO PARLIAMENT

---

The provision for an Address by the Head of State to Parliament goes back to the year 1921 when the Central Legislature was set up for the first time under the Government of India Act, 1919. Under article 86(1) of the Constitution, the President may address either House of Parliament or both Houses assembled together, and for that purpose require the attendance of members. Article 87(1) provides that at the commencement of the first Session of each year, the President shall address both Houses of Parliament assembled together and inform the Parliament of the causes of its summons.

The Address by the President is a statement of policy of the Government. It contains a review of the activities and achievements of the Government during the previous year and sets out the policies which it wishes to pursue with regard to important national and international issues. It also indicates the main items of legislative business which are proposed to be brought before Parliament during the sessions to be held that year.

Following the constitution of the Sixteenth Lok Sabha, the President of India, Shri Pranab Mukherjee, addressed members of both the Houses of Parliament assembled together in the Central Hall of Parliament House on 9 June 2014.

We reproduce below the text of the Address.

### *Honourable Members*

I am delighted to address this first session of both Houses of Parliament after the elections to the 16th Lok Sabha. Let me begin by extending warm greetings to my fellow citizens, who participated in large numbers in the recently concluded Lok Sabha elections. We should never forget that we are here because of them. Serving them should be our first priority. I also felicitate the members of the new Lok Sabha. You have successfully obtained the mandate from the electorate and now you represent their hopes, aspirations and dreams. I extend a warm welcome to all of you and hope that the sessions ahead with heavy legislative agenda will be productive and useful.

It is a matter of great satisfaction that the recent general elections were smooth and largely peaceful. I would like to congratulate the Election Commission of India and the official machinery for conducting these elections successfully. The unprecedented interest shown by the people of India in the elections is a sign of progressive deepening of

our vibrant democracy. Before I dwell upon the tasks ahead of us, I would like to express my solidarity with the families of all those who lost their lives during the election process.

I congratulate the new Speaker of the Lok Sabha on her unanimous election to this august office. By successively electing women Speakers, the Lok Sabha has re-affirmed our age-old belief in the importance of women in our society.

This has been an election of Hope. It marks a turning point in the evolution of our democratic polity. The surge in aspirations and the belief that these could be realized through democratic processes, has been amply reflected in the record 66.4% participation by voters, and a clear verdict in favour of a single political party after a gap of nearly 30 years. The electorate transcended the boundaries of caste, creed, region and religion to come together and vote decisively in favour of Development through Good Governance.

The country needed a strong and stable government that could provide effective leadership. In my Republic Day speech earlier this year, I had hoped for 2014 to be a year of healing after the fractured and contentious politics of the previous years. Standing here today, I applaud the wisdom of my fellow citizens for having voted for stability, honesty and development in a resurgent India in which corruption will have no place. They have voted for a united, strong, and modern India—“*Ek Bharat-Shreshtha Bharat*”. My government will work to fulfill these aspirations; with the involvement of all the 125 crore people of this great country.

My government is committed to nurturing the right environment for actualizing this mandate of the people. For this, it pledges itself to the principle of “*Sabka Saath, Sabka Vikas*”; which can be fulfilled only through your active participation. We will work together to re-establish the credibility of the institutions of democracy. My government will function on the mantra of ‘Minimum Government, Maximum Governance’. In all our actions, we will be guided by the core values of our great civilization.

My Government is dedicated to the poor. Poverty has no religion, hunger has no creed, and despair has no geography. The greatest challenge before us is to end the curse of poverty in India. My government will not be satisfied with mere “poverty alleviation”; and commits itself to the goal of “poverty elimination”. With a firm belief that the first claim on development belongs to the poor; the government will focus its attention on those who need the basic necessities of life most urgently. It will take necessary steps to provide security in its entirety to all citizens; through empathy, support and empowerment.

Containing food inflation will be the top most priority for my

Hon'ble President of India Shri Pranab Mukherjee arriving at the Central Hall of Parliament House to address the Members of both the Houses of Parliament on 09 June 2014

government. There would be an emphasis on improving the supply side of various agro and agro-based products. My government will take effective steps to prevent hoarding and black marketing. It will reform the Public Distribution System, incorporating best practices from the States. My government is alert about the possibility of a subnormal monsoon this year and contingency plans are being prepared.

Despite more than two-thirds of our people living in rural areas; we have not been able to provide adequate public amenities and livelihood opportunities to them. My government is committed to improving the quality of life in our villages, through empowered Panchayati Raj institutions. A substantial part of investment will focus on creating community assets and improving basic infrastructure such as roads, shelter, power and drinking water. My government will strive to end the rural-urban divide guided by the idea of Rurban; providing urban amenities to rural areas while preserving the ethos of the villages.

Agriculture is the source of livelihood for majority of our people. In the recent past, our farmers have been under severe stress with hopelessness driving some of them to suicides. My government is committed to reversing this unfortunate trend. It will increase investment in agriculture, both public and private, especially in Agri-infrastructure. Steps will be taken to convert farming into a profitable venture through scientific practices and Agro-technology. My government will address issues pertaining to pricing and procurement of agricultural produce, crop insurance and post-harvest management. Productivity of Animal Husbandry will be increased. My government will incentivize the setting up of food processing industries. Existing cooperative sector laws will be reviewed to remove anomalies and lacunae. My government will adopt a National Land Use Policy which will facilitate scientific identification of non-cultivable land and its strategic development.

Each drop of water is precious. My government is committed to giving high priority to water security. It will complete the long pending irrigation projects on priority and launch the '*Pradhan Mantri Krishi Sinchayee Yojana*' with the motto of '*Har Khet Ko Paani*'. There is a need for seriously considering all options including linking of rivers, where feasible; for ensuring optimal use of our water resources to prevent the recurrence of floods and drought. By harnessing rain water through '*Jal Sanchay*' and '*Jal Sinchan*', we will nurture water conservation and ground water recharge. Microirrigation will be popularised to ensure 'Per drop—More crop'.

India is the world's oldest civilization. Today it is also a country with the largest population of the youth. We must equip and nurture our youth with the right kind of education, skill-set and opportunity to reap this demographic dividend. My government will strive to transition from Youth Development to Youth-led Development. It will set up

Massive Open Online Courses and virtual classrooms. It will formulate a National Education Policy aimed at meeting the challenges posed by lack of quality, research and innovation in our educational institutions. We will set up IITs and IIMs in every state. In order to empower school teachers and students, a national e-library will be established. With the motto of "*Har Haath Ko Hunar*", my government will strive to break the barriers between formal education and skill development, and put in place a mechanism to give academic equivalence to vocational qualifications. With the goal of Skilled India, my government will also launch a National Multi-skill Mission.

The children and youth of the country need avenues of recreation that develop them constructively and keep them fit. My government will launch a "National Sports Talent Search System". It will facilitate development and promotion of Indian sports, particularly rural sports. Sports will be popularised by making it an integral part of the school curriculum and providing educational incentives.

Our country needs a holistic health care system that is universally accessible, affordable and effective. To achieve this objective, my government will formulate a New Health Policy and roll out a National Health Assurance Mission. It will promote Yoga and AYUSH. To address the shortfall of health care professionals, health education and training will be transformed. AIIMS like institutes will be established in every State in a phased manner.

We must not tolerate the indignity of homes without toilets and public spaces littered with garbage. For ensuring hygiene, waste management and sanitation across the nation a "*Swachh Bharat Mission*" will be launched. This will be our tribute to Mahatma Gandhi on his 150<sup>th</sup> birth anniversary to be celebrated in the year 2019.

Keeping in mind welfare of the people belonging to the Scheduled Castes, Scheduled Tribes, Other Backward Classes and the weaker sections of our society; my government will take steps to create an enabling eco-system of equal opportunity in education, health and livelihood. My Government is committed to see that those belonging to the Scheduled Castes and Other Backward Classes are able to avail emerging opportunities. For the Scheduled Tribes, my government will launch a dedicated "*Van Bandhu Kalyan Yojana*". Electrification of tribal hamlets and connecting them with all-weather roads will be a priority area.

It is unfortunate that even after several decades of independence, sections of minority communities continue to suffer from poverty, as benefits of government schemes do not reach them. My government is committed to making all minorities equal partners in India's progress. The government will especially strengthen measures to spread modern

and technical education among minority communities and a National Madarsa Modernization Programme will be initiated.

The welfare and rehabilitation of specially-abled people is integral to my government's vision of a caring society. It will take steps to provide dignity of life to them by facilitating their participation in all walks of life. Steps will be taken to identify their special needs and to provide institutional care to them.

My government recognizes the important role our women play in the development of our society and growth of the nation. It is committed to providing 33 per cent reservation to them in the Parliament and State Legislative Assemblies. With a commitment of "*Beti Bachao–Beti Padhao*", my government will launch a mass campaign for saving the girl child and enabling her education. It will structure a comprehensive scheme, incorporating best practices from States in this regard. In the recent past, the country has witnessed some gruesome incidents of violence against women. The government will have a policy of zero tolerance for violence against women, and will strengthen the criminal justice system for its effective implementation.

India is a federal polity. But, over the years, the federal spirit has been diluted. The States and the Centre should function as an organic Team India. In order to actively engage with the States on national issues, my government will reinvigorate fora like the National Development Council and the Inter-State Council. The Centre will be an enabler in the rapid progress of States through Cooperative Federalism. State-specific development models will be developed taking into account the special needs and unique problems of Coastal, Hilly and Desert areas. Highest priority will be accorded to bring eastern region of the country on par with western region in terms of physical and social infrastructure. My government is committed to addressing the issues relating to development of Andhra Pradesh and Telangana. The government will lay special emphasis on improving the intra-region connectivity and border infrastructure in the Northeast as well as in Jammu & Kashmir. The issue of infiltration and illegal immigrants in the Northeast region will be tackled on priority and all pending fencing work along the Northeast border will be completed. Special efforts will be made to ensure that Kashmiri Pandits return to the land of their ancestors with full dignity, security and assured livelihood.

My government is committed to providing a clean and efficient administration focussed on delivery. The institution of Lok Pal is important to curb corruption and my government will endeavour to formulate rules in conformity with the Act. My government will take steps to build the confidence and morale of our bureaucracy; enabling it with the freedom to work, and welcoming innovative ideas. The government will stress on putting in place transparent systems and

time bound delivery of government services. Government systems and processes will be revisited to make them citizen friendly, corruption free and accountable. Efforts will be made to eliminate obsolete laws, regulations, administrative structures and practices. Rationalization and convergence among Ministries, Departments and other arms of the government will be ensured to have focussed delivery. Digitization of government records will be done for improving accessibility.

E-governance brings empowerment, equity and efficiency. It has the power to transform peoples' lives. The backbone of my government's new ways of working will be a Digital India. IT will be used to drive re-engineering of government processes to improve service delivery and programme implementation. We will strive to provide Wi-Fi zones in critical public areas in the next five years. My government will roll out broad band highway to reach every village and make all schools e-enabled in a phased manner. Technology will be used to prepare our children for a knowledge society. The National e-governance plan will be expanded to cover every government office from the centre to the Panchayat; to provide a wide variety of services to citizens. Emerging technologies like Social Media will be used as a tool for; participative governance, directly engaging the people in policy making and administration.

My government is determined to rid the country of the scourge of corruption and the menace of black money. As a first step in this direction, the government has already constituted a SIT to unearth black money stashed abroad. This will be followed up vigorously by proactively engaging with foreign governments.

Keeping in mind that justice delayed is justice denied, my government will adopt a multi-pronged approach to address the problem of high pendency of cases in our judicial system. It will progressively modernize the courts to improve their operational efficiency, and start reform of the criminal justice system to make dispensation of justice simpler, quicker and more effective. It will initiate a mission mode project for filling vacancies in the judiciary and for doubling the number of courts and judges in the subordinate judiciary in a phased manner. The government will give special emphasis to the development of Alternate Dispute Resolution mechanisms.

On the economic front, we are passing through an extremely difficult phase. For two consecutive years, our GDP growth has been less than 5 per cent. Tax collection has declined. Inflation continues to be at an unacceptable level. Thus, putting the Indian economy back on track is paramount for my government. We will work together to usher our economy into a high growth path, rein in inflation, reignite the investment cycle, accelerate job creation and restore the confidence of the domestic as well as international community in our economy.

My government will create a policy environment which is predictable, transparent and fair. It will embark on rationalisation and simplification of the tax regime to make it non-adversarial and conducive to investment, enterprise and growth. My government will make every effort to introduce the GST while addressing the concerns of States. Reforms will be undertaken to enhance the ease of doing business. My government will follow a policy of encouraging investments, including through FDI; which will be allowed in sectors that help create jobs and assets.

For rapid creation of jobs in the manufacturing sector, the government will strategically promote labour-intensive manufacturing. Employment opportunities will also be expanded by promoting tourism and agro-based industries. My government will transform Employment Exchanges into Career Centres—connecting our youth with job opportunities in a transparent and effective manner through the use of technology as well as through counselling and training. The government will strengthen the pension and health insurance safety nets for labour force of all categories and would provide them access to modern financial services.

We need to transform ourselves into a globally competitive manufacturing hub powered by Skill, Scale and Speed. To this end, the government will set up world class investment and industrial regions, particularly along the Dedicated Freight Corridors and Industrial Corridors spanning the country. My Government will encourage the domestic industry to innovate and collaborate internationally. It will strive to move towards a single-window system of clearances both at the Centre and at the States through a hub-spoke model.

To strengthen our share in global trade, procedures will be simplified and trade infrastructure strengthened so as to reduce transaction time and costs. The SSI and Handicraft sectors will be encouraged by providing them enhanced technological, marketing and investment support. Export potential of this sector will be encouraged. My government will make every effort to improve the working conditions of our weavers in particular. It will also set up a task force to review and revive our MSME sector.

Lack of robust infrastructure is one of India's major impediments. The government will chalk out an ambitious infrastructure development programme to be implemented in the next 10 years. A fast-track, investment friendly and predictable PPP mechanism will be put in place. Modernization and revamping of Railways is on top of the infrastructure agenda. My government will launch a Diamond Quadrilateral project of high speed trains. The country will have a network of freight corridors with specialised Agri-Rail networks for perishable agricultural products. Investment in railways will be increased using innovative financing methods. Expansion of railways in Hilly States and Northeast region and modernization of rail safety systems will be prime focus

areas. We will encourage R&D and high level local manufacturing for railway systems. A fast, time-bound and well monitored programme for execution of the National Highways programme will be initiated, to overcome the stagnancy of the past few years. Low cost airports will be developed to promote air connectivity to smaller towns. The government will evolve a model of Portled development. Our long coastline will become the gateway for India's prosperity. My government will facilitate modernization of existing ports on one hand, and development of new world class ports on the other. Stringing together the Sagar Mala project we will connect the ports with the hinterland through road and rail. Inland and coastal waterways will be developed as major transport routes.

My government will come out with a comprehensive National Energy Policy and focus on development of energy related infrastructure, human resource and technology. The aim of the government will be to substantially augment electricity generation capacity through judicious mix of conventional and non-conventional sources. It will expand the national solar mission and connect households and industries with gas-grids. Reforms in the coal sector will be pursued with urgency for attracting private investment in a transparent manner. The international civil nuclear agreements will be operationalized and nuclear power projects for civilian purposes will be developed.

My government is conscious of the fact that our urban infrastructure is under severe stress. Soon, 50 per cent of our population would be residing in urban areas. Taking urbanization as an opportunity rather than a challenge, the government will build 100 Cities focussed on specialized domains and equipped with world class amenities. Integrated infrastructure will be rolled out in model towns to focus on cleanliness and sanitation. By the time the nation completes 75 years of its Independence, every family will have a pucca house with water connection, toilet facilities, 24x7 electricity supply and access.

While putting the country on a high growth path, my government will keep sustainability at the core of our planning process. My government strongly believes that environmental conservation can go hand in hand with development. To achieve this, environment and forest clearance systems will be made more predictable, transparent and time-bound. Simultaneously, an effective system will be developed for sound appraisal processes and strict compliance of clearance conditions, especially those relating to rehabilitation of displaced communities and regeneration of forests. Cleaner fuels will be promoted to bring down pollution levels in our cities. The government will earnestly take up mitigation works to meet the challenges posed by climate change and will closely work with the global community in this regard. Conservation of Himalayan ecology will be a priority area for my government. A National Mission on Himalayas will be launched.

In the recent past, serious concerns have been expressed regarding use of discretionary powers in allocation of our precious natural resources. The government will formulate clear and transparent policies on allocation of critical natural resources such as coal, minerals and spectrum.

River Ganga is a part of our rich cultural heritage, a symbol of faith and the lifeline for millions. However, Ganga continues to remain polluted with many stretches of the river becoming dry in lean season. My government will take all necessary steps to ensure a perennial, clean and pristine Ganga.

Our rich cultural heritage is the very foundation on which rests the unity of our diverse nation. Indian languages are repositories of our rich literature, history, culture, art and other achievements. My government will launch a national mission “e-Bhasha” that will develop digital vernacular content and disseminate our classic literature in different languages. My government will also provide the required resources for the maintenance and restoration of national heritage sites.

India has a vast untapped potential for tourism which can play a special role in our socio-economic progress. The government will initiate a mission mode project to create 50 tourist circuits that are built around specific themes. With a view to encouraging pilgrimage tourism, a National Mission for beautifying and improving the amenities and infrastructure at pilgrimage centres of all faiths will be launched.

My government recognises the central role of Science and Technology in raising the quality of life. It will encourage and incentivize private sector investments, both domestic and foreign, in science and technology and in high-end research aimed at nurturing innovation. My government will build world class research centres in the fields of nanotechnology, material sciences, thorium technology, brain research, stem cells, etc. The government will also establish institutes of Technology for Rural Development and a Central University of Himalayan Studies.

The government will maintain utmost vigil in the area of internal security. A policy of zero tolerance towards terrorism, extremism, riots and crime will be pursued. The States will be assisted for modernizing police infrastructure and equipment to tackle new forms of terrorism including narco terrorism and cyber threats. A national plan will be chalked out in consultation with the state governments to effectively curb incidents of communal violence and the challenges posed by left wing extremism. My government will take steps to equip the security forces with the latest technology and to improve their working conditions.

My Government will carry out reforms in defence procurement to increase efficiency and economy. It will encourage domestic industry, including the private sector; to have a larger share in design and

production of defence equipment. We will introduce policies to strengthen technology transfer, including through liberalised FDI in defence production. With readily available skilled human resource, India can emerge as a global platform for defence manufacturing including software, which will strengthen our defence and spur industrial development as well as exports.

The country is proud of its Armed Forces. They serve the nation with professionalism, dedication and valour; securing our nation and supporting relief and rescue operations in the wake of disasters and calamities. We will strengthen defence preparedness by modernising our Armed Forces and addressing the shortage of manpower on priority. Recognising the importance of coastal security, my government will set up a National Maritime Authority.

My government will do everything to repay the debt of our brave and selfless soldiers. It will appoint a Veterans Commission to address their grievances, so that they know that we don't stop caring for them when they retire from active service. The government will build a National War Memorial to honour the gallantry of our soldiers. One Rank, One Pension scheme will be implemented.

India's foreign policy, with its civilizational roots and heritage, is based on the principles of developing peaceful and friendly relations with all countries. We will pursue our international engagement based on enlightened national interest, combining the strength of our values with pragmatism, leading to a doctrine of mutually beneficial relationships. My government is committed to building a strong, self-reliant and self-confident India; regaining its rightful place in the comity of nations.

My government sent a unique and bold signal to the South Asian region and the world, by inviting for the first time in independent India, leaders of all South Asian neighbours to the swearing-in ceremony of the new Council of Ministers on May 26. We are grateful to them for accepting the invitation at such a short notice. Their participation, as also the gracious presence of the Prime Minister of Mauritius; not only added sheen to the ceremony, but also represented a celebration of democracy in the region and convergence of our shared hopes and aspirations. This shows my government's commitment and determination to work towards building a peaceful, stable and economically inter-linked neighbourhood which is essential for the collective development and prosperity of the South Asian Region. We will further work together with South Asian leaders to revitalise SAARC as an effective instrument for regional cooperation and as a united voice on global issues.

At the same time, we will never shy away from raising issues of concern to us at a bilateral level. We emphasize that the future of shared prosperity can only be built on the foundation of stability in the

region, which requires sensitivity to security concerns and an end to export of terrorism to neighbours.

My Government will engage energetically with other neighbours in our region, including China, with whom we will work to further develop our Strategic and Cooperative Partnership. We will strive to make progress in the many initiatives that are ongoing with Japan, especially in the field of building modern infrastructure in our country. Russia remains a privileged and strategic partner and my government will build further on the firm foundations of this relationship.

India and the United States have made significant progress in developing strategic partnership over the years. My government will bring a renewed vigour to our engagement and intensify it in all areas, including trade, investment, science and technology, energy and education. India also values its broad-based cooperation with Europe. The government will make concerted efforts to achieve progress in key areas with the European Union as well as its leading members.

To fully realize our softpower potential; there is a need to integrate it into our external interchange, with particular emphasis on our rich spiritual, cultural and philosophical heritage. The government will revive Brand India riding on our strengths of 5T's: Tradition, Talent, Tourism, Trade and Technology.

Across the world, we have a vibrant, talented and industrious Indian Diaspora that is a source of great pride for us. They have done pioneering work in diverse fields, held the highest public offices and have worked hard to support their localities and families in India. While they have contributed immensely to their adopted country, they also carry a little flame of India in their hearts that can light up the promise of change in our country. A hundred years ago, in 1915, India's greatest Pravasi Bharatiya, Mahatma Gandhi, returned home and transformed the nation's destiny. The next Pravasi Bharatiya Diwas in January 2015 will thus be a special occasion. As we celebrate the centenary of Gandhiji's return to India, we would also take steps that would deepen every Pravasi Bharatiya's connection with India and involve them in India's development.

The people of India have given a clear mandate. They want to see a vibrant, dynamic and prosperous India. They want to see a resurgent India regaining the admiration and respect of the international community. Brimming with hope and expectation, they want quick results. With three Ds of Democracy, Demography and Demand on our side, India is poised to actualize these aspirations. We must rise to the occasion to fulfill these great expectations. The Office of the Presiding Officer occupies a pre-eminent position in a parliamentary democracy. **ADDRESS BY THE SPEAKER, LOK SABHA,  
SMT. MEIRA KUMAR**

It is my privilege to welcome this august gathering at the function to unveil the portraits of the Presidents of Central Legislative Assembly and former Speakers of Lok Sabha.

We feel honoured that respected *Rashtrapati Ji* is in our midst to unveil these portraits. I am grateful to *Uprashtrapati ji* and *Pradhan Mantri Ji* for gracing this function. On behalf of everyone present here, I would like to thank our former Speakers, Dr. Balram Jakhar Ji, Shri Shivraj V. Patil Ji, Shri P.A. Sangma Ji, Shri Manohar Joshi Ji and Shri Somnath Chatterjee Ji for being with us today. I am also delighted that the family members of my predecessors have joined us.

We are fortunate to have had a galaxy of illustrious Presiding Officers, who have brought prestige to the Chair. They have witnessed history being made and have played a pivotal role in establishing sound democratic traditions, rules, practices and conventions. The Directions and Rulings from the Chair have asserted the authority and independence of the Parliament. Their exceptional contributions have vastly enriched our parliamentary polity.

Our Parliamentary system has evolved over time and has assumed a unique identity of its own. As I interact with my counterparts across the globe, many of them inform me that they frequently refer to the decisions of the Speakers of Lok Sabha. They are aware that the challenges faced by the Speaker of the largest functioning democracy are not only extremely complex, but also quite varied in nature. Therefore, they find the rulings given by successive Indian Speakers helpful in overcoming their own similar situations. We get innumerable requests for copies of the Rules of Procedure and Conduct of Business in Lok Sabha, Directions by the Speaker and the Practices and Procedures of Parliament. It is indeed a matter of pride as, in all these publications, is crystallised the wisdom of my predecessors. And, so widely appreciated are these that Parliamentarians and officials from various countries come to our Bureau of Parliamentary Studies and Training to learn from these.

Presiding Officers and Speakers, dating back from the days of the Central Legislative Assembly in 1921 have been of outstanding caliber. The Presidents of the Central Legislative Assembly, Sir Frederick Whyte, Shri Vithalbai Patel, Sir Muhammad Yakub, Sir Ibrahim Rahimtoola, Sir R.K. Shanmukham Chetty, Sir Abdur Rahim and Shri G.V. Mavalankar laid the foundation of parliamentary conventions and traditions before Independence. These were strengthened in the Provisional Parliament by Shri G.V. Mavalankar as its presiding officer. I would especially like to mention Shri Vithalbai Patel who underscored the importance

The President of India, Shri Pranab Mukherjee addressing the august gathering

The President of India, Shri Pranab Mukherjee; the Vice-President of India and Chairman, Rajya Sabha, Shri Mohammad Hamid Ansari; the then Prime Minister of India, Dr. Manmohan Singh and the then Speaker, Lok Sabha, Smt. Meira Kumar with the former Speakers of the Lok Sabha and their family members, on 10 February 2014

of the impartiality of the Presiding Officers. And this, by no means is an easy task!

We have a vibrant multiparty democracy. Our Speakers invariably are members of a political party and like the rest, have been elected through an intense political process. However, as soon as they assume the Office of the Speaker, they are expected to distance themselves from their political affiliations and become absolutely impartial not only within, but also outside the House. They have to maintain a fine balance between all the parties representing various shades of opinion in the Parliament. It is an arduous duty, but one which has been performed so far with unfailing sagacity.

After Independence, subsequent Speakers, namely Shri G.V. Mavalankar, Shri M.A. Ayyangar, Sardar Hukam Singh, Dr. N. Sanjiva Reddy, Dr. G.S. Dhillon, Shri Bali Ram Bhagat, Shri K.S. Hegde, Dr. Balram Jakhar, Shri Rabi Ray, Shri Shivraj V. Patil, Shri P.A. Sangma, Shri G.M.C. Balayogi, Shri Manohar Joshi and Shri Somnath Chatterjee have been instrumental in enhancing the reputation of this Office.

Our Presiding Officers have always been held in high esteem. Befitting their stature, the portraits of the Presidents of the Central Legislative Assembly had been installed in the inner lobby of the Lok Sabha, but this tradition had been discontinued over time. Today, in acknowledgement of the sterling contributions of the Presidents of the Central Legislative Assembly and the former Speakers of the First to the Fourteenth Lok Sabhas, it has been decided to venerate them by unveiling their portraits in the Parliament House. This Institution has gained much from the vision of these remarkable men, who have served it with utmost devotion.

With these words, I once again welcome respected *Rashtrapati Ji*, *Uprashtrapati Ji*, *Pradhan Mantri Ji* and each and every one present here, to this function.

Thank you.

**ADDRESS BY THE PRESIDENT OF INDIA,  
SHRI PRANAB MUKHERJEE**

I am indeed happy to be present amidst you on the occasion of unveiling of the photographs of the Presidents of the Central Legislative Assembly and the portraits of the former Speakers of the Lok Sabha today. As Presiding Officers of our apex elected body, these distinguished personalities made significant contributions towards strengthening the edifice of our parliamentary democracy through their innovative rulings,

directions, observations and initiatives. As a mark of our respect to these stalwarts, their photographs and portraits have been installed today in this temple of democracy.

Indian Parliament is the *Gangotri* of our democracy. It represents the will and the aspirations of one billion plus people and is the link between the people and the government. If *Gangotri* gets polluted, neither *Ganga* nor any of its tributaries can stay unpolluted. It is incumbent upon all Parliamentarians that they maintain the highest standards of democracy and parliamentary functioning. The Parliament, like other organs of the Government, is not sovereign and owes its origin and authority to the Constitution and derives its functional responsibility from, and discharges its responsibilities within the framework of the Constitution. The prime function of the Parliament is to enact legislations to empower the people on every front—social, economic and political, to exercise control over Executive and making it accountable in all respects. The validity of a law, whether Union or State, is tested by judiciary as defined in the Constitution.

Our Parliament has evolved well-developed processes and procedures. The Parliament functions through Debate, Dissension and finally Decision and not through disruption. In order to strengthen our Parliamentary functioning and other democratic institutions, it is important that all stakeholders—Government, political parties, their leaders and Parliamentarians do some introspection and follow sound parliamentary conventions and rules.

This historical Parliament House Building is adorned with mural paintings of ancient India along with portraits and statues of national leaders and eminent parliamentarians. Presently, the photographs of Presiding Officers of Central Legislative Assembly of pre independence period have been displayed in the inner lobby of Lok Sabha Chamber in the Parliament House. In order to continue this beautiful tradition, it was appropriately decided to have a Gallery of the Presidents of the Central Legislative Assembly and the former Speakers of the Lok Sabha and to install their photographs and portraits in the Outer Lobby of the Lok Sabha Chamber. I congratulate the Speaker of the Lok Sabha, Smt. Meira Kumar, for taking this initiative. I also convey my appreciation for the selected artists who have done a tremendous job in painting the portraits.

In the last six decades and more since Independence, the people of this country have been witness to the constitution of fifteen Lok Sabhas through election on the basis of adult suffrage. Every Lok Sabha, as an apex elected body of the country, has successfully guided our nation on the path of progress. In response to the unique circumstances every Lok Sabha has faced, the Parliament has evolved as an effective representative institution to meet the emerging challenges

of our vibrant democracy. By facilitating orderly conduct of business in the House, all the former Speakers of the Lok Sabha have significantly contributed to the effective functioning of the House and to the development of various parliamentary traditions, conventions, processes and procedures.

This is also the time to remember the distinguished Presidents of the Central Legislative Assembly in the pre-Independence period—Sir Frederick Whyte, Shri Vithalbai Patel, Sir Muhammad Yakub, Sir Ibrahim Rahimtoola, Sir R.K. Shanmukham Chetty and Sir Abdur Rahim, who laid the solid foundation for India's parliamentary system.

Due to the relentless efforts of Shri Vithalbai Patel, the first elected President of the Central Legislative Assembly and contributions of members like Motilal Nehru and others, the establishment of an independent Secretariat under the President of the Central Legislative Assembly was a turning point in the history of our parliamentary system. It was due to his farsightedness and wisdom that when the Constituent Assembly was drafting the Constitution, the founding fathers took cognizance of the importance of having an independent office of the Presiding Officer. They very thoughtfully and appropriately incorporated Article 98 in our Constitution which provided for the creation of separate Secretariats for both the Houses of our Parliament.

As the constitutional and functional head of the House, the Speaker is entrusted with the onerous responsibility of protecting the independence, impartiality, dignity and power of the House. Adequate powers are vested in the office of the Speaker through the Constitution, through the Rules of Procedure and Conduct of Business in the House and also through the conventions to ensure smooth conduct of the parliamentary proceedings. All our distinguished former Speakers of the Lok Sabha, starting from Shri G.V. Mavalankar to Shri Somnath Chatterjee; and the present Speaker, Smt. Meira Kumar, have adorned the Office of the Speaker maintaining the highest standards of democratic traditions and have made significant contributions in further strengthening our parliamentary conventions, processes and procedures. I am delighted to see presence of some of former Speakers of Lok Sabha on this occasion and I heartily welcome them.

I am sure, the photographs and portraits of the Presiding Officers of the Central Legislative Assembly and the Lok Sabha that are being unveiled here today will always remind us of discharging our duties and responsibilities for which we have sought mandate from the people, and inspire us to earnestly strive to establish a progressive, vibrant and healthy democracy.

Thank You.

I am grateful to all of you for my unanimous and unopposed election to the Office of the Speaker of 16<sup>th</sup> Lok Sabha of our great country. This moment is not only a moment of great

honour for me, but also full of challenges. The challenges of discharging enormous responsibility entrusted to me by the House lay ahead. I am well aware that the kind words spoken about me by various Members in the House are also an expression of the expectations they are going to have in future. On the basis of experience of past twenty five years in this House, I will try my best to live up to these expectations and I assure you that I will not disappoint you. I am sure that all of you will extend your cooperation in ensuring smooth functioning of the House.

Hon'ble Members, I heartily congratulate all of you on being elected to the 16<sup>th</sup> Lok Sabha. The electorate of our country has given us a great opportunity and entrusted a solemn responsibility to fulfill the hopes and aspirations of a hundred crore plus people. Nothing less than our full and conscientious dedication to that responsibility can suffice to uphold the faith the people of country have reposed in us. Now a new opportunity awaits us and especially the leaders of political parties to usher in a new era of peace, progress and prosperity. We have got a clear mandate for good governance and development in this election. We should honour it and it is our duty to take our country forward on the path of progress and development. The General elections held recently is a momentous event in the history of our country wherein 66.48 percent, i.e. more than 82 crore electors voted to choose their representatives which is a record. All of you are aware that the Legislative business is our most important work. Meaningful discussion on the Acts to be passed for the welfare of the people is our most important work. We can make effective laws for the welfare of the people only through detailed and comprehensive discussions. I request all the Hon'ble Members to make their contribution in the Legislative business through meaningful discussion in the House. Various Committees of the House also play an important role in the parliamentary procedure. Thorough discussion in the committees on the matters coming before the House help save the valuable time of the House. I request the Hon'ble Members to serve well the Committees to which they are nominated and help streamline the Legislative business. Our Parliament was once a forum of intelligent and cultured debates led by eloquent orators and stalwarts in the past. While we adhere to that glorious tradition, on many occasions, we also deviate from it. That glorious tradition of healthy debate should be our benchmark so that the credibility of this august democratic institution may become stronger. As I embark on my new responsibility to run this House as the Presiding Officer, I

earnestly seek the cooperation of all the leaders of political parties and individual members in ensuring the orderly conduct of the House. I also request the members to properly and effectively use the various parliamentary devices at their disposal in order to make this House the epitome of democracy.

Hon'ble Members, the Parliament epitomizes our cultural diversity and also our unity in diversity. The role of our parliament is larger than making laws. In fact it is a reflection of our national sentiments. We cannot limit our role to ensuring the development of our constituencies. We will have to keep in mind the interests of the nation. Our country is supreme and we should always remember that. It is quite natural in a parliamentary democracy for the Members representing varied political ideologies to be present in the House, however, it is expected of all the Hon'ble Members to participate in the proceedings of the House as we believe in the adage:

समानो मन्त्रः समितिः समानी, समानं मनः सहचित्तमेषाम् ।  
समानं मन्त्रभिमन् ये वः, समानेन वो हविषा जुहोमि ॥

**Common be the prayer of these (assembled worshippers), common be the acquirement, common be the purpose, associated be the desire. I repeat for you a common prayer, I offer for you a common oblation.**

I am sure that Hon'ble Members will participate in the proceedings of the House keeping in mind the responsibilities entrusted to them.

Hon'ble Members, it is a matter of pleasure that our Hon'ble Prime Minister had given indications before the declaration of the results of the election that he will be the Prime Minister of 125 crore Indians and he will give equal treatment to all the Members of the House. Revered Lokmata Devi Ahilyabai Holkar has been a source of inspiration and an ideal for me in my life. I am fortunate to have worked with many stalwarts of democracy in my political journey. My association with Parliament began with the 9<sup>th</sup> Lok Sabha and has continued ever since. I have had the privilege of serving the country and the people in different capacities—as party leader; as Chairperson and Member of various Parliamentary Committees; as a Member in the Panel of Chairpersons in Lok Sabha; and as a Union Minister with different portfolios. My public life has been a very eventful and active. I feel a profound sense of satisfaction in being blessed with the opportunity to contribute to the cause of the nation and in shaping my own life through this experience.

It has been the endeavour of my predecessors from Shri G.V. Mavlankar to uphold the traditions of parliamentary democracy and create conventions and rules for the smooth conduct of the House. I respect the great legacy they have left behind. I will also strive to make new healthy conventions in future also.

Once again, I am grateful to the House for reposing faith in me to preside over the House. I wish to especially thank the Hon'ble Prime Minister, Hon'ble Leaders of Parties and Groups and all the Hon'ble Members for their words of support. I also take this opportunity to extend my sincere thanks to the Pro tem Speaker, Shri Kamal Nath ji for setting the tone of dignified and smooth conduct of the House in the days preceding my election to the office of the Speaker. I am confident that with an efficient Lok Sabha Secretariat to assist me with unstinted cooperation, I will live up to the expectations of the House and in the end, I call upon all the Hon'ble Members to rededicate themselves to serve the country and the people through this temple of democracy.

अजय्यम् आत्मसार्थ्यम्, सुशीलम् लोकपूजितम् ।  
ज्ञानम् च देहि विश्वेश, ध्येयमार्गं प्रकाशकम् ॥

Grant us, O Lord of the Universe, the invincible inner strength and virtuous character that all humanity adores, and the knowledge that will enlighten the path leading to our mission.

Thank you.

The Committee on the basis of the documents on record and evidence tendered before it concluded that Shri Ashok Kumar Rawat, member of Parliament was not discriminated by the officials of Jet Airways on the basis of his belonging to Scheduled Caste. Yet, it found the officials of Jet Airways negligent in the discharge of their duties and guilty of rude and curt behaviour with Shri Ashok Kumar Rawat.

The Committee also recommended that fresh guidelines be issued by the Ministry of Civil Aviation (MoCA) and the Airports Authority of India (AAI) and other concerned offices of the MoCA to all the Airlines to invariably extend the desired protocol and courtesies to members of Parliament on prior intimation of their travel plans. The Committee further recommended that such policy should not only cover airports under AAI but all other major airports being managed by other private entities also.

Further, the contact details of Nodal/Protocol/Guest officers at Airports should be given wide publicity among the VIPs for facilitating their travel and reducing the instances of inconvenience faced by members and resolve the issues faced, if any, at the spot.

The Committee further recommended that the MoCA should re-circulate the DoPT guidelines dated 1 December 2011 regarding official dealings between the Administration and members of Parliament, in all its offices/subordinate offices at Delhi and outside for strict compliance, particularly with regard to prompt disposal of letters written by members of Parliament.

The Committee, in view of the unconditional apology tendered by Jet Airways and their assurance of not repeating such lapses in future recommended no further action in the matter.

## DOCUMENTS OF CONSTITUTIONAL AND PARLIAMENTARY INTEREST

---

*The Andhra Pradesh Reorganisation Act, 2014:* The creation of a separate State of Telangana for the betterment of the social, economic, political and other aspirations of the people of that region had been a long standing demand. Pursuant thereto, the Government of India on 9 December 2009 announced that the process for formation of a separate State of Telangana would be initiated. After wide-ranging consultations on 3 October 2013, the Government of India decided to bifurcate the existing State of Andhra Pradesh.

The Andhra Pradesh Reorganisation Bill, 2014 seeks to give effect to the aforesaid decision. It aims at reconstituting the existing State of Andhra Pradesh into two separate States, namely the State of Andhra Pradesh and the State of Telangana. The reorganisation will meet the democratic aspirations of the people of Telangana region and ensure peace, goodwill, progress and prosperity among all the sections of the people of both successor States.

The salient features of the said Bill, *inter alia*, are as follows:—

(a) it provides for the territories of the two successor States of Andhra Pradesh and Telangana, and necessary provisions relating to representation in the Parliament and the State Legislatures, distribution of revenues, apportionment of assets and liabilities, mechanisms for the management and development of water resources, power and natural resources and other matters;

(b) it makes provisions for the maintenance of law and order to ensure peace and harmony in all regions and districts of the two successor States after the appointed day;

(c) it provides that Hyderabad in the existing State of Andhra Pradesh shall be the common capital of both the successor States from the appointed day for a period not exceeding ten years, and puts in place legal and administrative measures to ensure that both the State Governments can function efficiently from the common capital which includes the area notified as Greater Hyderabad Municipal Corporation under the Hyderabad Municipal Corporation Act, 1955;

(d) it makes provisions casting responsibility on the Central Government to assist the successor State of Andhra Pradesh in identification of its new capital and to assist that State financially in the creation of essential facilities in the new capital;

(e) it further makes provisions casting responsibility on the Central Government to promote industrialisation and economic growth in both the successor States through fiscal measures as well as through other programmes for the development of backward areas, in particular Rayalaseema and the north coastal regions

of the successor State of Andhra Pradesh, by special development package to be given by the Central Government after having due regard to the resources available to the successor State of Andhra Pradesh;

(f) it declares that the Polavaram irrigation project will be a national project which would be executed by the Central Government expeditiously;

(g) it enables the Central Government to expeditiously provide for the industrialisation as well as infrastructure development relating to education, power, port, airports, road transport and railways for the progress and sustainable development of both the successor States.

The Andhra Pradesh Reorganisation Bill, 2014, which sought to achieve the above-mentioned objectives was passed by the Lok Sabha and the Rajya Sabha on 18 and 20 February 2014, respectively. The President assented to it on 1 March 2014.

*The Governors (Emoluments, Allowances and Privileges) Amendment Act, 2014:* As per the Governors (Emoluments, Allowances and Privileges) Act, 1982 the Governor was entitled to emoluments amounting to one lakh ten thousand rupees per month. However, the said Act did not provide for any pension or post-retirement benefits to ex-Governors except medical facilities governed by the rules or orders issued by the Ministry of Health and Family Welfare, from time to time. Keeping in view the high constitutional office that a Governor holds and considering the contributions in public discourse that they would continue to make after they retire, it was proposed to provide the secretarial assistance to ex-Governors in the form of one Personal Assistant, which the ex-Governor concerned may appoint on reimbursement basis, during his life time. However, he would not be eligible for such secretarial assistance for the period during which he is re-appointed to the office of Governor or elected to the Parliament or the State Legislature or appointed to any office of profit under the Union or a State Government.

The Governors (Emoluments, Allowances and Privileges) Amendment Bill, 2012, which sought to achieve the above-mentioned objectives was passed by the Lok Sabha on 24 August 2013. The Rajya Sabha passed the Bill with amendments on 19 February 2014 which were considered and agreed to by the Lok Sabha on 20 February 2014. The President assented to it on 4 March 2014.

We reproduce here the texts of the above Acts.

### FIFTEENTH LOK SABHA

#### FIFTEENTH SESSION

The Fifteenth Session of the Fifteenth Lok Sabha was held in two parts, *i.e.*, First Part from 5 December to 18 December 2013 and Second Part from 5 February to 21 February 2014<sup>#</sup>. The Session was adjourned *sine die* on 21 February 2014 and subsequently prorogued on 27 February 2014. In all, 12 sittings were held during this period.

A brief account of important discussions and other business transacted during the Second Part of the Session (from 5 February to 21 February 2014) is included. Details regarding Question Hour and Obituary References, however, pertain to the entire period of the Session.

#### A. DISCUSSIONS / STATEMENTS

*The Interim Budget (Railways)—2014-15*: Presenting the Interim Budget (Railway) for the year 2014-15 on 12 February 2014, the Minister of Railways, Shri Mallikarjun Kharge said that the Estimates for 2014-15 in respect of Railways were for the whole year, but at that instant he was seeking from the House, a 'vote-on-account', sufficient to cover the estimated expenditure for the first four months of the fiscal.

The Minister said that Railways influence all aspects of our lives and untiringly carry people and materials to every nook and corner of the country. Its role in national integration by providing low cost connectivity from Kashmir to Kanyakumari on one hand and Arunachal, Mizoram and Tripura to Gujarat on the other, is unparalleled. He opined that this pan Indian organization needs careful nurturing to help it better serve the people and play its role in building the nation. Though Railways continue to deliver services ungrudgingly in spite of constraints of resources, both physical and financial, it is high time that we take

a serious note of its urgent investment and other needs. He said that as Railways is a strong engine of development and helps in mainstreaming our citizens in less developed areas of the country, it is critical that it should be accorded a more central place in the national planning.

With the UPA II Government completing its five years journey in May 2014, the Minister expressed his wish to share some of the recent key initiatives taken by the Government in the Railways sector. The National Project of Kashmir witnessed a major landmark June 2013, when 11.2 km long tunnel linking Banihal with Qazigund in the valley became operational. Also, construction on Udhampur–Katra section, which would enable lakhs of pilgrims from all over the country to reach foothills to Vaishno Devi shrine directly, had been completed and trial runs were started. The Government expected to run passenger services up to Katra very shortly.

During the 11<sup>th</sup> Plan period, the targets for newlines, doubling and electrification were exceeded. Railways completed 2,207 km of newlines against target of 2,000 km; doubling of 2,758 km against 2,500 km and electrification of 4,556 km against a target of 4,500 km. During the 12<sup>th</sup> Plan period, Indian Railways infrastructure would further expand to reach the hinterland and frontiers of our nation. Similarly, rolling stock acquisition also surpassed the targets and 64,875 wagons were acquired against target of 62,000; a total of 1,288 diesel locos were produced against 1,019; and 1,218 electric locos against a target of 1,205.

Initiatives taken for construction of two dedicated freight corridors on the eastern and western routes would lead to strategically critical capacity augmentation and would involve construction of dedicated freight lines to carry predominantly coal and steel on the Eastern Corridor and containers on the Western Corridor. Dedicated Freight Corridor is an innovation in rail transport in India and would reduce the transit time to about half of the present levels. The capacity released by freight trains could then be used for running more passenger trains at higher speed in a need based manner. This initiative would also offer significant reduction of Green House Gas emissions in transport sector of India.

Regarding the extension of rail connectivity to the North-Eastern States, the Minister informed that this has been a focus area of Government with a view to bring prosperity to these areas and also strengthen the national integration. The Government intended to convert the strategically important 510 km long Rangiya–Murkongselek Meter Gauge line into Broad Gauge within that financial year. The Capital of

Arunachal Pradesh would soon be on rail map in that financial year, as Harmuti-Naharlagun newline was expected to be commissioned shortly. The State of Meghalaya was also all set to come on the Railway map in that financial year, as Dudhnoi–Mehendipathar newline was getting completed by March 2014.

Speaking about the expansion of Railway Network, the Minister informed that during the year, the Government had completed 1,532 km of New Line, Doubling and Gauge Conversion against a revised target of 1,525 km.

Three new factories viz. the Rail Wheel Plant in district Chhapra, Rail Coach Factory at Rae Bareilly and Diesel Component Factory at Dankuni had become functional and commenced production. Specially designed coaches for adverse weather conditions had been inducted for rail travel in Kashmir Valley. Also corrosion resistant and lighter wagons with capability to carry extra pay-load and higher speed potential up to 100 kmph had been developed.

Indian Railways had formulated Policy Unigauge in the year 1992 to convert selected Metre/Narrow Gauge routes to Broad Gauge to avoid transshipment, improve rolling stock utilisation, achieve higher throughput and to foster development in various parts of the country. A total of 19,214 km of non-Broad Gauge lines had been converted to Broad Gauge. People in several States including Gujarat, Rajasthan, Madhya Pradesh, Maharashtra, Karnataka, Uttar Pradesh, Assam and Tamil Nadu had been the major beneficiaries.

Acknowledging his anguish and grief at the loss of lives in some unfortunate accidents, the Minister assured that the House that safety is never compromised on the system and several measures had been and were being taken for its further strengthening. These included, manning or elimination of all unmanned level crossings and provision of Road Over Bridges (ROBs) / Road Under Bridges (RUBs) in lieu of manned level crossings with heavy traffic density in a time bound manner; planning for induction of indigenously developed Train Collision Avoidance System (TCAS) over Indian Railways after successfully completing field trials; provision of improved safety systems with audio visual warning to road users in advance of approaching trains; development of 'crashworthy' structural design capable of absorbing high impact loads in unfortunate case of collision/accidents; offering employment to over 1 lakh persons against existing vacancies in Group 'C' categories in the last five years and to 1.6 lakh persons in erstwhile Group 'D' categories; and provision of Vigilance Control Device (VCD) in all

electric and diesel locomotives to monitor and judge the alertness of driver to ensure safety of the train.

Citing a few accidents involving fire in trains in the recent past, leading to loss of precious lives, the Minister said that even though some of these incidents were caused due to inadvertent acts of negligence on the part of passengers, the Railways had initiated action to ensure that such incidents are averted at all costs. A Comprehensive Fire and Smoke Detection System was on trial on two rakes of *Rajdhani* Express trains. Based on the success of these trials, this would be extended to all major passenger trains. Besides, various measures had been undertaken to prevent fire incidents on trains which were: use of fire retardant materials inside coaching vehicles; multi-tier protection for electric circuits; provision of portable fire extinguishers in AC coaches, Guard-cum-luggage break vans, pantry cars and locomotives; introduction of electrical induction based cooking appliances in replacement of LPG in pantries and intensive checks on parcel and Guard-cum-luggage break vans against explosives and inflammable materials.

Speaking on the financing aspects of the Indian Railways, the Minister mentioned the inadequacy of financial resources as a key constraint to Railways in following the desired path. Placing on record his appreciation of the initiatives taken by the State Governments of Karnataka, Jharkhand, Maharashtra, Andhra Pradesh and Haryana for agreeing to share cost of several Rail projects in their respective areas, the Minister appealed to other State Governments to follow suit. He said that this would go a long way in catalyzing creation of Rail infrastructure for overall national growth. He said that since the phenomenal investment needs of rail infrastructure cannot be met entirely through Gross Budgetary Support, Internal Generation of Railways and Market Borrowing, the Railways had therefore started targeting private investment in rail infrastructure to bridge the gap.

The Public Private Partnership (PPP) projects related to rolling stock manufacturing units, modernization of railway stations, multi-functional complexes, logistics parks, private freight terminal, freight train operations, liberalized wagon investment schemes. He informed that apart from attracting private investments from domestic investors in rail sector, a proposal was under consideration of the Government to enable Foreign Direct Investment (FDI) to foster creation of world class rail infrastructure. The Rail Land Development Authority had set a challenging target of raising Rs. 1,000 crore in the Budget 2013-14. The Minister reported that the Government was on course and had already raised Rs. 937 crore till then.

On Modernisation and Technology Induction in the Indian Railways, the Minister informed that Dedicated Freight Corridors for exclusive running of Heavy Haul Freight Trains, High Speed Trains Project, and Semi-High Speed Project were the recent initiatives taken in this direction. Informing about the progress made till then, he said that the implementation of the Eastern and Western Dedicated Freight Corridors Project was making good progress with the award of nearly 1,100 km of civil construction contracts. During 2014-15, another 1,000 km of civil construction contracts was targeted, besides award of Systems contracts.

As agreed between Honourable Prime Ministers of India and Japan in May 2013, a joint Feasibility Study for Mumbai–Ahmedabad High Speed corridor, financed by Indian Railways and Japan International Cooperation Agency (JICA), had started in December 2013 and would be completed in 18 months. For the same corridor, a Business Development study was being undertaken by French Railways (SNCF) and it would be completed by April 2014. After the studies, Indian Railways would decide on further course of action and modalities for implementation of the project. Besides the High Speed Project, Indian Railways also intended to explore low cost options for raising speeds to 160-200 kmph on existing select routes like Delhi–Agra and Delhi–Chandigarh.

Speaking on the Green Initiatives taken by the Indian Railways, the Minister said that the Railway Energy Management Company had become functional and was working on setting up of windmill plants and solar power plants with about 40 per cent subsidy from Ministry of New & Renewable Energy. To begin with, 200 railway stations, roof top of 26 buildings and 2,000 level crossing gates would be covered. With a view to improving aesthetic ambience along the track close to the approach of major stations, creation of ‘Green Curtains’ at Agra and Jaipur stations was being undertaken on pilot basis.

Mentioning of a major development towards cleanliness in the coaches and on railway tracks, the Minister informed that a bio-toilet design had been adopted by the railways and the technology had been introduced in about 2,500 coaches. It was proposed to increase the coverage progressively.

Listing a passenger friendly initiatives, he informed that 51 *Jan-Ahaar* outlets for sale of *Janta* Meals had been set up; 48 passenger escalators had been commissioned at railway stations and 61 more were being installed; air-conditioned EMU services would commence in Mumbai area by July 2014; and Passenger Information Display System

in important trains to indicate the next station and expected arrival time was being provided.

To address the issue of seasonal and occasion-specific instances when the demand for travel by certain trains goes up and the level of demand satisfaction becomes low, the Minister informed that a Premium Air-Conditioned Special was introduced on the busy Delhi Mumbai sector with shorter Advance Reservation Period in December 2013-January 2014 with dynamic pricing. The fare charged included a dynamically varying premium over Tatkal fare of the Rajdhani services. Such dynamic pricing was widely appreciated by the users and the media and gave increased earnings of about 48 per cent as compared to Rajdhani services on the same sector. He said that the Government was considering operation of this scheme on larger scale.

The Minister informed that in a path breaking decision, an independent Rail Tariff Authority was being set-up to advise the Government on fixing of fares and freight. With this, determination of rates will no longer be an exercise behind veils. The Rail Tariff Authority would not only consider the requirements of the Railways but also engage with all stake-holders to usher in a new pricing regime through a transparent process. This would lead to an era of rationalisation of fares and freight structures for improving the fare freight ratio and gradually bringing down cross subsidization between different segments. It was expected that this would go a long way towards improving the financial health of the Railways, lead to growth to match expectations of the nation and provide stability by minimizing volatility of revenue streams.

A target of loading 1,047 million tonnes of freight during 2013-14 was set for Indian Railways. The Minister informed the House that the Government would surpass the Budget estimate. In order to increase the share of rail borne traffic, an innovative 'Empty Flow Discount Scheme' was being formulated and would be implemented shortly. For facilitating seamless transport of imported cargo, some of the restrictions on movement of imported commodities through containers had been eased. Further, to increase throughput of container traffic, the permissible carrying capacity of 20 feet containers had been enhanced by 4 tonnes by necessary upgrade of rolling stock.

Presenting in brief the final results for the previous fiscal, 2012-13, the Minister reported that the freight loading by the Railways at 1,008 million tonnes surpassed the revised target of 1,007 million tonnes. Railways paid full dividend of Rs.5,389 crore to the General Exchequer. The Operating Ratio finally achieved was 90.2 per cent, an improvement over 94.9 per cent in 2011-12. The Fund balances which were at

negative Rs.385 crore at the beginning of the year, finally closed at a positive Rs.2,391 crore even after full repayment, including interest, of the loan of Rs.3,000 crore taken in the previous year.

For the year 2013-14, given the promising trend of loading, the target for freight loading had been scaled up to about 1,052 million tonnes from the budget target of 1,047 million tonnes. The freight earnings target had been increased to Rs.94,000 crore from Rs.93,554 crore in Budget Estimates. For earnings from passengers, the revised target had been kept at Rs.37,500 crore. There had been continuing strong inflationary pressure on the input costs, especially the cost of fuel, both HSD Oil and electrical energy. There had also been a higher than expected burden on account of significant fresh recruitment in many safety categories, additional dearness allowance for Railway employees and dearness relief for Railway pensioners. However, pension allocation requirements had gone up by a more significant Rs.2,000 crore. Considering the trend of earnings and expenditure, the revised plan outlay stood at Rs.59,359 crore. Operating Ratio of Railways was likely to be 90.8 per cent as against budgeted target of 87.8 per cent. The Minister assured the House that continuing the happy trend of 2012-13, and in a marked improvement from the two earlier years, the Railways would end the current year with surplus, and fund balances would increase from Rs.2,391 crore at the beginning of current fiscal to Rs.8,018 crore at the end of March, 2014.

Presenting the Budget Estimates for the year, 2014-15, the Minister proposed the freight traffic target at 1,101 million tonnes, an increment of 49.7 million tonnes over the ongoing years' revised target of about 1,052 million tonnes. The Budget Estimates for goods, passenger, other coaching and sundry other earnings had been kept at Rs.1,05,770 crore, Rs.45,255 crore, Rs.4,200 crore and Rs.5,500 crore respectively in 2014-15. The Gross Traffic Receipts had been projected at Rs.1,60,775 crore. Ordinary Working Expenses had been proposed at Rs.1,10,649 crore, which was Rs.13,589 crore higher than the Revised Estimates for the ongoing year. Pension outgo had been budgeted at Rs.27,000 crore, as against Revised Estimates, 2013-14 of Rs.24,000 crore. Total Working Expenses were budgeted at Rs.1,44,199 crore as against Rs.1,27,260 crore in Revised Estimates, 2013-14. This would leave a Net Revenue before dividend of Rs.19,655 crore and operating ratio of 89.8 per cent. Dividend payable to General Revenues was estimated at Rs.9,117 crore. It is estimated that at the end of 2014-15 the balance under the Railway Funds would be Rs.12,728 crore as against Rs.8,018 crore in Revised Estimates, 2013-14.

The Annual Plan 2014-15 envisaged investment of Rs.64,305 crore as against Budget Estimates 2013-14 of Rs.63,363 crore and Revised Estimates, 2013-14 of Rs. 59,359 crore. The Budgetary Support from General Revenues had been proposed at Rs. 30,223 crore including Rs.1,223 crore as Railways' share from Diesel Cess and Rs.6,000 crore earmarked for National Projects. Internal Generation component in the Plan had been kept at Rs.13,500 crore, besides a drawdown of Rs.777 crore from the available balance in the Railway Safety Fund. Extra Budgetary Resources including market borrowings through IRFC, 'PPP' and other schemes had been pegged at Rs.19,805 crore.

Regarding demands for new trains, the Minister said that the existing congestion on many of our routes did not permit the railways to increase the number of trains. Besides, running of more passenger trains also affects the freight carrying capacity of railways. Yet, conscious of the responsibility devolving on the railways towards addressing requirements of the people for additional trains in a need and merit based manner and despite severe constraints, the Government had decided to introduce a few new trains during 2014-15. The Minister then gave names of the proposed new Premium Trains, Express Trains, Passenger Trains, MEMU Trains and DEMU Trains. He also gave details regarding extension of trains and trains involving increase in frequency.

Regarding a large number of requests received from various quarters for undertaking railway projects the Minister gave a list of surveys that were proposed to be taken up in 2014-15 for new lines, doubling etc.

The Railway Minister then commended the Interim Railway Budget 2014-15 to the House.

Initiating the discussion on the combined discussion on the Interim Budget (Railways), 2014 the Demands for Grants on Account (Railways) 2014-15 and Supplementary Demands for Grants (Railways) 2013-14, on 17 February 2014, Shri Arjun Ram Meghwal (BJP)\* said that the demands of the Opposition MPs had been ignored while preparing the Railway Budget. Regarding the mention of a Dedicated Freight Corridor Project in his Budget Speech by the Railway Minister, Shri Meghwal said that this is a foreign funded project and so there should be priority for this project. He said that due attention had not been paid to such an important project. The Railways had large area of land available with it. If Railways grow Jetropha along the railway lines, it would not get

bio-diesel but this would also provide greenery to the area and also help to curb land encroachment. He said that the Land Bank for railways, as was proposed earlier, had not materialized till that day.

Smt. Jayshreeben Patel (BJP)<sup>¶</sup> stated in her speech that the Railway Minister had introduced many new trains in the Budget. At the same time Railway connectivity had been granted to North-Eastern States and Vaishno Devi. Calling it a praiseworthy step, she said that in the same way, railway services should also be extended to all pilgrimage places, tourist places and sites of Dams.

Praising the Budget, Shri R. Dhruvanarayana (INC)<sup>†</sup> stated in his speech that undoubtedly, it was a common man's budget. The Railway Minister had introduced 72 new trains which connect the country from Kashmir to Kanyakumari and Goa to Arunachal Pradesh.

Dr. Ratna De (AITC)<sup>†</sup> stated that the Railway Minister, immediately after taking over the reins of the Ministry had hiked the fares of railway passengers by 20 per cent and after that too, there had been efforts to burden the railway passengers. This was unheard of in the annals of history of Railways in the country. In the speech, stress was laid on the need for more trains on emergency basis, more companies of women RPF personnel with a view to strengthen the security of women passengers. It was stated that efforts should also be ensured that freedom fighters are taken care of considerably for their sacrifices in the past. It was urged upon the Railway Minister to give utmost importance and priority to the pending projects and ensuring manned level-crossings across the country.

*Interim Budget (General)-2014-15:* Presenting the Interim Budget (General) for the year 2014-15, on 17 February 2014, the Minister of Finance, Shri P. Chidambaram said that since September 2008, the state of the world economy had been the most decisive factor impacting the fortunes of every developing country. Hence, he felt it pertinent to say a few words on the global economy as well as on the global risks. World economic growth was 3.9 per cent in 2011, 3.1 per cent in 2012 and 3.0 per cent in 2013. He said that among India's major trading partners who are also the major sources of our foreign capital inflows; the United States had just recovered from a long recession; Japan's economy was responding to the stimulus; the Eurozone, as a whole was reporting a growth of 0.2 per cent; and China's growth had slowed from 9.3 per cent in 2011 to 7.7 per cent in 2013.

Citing from the Global Risks 2014 Report, the Finance Minister informed that it had mapped 31 global risks. Of the highest concern are risks that include fiscal crisis, structurally high unemployment or underemployment, income disparity, governance failure, food crisis and political and social instability. He said that the 2012 and 2013 were the years of turbulence. Only a handful of countries were able to keep their head above the water and among them was India. The fiscal deficit for 2013-14 would be contained at 4.6 per cent of GDP. The Current Account Deficit (CAD) that threatened to exceed last year's CAD of USD 88 billion would be contained at USD 45 billion. The Government expected to add about USD 15 billion to the foreign exchange reserves by the end of the financial year. Last year at the time of the Budget presentation, the Wholesale Price Index (WPI) headline inflation stood at 7.3 per cent and core inflation at 4.2 per cent. Through the year, inflation saw its ups and downs. At the end of January 2014, WPI inflation was 5.05 per cent and core inflation 3.0 per cent. Both the Government and the RBI had acted in tandem. Food inflation was still the main worry, although it had declined sharply from a high of 13.6 per cent to 6.2 per cent.

Praising performance of the agriculture sector, the Finance Minister said that the foodgrain production in 2012-13 was 255.36 million tonnes and the estimate for the current year was 263 million tonnes. Estimates of production of sugarcane, cotton, pulses, oilseeds and quality seeds pointed to new records. Agriculture exports in 2012-13 stood at USD 41 billion *versus* imports of USD 20 billion. In 2013-14, agricultural export

was likely to cross USD 45 billion. Agricultural credit was likely to touch Rs.7,35,000 crore, exceeding the target of Rs.7,00,000 crore. Agricultural GDP growth increased to 3.1 percent in the five year period of UPA-I and further to 4.0 per cent in the first four years of UPA-II. In the ongoing year, agricultural GDP growth was estimated at 4.6 per cent.

Even after the slowdown, the savings rate was 31.3 per cent in 2011-12 and 30.1 per cent in 2012-13. The corresponding investment rate was 35.5 per cent and 34.8 per cent, respectively, indicating there was no steep decline in investment, except in mining and manufacturing. He said that if the Incremental Capital Output Ratio (ICOR) had remained more or less the same, the outcome should have been a growth rate higher than the 6.7 per cent and the 4.5 per cent reported till then by the Central Statistical Office (CSO) for the two years but that did not happen. It was obvious that projects were not achieving Commercial Operation Date (COD) and there were too many obstacles on the path of implementation. At a time when it appeared that a number of projects would fail because of the logjam, the Government took the bold step to set up the Cabinet Committee on Investment and the Project Monitoring Group. As a result of the swift decisions taken by the Group, the way was cleared for completing 296 projects with an estimated project cost of Rs.6,60,000 crore by the end of January 2014.

Exports had recovered sharply and the recovery must be seen in the context of growth of global trade declining from 6.1 per cent in 2011 to 2.7 per cent in 2013. India's merchandise exports reached a level of USD 300.4 billion in 2012-13 registering a negative growth of 1.8 per cent over the previous year. Though 2013-14 began on a pessimistic note, expressing his happiness, the Finance Minister informed that the year would end with estimated merchandise exports of USD 326 billion, indicating a growth rate of 6.3 per cent. However, imports were down and this did not augur well for either manufacturing or domestic trade.

Expressing his concern at the deceleration in investment in manufacturing sector in the Indian economy, the Finance minister said that the National Manufacturing Policy has set the goal of increasing the share of manufacturing in GDP to 25 per cent and to create 100 million jobs over a decade. Eight National Investment and Manufacturing Zones (NIMZ) had been announced along the Delhi-Mumbai Industrial Corridor (DMIC) and nine projects had been approved by the DMIC Trust. Five NIMZs outside DMIC had also been given in-principle approval. Three more corridors connecting Chennai and Bengaluru, Bengaluru and Mumbai and Amritsar and Kolkata were under different stages of preparatory work. Additional capacities were being installed in major

manufacturing industries such as steel, cement, refinery, power and electronics. Several measures had been taken to promote micro, small and medium enterprises including notifying a public procurement policy, establishing technology centres and common facility centres and launching the *Khadi* mark.

The Finance Minister informed that the Government had given a big push to infrastructure and capacity addition in infrastructure industries. In 2012-13 and in the nine months of the current financial year, the Government had added 29,350 megawatts of power capacity, 3,928 kilometres of national highways, 39,144 kilometres of rural roads under Pradhan Mantri Gram Sadak Yojana (PMGSY), 3,343 kilometres of new railway track, and 217.5 million tonnes of capacity per annum in India's ports. Besides, 19 oil and gas blocks were given out for exploration and 7 new airports were under construction. The Government had also facilitated Infrastructure Debt Funds to provide take-out finance for infrastructure projects and ease the pressure on the banking system.

Risks to capital flows were accentuated due to volatile global conditions and the indication, in May 2013, of a reduction in asset purchases by the US Federal Reserve. The rupee came under pressure. The Government, RBI and SEBI undertook a number of measures to facilitate capital inflows and stabilise the foreign exchange market. Among emerging economy currencies, the rupee was affected least when the actual reduction took place in December 2013 and January 2014.

The Finance Minister recalled that with the slowdown beginning in 2011-12, in nine quarters, the GDP growth rate declined from 7.5 per cent in Q1 of 2011-12 to 4.4 per cent in Q1 of 2013-14. However, due to the numerous measures taken by the Government, the growth in Q2 of 2013-14 had been placed at 4.8 per cent and growth for the whole year had been estimated at 4.9 per cent. Inferring, he estimated that the growth in Q3 and Q4 of 2013-14 would be at least 5.2 per cent.

Asserting that the economy was more stable at that time than what it was two years ago, the Finance Minister said the fiscal deficit was declining, the current account deficit had been contained, inflation had moderated, the quarterly growth rate was on the rise, the exchange rate was stable, exports had increased and hundreds of projects had been unblocked.

Listing some of the major achievements and the initiatives that were being taken by the Government in the ongoing financial year that concerns the economy of the country and the welfare of the people, the

Finance Minister said that sugar was fully decontrolled; a gradual correction of diesel prices was started; Railway fares were rationalised for the first time in a decade; applications were invited for issue of new bank licences; Distribution Companies (DISCOMS), mostly sick, were being restructured with generous Central assistance; 12.8 lakh land titles covering 18.80 lakh hectare were distributed under the Scheduled Tribes and Other Traditional Forest Dwellers Act; the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act was notified on 1 January 2014, finally putting to rest an oppressive colonial law of 1894; the National Food Security Act was passed assuring foodgrain to 67 per cent of the population; the new Companies Act replaced a law of 1956 vintage; the Pension Fund Regulatory Development Authority (PFRDA) Act was passed placing the New Pension System on a statutory basis and establishing a statutory regulator.

The Centrally Sponsored schemes were restructured into 66 programmes for greater synergy. Funds under these programmes would be released as Central assistance to State plans, thus giving States greater authority and responsibility. As a result, Central assistance to plans of States and Union Territories would rise substantially from Rs.1,36,254 crore in Budget Estimates 2013-14 to Rs.3,38,562 crore in 2014-15. Public sector enterprises would achieve a new record in capital expenditure of Rs.2,57,641 crore in 2013-14. About 50,000 MW of thermal and hydel power capacity was under construction after receiving all clearances and approvals. 78,000 MW of power capacity had been assured coal supply. The Foreign Direct Investment (FDI) policy was liberalized to attract larger investments in telecommunication, pharmaceuticals, civil aviation, power trading exchanges and multi-brand retail. Approval was granted to establish two semi-conductor wafer fab units that would be the bedrock of the electronics hardware industry. The IT modernisation project of the Department of Posts with an outlay of Rs.4,909 crore, would be operational by 2015 in all 155,000 locations. The Kudankulam Nuclear Power Plant Unit I achieved criticality and was generating 180 million units of power. The 500 MW prototype fast breeder reactor at Kalpakkam was nearing completion. Seven nuclear power reactors were under construction with the aim of achieving an installed capacity of 10,080 MW by the end of the Twelfth Plan. After exceeding the target and achieving 1,684 MW of grid connected solar power, the National Solar Mission entered the second phase on 1 April 2013. It was proposed to take up four ultra mega solar power projects each with a capacity of over 500 MW in 2014-15. The Ministry of MSME would create the 'India Inclusive Innovation Fund' to promote grassroot

innovations with social returns to support enterprises in the MSME sector. The Minister proposed to make an initial contribution of Rs.100 crore to the corpus of the Fund. In order to promote entrepreneurship among the scheduled castes and to provide concessional finance to them, IFCI would set up a Venture Capital Fund for Scheduled Castes. The Minister proposed to provide an initial capital of Rs.200 crore which could be supplemented every year. The restructured ICDS had been implemented in 400 districts and would be rolled out in the remaining districts from 1 April 2014. The Government had approved the National Agro-Forestry Policy 2014 which had multiple objectives including employment, productivity, conservation and adaptation. A mechanism for marketing minor forest produce had been introduced and the Budget had allocated Rs.444.59 crore to continue the scheme in 2014-15. A new plan scheme with an allocation of Rs.100 crore had been approved to promote community radio stations. The Ministry of Health and Family Welfare had delivered new technologies to the people: the Japanese Encephalitis (JE) vaccine, a diagnostic test for Thalassaemia and a Magnivisualizer for detection of cervical cancer.

Stating that the North Eastern States, Himachal Pradesh and Uttarakhand deserved special attention, in addition to funds allocated in the ongoing year, the Finance Minister proposed to release a sum of Rs.1,200 crore as Additional Central Assistance to these States before the end of the year.

India joined a handful of countries when it launched the Mars Orbiter Mission. It now had the capability to launch vehicle technology, cryogenics, and navigation, meteorological and communication satellites and was largely self-reliant. Several flight tests, navigational satellites and space missions were planned for 2014-15.

In keeping with the promises that he had made to ensure the dignity and safety of women, the Finance Minister informed that he had put Rs.1,000 crore in the *Nirbhaya* Fund. The Government had by then approved two proposals that would receive support from this Fund. In order to ensure that the Fund would be a permanent fund, he expressed his intentions to declare the grant of Rs.1,000 crore as non-lapsable. And in order to support more proposals, he proposed to contribute to the Fund another sum of Rs.1,000 crore next year.

An ambitious programme to skill millions of young men and women, the National Skill Certification and Monetary Reward Scheme was launched in August 2013 and it had been widely hailed as a success.

Regarding the Direct Benefit Transfer Scheme, the Finance Minister

informed that Money was being transferred to beneficiaries under 27 identified schemes, including the National Social Assistance Programme (NSAP). A total of 54,20,114 transactions had been put through until 31 January 2014 and Rs.628 crore had been transferred. Another sum of Rs.3,370 crore had been transferred to 2.1 crore LPG beneficiaries. The latter scheme had been put on hold for the time being pending resolution of some difficulties that had been pointed out. He reiterated that the Government remained fully committed to *Aadhaar* under which 57 crore unique numbers had been issued till then and to opening bank accounts for all *Aadhaar* holders in order to promote financial inclusion.

Giving an overview of the Interim Budget (General)—2014-15, the Finance Minister said that in some years, the Government over-provided in the Budget. In those years savings are inevitable. Besides, if there is lower-than-expected-growth there will be lower-than-estimated-revenues as well. 2013-14 had been one such year. He expressed his apprehension that the Government would not be able to spend the budgeted plan expenditure, but non-plan expenditure would exceed the budget by a small amount. He said that in order to sustain the pace of plan expenditure, the Government had decided to keep plan expenditure in 2014-15 at the same level at which it was budgeted in 2013-14. The Government provided Rs.5,55,322 crore for plan expenditure. He proposed to allocate Rs.48,638 crore to the scheduled caste sub-plan and Rs.30,726 crore to the tribal sub-plan. The gender budget had Rs.97,533 crore and the child budget had Rs.81,024 crore.

The Finance Minister informed the House that in the Railway Budget presented a few days ago, the Budgetary support to Railways had been increased from Rs.26,000 crore in Budget Estimates 2013-14 to Rs.29,000 crore in 2014-15. He said that the Railways need to mobilise huge resources through market borrowing and Private Public Partnership (PPP) schemes. The Government intended to identify new instruments and new mechanisms to raise funds for railway projects.

The Finance Minister expressed confidence that there would be no cause for complaint. However, he assured that if there were any shortcomings, they could be addressed when the regular budget is presented. There is enough flexibility in the expenditure budget to make necessary changes in the allocations within the overall resource envelope.

Elaborating further, he said that the Non-plan expenditure in 2014-15 was estimated at Rs.12,07,892 crore. Of this, the expenditure on subsidies for food, fertilizer and fuel would be Rs.2,46,397 crore. This was slightly more than the revised estimate of Rs.2,45,452 crore

in 2013-14. For fuel subsidy, he had provided Rs.65,000 crore. The allocation for defence had been enhanced by 10 per cent from Rs.2,03,672 crore in Budget Estimates 2013-14 to Rs.2,24,000 crore in 2014-15.

Speaking on the long standing demand of the Defence Services for One Rank One Pension (OROP), the Finance Minister said that it being an emotive issue, had legal implications, and had to be handled with great sensitivity. During the tenure of the UPA Governments, changes in the pension rules applicable to the defence services were notified on three occasions in 2006, 2010 and 2013. As a result, the gap between pre-2006 retirees and post-2006 retirees had been closed in four ranks (subject to some anomalies that were being addressed): *Havildar, Naib Subedar, Subedar and Subedar Major*. There was still a small gap in the ranks of *Sepoy and Naik* and a gap in the ranks of *Major* and above. He announced that Government had accepted the principle of One Rank One Pension for the defence forces. This decision would be implemented prospectively from the financial year 2014-15. The requirement for 2014-15 was estimated at Rs.500 crore. The Minister proposed to transfer the sum of Rs.500 crore to the Defence Pension Account in the ongoing financial year itself.

A modernisation plan at a cost of Rs.11,009 crore had been approved to strengthen the capacity of Central Armed Police Forces and to provide them state-of-the-art equipment and technology. Funds had been provided in the ongoing financial year and for the next year.

The Finance Minister proposed a sum of Rs.11,200 crore for capital infusion in public sector banks. He informed that 5,207 branches had been opened till then, against the target of 8,023 branches and they were near the goal of installing an ATM at every branch. The *Bharatiya Mahila Bank* was inaugurated on 19 November 2013. Rs.6,000 crore was provided to the Rural Housing Fund and Rs.2,000 crore to the Urban Housing Fund. Acknowledging the great service rendered by the nation's banks in reaching Government's policies and programmes to the people, he said that during that year, banks would exceed the target of Rs.7,00,000 crore of agricultural credit. As an encouraging gesture, he therefore had set a target of Rs.8,00,000 crore for the year 2014-15. Recalling the interest subvention scheme introduced in 2006-07, he said that there was a subvention of 2 per cent and an incentive of 3 per cent for prompt payment, thus reducing the effective rate of interest on farm loans to 4 per cent. He informed that till then Rs.23,924 crore had been released under the scheme proposed to continue the scheme in 2014-15.

Recalling the Central Scheme for Interest Subsidy (CSIS) in respect of education loans disbursed after 1 April 2009 in the Budget of 2009-10 under which Government took over the burden of interest for the duration of the period of study and a little beyond, the Finance Minister said that it brought great cheer to student-borrowers and their families. However, to provide relief to students who had borrowed before 31 March 2009, the Finance Minister proposed a moratorium period for all education loans taken up to 31 March 2009 and outstanding on 31 December 2013. The Government would take over the liability for outstanding interest as on 31 December 2013 but the borrower would have to pay interest for the period after 1 January 2014. He said that an estimated nearly 9 lakh student borrowers would benefit to the tune of approximately Rs.2,600 crore.

The Life Insurance Corporation had opened 1,252 offices and the four public sector general insurance companies had opened 1,849 offices in towns with a population of 10,000 or more to serve peri-urban and rural areas. The Minister informed that in the year they were moving steadily to achieve the goals set for them.

The Government envisaged a number of steps to deepen the Indian financial markets which include comprehensively revamping the American Depository Receipt (ADR)/Global Depository Receipt (GDR) scheme and enlarge the scope of Depository Receipts; liberalising the rupee-denominated corporate bond market; deepening and strengthening the currency derivatives market to enable Indian companies to fully hedge against foreign currency risks; creating one record for all financial assets of every individual; and enabling smoother clearing and settlement for international investors looking to invest in Indian bonds.

Recalling the payment crisis in the National Spot Exchange Limited (NSEL), the Finance Minister informed that swift action was taken by the Ministry of Finance to sequester NSEL and to ensure there was no spill over of the crisis to the other regulated segments of the financial market. He informed that the Government proposes to amend the Forward Contracts (Regulation) Act to strengthen the regulatory framework of the commodity derivatives market.

Pursuant to the announcement in the Budget speech of 2011-12, the Government was ready with the Public Debt Management Agency Bill. It was proposed to establish a non-statutory PDMA that could begin working in 2014-15.

Outlining a vision for the future, the Finance Minister said that in terms of the size of its GDP, India's economy is the 11<sup>th</sup> largest in the

world. As per estimates in the next three decades, India's nominal GDP would take the country to the third rank after the US and China. Just as the fortunes of the developed countries affect the emerging economies today, the fortunes of China and India would, in the future, have a significant impact on the rest of the world. The Finance Minister said that we therefore owe a responsibility not only to ourselves but to the whole world to keep our economy in robust health.

Enlisting some of the tasks that must be undertaken by the Government of the day so as to meet the goals set ahead for ourselves, the Finance Minister said that we must achieve the target of fiscal deficit of 3 per cent of GDP by 2016-17 and remain below that level always. Since we would run a Current Account Deficit every year for some more years, it could be financed only by foreign investment, whether it is FDI or FII or ECB or any other kind of foreign inflow. Hence, there was no room for any aversion to foreign investment. In a developing economy we must accept that when our aim is high growth there will be a moderate level of inflation. RBI must strike a balance between price stability and growth while formulating monetary policy. The recommendations of the Financial Sector Legislative Reforms Commission that require no change in legislation must be implemented immediately and for the other recommendations, we must draw a timetable for passing legislation. We must rebuild our infrastructure and add a huge quantity of new infrastructure. We must focus on manufacturing and especially on manufacturing for export. The Minister proposed that all taxes, Central and State that go into an exported product should be waived or rebated. There should be a minimum tariff protection so that there is an incentive to manufacture goods in India rather than import them into India. Given the limited resources and the many claims on the resources, we must choose the subsidies that are absolutely necessary and give them only to the absolutely deserving. Our cities will become ungovernable, and perhaps unliveable, if we do not address the decay in our cities. Cities have wealth, cities also create wealth. That wealth should be tapped for resources to rebuild the cities with a new model of governance. Skill development must rank alongside secondary education, university education, total sanitation and universal health care should be the priorities of the Government. States have the fiscal space to bear a reasonable proportion of the financial costs of implementing flagship programmes and must willingly do so, so that the Central Government can allocate more resources for subjects such as defence, railways, national highways and telecommunications that are its exclusive responsibility.

The Finance Minister expressed his disappointment at the inability to introduce Goods Supplies Tax (GST). He said that the Government

had got ready a Direct Taxes Code that will serve us for at least the next twenty years and informed that House that the Government intends to place it on the website for a public discussion.

Informing the House on a new approach to funding scientific research, the Finance Minister informed that the Government proposed to set up a Research Funding Organisation that would fund research projects selected through a competitive process. Contributions to that organisation would be eligible for tax benefits. This would require legislative changes which can be introduced at the time of the regular Budget.

Regarding the illegal off-shore accounts held by Indians, the Finance Minister informed that investigations into such accounts were launched in 2011. The Government had succeeded in obtaining information in 67 cases and action was underway to determine the tax liability as well as impose penalty. Prosecutions for wilful tax evasion had been launched in 17 other cases. More enquiries had been initiated into accounts reportedly held by Indian entities in no tax or low tax jurisdictions.

Regarding tax laws, the Finance Minister said that in keeping with the conventions, he did not want to propose to make any announcements regarding changes to it. However, the ongoing economic situation demanded some interventions that could not wait for the regular Budget. Proposing some changes in indirect tax rates, the Minister said that to stimulate growth in the capital goods and consumer non-durables, the Minister proposed to reduce the excise duty from 12 per cent to 10 per cent on all goods falling under chapter 84 and chapter 85 of the Schedule to the Central Excise Tariff Act for the period up to 30 June 2014. He said that the rates could be reviewed at the time of the regular Budget. To give relief to the automobile industry which was registering unprecedented negative growth, he proposed to reduce the excise duty for the period up to 30 June 2014: for Small cars, motor cycles, scooters and commercial vehicles from 12 per cent to 8 per cent; SUVs from 30 per cent to 24 per cent; large and mid-segment cars from 27/24 per cent to 24/20 per cent. Accordingly, he proposed to make appropriate reductions in the excise duty on chassis and trailers. He said that the rates could be reviewed at the time of the regular Budget. To encourage domestic production of mobile handsets (which had declined) and reduce the dependence on imports (which increased), he proposed to restructure the excise duties for all categories of mobile handsets. The rates would be 6 per cent with Central Value Added Tax (CENVAT) credit or 1 per cent without CENVAT credit. To encourage domestic production of soaps and oleo chemicals, he proposed to

rationalise the customs duty structure on non-edible grade industrial oils and its fractions, fatty acids and fatty alcohols at 7.5 per cent. To encourage domestic production of specified road construction machinery, he proposed to withdraw the exemption from Counter Vailing Duty (CVD) on similar imported machinery. To encourage indigenous production of security paper for printing currency notes, he proposed to provide a concessional customs duty of 5 per cent on capital goods imported by the Bank Note Paper Mill India Private Limited. The Finance Minister also proposed to give relief from service tax in two cases, viz. to exempt loading, unloading, packing, storage and warehousing of rice from service tax; and to exempt the services provided by cord blood banks as these are also healthcare services. He said that notifications in respect of the above changes would be issued the same day.

Presenting the Budget Estimates for the year 2014-15, the Finance Minister said that the ongoing financial year would end on a satisfactory note with the fiscal deficit at 4.6 per cent and the revenue deficit at 3.3 per cent. He estimated the Fiscal deficit at 4.1 per cent, which would be below the target set by the new fiscal consolidation path; and the Revenue deficit at 3.0 per cent. He stated estimates of plan expenditure as Rs.5,55,322 crore and Non-plan expenditure as Rs.12,07,892 crore. He then commended the Interim Budget to the House.

## **B. LEGISLATIVE BUSINESS**

*Andhra Pradesh Reorganization Bill, 2014:* On 18 February 2014, moving the motion for consideration of the Bill, the Minister of Home Affairs, Shri Sushil Kumar Shinde said that the movement for a separate State of Telangana had a long and chequered history. He recalled that this region within the existing State of Andhra Pradesh had a distinct political and cultural identity. There had been movements for a separate State in both the Telangana region as well as in the rest of Andhra which reached a peak in the last 1960s and early 1970s. These were resolved for the time being through discussions and agreements. In the last few years, however, there had been a resurgence of social, economic and political aspirations of the people of this region. The Andhra Pradesh Reorganization Bill, 2014 was seeking to meet the democratic aspirations of the people of Telangana region by reorganizing the existing State of Andhra Pradesh into two separate States of Andhra Pradesh and Telangana. The Minister reassured the House that the Government had tried its best to accommodate the concerns of all the stakeholders and mitigate the impact of the bifurcation of the State as much as possible. He informed that the Government had invited and received suggestions from the entire cross-section of the Andhra Pradesh society and that every suggestion had been evaluated and dealt with appropriately when the Bill was being drafted. The draft Bill prepared was referred by the Hon'ble President of India to the Andhra Pradesh State Legislature for giving their views by 23 January 2014. At the request of the State Government, an extension of seven days was given and 30 January 2014 was fixed as the deadline. After receiving the views of the State Legislature, the Government also received numerous suggestions from various quarters. These suggestions had

been considered and examined by the Government. Amendments formulated on the basis of these suggestions were also being brought before the House for consideration. The Bill considered all aspects of Governance for both the successor States and necessary supplemental and incidental provisions relating to representation in Parliament and in the State Legislature, distribution of revenue, apportionment of assets and liabilities, management and development of water resources, power and natural resources, ensuring peace and harmony, address the development needs of backward regions and other matters. The proposals in the Bill had been finalized in consultation with various concerned Ministries.

Initiating the discussion on the Bill, Smt. Sushma Swaraj (BJP) said that on behalf of her party, she supported the Andhra Pradesh Re-organization Bill, 2014. She said that the BJP would support it and would also ensure that the Bill was passed. Complaining against the Congress leadership, she said that the Congress party had promised to create Telangana in the year 2004 and now the year 2014 had arrived. The Party had procrastinated on this issue for long and ultimately had brought it to this passé without persuading their own people on this issue. It could not persuade its own MPs, their own Ministers and even their own Chief Minister. She said this was unprecedented for this House. She informed that the party workers of BJP belonging to Seemandhra region also supported creation of Telangana with Hyderabad falling in this region. Hyderabad had got a surplus of 15 thousand crore rupees and it would make good the loss of Telangana but she questioned as to who would make good the loss for coastal Andhra and Rayalseema. Second issue that she mentioned pertained to educational institutions. Hyderabad had got 148 institutions and the city of Hyderabad was to remain a joint capital for both the States for a period of ten years. Then, the Government should give in principle approval of the Planning Commission along with the token allocation in the Interim Budget by providing a budget head for the institutions to be set up in the Seemandhra region. Mentioning about a legal lacuana in the Bill, she said that the Bill, in violation of constitutional provisions, was giving certain powers to the Governor which could only be given after making necessary amendments to the Constitution.

Shri S. Jaipal Reddy (INC) said that it was a demand that had been raised recurrently for the last 60 years. In his opinion, no demand for a separate State in the history of the country has had such long duration and a tense feeling. He congratulated the Communist Party of India which originally stood for the integrated State but then it was

supporting the Telangana demand. He assured on behalf of people of Telangana that the Telangana region would not in a separate Telangana State, discriminate against any person of Seemandhra region.

Prof. Saugata Roy (AITC)<sup>§\*</sup> stated in his speech that their party was against the Bill and division of Andhra Pradesh. The creation of Telangana would destroy the basis of formation of State of Andhra Pradesh on linguistic basis. This would create a total breakdown of law and order. He said that the new State of Telangana should be adequately compensated with regard to new Capital and irrigation projects.

Supporting the Bill, Shri Madhu Goud Yaskhi (INC)<sup>§</sup> stated through his speech that for the people of Telangana, a separate state of their own is a precious idea and a cherished goal. The concerns of the people of Telangana were not merely economic or for development but of self-respect and of a sense of injustice and out of desire for self rule. He stated that fiscal imbalances between both the regions, fears of the Telangana educated class losing employment opportunities and the general uncertainty of the Telangana people who had lived under invasion/liberation of Nizam's State by the Union and consequent military rule for four years—all contributed to a general unease. Under the guise of linguistic basis, Andhra State had prospered but the Telangana region had been exploited over the last six decades. The people of Telangana had been discriminated against for long. Water from the Nagarjuna Sagar dam which is located in Telangana, was sent to other parts of the State for irrigation and industrial uses, while Telangana's farmers were starved of water. The region's people also lacked access to adequate health, education and employment. As a result of decades of negligence, the region had clearly fallen behind schedule.

Shri Gurudas Dasgupta (CPI)<sup>§</sup> in his speech supported the Bill on the formation of Telangana. He stated that however, the concern of the people of Seemandhra must be addressed. The water flow of Krishna and Godavari should be managed in such a way that the Seemandhra people are not discriminated.

Shri Suresh Kumar Shetkar (INC)<sup>§</sup> in his speech opined that the formation of Telangana was not a division of State but simple demerger from earlier merger. It was stated that exploitation of Telangana region

in regard to education employment and professional opportunities was a fact known to all. Supporting this fact, he stated the Chief Minister from this region served only for eight year out of the six decades since formation of Andhra Pradesh. Even though Telangana region is endowed with abundant natural resources essential for the development of Power Sector, like coal and water, most of these resources had been diverted for the development of other regions of Andhra Pradesh. It constitutes 68.5 per cent of catchments area of Krishna river. In his speech, he congratulated the Government for having addressed and considered a six decades problem with a human face by introducing Telangana formation in a highly democratic manner.

Supporting the Bill, Smt. Panabaka Lakshmi (INC)<sup>§</sup> stated in her speech that in view of the sentiments and the feelings of the people of Seemandhra region, there was need to develop the residuary state of Andhra Pradesh equivalent to the development of Hyderabad region. It was suggested that establishment of capital centered between Vijayawada and Guntur regions for residuary state of Andhra Pradesh (Seemandhra Region) should be considered. Besides, she suggested for establishment of in the new state, manufacturing industry/Unit, etc. in each district of residuary state of Andhra Pradesh and ensuring improved medical education and health care for the people. It was suggested that 85 per cent of the jobs should be reserved for local candidates of Seemandhra in upcoming projects like IT and other industries to drive away the fear of not getting jobs on bifurcation. As part of promotion of industrialization of the region for the economic growth and development, it was suggested that a tax holiday should be declared as it was done during the formation of the States of Chhattisgarh, Jharkhand and Uttarakhand.

Smt. Botcha Jhansi Lakshmi (INC)<sup>§</sup> referring to the findings of the Justice Sri Krishna Committee stated in her speech that this Committee had, through unimpeachable empirical data collected from Government documents, established beyond all possible doubt that the Telangana region had indeed accounted for a lion's share of the incremental growth and development (in all the three segments of economy *viz.* agriculture, industry and services sectors) that had taken place in Andhra Pradesh post its formation in November 1956. She stated that a lasting solution cannot be found to this issue unless the concerns of all the three regions *viz.* Andhra, Telangana and Rayalseema region are addressed properly. For this, the Central Government needs to address three major issues *viz.* water sharing, revenue sharing and Hyderabad City. In case

of Andhra Pradesh, 90 per cent of the investments had come up in and around Hyderabad City, unlike in other States, where it was evenly spread out among all the regions. The Central Government has to take the responsibility to promote institutions like IITs, IIMs, National Schools of Law, Central University and other Institutions of Higher Learning in Andhra and Rayalseema regions separately. They also have to create infrastructure like new international airports, software parks and other industrial townships and also ensure that their *Navaratna* units would undertake their future expansions in Seemandhra regions till the deficit is met. Water becomes very crucial. They have to create a legal framework which assures Andhra and Rayalseema regions of their continuing to get the same level of water for their irrigation projects as what they were getting over the last 57 years. The Central Government has to make special allocations to Andhra and Rayalseema regions from the Central revenues at least for a period of 10 years *i.e.* till they start getting revenues in proportion of their population in comparison to Telangana region with Hyderabad included therein.

The Bill as amended was passed.

#### A. STATEMENTS / DISCUSSIONS

*Interim Budget (Railways) 2014-15*<sup>1</sup>: Presenting the Interim Budget (Railways) 2014-2015 in the House on 18 February 2014, the Minister of Railways, Shri Mallikarjun Kharge laid his statement on the Table of the House. He explained to the House that the 'Vote on Account' Demand for Grants 2014-15 covered the expenditure for the first four months amounting to ₹ 1,05,851 crore.

He mentioned that the problem of negative balance in the budgets of 2010-11 and 2011-12 were a result of the implementation of the recommendations of the Sixth Pay Commission and fall in earnings due to the slowing down of the economy. He stated that an amount of Rs.3,000 crore was availed from the Central Government to tide over the temporary deficit which has since been repaid. He assured the House that the Budget estimates for 2014-15 were realistic and achievable; the growth in the earnings were projected at 14.4 per cent and ₹ 13,589 crore has been kept as Ordinary Working Expenses to meet the requirement for fuel, additional staff recruitments and better maintenance of coaches and stations. He informed the House that by maintaining a strict control over expenditure and confining the spending on key maintenance areas in the budget, the Railways has been able to provide a healthy increase of 43 per cent in the internal resource component of the plan over Revised Estimates. Addressing the concern expressed by the Members about the deterioration of the Operating Ratio, he stated

that though the ratio had decreased from 2008-09 to 2011-12 and the projection of 90.8 per cent in the current year was realistic and credible. He further mentioned that improved Operating Ratio would translate into enhanced resources for safety, modernisation and passenger amenities. Since the concept of premium trains was well received by the passengers, he stated that the proposal to implement another 17 such *Jai Hind* Express Premium trains would provide facility of confirmed travel to those who have to travel at short notice and are willing to pay more. Keeping in view the commissioning of new lines/gauge conversions and consequent requirements of the railways, he announced the creation of three more Railway Divisions *viz.* Silchar, Gulbarga and Jammu.

The Interim Budget (Railways) 2014-15 was then passed without discussion on 18 February 2014.

*Interim Budget (General) 2014-15*<sup>2</sup>: On 21 February 2014, the motion for consideration of the Interim Budget (General) 2014-15, the Appropriation (Vote on Account) Bill, 2014, the Appropriation Bill, 2014 and the Finance Bill, 2014 was moved by Shri Namo Narain Meena, the Minister of State in the Ministry of Finance.

Shri N.K. Singh of the Janata Dal (United) pointed out that there was ₹ 90,000 crore cut in capital expenditure, infrastructure funding and social sector spending. He mentioned that the Finance Minister had taken credit for the GDP growth of 13.6 per cent, but his view was that the GDP assumptions and the inflation assumptions were not valid and therefore the assumptions with regard to tax buoyancy was also invalid. He stated that the Finance Minister had shifted the burden of managing the macro-economic stability and reviving growth sentiment to the successor Government. He concluded his speech by stating that the Finance Minister has not kept up his promises especially the follow-up action to the recommendations of the Raghuram Rajan Committee report.

Dr. Bharatkumar Raut of Shiv Sena mentioned that though the Government claimed economic growth, there is poverty in urban areas too and the Government had not in fact addressed the problems of the urban poor since the last three Budgets. He further pointed out that though the Government has provided free education, yet suitable infrastructure was not in place to implement it.

Shri Namo Narain Meena, the Minister of State in the Ministry of Finance, while replying to the points raised by the Members stated that the Government had strictly adhered to the path of fiscal consolidation. He elaborated that the primary objective of the Government has always been to address the concern of fiscal deficit and current account deficit which has been contained at 4.6 per cent of GDP and \$ 45 billion, respectively. He thanked the farmers for the foodgrain production which was 255.63 million tonnes in 2012-13 and was estimated to be 263 million tonnes in the current year. In order to catalyse growth the Government had set up a Cabinet Committee on Investment which cleared 296 projects amounting to ₹ 66,000 crore. With regard to inflation, he stated that due to the joint efforts of the Government and the RBI inflation has been reined in; the Whole-Price Index (WPI) inflation stood at 5.05 per cent and core inflation stood at 3 per cent. He pointed out that sufficient budget for the holistic growth of SCs, STs, OBCs, minorities and women has been provided. Regarding tax rates he stated that there were not many changes and all

the above measures would be implemented within a fiscal deficit of 4.1 per cent. He assured the House that the figures with respect to Revised Estimates for 2014-15 were robust.

The motion for the consideration of Interim Budget (General) 2014-15, the Appropriation (Vote on Account) Bill, 2014, the Appropriation Bill, 2014 and the Finance Bill, 2014 were adopted and the Bills were returned to the Lok Sabha.

*Statement regarding Ninth Ministerial Conference of WTO at Bali in Indonesia:* On 17 December 2013, Shri Anand Sharma making a statement in the House stated that he had attended the 9<sup>th</sup> WTO Ministerial Conference at Bali, Indonesia, from 3 to 7 December 2013. He informed the House that the 2001 conference at Doha had mandated a comprehensive development agenda for multilateral trade negotiations, and Bali meet had been the first occasion where members were able to reach an agreement. He stated that in 2012 there was an agreement on Trade Facilitation in a few areas of convergence such as agriculture etc. In the limited sectoral agenda set in Bali, India brought the issue of procurement of foodgrains from subsistence farmers for public stockholding for food security on the negotiating table. He explained that though the existing Agreement on Agriculture did not bar stockholding programmes for food security, it was deemed as a support to the farmers if the foodgrains were acquired for such programmes at administered prices, which as per the negotiations of Uruguay Round was limited to 10 per cent. India as a part of G-33 coalition proposed an amendment to change the rules for calculating the support (prices) which was based on a reference price of 1986-88 without taking into account inflation indices. India's consistent position in the WTO has been that matters pertaining to livelihood, food security and rural development were vital and special and differential treatment must be given for developing countries. Speaking about the difficulties faced during negotiations the Minister stated that there was a concerted bid to isolate India; but India's principled position resonated with several developing countries. India was then successful a few hours before the conference was scheduled to end wherein an interim mechanism for adoption by the 11<sup>th</sup> Ministerial Conference of the WTO was framed which protected Members against any challenge in the WTO under the Agreement on Agriculture in respect of public stockholding programmes for food security. The Minister translated the implications of this proposal by stating that India now had the flexibility to provide support to the farmers without apprehension of breaching the WTO entitlements. Regarding other achievements in the Conference the Minister mentioned that a Trade

Facilitation Agreement was also reached which aimed at greater transparency and simplification of customs procedures, use of electronic payments and risk management techniques and faster clearances at ports and cargo terminals bringing about enhanced trade competitiveness. He emphasized on the fact the India had given a clear signal to the world that it would not accept un-balanced agreement which would compromise the fundamental issues pertaining to food security, livelihood security and welfare of its subsistence farmers and the poor.

*Statement regarding the procurement of VVIP helicopters:* On 5 February 2014, Shri A.K. Antony, Minister of Defence making a statement in the House stated that a CBI enquiry had been initiated in connection with the procurement of 12 VVIP helicopters from M/s Agusta Westland International Ltd. (AWIL), UK, a subsidiary of Finmeccanica, Italy. He stated that in the preliminary enquiry which the CBI had registered in February 2013 was converted into a regular case against Air Chief Marshal (Retd.) S.P. Tyagi and 18 other persons/companies. Apprising the House about the proceedings in Italy, he stated that the authorities in Italy had already commenced criminal proceedings from 19 June 2013 at the Court of Busto Arisio, Milan. Based on the documents and other relevant evidences available with Government of India, the contract for the supply of 12 VVIP helicopter has since been cancelled on 1 January 2014 on the grounds of breach of provision of the Pre-integrity Pact and the Agreement with AWIL. Referring to the proceedings in the court he stated that the transcripts of the hearing have been received by the Ministry through the Consul General of India. During the hearing an Italian Prosecutor cross-examined Mr. Guido Haschke from whom an unsigned handwritten paper with headings such as AF, BUR, POL, FAM was recovered. The Minister mentioned that during cross-examination in response to a specific question by the Italian prosecutor as to the meaning of 'FAM', Mr. Haschke replied that 'FAM' meant family and to another question, Mr. Haschke had replied '... due to the family that is to the Tyagi brothers'. There was another unsigned document targeting certain Indian leaders, regarding which the Minister stated that the authenticity of documents was yet to be probed.

*Calling Attention to situation arising out of repeated attacks on Indian fisherman by Sri Lankan Navy:* On 20 February 2014, Dr. V. Maitreyan called the attention of the Prime Minister and External Affairs Minister to the situation arising out of repeated attacks on Indian fisherman by Sri Lankan Navy.

The Minister of State in the Ministry of External Affairs,

Shrimati Preneet Kaur laid on the Table of the House the response to the Calling Attention notice. She stated that the Government attached highest importance to the safety, security and welfare of the Indian fishermen. She mentioned that the Government immediately took up the matter through the diplomatic channels with the Government of Sri Lanka to ensure that the Sri Lankan Navy acts with restraint and the Indian fishermen were treated in a humane and pragmatic manner. Keeping in mind the humanitarian and livelihood dimensions of the issue, she stated that the Government had reached an understanding through a Joint Statement with the Sri Lankan Government on 26 October 2008 to put in place practical arrangements to deal with *bonafide* Indian and Sri Lankan fishermen crossing the International Maritime Boundary. Following this agreement the incidents of attack and apprehension of the Indian fishermen by the Sri Lankan authorities had come down. She informed the House that at the 4<sup>th</sup> meeting of the India-Sri Lanka Joint Working Group on Fisheries, from 13 to 14 January 2012, at Colombo, both the sides reiterated the highest priority accorded by their respective Governments to the wellbeing, safety and security of fishermen. Further she added that both the sides had agreed to enhance cooperation that would allow both countries to pursue their fishing activity in a safe, secure, and sustainable manner. The expeditious release of the *bonafide* fishermen was also discussed as a result of which the Indian-Sri Lanka Fishermen's Association level talks when took place in Chennai on 27 January 2014. She mentioned that as per the available information the Government has secured release of 726 Indian fishermen in custody of Sri Lanka in the year 2013-2014. She urged that there was a need for creating greater awareness among our fishermen to resist crossing over into the Sri Lankan water for which the Government was working with the concerned State Governments. She reiterated that to encourage a greater understanding between the fishermen community of both countries, the Government has constantly engaged itself with the Government of Sri Lanka and the Government of Tamil Nadu to consider practical measures to ensure that the fishing communities of the countries can earn their livelihood in a peaceful manner.

Tracing the history of the Bill, he stated that the Bill has been initiated eight times since independence and all of them lapsed with the exception of the one in 1985. The first recommendation accepted makes it mandatory for the State Government for setting up the institution of Lokayukta within a period of 365 days from the date of the commencement of the Act. The Government also accepted the recommendation of the Select Committee that the fifth member of the Selection Committee would be an eminent jurist. raised by the Hon'ble Leader of Opposition, he stated that even the delinquent officer was given the right to be represented only during prosecution in order to ensure that at the time of raid, seizure and search no such immunity claimed by them. execution of the Polavaram project as national project, further the Central Government shall provide for a special development package for Rayalseema and north coastal districts of the successor State of Andhra Pradesh. He made further announcements such as Centre to ensure smooth execution of the Polavaram project; appointed day for the new state to be notified after the work relating to personnel, finance and distribution of assets were completed; and the resource gap arising in the first year for the successor State of Andhra Pradesh would be compensated by the Regular Union budget 2014-15.
