Answer

MINISTER OF STATE IN THE MINISTRY OF PETROLEUM & NATURAL GAS (SHRI R.P.N. SINGH)

(a) and (b): Currently the quantum of natural gas production rate from the block KG-DWN-98/3 block operated by Reliance Industries Limited (RIL) is about 50 to 51 Million Metric Standard Cubic Meter Per Day (MMSCMD).

Directorate General of Hydrocarbons (DGH) under this Ministry is constantly monitoring the production performance of the block. DGH has asked the Contractor (RIL) to expeditiously drill more development wells in D1 and D3 fields as approved in the Field Development Plan (FDP).
