Air

Operations in domestic sector have been deregulated and flights are being operated by concerned airlines on the basis of commercial viability subject to adherence of Route Dispersal Guidelines. Government has laid down Route Dispersal Guidelines with a view to achieving better regulation of air transport services taking into account the need for air transport services of different regions of the country including North-East region. It is, however, up to the airlines to provide air services to specific places depending upon the traffic demand and commercial viability while complying with Route Dispersal Guidelines.
