The Mission Plan is the cornerstone of the government policy for the sector. Further, initiatives have been taken in various other areas in order to strengthen the sector in the country; such as setting up of Auto Sector Skill Development Council (ASDC), support to R&D projects through automotive cess funding, starting a Rs. 2288 crore project, namely National Automotive R&D Infrastructure Project (NATRIIP) for setting up of world class infrastructure for homologation and testing, setting up of the National Automotive Board (NAB) as a repository of auto R&D expertise and an apex coordinating body to address the need of collaborative R&D and for synergizing the activities of NATRIIP centres; ensuring future fuel security along with mitigation of fuel-emission impact on environment through the newly approved National Electric Mobility Mission Plan 2020. The Department reviews the implementation of all the above initiatives regularly and gives suggestions on policy formulation and implementation to the concerned stakeholders, including Ministry of Finance and Planning Commission for adequate allocation of funds in the budget each year.
