- (b) if so, the details thereof indicating the number of said centres established thereunder and the funds allocated and spent in this regard during each of the last three years and the current year, State/UT-wise; and

Answer

(a) to (c): Public health being a State subject, the primary responsibility to provide health services to the citizens lies with the State/UT Governments. Under the National Health Mission (NHM), financial support is provided to States/UTs to strengthen their health system, including support for establishing public health facilities based on the requirement posed by the States/UTs in their Programme Implementation Plans. The NHM framework provides for partnerships with the NGOs, Civil Society and for Profit Private Sector.
