in the country and if so, the details thereof along with the action taken/being taken by the Government on each of these proposals, State/UT-wise?

Answer

ANSWER

THE MINISTER OF HEALTH AND FAMILY WELFARE

(SHRI JAGAT PRAKASH NADDA)

(a): Public Health being a State subject, the primary responsibility of ensuring quality health services to the people lies with State/UT governments. Under the National Health Mission (NHM), the central government supplements the efforts of the States/UTs for strengthening their healthcare system to inter alia provide quality health care services to all those who access public health facilities. There is a considerable variation in the quality of care delivered at Public Health Facilities between States/UTs, and also between health facilities within a state.

To facilitate States/UTs to improve the quality of services in public health facilities, the central Government has launched quality assurance program for public health facilities. In the current year States/UTs are being incentivised under NHM for quality certification of district hospitals and CHCs.

As regards quality of healthcare delivery in the private sector, public health being a State subject, no information is maintained centrally.

(b): As per Rural Health Statistics (RHS) Bulletin 2015, the number of District Hospitals (DHs), Community Health Centres (CHCs) & Primary Health Centres (PHCs) functioning in the country is at Annexure I.

(c): The population norms for setting up SC, PHC and CHC are as under:

Public Health Facility Plain Area Hilly/Tribal/Difficult Area

Sub Centre (SC) 5000 3000

Primary Health Centre (PHC) 30,000 20,000

Community Health Centre(CHC) 1,20,000 80,000

The Indian Public Health, 2012 contains the standards governing public health facilities and are available at <http://nrhm.gov.in/nhm/nrhm/guidelines/indian-public-health-standards.html>

Contd.....

-3-

(d): The information about shortfall of CHCs and PHCs as per RHS, 2015 are at Annexure-II A. The information shortage doctors and paramedical staff is at Annexure II B to II P. The details of shortfall of drugs and equipment are not maintained.

Public Health being a State subject, under the National Health Mission, financial support is provided to States / UTs to strengthen their health system, including for setting up new infrastructure/upgradation of existing infrastructure, drugs, equipment, engagement of doctors, specialists and other health human resource on contractual basis based on the requirements proposed by the States / UTs in their Programme Implementation Plans. Support is also provided for multi-skilling of doctors to overcome shortage of specialists, mainstreaming of AYUSH etc.

(e): Based on the proposals received in the Programme Implementation Plans under NHM for 2015-16 from States/UTs, the approvals accorded for Hospital for strengthening /New Construction/ Setting Up of works under NRHM for District Hospitals (DHs), Community Health Centres (CHCs), and Primary Health Centres (PHCs) in FY 2015-16 is at Annexure-III.
