- (d) the quantum of funds provided for completion of the irrigation projects in Maharashtra during each of the last three years including the details of the works undertaken with the same?

Answer

THE MINISTER OF STATE FOR WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION
(DR. SANJEEV KUMAR BALYAN)

(a) to (d) Water Resources Projects are planned, funded, executed and maintained by the State Governments themselves as per their own resources and priority. In order to supplement the efforts of the State Governments, MoWR, RD & GR provides financial assistance to State Governments to encourage sustainable development and efficient management of water resources through various schemes such as Accelerated Irrigation Benefits Programme (AIBP) etc. under Pradhan Mantri Krishi Sinchayee Yojana (PMKSY).

Ninety Nine (99) ongoing Accelerated Irrigation Benefits Programme (AIBP) projects, including 26 projects of Maharashtra, have been identified in consultation with States for completion in phases up to December, 2019. Based on the inputs available at the time of formulation of the scheme, 7 projects, out of these 26 projects, were tentatively identified for completion by 2016-17.

The progress of the prioritized projects of Maharashtra was reviewed by Secretary (MoWR, RD & GR) & Mission Director (PMKSY) on 27.02.2017. Government of Maharashtra informed that 4 projects out of 7 projects identified for completion by 2016-17 are now planned to be completed by June, 2017. Further, one project which was scheduled for completion by March, 2018 is now planned to be completed by June, 2017. Further, it emerged that various long pending issues related to irrigation projects of Maharashtra have been streamlined and they have been now put on fast track to meet overall completion targets of December 2019.

Project-wise central assistance released under AIBP to Maharashtra during last three years and current year is at Annexure.
