

Title: Need to provide more railway facilities at Rampur railway station, Uttar Pradesh.

BEGUM NOOR BANO (RAMPUR): Sir, Rampur railway station lacks the following facilities :

- There is no tin sheet covering the Rampur Junction.
- Katgodam Express should stop at Kemri station. It should be extended upto Punjab instead of Delhi as lot of Punjabis are staying here. They are cultivators of Tarai Belt.
- Nos. 5209 and 5210 Jansewak Express should stop at Rampur Junction.
- Though the reservations have been computerised, yet the generators have not been provided at the Rampur station with the result that as and when electricity goes off, it becomes very difficult to get the reservations done. There is no printing machine available here. They are getting the printing machine from Moradabad. Whenever the machine does not reach in time, they have to do reservations manually.
- There is only one railway over-bridge at Rampur. At least two railway over-bridges should be provided there.

I request the hon. Minister of Railways to look into the matter.

Thank you.
