

**Title: Need to set up a National Telecom University at Hyderabad, Andhra Pradesh- Laid.**

**SHRI B.V.N. REDDY (NANDYAL) :** Information Technology has become a worldwide subject now. There is not a single full-fledged university in the country on the subject to undertake research and advanced studies. I suggest that India must have one such university, say National Telecom University at Hyderabad, being a central place from all corners of India. Incidentally, the Government of Andhra Pradesh had allotted 30 acres of land to the Department of Telecom in 1989 for Telecom Research facilities. That land lying unused can be utilized for setting up of the university. I hope the Government of India would sanction the necessary fund for setting up the university at an early date.
