

Title : Need to open the office of Railway Recruitment Board in Bilaspur, Chhattisgarh.

MS. INGRID McLEOD (NOMINATED): Sir, Bilaspur city is a renowned railway colony in Central India. It is known for its vast and varied infrastructure providing every conceivable opportunity for public use. This infrastructure is over 100 years old and is considered the most important railway hub in Central India which provides a life line to the entire country.

The infrastructure is regularly upgraded to meet the demanding standards of the Indian Railways. But so far Bilaspur has not been considered for constitution of Railway Recruitment Board although there are 19 Recruitment Boards in India and although Bilaspur can provide optimum facilities.

Bilaspur presently is HQ of SECR Zone which is another point in support of its existing enhanced infrastructure to be able to conduct recruitment for the railways.

In view of this, the Railway Minister should seriously consider this issue and open a Railway Recruitment Board office in Bilaspur.
