Title : Regarding the need to take firm steps to curb the activities of I.S.I. in Gujarat and other parts of the Country.

SHRI P.S. GADHAVI (KUTCH): Recently in bomb blast at Ahmedabad Railway Station it has been revealed in preliminary examination that substance used in this blast was RDX. It is very well known that RDX is not available in our country.

In Bombay blast the substance used was RDX and that had link with ISI, Pakistan.

ISI, Pakistan is helping terrorism in India. Gujarat is target of ISI. In Ahmedabad it is the ISI who has been funding the terrorist activities.

I, therefore, urge the Government of India to curb and control ISI activities firmly.
