

Title : Further discussion on Global Warming raised by Shri C.K.Chandrappan on 8th May, 2007 (Discussion not concluded).

MR. DEPUTY-SPEAKER: Now, we shall take up item no. 20 – further discussion on Global warming raised by Shri C.K. Chandrappan on 8th May, 2007.

Now, the hon. Minister.

THE MINISTER OF SCIENCE AND TECHNOLOGY AND MINISTER OF EARTH SCIENCES (SHRI KAPIL SIBAL): Mr. Deputy Speaker, Sir, it is very difficult in the circumstances to discuss about global warming because of the tremendous heat generated in this House. ...(*Interruptions*) The BJP today represents the carbon dioxide in the atmosphere. We all know that when the level of carbon dioxide increases, the whole atmosphere gets polluted. ...(*Interruptions*) Once the levels of pollution are this high, it will be impossible for the House to survive. ...(*Interruptions*)

The more this kind of sloganeering goes on in this House, the more the level of carbon dioxide will increase. In fact, the BJP does not represent just carbon dioxide but they represent Chloro Fluoro Carbon. Chloro Fluoro Carbon are the most polluting and destructive structure in the aerial atmosphere. ...(*Interruptions*) I, therefore, request that sincere efforts should be made by the polity of this country to reduce the level of these contaminants. ...(*Interruptions*)

MR. DEPUTY-SPEAKER: Now, the House stands adjourned to meet again tomorrow, the 17th May, 2007 at 11 a.m.

14.38 hrs.

The Lok Sabha then adjourned till Eleven of the Clock

on Thursday, May 17, 2007/Vaisakha 27, 1929 (Saka).
