Title: Need to expedite the construction of Thalassery-Mahe Bye pass in Kerala.

SHRIMATI P. SATHEEDEVI (BADAGARA): The proposal for Thalassery - Mahe Bye pass is under the consideration of the N.H Ministry for a total length of 18.031 KM from Muzhappilangad to Azhiyur. The land acquisition in 9-424 km (ch 0/00 to 9/742m) has already completed. The land acquisition for the remaining length is not yet taken place, for which an estimate is pending before the Ministry. As there is a very narrow stretch of road in the N.H from Tellicherry to Mahe there is heavy traffic causing much hardship in the entire locality. The only solution for the high density of traffic in the area is the construction of the Bye pass at an earlier stage.

Hence I request you to take immediate steps to start construction of this Bye pass at least in the phase where acquisition is over and sanction the proposal for land acquisition of the remaining portion.
