Title: Need to provide an underpass at KM 390 on NH-4 at Varur Village in Dharwad North Parliamentary Constituency, Karnataka

SHRI PRAHLAD JOSHI (DHARWAD NORTH): Varur is a village in my constituency having a population of about 10,000 mainly of farmers and agricultural workers at KM 390 on N.H. 4 Bangalore-Hubli. Though it was a part of Golden Quadrilateral Road, no junction or under pass was provided at KM 390 at the point where the village is literally bifurcated with both sides having farms, schools and markets, and people and small children frequently crossing this spot. Hence people of the village are pressing for a large underpass instead of already provided which is about one KM away. This small underpass is also very hazardous as it is literally build on a passage, which is a feeder channel to a nearby lake. This has caused inconvenience to people. The situation may lead to serious law and order problems. Therefore, I urge upon the Government to immediately take up the work in this regard and provide underpass at KM 390 on NH 4 at Varur village in my constituency.
