Title: Need to revive the Instrumentation Limited, a Central Public Sector Undertaking.

SHRI N.N. KRISHNADAS (PALGHAT): The Instrumentation Ltd. a Union Public Sector Company is in deep crisis due to the accumulated loss from 1993. It has been declared a sick industry and referred before BIFR in 1993. There was a package for its revival, but it was not yet materialized. Even though the company as a whole faced deep crisis, its Palakkad unit is making profit even today. The BHEL and other PSUs has expressed its interest to make Instrumentation Unit as its own Production unit. So I urge upon the Government to either make Instrumentation Limited as the production Unit of BHEL or merge with BHEL.
