Title: Need to provide adequate water for irrigation from river Chambal to the farmers of Kota Division in Rajasthan.

SHRI DUSHYANT SINGH (JHALAWAR): The Union Government must ensure that the farmers of Kota division of Rajasthan which includes Barar, Bundi and Kota must get adequate water for irrigation from Chambal river.

This region is the only region where coriander is produced for the country. The farmers are demanding water. The lack of irrigation facilities affects 754 villages of this region.

I urge the Union Government to assist the farmers to get the adequate share of water for this region.
