

Title: Need to expedite the implementation of welfare programmes for minorities including the proposals of the Ranganath Mishra Commission-laid.

SHRI MOHAMMED E.T. BASHEER (PONNANI): The implementation of the Minority Development Programmes are presently not moving with the desired pace due to inadequacy of funds, lack of monitoring setup, and non accountability of the channelizing agencies. In this connection, Sachar Committee had also identified the issues which need to be addressed. Also, Ranganath Mishra Commission has specifically suggested the programme of action to be taken for the implementation in the light of Sachar Committee report. The Government has tabled it in the House without even an action taken report, that too, after two years. It is still uncertain as to what further action the Government is going to take in this regard. I urge upon the Government to take early action on the implementation of Minority welfare programmes including the proposals put forward by the Ranganath Mishra Commission.
