Title: Need to construct a bypass road between Puducherry and Cuddalore districts of Tamil Nadu.

SHRI S. ALAGIRI (CUDDALORE): The connecting road between Puducherry and Cuddalore is always busy and people are facing problem due to traffic jam on the above road. The heavy transport vehicles running on the road often cause serious accidents. The new town have been established on both sides of the road between Puducherry and Headquarters of Cuddalore. So a large number of people are residing along the road. The Industrial development in Cuddalore district is also taking place speedily. I am very much sorry to state here that in spite of the above fact no decision for construction of any bypass road has been taken nor any financial sanction has been granted, so far, for easy transport and traffic between Puducherry and Cuddalore.

I would like to make a request to the Government of India to take initiative to declare for construction of a bypass road between the Puducherry and Cuddalore district and sanction monetary assistance for the same as soon as possible.
