Title: Need to provide adequate road connectivity along international border with Bangladesh in Meghalaya.

SHRI VINCENT H. PALA (SHILLONG): Hon. Madam Speaker, in my Constituency in Meghalaya, the people living in the border of India and Bangladesh are facing a very difficult situation. Firstly, the fencing is almost completed but there is no road to connect from the border to the rest of India. Therefore, especially in the village Hurai and Hungaria, there is no road to connect, and there is no mobile tower along the border.

I would, therefore, urge upon the Government through the Ministry of Road and Transport that they should construct roads along the border and also erect mobile tower so that the people can be connected. Thank you.

HON. SPEAKER:

Shri Rajiv Satav is permitted to associate with the issue raised by Shri Vincent H. Pala.
