Title: Need to increase the retirement age of Indian Administrative Service Officers.

**SHRI K.R.P. PRABAKARAN (TIRUNEVELI)** : I would like to raise an issue with regard to administrative service of the country.

As we all know recently the Union Government increased the retirement age to 65 years for Doctors of Central Services. Therefore, on the similar pattern, there is a need to increase the retirement age of IAS officers of the country to 65 years.

This will help in providing additional IAS officials and we can also retain our experienced IAS officials for a longer period and provide quality administrative services to the citizens of the country.

Hence, I would like to request the Union Government to consider my proposal to increase the retirement age of IAS officers of the country to 65 years.
