Title: Regarding problems faced by farmers due to demonetisation.

SHRI BALBHADRA MAJHI (NABARANGPUR): Is it in the knowledge of the government that all people in the remote areas have not been able to exchange their old 1000 & 500 currency notes? Taking plea of cash crunch, marginal farmers have sold their paddy to traders at as low as Rs. 600 per quintal as against MSP of Rs. 14700/-. Has it not generated black money? Has the government assessed the loss on this account? How much black money has been recovered? Has the purpose of demonetisation been achieved?. When is the government going in for next round of demonetisation?
