Title: Need to establish Border haat in Murshidabad and Nadia districts of West Bengal.

SHRI MD. BADARUDDOZA KHAN (MURSHIDABAD): I have raised the issue of "Border Haat" in the Question Hour in previous session. At that time I had suggested the Minister concerned to extend the experience of "Border Haat" to other border districts also. There is no doubt that the decision of "Border Haat" is an effective initiative for the people of border area. I believe it will help change the socio-economic condition of the poor people of border area who are actually alienated from the mainstream of our country. It will help to create employment through legal business between the two countries. "Border Haat" will help reduce smuggling activities in these areas.

Madam, I would like to request the Government through you to establish two new "Border Haats" at Lalgola & Kaharpara in Murshidabad District, West Bengal and one "Border Haat" at Sikarpur in Nadia District.

Hence, I would request the Government through you to accept this proposal.
