Title: Need to make provision for constructing a sub-way on NH-47 at Mullakkara Centre-Mulayam Road in Kerala.

SHRI C.N. JAYADEVAN (THRISSUR): Along the new Mannuthy-Vadakkanchery six-lane NH-47 currently under construction, there is no provision for a subway at Mullakkara Centre-Mulayam Road. This is an important centre serving as hub for several institutions and places of worship frequented by thousands of students and other common people every day. With the construction of this six lane highway, the area will be divided into two. Mullakkara centre-Mulayam Road turns fatal for those who attempts to cross the highway. Even when it was a four lane highway, hundreds of accidents have taken place and people died in this stretch of the highway. The State Human Rights Commission has ruled that a subway be built at Mullakkara centre- Mulayam Road in order to enable people to cross the highway safely.

I, therefore, urge upon the Government to make provision for constructing a sub way at Mullakkara Centre-Mulayam Road across this six-lane NH-47.
