Title: Regarding provision of special package to tribal people of Mangaldoi in Assam.

SHRI RAMEN DEKA (MANGALDAI): I rise here to say something about my Constituency which is a very backward area. There is a lack of communication. A huge population of that area is tribal and their craftsmanship in textiles and handicrafts is very good. So, I demand from the Government of India to give a special package for those tribal people so that they can do something about their craftsmanship and handloom cloth. Their handloom clothes are very good. They need some technical help as also some help for skill development so that they can pursue their traditional craftsmanship. If they do that, they would be economically upgraded.
