Title: Need to extend the existing Rithala and Badli metro routes upto G.T. Road and Singhu Border respectively.

DR. UDIT RAJ(NORTH WEST DELHI): Hon. Speaker, thank you very much for giving me this opportunity to raise the problems of rural people of my constituency that is situated in Narela. In Narela, the Delhi Development Authority acquired land in 1996 to build sub-city over there. So far not much has been done. Not only that, integrated freight corridor was to be set up which could have been done very easily. It is connected with road and rail. The only thing is that the warehouses have to be built over there. They are there. But the DDA and the Government have not taken pain to regularise them. Apart from that, in the 2010 Zonal Plan, plans have been made for a number of recreational and educational institutions. But so far land has not been allotted. About 1,000 hectares of land were allotted for recreational activities and 500 hectares of land were allotted for recreational activities. But till today, the Ministry of Urban Development and the DDA has done nothing. Thousands of flats are lying vacant. They have not been allotted. People are homeless.

माननीय अध्यक्ष: एक ही बात को न दोहराएं। आप चाहते हैं कि आपको कनेक्शन चाहिए और जीटी रोड तक हो जाए। इतना ही कहें।

DR. UDIT RAJ: If metro is extended to that area, then those houses can be allotted and people will willingly go and occupy those houses. Thank you so much for giving me this opportunity.
