Title: Need to sanction financial as well as technical assistance to provide safe drinking water in the Nuapada district of Odisha.

SHRI ARKA KESHARI DEO (KALAHANDI): According to the Ministry of Drinking Water & Sanitation, the fluoride content in water has been found in 229 villages in Nuapada district of Odisha as per the 2014-15 report. The people of Boden, Komna, Sinapalli, Nuapada & Khariar blocks of the above said district are not able to get safe drinking water. I request the Government to sanction financial as well as technical assistance to provide safe drinking water in the above mentioned blocks of Nuapada district.
