Title: Need to expedite the take over of ESI medical colleges by the government of Kerala.

SHRI N.K. PREMACHANDRAN (KOLLAM): Sir, we all endorse his views and let it be scrapped....(*Interruptions*)

Sir, my submission is in respect of the ESI medical college in my constituency. The ESI Corporation has spent more than Rs. 500 crore for the construction of the medical college, but unfortunately after assuming power this Government has decided to withdraw from medical education. And as a part of the decision, the Government of Kerala, in its Cabinet, decided to take over the Medical College.

My only submission to the hon. Minister is to convene an urgent meeting of the concerned officials so as to fix the terms and conditions of the takeover so that the Medical College can function this year.

So, I urge the Government to take immediate steps in this regard.
