Title: Need to provide better services of Railways in North Eastern States of the country.

SHRI KAMAKHYA PRASAD TASA (JORHAT): The North East is rich in natural resources but it is considered as the most backward region of the country. Indian Railways can bring sustainable development in North Eastern Region and develop the Tourism industry in that region. At present trains of the region are always running late. Often the trains are running without Pantry Car, Water etc. Many patients from North Eastern region travel by trains because Air Ambulance is too costly. But trains never reach the destination on time which create difficulties for the patients. Further, there is no alternative facility to travel from North East to other States of India.

**Hence, I request the Hon'ble Minister of Railways to improve the services of trains for all-round development of North-Eastern States of the country.**
