Title: Need to construct three Rail-Over-Bridges in Dausa Parliamentary Constituency, Rajasthan.

SHRI HARISH MEENA (DAUSA): I wish to draw attention of the Government towards the need to construct Rail-Over-Bridges at three places viz. Bandi Kui, Bassi and Baswa in my Dausa parliamentary constituency, on the main railway line running between Delhi–Ahmedabad. .

Bandi Kui is an important sub-division of Dausa District with a population of more than one lakh. Apart from this, it is an important trade-centre and educational hub of the Dausa, district. As Delhi-Ahmedabad railway line has high railway traffic in the absence of a rail over-bridge, students are held up at peak hours, the movement of ambulances is hampered and movement of goods transportation is also adversely affected, as the State Mega Highway passes through the town.

Similar is the case in Baswa town, as it also falls on the State Mega Highway and the movement of inter-State traffic is also affected.

With regard to Bassi town, it is a busy suburb of Jaipur and lakhs of people pass through this town, and are facing a lot of inconvenience due to lack of Rail- Over-Bridge.
