title: Need to construct a road over bridge at level crossing gate no. 27B near Kamarkundu railway station in Hooghly district, West Bengal.

SHRIMATI APARUPA PODDAR (ARAMBAG): Kamarkundu Railway Station is at the crossing of Howrah - Bardhaman chord lines. It serves the people of Kamarkundu in Hoogly District in West Bengal.

At Kamarkundu, the Sheoraphuli - Bishnupur branch line goes above the Howrah - Bardhaman chord. Trains cannot switch routes since the lines & platforms are at two levels.

There is a long pending demand for construction of Road Over Bridge at Level Crossing Gate No. 27B at 33.5 Km near Kamarkundu Railway Station over Howrah Burdwan Chord Line .

It is an important Division in Eastern Railway. 13115 Sealdah-Rampur Hat Intercity Express; 13151 Jammu Tawi Exp; Sealdah Exp; Kanchan Kanya Express pass through this Station.

Students, working People residing on either side of the Level Crossing, where the bridge has to be built, face lots of difficulties, as it a busy line. Movement of Ambulances is also affected causing loss of human lives.

I am sad to note that even though this Project has been approved and budget sanctioned by Chief Engineer, Chief Administrative Officer, Eastern Railway, till date work process has not started.

Hence, I once again urge the Hon'ble Railway Minister to look into this important issue and instruct the concerned officials for early commencement of Road Over Bridge on priority. This will go a long way in solving the transport difficulties faced by people residing here.
