Title: Need to discuss the outcome of WTO meeting held in Nairobi, Kenya.

SHRI RATTAN LAL KATARIA (AMBALA): I would like to request the Commerce and Industry Minister to highlight the various issues which were discussed in WTO meeting held in Nairobi, Kenya. US and EU were emphasizing to include investment on energy, security as new issues but for India, labor and environment are non- trade issues. For India, there is a need to rework formula to calculate permissible level of domestic procurements as the current one may restrict ability to procure grains for PDS. Although the Government is committed to the cause of farmers and has taken a consistent stand at WTO to protect their interests but nation would like to know the current outcome of meeting in Nairobi.
