Title: Need to allocate adequate funds to educate tea labourers.

*SHRI RAMESWAR TELI (DIBRUGARH): Hon. Chairman Sir, my constituency Dibrugarh is famous for tea production. And tea is the backbone of Assam's economy. It is not only the major contributor to the state's revenue, but also a major source of employment for thousands of people. But even after 67 years of our independence the children of tea labourers are still deprived of educational facilities. As we all aware, education is the vehicle through which we can achieve success in life. However, the proper light of education is yet to reach the tea workers. I, therefore, urge upon the Government to allocate adequate funds for the developments of infrastructural facilities like buildings, furniture, drinking water etc. Allocation of funds should also be made for appointment of qualified teachers, to provide books and stationary items and uniforms. Scholarships should also be awarded to the students so as to encourage them to study. I would also like to suggest that instead of wooden furniture which get damaged easily, steel furniture may be provided in the schools.
