Title: Need to draw an action plan to bring down casualties on the Mumbai Suburban Railway Zone.

DR. KIRIT SOMAIYA (MUMBAI NORTH EAST): An urgent action plan is required to bring down passenger casualties in Mumbai Suburban Central Railway Zone. Daily 10 minor injuries, 10 major injuries, 10 deaths occur. Central Railway must finalize action plan for creating/erecting fencing at all major accident spots. There are 35 major accident spots. Coordinated efforts must be made by Mumbai Municipal Corporation, GRP, RPF and Railways for erection of escalators on both sides of all the Railway stations and more FOBs need to be constructed. Attention is also drawn towards the observations, strictures passed by Mumbai High Court on this issue. I urge upon the Hon'ble Minister of Railways to pay attention to this issue and take immediate measures by drawing an action plan to bring down casualties on the Mumbai Suburban Railway.
