

>**Title:** Requests to re-design and re-construct an under-bridge constructed at Haveli Railway Station in Karnataka.

SHRI B.M. MENSINKAI (DHARWARD SOUTH): An under-bridge was constructed at Haveri Railway Station at the time of broad gauge conversion from meter gauge. People are not crossing through that bridge. This bridge is on the State Highway road. Its design was made defective as a result of which the people are suffering like anything. Sir, through you, I would request the Railway Ministry to re-design and re-construct this bridge.
