Title: Need to take steps for setting up of a Cancer Institute in Kurnool.

SHRIMATI BUTTA RENUKA (KURNOOL): Madam, I thank you for allowing me to speak on the issue for which the Government of India has already approved for establishment of Cancer Institute in my parliamentary constituency. It is highly unfortunate that the work for setting up of the Cancer Hospital has not yet commenced leading to apprehensions in the minds of people. Already the people of Rayalaseema are disappointed for having lost the Capital status and also the All India Institute of Medical Sciences. I request the hon. Health Minister to direct the concerned authorities for setting up of a Cancer Institute in Kurnool. This concerns not only the people of Rayalaseema but also the people of bordering districts of Telangana and Karnataka. This measure will be a morale booster for the people of Rayalaseema and ensure balanced development of all regions in the State. A large tract of Government land is available in and around of Kurnool.

HON. SPEAKER:

Shri Ramachandra Hansdah is allowed to be associated with the issue raised by Shrimati Butta Renuka.
