REVISED FIGURES OF FOODGRAINS PRODUCTION

THE MINISTER OF AGRICULTURE (RAO BIRENDRA SINGH) : Hon. Members will recall that in reply to the Debate on Demands for Grants of my Ministry on the 3rd of this month, I had indicated that we expect a record foodgrains production of 146.3 million tonnes during 1983-84. Since then we have received some confirmed estimates from the States as a result of which I am happy to announce that as per the latest estimates the foodgrains production during 1983-84 is likely to be 149.76 million tonnes. This includes a record Kharif crop of 87.81 million tonnes. Rice production of 59.33 million tonnes, production of coarse cereals of 33.06 million tonnes and wheat production of 44.56 million tonnes as estimated will be an all time record. The estimates have been cautiously prepared on the basis of reports received from the States so far.
