(2) Annual Report of the Rehabilitation Industries Corporation Limited, Calcutta, for the year 1980-81 along with the Audited Accounts and the comments of the Comptroller and Auditor General thereon

[Placed in Library. See No. LT-3075/811

12.10 hrs.

MESSAGE FROM RAJYA SABHA

SECRETARY: Sir, I have to report the following message received from the Secretary-General of Rajya Sabha: ----

"In accordance with the provisions of rule 127 of the Rules of Procedure and Conduct of Business in the Rajya Sabha, I am directed to inform the Lok Sabha that the Rajya Sabha, at its sitting held on the 14th December, 1981, agreed without amendment to any the National Bank for Agriculture and Rural Development Bill, 1981, which was passed by the Lok Sabha at its sitting held on the 30th November, 1981."

12.12 hrs.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

DAMAGE CAUSED BY THE RECENT CYCLONE IN SOME AREAS IN WEST BENGAL AND ORISSA

SHRI R. P. DAS (Krishnagar): Ι call the attention of the Minister of Agriculture and Rural Reconstruction and Irrigation and Civil Supplies to the following matter of urgent public importance and request that he may make a statement thereon:

"The reported loss of numerous human lives and cattle and damage to property and standing crops caused by the recent cyclone in some areas in West Bengal and Orissa."

12.14 hrs

[MR. DEPUTY SPEAKER in the Chair]

THE MINISTER OF AGRICUL-TURE AND RURAL RECONSTRUC-TION AND IRRIGATION AND CIVIL SUPPLIES (RAO BIRENDRA SINGH): According to the report received from the Government of Orissa. a severe cyclonic storm which subsequently developed into a hurricane was first detected over Bay of Bengal on the 8th instant at 5.30 P.M. It moved northwards alongwith Orissa Coast with wind speed exceeding 120 K.M. per hour and crossed the coast near Sagar Islands on the 10th night. Preliminary situation report received indicated that coastal areas mostly in the districts of Balasore and Cuttack were affected.

The State Government reported that adequate precautionary measures were taken to warn the people and the people were evacuated where necessary from the low lying areas The State Government stationed additional District Magistrates at Kendrapara and Jajpur in Cuttack District and at Bhadrak in Balasore District to organise relief operations.

Roofs of large number of kutcha houses were blown off number of trees up-rooted, roofs of the block office buildings, staff quarters and garage have been blown away in one block. Many primary school buildings have been damaged and communication links were disrupted. Saline innundation was also reported in low lying areas causing damage to standing paddy crops. Four fishing trawlers and two country boats are reported to be missing while one power boat capsized. Though details of casualty of human lives and cattle losses are being ascertained, according to the preliminary report three persons were reportd to have died in a village due to house collapse. Betel vines were reported to have been damaged. Three breaches were reported in the embankment near Kantipur.

Steps were taken by the State Government to disburse house building grants immediately in affected areas. The Government of Orissa has got a margin money of Rs. 871 lakhs during the current year with which it can meet the expenditure for providing eny emergent relief to the affected people.

6

As regards West Bengal, the State Government have reported that a severe cyclonic storm accompanied by heavy rain and tidal waves swept over wide areas of Midnapur and 24-Parganas Districts on the 10th and 11th December, 1981. Extensive breaches of embankments for flood protection have taken place. According to the State Government, 93 human lives have been lost and nearly 20 lakhs people have been affected. Several thousand houses have either collapsed or stand badly damaged. Besides, extensive damage has been caused to the standing paddy and rabi crops. The State Government have reported that loss of property and damage to crops are still being assessed. The State Government have reported that people had been rescued and given shelter and relief. The Public Health Department have sent teams for vaccination and large quantities of clothes in the form of 25,000 pieces of tarpauline, 12,000 pieces of cotton blankets, 24,000 pieces of dhoti, 16,000 sarees and 38,000 garments for children have been rushed to the affected area. In addition, 500 Kgs milk powder has been sent. Cash assistance provided so far by the State Government is of the order of Rs. 1.5 lakhs. Arrangements are also being made to reach potable water for the human and cattle population in areas where water tanks and ponds have become saline. In this the Calcutta Port Trust Authority is assisting by providing barges. The State Government have got a margin money of Rs. 1360 lakhs and it can meet the emergent expenditure for providing relief to the affected people.

The Government of India express their profound sorrow on this calamity which has befallen the two States and convey their heartfelt sympathies to the bereaved families. SHRI R. P. DAS: West Bengal never before had experienced such a severe cyclonic storm acommpanied by incessant rains and tidal waves at this time of the year particularly after the withdrawal of the south-eastern monsoon. It has dealt a severe blow to the rural economy of the State causing immense devastation to the districts of South 24 Parganas, Howrah and Midnapore and inflicting great troubles, hardships and deaths.

Immediately after receiving the news of the calamity, Mr. Pravesh Roy, State Irrigation Minister, Mr. Radhika Banerjee, Relief Minister, Mr. Nani Bhattacharjee, Health Minister and Shrimati Nirupma Chatterjee, Social Welfare Minister have visited the worst-affected areas.

MR. DEPUTY-SPEAKER: We have already received all this information. Please come to the point.

SHRI R. P. DAS: The death toll on Thursday night's severe cyclonic storm accompanied by rains and tidal waves, has risen to more than 100 by this time. As a result of this cyclone, one third of the Sundarban area has been severely affected. Affected area would be more than 4000 sq. kms. 52,000 acres of land mostly with standing crops have either been inundated with saline water or swept away by the waves. About 233 kms. of embankment have been totally washed away and more than 7,000 houses have either been collapsed or destroyed. It is very difficult to ascertain the number of deaths at this stage. According to official reports, 90 people had died in South 24 Parganas and 3 in Midnapore district. But anofficial reports reaching here put the death toll around 175.

MR. DEPUTY-SPEAKER: You are repeating what the Minister has said. Come to the point.

SHRI R. P. DAS: The Health Minister of West Bengal, Mr. Nani Bhattacharjee said that there might be more bodies in the paddy fields. He also feared that some might have been

1981 by cyclone in W. Bengal & Orissa (CA)

[Shri R. P. Das]

washed away by the tidal waves. Numerous cattle have died and wasned away. These may run into several thousands. According to Mr. Pravash Roy, the State Irrigation Minister, high tidal water headed by a severe cyclonic storm hit all along the coastal areas of Midnapore and South 24 Parganas during the day and the night of 10-11 December, causing unimaginable damage to men, material and property that fell in the way of the cyclone. It swept the entire area. Incessant rains and huge tidal waves had damaged the endless lengthover hundreds of kilometers of embankments, dikes and bunds-in the cyclone-battered districts of which about 233 kms. had been totally washed away.

I particularly would like to draw the attention of the Minister that unless these embankments are constructed on an emergent basis, the Sunderbans area cannot be saved from the rising of regular tidal waters of the rivers. It is reported that 20 lakh people of 19 blocks of 16 police stations in the South 24 Parganas alone had been affected. The worst affected areas are—Patha Pratina Canning, Namkhana Kultuli, Gosaba, Basanti; 'Jathurapur and Jaynagar, Sagar Dwip and Manshumi islands are reported to have been totally devastated.

In the district of Midnapore, at Mahishadal alone, 6,000 houses have been damaged. Standing crops and betel leaf cultivation for which Mahishadal is famous, in at least 300 places have suffered extensive damage. Communications with the effected areas of the Sunderbans have been completely snapped and restoration work has just started.

MR. DEPUTY-SPEAKER: Please come to the question proper.

SHRI R. P. DAS: The availability of drinking water has now become a serious problem in these areas. There is water everywhere, but not a drop to drink. The tube-wells have been damaged. The tanks and ponds are now under saline water. Therefore bringing of potable water has been the prime task of the relief teams.

The State Government has been taking all possible measures to send relief to all the affected areas far flung in the districts. The panchayats have been doing a commendable service to the cause of the distressed.

MR. DEPUTY-SPEAKER: The State Government have done their job. You ask them about what the Central Government have to do.

SHRI R. P. DAS: Along with West Bengal, Orissa also experienced а cyclone. Three-metre high similar tidal waves entered the low-lying areas in Mahakalpura and Jamber isalong the coast of Cuttack lands district. It has caused immense damage in the coastal belt of the district, including Paradip. Roofs of the kutcha houses in the villages have been blown away and trees have 'een uprooted. Power supply and communications in Kendrapare sub-division have been disrupted and standing crops damaged. Loss of life was also reported.

Now I would like to put the following questions to the hon. Minister for immediate reply. May I know whether a Central Study Team has been constituted and sent to the devastated areas of West Bengal to assess the extent of loss caused by the cyclone on 10th December? Has any decision been taken in regard to the release of Rs. 20 crores that has been asked by the State Irrigation Minister for repair and restoration work of the embankments etc.?

Acording to the meteorologists in the Alipur weather office, disturbances of such a severe type had never been recorded in the annals of the Alipur Meterological Office since the beginning of this century, at this time of the year. In view of this, why the danger signals could not be issued well in advance, say, a day earlier?

RAO BIRENDRA SINGH: All the information that I could get from the

Governments of West Bengal and Orissa has been given in my statement. The hon. Member seems to know more than I know for the time being. He said that this calamity could have been averted if sufficient number of embankments had been built in the Sunderbans area. I do not agree with him at all. Cyclones, earthquakes and volcanic eruptions are calamities which cannot be averted.

All that we can do is to give timely warning. We have a sufficiently advanced warning system for that purpose. As I have stated, in this case timely warning was given, not only by the meteorological offices on the coast, but also by the radio from Madras, Bhubaneswar and Calcutta, from the 7th of the month itself. Daily bulletins were being issued by the Al! India Radio right up to the morning of the 11th. The radio stations at Calcutta Bhubaneswar, Cuttack and Jeypore (Orissa), were giving timely The coastal agencies were warning. also warned and danger signals were put up to warn the fishermen. And even where embankments had been constructed like in the Sunderbans area, the Member himself knows and he has mentioned this that hundreds of miles of length of embankment 17 have been washed away and damaged. In West Bengal itself 525 kms, length of earthen embankments were completely washed away, 585 kms, of embankments were severely damaged. It cannot be said that embankments were not constructed where they were needed. But the fury of the cyclone was so great that these embankments could not have done much, there were high tidal waves as it happens after cyclones.

SHRI R. P. DAS: I would like to know whether the embankments can be strengthened

RAO BIRENDRA SINGH: Of course, all that will be done. Immediate relief was provided by the State government concerned, the State Govenment has a margin money and a very substantial amount of mergin money. West Bengal has probably the highest amount allocated from year to year—Rs. 13,60,00,000, as I have stated. They can immediately make use of this money and if they need further assistance from the Government of India, we provide 75 per cent of the total expenditure on relief measures in such cases when there are floods and cyclones. We are still awaiting a detailed report from the West Bengal Government. No memorandum has so far been submitted. The Government itself that they are said assessing the damage. I have said so in my statement and till such time we receive a report from the West Bengal Government, we cannot constitute a Central team for visiting the area.

SHRI K. P. SINGH DEO (Dhenkanal): Sir, once again it is my painful duty to raise this Calling Attention on the matter of cyclones. It was only last year that we had a severe tornodo in the eastern coast of India which had affected my own State of Orissa.

Sir, a study has been undertaken and it has been found that these tropical cyclones occur with monotonous regularity in the eastern coast of our country between the periods from April to June and from September to December due to geographical reasons. I would not like to go into the geographical aspect of the question because it has been discussed many times. The only one aspect I would like to point out is that these cyclones are the result of flow of air from high pressure belts to low pressure belts. This depends on the gradient and this is where I differ with the hon Minister when he said that it cannot be averted. It can be minimised.

Sir, 10 years back, in 1971. there was a Cyclone Distress Mitigation Committee set up under the Chairmanship of Dr. Koteswaran who had gone into the entire aspect that of meteorological organisation for detection and tracking of cyclonic storms, dissemination of meteorological warnings, distress mitigation measures.

[Shri P K. Singh Deo]

community preparedness programme including public education programme, post-disaster measures, model cyclone plan; financial implications and a statutory body to implement it. Therefore, it raises a fundamental question that with the increasing economic activity and growing population in the coastal areas where adequate precautions have been aken according to this Koteswaran Committee, the havoc, the destruction, the devastation and the misery to the people had been minimised, as is evident and as is indicative of the Minister's reply. The Government of Orissa had taken adequate precautionary measures to warn the people and the people were evacuated from the low lying areas. This has resulted only in three deaths. But it had affected the salinisation of the areas of Mahakalpura, Kendrapara, Rajnagar, Kujang, Ersama, Tirtol, Pattamundei, Patkura, Chandbali Dhamnagar, Basudevpur and Balasore causing damage to standing crop. Prof. Das stated that because of cyclone 93 people died in West Bengal. Out of these 93, 58 come from Sunderbans-area of 24 South Parganas.

Recommendations have been given by the Cyclone Distress Mitigation Committee. They suggested certain steps which should be taken before cyclone, during cyclone and after cyclone. Have those been followed by both the State Governments or not? If those steps have been taken, what are the steps that have been taken by the respective State Governments?

In the programme and the recommendations given by Dr. Koteswaran, the Committee had recommended that there should be shelters strong wind breakers, tide stoppers, dykes and bunds, afforestation on the coastal belt flood water storage reservoirs and drainage facilities. I would like to know whether both the State Governments have followed these instructions and had it been implemented or not.

by cyclone in 324 W. Bengal & Orissa (CA)

Koteswaram Committee had identified that the State Governments with their meagre resources annot divert scarce fund from development to giving relief and doles. The Central Government must come in a big way. It is suggested that there should be a Central Natural Calamities Fund which should be funded both by the Centre as well as the State. Has this been implemented or not? Have they set up a statutory body to see that it is implemented?

Have both the State Governments requested the Central Government for central assistance and for a central team? When is this central team going to be sent and what are the norms of this central assistance sought?

RAO BIRENDRA SINGH: I have already stated that standing instructions exist with the State Government for taking timely action. Hon. Member referred to the recommendations of the Committee headed by Shri Koteswaram. Most of the recommendations have been implemented. Even Warning Radars have been set up along the coast-at Paradeep Calcutta, Vishakhapatnam and other has mainly places. The Committee dealt with the relief operations to minimise the misery caused by cyclone. What I have stated was that the fury of this phenomenon cannot be reduced. I did not say that relief should not be provided. The hon. Member himself said that the Committee recommended for construction of shelter embankments, road and other things so that the damage caused by cyclone is reduced. The Committee has also recommended timely assistance in a big way by the Central Government. This is being provided. No separate fund has been created by the Central Government for the purpose because we never know how much fund will be needed. It is always open to the State Government to come to the Central Government and ask for assistance. I have already said that

75 per cent of the expenditure incurred by the State Government for re-

- lief measures in such cases is met by the Central Government which is a substantial help by the Central Government—in accordance with what the hon. Member has in view that the Central Government owes some responsibility for helping the States in the matter of providing relief against natural calamities and disaster. There is a very efficient system of tracking in this case. I have already said that timely warnings were issued.
- Even in Orissa which has been men-5 tioned particularly by the hon. Member, Shri K. P. Singh Deo, on the night of 8th December, an alert warning was issued. Again on 8th, at 12.25 hrs. a fisheries warning for Orissa coast was issued. At mid-day, on 9th December, again, warnings were issued even down to the district officials. On 9th December, at 11.30 hrs., the precautionary measures were taken by the port authorities and cautionary signal No. 3 which signifies danger to fishermen was also hoisted at Gopalpur and Puri on the coast. At 21.30 hrs. in the night, on 9th upto the evening of 10th December, the warnings were issued over All India Radio at Bhubaneswar and even from Delhi, as I have stated earlier.

All these people were warned sufficiently in advance. The Chief Secretary was also informed by telephone. The district officials were informed; the port authorities were informed. That is why in Orissa there has not been much damage. The lives reported to have been lost in Orissa, as I have stated in my statement, is only about 3. But we are waiting for detailed information.

SHRI K. P. SINGH DEO: My questions have not been answered. The Koteswaran Committee which had done an indepth study had gone into the entire aspect of it. On the relief question, it has also made certain recommendations. It has said that because of delay in declaying cyclone areas, the relief is not given to the people who really deserve it. It has also identified a lot of problems which could be gone into so as to minimise the effect of cyclone.

I want to know what steps both the State Governments have taken to implement those recommendations, whether he has got any information about that. If he does not have it. he can take us into confidence that he will lay the information on the Table later on. I would like to know whether the State Governments have adequately provided the facilities for minimising the effect or cyclone or not, as has been suggested by the Koteswaran Committee. While he was replying that the action has been taken to implement the recommendations of the Koteswaran Committee, I may point out that it had also recommended for a cyclone warning radio station at Paradip which he has not mentioned.

RAO BIRENDRA SINGH: I have even mentioned radar. He did not listen to me.

SHRI K. P. SINGH DEO: That is what the Koteswaran Committee had suggested.

RAO BIRENDRA SINGH: The hon. Member seems to be too much obsessed by the Koteshwaran Committee report. I have it before me. The measures suggested are not of a very abnormal type so far as relief is concerned. The construction of roads, the construction of shelters, the dredging of drains, the construction of embankments, all these things are normally done by every State Government, long before the Koteshwaran Committee was set up. That has always been done

So far as West Bengal and Orissa Governments are concerned, the normal measures are taken up. These areas are prone to cyclone, as the hon. Member himself has said. Earlier also there was a cyclone. These areas are prone to typhons, cyclones and very heavy winds.

The real question is that the main recommendation of this Committee

[Rae Birendra Singh]

relates to setting up of an efficient system for warning. That has been done. Radio has been used, even from Delhi what to talk of Cuttack or Bhubaneswar or any other place. Radar stations have been set up. All radio stations all over Orissa and West Bengal have been issuing warnings. These warnings were issued to the port authorities. Repeatedly, time and again, they were warned sufficiently in advance, several times a day, day after day, right from 7th December onwards. The first time this phenomenon was detected somewhere off Madras coast on 5th December which was being tracked from that time onwards. But the track that was adopted by this particular cyclone this time has been somewhat abnormal. Right up to the time that it started....

SHRI R. P. DAS: Has the signal reached the people who are affected by the cyclone?

RAO BIRENDRA SINGH: It should reach the people. If it is broadcast by All India Radio and if the officers are informed why does it not reach the people? You should not expect Government of India to provide a radio set in every home in West Bengal and even if we do that, how can we ensure that the people will tune it at the proper time? (Interruptions)

Hon Member from West Bengal himself has praised the efforts of the West Bengal Government though he was the person who raised this Call Attention Motion. He was himself very much satisfied that the West Bengal Government has taken timely action.

MR. DEPUTY SPEAKER: I may suggest to Mr. Das that his Government can provide a siren in those places.

SHRI R. P. DAS: Everything is provided.

MR. DEPUTY-SPEAKER: They have provided everything.

(Interruptions)

R 15, 1981 by cyclone in W. Bengal & Orissa (CA)

RAO BIRENDRA SINGH: From the beginning, warnings are issued to warn the people that a danger is expected. Then the increasing danger is also intimated to the people. When the first warning is issued, people are advised to listen to the radio. That is what the first warning does. After that, they are expected to keep a track of it.

SHRIMATI JAYANTI PATNAIK (Cuttack): After hearing from the Minister that the Committee's recommendations are being carried out and that clear warnings are given, still, I feel that nothing could have been done in the present circumstances to save the people from the cyclone.

RAO BIRENDRA SINGH: Has the Chief Minister taken timely action there?

(Interruptions)

SHRIMATI JAYANTI PATNAIK: Oh, Yes! In the age of science, we cannot have a feeling that we resign to our fate feeling that no permanent measures can be taken specially to meet the cyclone and other natural calamities to save the people from the repeated fury.

The studies made for the last 100 years show that some areas are prone to cyclone. May I know from the Hon. Minister what steps have been taken to appoint a High Power Committee to make a special and scientific study of this problem?

According to reports, a system has been evolved in Latin America where people have succeeded in finding a solution to this problem of cyclone and tornado which occurs repeatedly in those parts of the world. This may please be studied to see if any possible action can be taken in this country.

In this context, I may say that thousands of people died in a severe cyclone which occurred in Orissa in the year, 1966. It was decided at that time to create coastal plantation in the 480 KM stretch of coastal belt of Orissa May I know from the Hon. Minister what steps had been takenfor monitoring this programme and helping the State Government?

I may state that it is not within the resources of the State Governnient of Orissa to take permanent measures. When the natural calamities occur and people suffer, the State Government rush funds for relief and rehabilitation at the cost of developmental works. Unless the Centre comes in a big way, the State Government cannot do anything tangible. I request the Central Government to give special assistance, specially to these areas

Lastly, as no device has been tound for dealing with syclones, permanent measures have to be taken for relief and rehabilitation of the poor people of Orissa to whom natural calamities like drought, flood, cyclone, tornado and hail-storm are eternal companions-they break the backbone of the State's development. May I know whether Government has any plan to provide substantial assistance to small farmers agricultural labourers and fishermen? The small farmers and agricultural labourers in such a situation will suffer a lot until they raise the next crop. So, is the Government making any arrangement to liberalise or write off repayment of the loans taken by them? What is the substantial assistance that will be given to them to raise the next crop? Also to the fishermen, what is the substantial assistance that will be given?

7

RAO BIRENDRA SINGH: The assistance to be given to the affected people is considered in the first instance by the State Government. They formulate the plan for immediate relief, as also for relief to put them on their legs again by giving assistance for raising the next crop by way of provision of subsidy or loan for seeds, fertilisers and for construction of houses or repair to houses. The proposals of the State Government are examined by the Central Team which looks into the memorandum of the State; then there is a high level Committee which takes a final decision which has ultimately to be approved by the Ministry of Finance. In that way, the assistance is provided, limited for this purpose. It all depends on how much funds are needed and are considered essential for assistance to a particular State at a particular time.

The main concern of the hon. Members, as I have noticed, is about setting up a system for timely warning....

AN HON MEMBER: No.

RAO BIRENDRA SINGH: What is it then?

SHRIMATI GEETA MUKHERJEE (Panskura): Relief works and rehabilitation.

RAO BIRENDRA SINGH: I have replied as to what can be done about relief.

We have several radar stations all over the coast at Calcuta, Paradeep, Visakhapatnam, Masulipatnam, Madras, Karaikal, Goa, Bombay and may The be also at some other places. satellites also keep track of cyclone, typhoon and other weather conditions. We have facilities for monitoring these in India and, as you know, in the Sixth Plan we are also proposing to make use of our INSAT for the same purpose-to track such natural phenomena. We have a very large number of radio stations all over India, Warnings are given by the Port authorities to fishermen. In this particular case, whatever damage has been caused is not on account of warning not being given to them in advance. The question of relief, as I have said, is being looked into. I have the report of the Flood Commission also with me. They have made certain recommendations. Action has been taken on most of these recommendations. The States have · standing drill also for their officers right down to the

[Rao Birendra Singh]

village level as to what is to be done in the case of floods or cyclone or other disasters like this. As soon as reports are received from Orissa and West Bengal, we shall certainly send central teams to those States and see what relief is required. I have said that 75 per cent of the expenditure incurred and to be met by the Government of India is a substantial amount of assistance in natural calamities....

AN HON. MEMBER: What type of team will it be?

RAO BIRENDRA SINGH: Not a parliamentary team.

SHRIMATI JAYANTI PATNAIK: He has not answered my question in full, Sir. It was decided after the cyclone of 1966 to create plantation in the coastal belt of Orissa for a stretch of 480 km. I wanted to know what step_s the Government have taken to monitor the work of the programme and help the State Government

RAO BIRENDRA SINGH: I will send her suggestions to the Chief Minister of Orissa.

MR. DEPUTY-SPEAKER: Please extend your helping hand. He will send it to the Chief Minister.

श्री रामावतार शास्त्री (पटना) .उपाध्यक्ष जी, सबसे पहले मैं समुद्री तूफान से पीड़ित उड़ीसा ग्रौर पश्चिमी बंगाल के लाखों परिवारों के प्रति ग्रपने दल की तरफ से सहानुभूति व्यक्त करता हूं ग्रौर जो लोग इस तूफान में मारे गये हैं, उनके प्रति संवेदना प्रकट करता हूं

उपाध्यक्ष जी, उड़ीसा के दो जिले बालासोर ग्रौर कटक इससे बुरी तरह प्रभावित हुए ग्रौर पश्चिमी बंगाल के मिदनापुर ग्रौर चौबोस--परगना जिले प्रभावित हुए ग्रौर सुन्दरबन का एक-तिहाई हिस्सा तो बिल्कुल ही प्रभावित हो गया । इस तरह की प्राक्वतिक विभक्तियों का सामना हमारे देश की जनता को हर साल किसी-न-किसी कोने में करना पड़ता है । वक्तव्य में जिन बातों की चर्चा की गई है, उनसे एक बात स्पष्ट हो जाती है कि पश्चिमी बंगाल की सरकार ने फौरन कुछ कार्य किया जिससे कि कुछ राहत मिली----यह उस सरकार की एफिशियेंसी का द्योतक है । दूसरी तरफ अभी तक केन्द्रीय सरकार स्थिति का जायजा ही ले रही है । इसलिए पश्चिम बंगाल की सरकार ने जो किया उसके लिए तो हमें धन्यवाद देना चाहिए कि फौरन वह मैदान-ए-जंग में चली गई

MR. DEPUT-SPEAKER: Every State does that Mr. Shastri

श्री रामावतार शास्त्री : मैं श्रापको यह भी बताना चाहता हूं कि 1500 वर्ग किलोमीटर का क्षेत्र पश्चिम बंगाल में प्रभावित है । इन क्षेतों के सारे ट्यूब-वैल ग्रौर तालाबों का पानी नमकीन हो गया है। 52 हजार एकड़ जमीन में धान की लहलहाती हुई फसल समाप्त हो गई है ग्रौर सात हजार मकान पानी में बह गये हैं, पता नहीं वे कहां हैं। इतनी बड़ी प्राकृतिक विपत्ति फिर भी सरकार कह रही है कि हम सेण्ट्ल टीम तब भेजेंगे, जब मांग होगी। यह भी कहा गया है कि उड़ीसा के पास 8 करोड़ 71 लाख ग्रौर पश्चिम बंगाल के पास 13 करोड़ 60 लाख सीमान्त राशि, मार्जिनल एमाउण्ट मौजूद है। क्या ग्रापका कोई कर्त्तव्य नहीं बनता? क्या ग्रापकी कोई ड्यूटी नहीं है कि इतनी बड़ी विपत्ति के समय अपनी सहानुभूति ले कर उनके पास दौड़े जायें और कहें कि हम इतनी मदद ग्राप को देते हैं, ग्राप श्रौर मजबूती से काम करो ? ग्राप प्रतीक्षा कर रहे हैं---मैं इसको उचित नहीं मानता । आप को फौरन उनके बिना मांगे...

333 Damage caused AGRAHAYANA 24, 1903 (SAKA) by cyclone in 334 W. Bengal & Orissa (CA)

13 hrs.

राव वीरेन्द्र सिंह : बिना मांगे हुए ?

भो रामावतार शास्त्री : हां, बिता मांगे हुए, यह प्राप हा कर्त्तच्य है । पश्चिम बंगाल ग्रोर उड़ोता हिन्दुस्तान के जिमर के टु मड़े हैं, लेकिन श्राप उन के कहने की प्रतीक्षा कर रहे हैं । वे तो ग्रयनी जान-कारी इ मट् डो करके ग्राप को भेजेंगे, लेकिन श्राप पहले से कुठ कीजिए । ग्रभी तक ग्राप ने इस में कोताही को है, नाकामयाव रहे हैं । ग्रभी भो समय है, उनकी मदद के लिए फौरन जाइए

ग्राचार्य भगवान देव (ग्रजमेर) : ग्राप हो ग्राये हैं?

श्री रामावतार शास्त्री : हो ग्राया हूं, तभी बोल रहा हूं। ग्राप ने सुना है कि 93 व्यक्ति मारे गये हैं, गैर-सरकारी खबरों के ग्रनुसार 175 लोग मारे गये हैं, लेकिन वास्तव में कितने लोग मरे हैं इसका पता चल जायगा, सूचना इकट्ठो को जा रही है। यह बहुत भारी विपत्ति है

राव वीरेन्द्र सिंह: ग्राप के पास तो पहले ही ग्रागई है।

श्री रामावतार शास्त्री : तभी तो बोल रहा हूं, राव साहब । ग्राप ने कहा कि उड़ोसा में समुद्री तूफ़ान 8 दिसम्बर को ग्राया ...

राव वीरेन्द्र सिंह: नहीं ।

भी रामाकतार सास्त्री: ग्राप भ्रवने कयान में देखिए । भ्रखब रों में भी यह खबर क्राई है । बंगाल में 10 दिसम्बर को क्राया MR DEPUTY-SPEAKER: But, the warning was given.

श्री रामावतार शास्त्री: मैं यही बात उठा रहा हूं। जिस दिन तूफ़ान ग्राया, उसो दिन वार्तिंग देने का क्या मतलब है ? वानिंग किंतने दिन पहले देने का कायदा है? बंगाल में 10 ता० को तूफ़ान ग्राया---ग्रगर ग्रापकी बात को मान लें, तो उड़ोसा में ता० 8 को वानिम देने का क्या मतलब है, उड़ोसा के लोग इतनी जल्दी नहीं जा. सकते थे, उनको कहां ग्रासरा मिलता ? ग्राप के यहां कोई नियम होगा कि इतने दिन पहले तूफ़ान की चेतावनां दो जानों चहिए, सूच'ना दो ज नो च।हिए, उस के बारे में ग्रापने कुछ नहं। बतजाया। ग्रापने कहा कि हम ने सूचना देदो, रेडियो सुतने वालों ने नहीं सुनी तो हम क्या करें। सब के पास रेडियो नहीं हैं। जिन इलाकों में तूफ़ान ग्राया, उन इलाकों के लोग निर्धन हैं, क्या ग्राप ने उन को कोई रेडियो दिश है ? इन कोस्टल एरियाज में जहां तूफ़ान का खतरा रहता है, सरकार की तरफ़ से रेडियो सेट्स सप्लाई करेंगे, कम से कम जितने कम्यूनिटों सेण्टर्स देहातों में हैं या शहरों में हैं वहां सरकार की तरफ से मुक्त रेडियो देंगे ? ...

राव वीरेन्द्र सिंह : उसके बाद क्या ग्राप ज़िम्मेदारो लेंगे कि वे टाइम पर रेडियो सुतेंगे ?

श्वी रामावतार शास्त्री : लेंगे, ५हले ग्राप रेडियो दोजिए, फिर उसकी जवाब-देही लूंगा , वरना रेडियो-सेट्स आप को वापस कर दूंगा । अगर आप सचमुच चाहते हैं तो ऐसी व्यवस्था करनी होगो । इतना कह देने से कि लाग सुनते नहीं हैं काम नहीं चलेगा । किस चोज से सुनेंगे ? गिलास होगा नहीं, तो पानो कैसे पोयेंगे, क्या चल्लू से ? DECEMBER 15, 1981

राव वीरेन्द्र सिंह : पीं संकते हैं।

. श्वी रामावतार शास्त्री : वह तो मजबूरी में पोते हैं।

MR DEPUTY-SPEAKER: Suggest this to the State Government Both of them combined together can get the radio.

SHRI RAMAVATAR SHASTRI. I am suggesting this to the Central Government because we are talking here in the Lok Sabha—not in the Assembly.

MR DEPUTY-SPEAKER: I say both combined together can supply the radio.

SHRI RAMAVATAR SHASTRI: We are talking in Lok Sabha. So the Central Government should do this.

MR DEPUTY-SPEAKER: I am only suggesting this because this is a Concurrent Subject

श्री रामावतार शास्त्री : उपाध्यक्ष जो, दू 1 रो बात जो मैं जानना चाहता हूं वह यह है कि जो हर स्टेट में नेचुरल केलेमिटोज एक्ट हैं लेकिन उस से सब राज् गों का काम पूरा-पूरा नहीं चलता है, तो की जब होई नेवुरन केलेमिटो ज हों, • बाढ़ हो, सुबाड़ हो, तूफ़ान हो, । मुद्री तूफा। हो । ाकोई प्रौर वि।चिल्माए, रे से मौते गर तुरन्ग केन्द्रोय सहायता वहां पहुंच जाए, इ. तरह का कोई कानून ब शने का विचार रखते हैं ताकि ग्राप को फिर सरकार को एफशियेन्सी का इन्तजार न करना पड़े। बंगाल की सरकार की एफोगियेन्सो तो ग्राप ने देख लो कि वे फौरा वहां वले ये ग्रौर बहुत जगहों पर लोगों को उहापता कर रहेहैं लेकिन' उड़ोशा के बारे में खुद बयान में ग्राप ने कहा है कि उड़ोना में यह बहुत कम चीज हुई है क्योंगि वत्तां तूफ़ान का जोर श्राप के मुबा-

15, 1981 by cyclone in W. Bengal & Orissa (CA)

बिक कम है । पतानहीं, वहां के लोग इस के बारे में क्या समझते हैं लेकिन ग्राप ने कह दिया है कि वहां मौतें बहुत कम हुई हैं ग्रौर केवल 3 ग्रादमी मरे हैं। इसलिए मैं, जानना चाहता हूं कि क्या ग्राप ऐसा कोई: कानून बनाने का विचार रखते हैं 'जिससे ऐसे मौके पर फौरन केन्द्रीय सरंकार राज्य की मटट के लिए पहुंच जाए।

एक ग्रोर सवाल है जिस को माननीय सदस्य ने भी उठाया था लेकिन ग्राप ने जस का जवाब नहीं दिया ग्रोर कह दिया कि मैं मुख्य मंत्री को बता दूंगा उड़ीसा में ।

राव वीरेन्द्र सिंह : उन्हें दिक्केत है, तो हम बता दोंगे।

श्वी रामावतार शास्त्री : उन्होंने केवल उड़ीसा के लिए पूछा था । म उड़ीसा, बंगाल ग्रोंग दूसरे जितने तटवर्ती समुद्र के किनारे बसे हुए शहर हैं, जहां पर तूफ़ान श्राने का खतरा रहता है, जन के बारे में पूछना चाहता हूं । समुद्र के किनारे जो गांव या शहर हैं तमिलनाडु में हो या केग्ल के ग्रन्डर हो, पश्चिम बंगाल में हो या उड़ीसा के ग्रन्डर हो या ग्रान्ध्र प्रदेश में हो, ऐसे तटवर्ती इलाकों के लिए ग्राप के पास कोई एफोरेस्टेशन की योजना है या नहीं ? ग्रगर है, तो क्या है ग्रीर इत दिशा में ग्राप ने राज्य सरकारों को ग्रब तक कौन सी मटद की है ?

राव वोरेन्द्र सिंह : डिप्टी स्पीकर साहब, ग्रास्त्री जी के पास तो ब्यौरा बहुत मालूम होता है लेकिन वह प्रभी तक हमारे पास पहुंचा नहीं हैं । मकान कितने गिरे, उन की तादाट भी बराई, खेती का नुक्क्षान हुग्रा, कितने एकड़ रक्षबा खराब हुग्रा, कितने तालाबों के ग्रान्दर

337	Damage caused	AGRAHAYANA	24,	1903	(SAKA)	by	cyclone in	: 838
007	-	W. Bengal & Orissa (CA)						

पानो खारा हुग्रा, यह सब उन्होंने बताया लेकिन में कहना चाहता हूं कि मेरे पास ग्रभो इतने डिटेल्स नहीं हैं ग्रोर ग्रभी तक पश्चिम बंगाल से पूरी सूचना नहीं मिली है । 13 करोड़ 60 लाख रुग्ये हम इसी काम के लिए पहले दे देते · हैं ।

श्री रामावतार शास्त्री : न्या यह पर्याप्त है ?

राव वीरेन्द्र सिंह : इतना पैसा उन के पास है । वे ग्रगर इस को खर्च करना चाहों तो फौरन कर सकते हैं। इस के बाद इस से ज्यादा जितना खर्च करेंगे, उस में फिर 75 फ़ीसदी भारत सरकार देती हैं प्राण्ट, नान-प्झान में। तो माननीय झास्त्री जो के यह समझने की बात है कि जो, पैसा सरकार के पास है, वह इसी काम के लिए है। जब तक वह खर्च न हो जाए ग्रौर उस का हिसाब-किताब भी पूरा लेते हैं, बगैर मांगे ग्रौर नैसा करेंने दे दिया जाए। कोई तरीका होता है पैसा देने का।

यह भी शास्त्री जी ने गलत समझा कि 8 तारीख को तुफ़ान ग्रागया। मैंने यह नहीं कहाथा। मैंने तो बताया है कि तुफ़ान 10 तारीख को ग्राया।... (ब्यवधान)... यह उड़ोता के नजंदीक हे निकला ग्रौर उड़ोता के ग्रन्टर तुफ़ान नहीं गया लेकिन साहिल के इलाके में यह था।

भो रामावतार शास्त्री: इनके बयान में यह है कि सिर्फ उड़ोशा सरकार से मिलो रिपोर्ट के अनुसार इस महोने की 8 ता० को सार्य 5.30 खजे बंगाल की खाड़ी में भयंकर समुद्री तुफ़ान आने का पता चला । राव वीरेन्द्र सिंह : बंगाल की खाड़ी उड़ीसा में है क्या ? बंगाल की खाड़ी ग्रौर है।

श्री रामावतार शास्त्री : उड़ीसा को सरकार ने यह खबर दी है ।

राव वीरेन्द्र सिंह : बंगाल की खाड़ी में तो, 5 तारीख को ग्रा रहा था । वंगाल की खाड़ी में 5 तारीख को देखा गया । बंगाल की खाड़ी ग्रीर उड़ीसा में फ़र्क है ।

श्री रामावतार शास्त्री : मैंने इनके बयान से ५ढ़ा है और ग्राप ने बयान दिया है उड़ोक्षा सरकार के माध्यम से ।

राव वीरेन्द्र सिंह : वह ग्रा५ हिन्दी में पढ़ लों या अप्रेजी में पढ़ लों। उसका समझाने का मतलब इतनाही है कि बंगल की खाड़ी में तूफान कहीं भी हो, वह उड़ीका में नहीं था। उड़ोसा के तट के पास से तूफान 10 तारीख की शाम को। निकला है ग्रौर 10 तारीख की रात को बंगाल में पहुंचा है। 10 तारीख को ही वहां नुक्कान हुग्रा। 7 तारीख को दिल्ली से वारनिंग भेजी गई जिसका सारा ब्यौरा मैंने दिया है। उसका टाइम भी बताया है कि किस तरह से रेडियो के जरिए ग्रीर मेटरोलोजिकल डिपार्टमेंट के जरिए से डिस्ट्रिक्ट **अथोरिटीज को कहा ग**या ग्रौर लोगों को कहा गथा। 7 तारीख के बाद से वार्रोनेग ही वार्रोनग चलती रही हैं। भानी भी वहां पहुंच रहा है। जहां भानी खारा हो गया है वहां मीठा पानी पहुंचाने के लिए कलकत्ता पोर्ट ट्रस्ट नौकाओं की सहायता कर रहा है और इस तरह से मीठे पानी का इन्तजाम किया जा रहा है।

श्री रामावतार शास्त्री: कोई सेण्ट्रल कानून इस धारे में बनाइयेगा यानहीं?

by cyclone in W. Bengal & Orissa (CA)

🥈 राव बीरेन्द्र सिंह : तुफ़ान म्राने से पहले कानून बनाएं? इसके लिए सारा इन्रजामं मौजूद है । आप सिर्फ इतना समझने की कृपा करें कि जो पैसा सरकार के पास है वह त्रन्त सहायता के लिए होता है ताकि उस पैसे से तुरन्त कामकाज चले। उसका ब्यौरा जब आता है तब फिर आगे सोचा जाता है।

SHRIMATI GEETA MUKHERJEE: In this Statement, the hon. Minister has expressed on behalf of the Government of India, their sorrow at the calamity. My first question is this: On the 10th and 11th, West Bengal and Orissa were ravaged by these cyclones. On the 12th itself, the Prime Minister of the country was in West Bengal. She addressed the public of West Bengal in Shantiniketan The Prime Minister of the land was right in the territory which has been so badly affected. Is it not unprecedented that she made a speech dealing with voters' list and political murders and so on, and not a single word of sympathy to these cyclone-affected people of West Bengal and Orissa? Is it not something which is unprecedented?

MR. DEPUTY-SPEAKER: There are many occasions when you can criticise; not on this Please put your question.

RAO BIRENDRA SINGH She is making a political speech only and she is not putting the question. That should not go on record.

DEPUTY-SPEAKER MR You should not be utilising such an opportunity. You may please put a question. 90 lives have been lost. Don't politicise the issue.

SHRIMATI GEETA MUKHERJEE: The Prime Minister has not expressed a word of sympathy to these cyclone-affected people....

MR. DEPUTY-SPEAKER: Please put the guestion.

SHRIMATI GEETA MUKHERJEE: In her speech there was not a single word of solace to these people My second question is this: It may be an inconvenient question. Much has been said about the Radio. There are Radios in all parts of the country. All the radios were tuned in on the 12th. People were eager to hear about the events; but they did not hear anything over their Radios. This is a serious situation, Sir. Secondly, I want to know this: I know the Minister has not got the audacity to answer this question. Even then, I have the audacity of asking a question. I am totally dissatisfied with the statement made by the hon. Minister, Is it a fact that full damage has not yet been assessed but it is being assessed? In the statement, in Para 6 it is stated that according to the State Government 93 lives have been lost and nearly 20 lakhs of people have been affected. Now so far as we can find in the press, the Irrigation Minister of West Bengal has stated that only in South 24 Parganas district, 20 lakhs of people have been affected and 93 lives have been lost. Now, how is it that that figure has been taken for West Bengal as a whole? In Midnapore district alone, at least 20 lakhs of people have been affected and the word "affected" has a wider meaning. In Howrah district also, thousands of people have been affected. It is not only that many lives have been lost but the means of livelihood of lakhs of people have been lost. The main cash crop in many of the districts was already damaged heavily in the last flood, that we had in 1978. It actually took away everything and after a lot of hard working and incurring indebtedness the peasants have been able to retrieve slowly before another havoc like the recent one could take place. It is not just a question of 'given some immediate relief'. Immediate relief should be rendered to those who have been uprooted and whose means of livelihood has been lost. Unless immediate relief is rendered, there would be very serious repercussions and untold miseries would be faced by the

340

people in the near future. This is the area which was affected in 1978 also and the people there have lost everything. That being the case, I think that the Central Government has not studied the gravity of the situation. Whatever information has been given by the West Bengal Government I see in the Statement. But my question is: how will you expedite the whole exercise of rendering help immediately because the problem is very serious? If it is a question of visiting the place by a Central team, it will take some time and after a lot of higgle-haggle an assessment of the damage will be made. But in this process there will be a lot of delay. Therefore, I would like to know from the hun. Minister how this entire process of rendering help immediately would be undertaken so that the affected people get some solace.

My next point is that this margin money is not only for cyclone-affected people but for drought-affected areas also.

AN HON, MEMBER: Drought occurred in Orissa.

SHRIMATI GEETA MUKHERJEE: Drought has occurred in some parts of my State also. Margin money is not for this particular calamity. The State Government has made an assessment that Rs 20 crores will be necessary for carrying out repairs in the dykes and banks. I would request the Government that this repair work should be taken up immediately.

RAO BIRENDRA SINGH: As I have already said, the State Government is expected to provide immediate relief after such disasters. If the West Bengal Government has not done it, I am sorry to know that and we shall find out.... (Interruptions). You said that immediate relief has not been given.... (Interruptions). W. Bengal & Orissa (CA) MR. DEPUTY-SPEAKER: He says that the West Bengal Government has got to do it.

(Interruptions)

MR DEPUTY-SPEAKER: I will not allow this. He is replying to Mrs. Geeta Mukherjee. Nobody else except she can ask any clarification. You must read the rules. We are bound by the rules.

(Interruption3) **

Please do not record,

RAO BIRENDRA SINGH: Hon. Member, Shrimati Geeta Mukherjee has made a political speech. On the one hand, she tried to say that the West Bengal Government had taken very speedy action, on the other hand, she has tried to give an impression that immediate relief has not been provided to the people.... (interruptions). It is the duty of the State Government to provide immediate relief to the affected area. If they have not done it, we shall find out, and we shall go into it.... (interruptions) **

MR. DEPUTY-SPEAKER: Do not record anything except the Minister.

RAO BIRENDRA SINGH: You cannot blow hot and cold at the same time. Has the immediate relief been provided or not? (Interruptions). What I have stated with regard to the damage is on the basis of information provided by the West Bengal Government, I cannot go on the basis the press. My of reports in statement is based on reports from West Bengal Government, These are not my own facts and figures. Whenever we get more information from West Bengal Government and we find that there is a case for sending a Central team to visit the area and we are satisfied that the damage as shown by West Bengal Government

**Not recorded.

(Shri Rao Birendra Singh)

is more than what could be compensated or what can be met within the marginal money of Rs. 13.60 crores, we shall certainly take the required action Although some part of this money may have been spent by Government on certain other matters. some money is expected to be with the Government of West Bengal at the time. Unless we know that they need a particular assistance over and above that marginal money and they cannot meet the situation within that, we cannot send a Central team of our own. I have said it earlier and the hon. Member should be satisfied with it. The Central Government is getting information; we are awalting for a full report from West Bengal and it is never done and it cannot be done that we should send our own machinery to provide relief to the people of West Bengal or Orissa or any other place. It is the duty of the State Government and we have laid down norms under which they should provide relief immediately. There is a drill also for that purpose. We have given full and detailed instructions for meeting situations in such circumstances and calamities....(Interruptions).

I would plead with the hon. Members not to try and blow up a thing out of proportion. That does not help a particular State. We have got to keep the facts in mind. The West Bengal people have been affected. myself admit that the damage in West Bengal is more than the total damage, loss of life and other things in Orissa and we shall certainly try to be very just and fair and liberal to West Bengal, But don't try to take political advantage out of this. That will not help you.

13.25 hrs.

The Lok Sabha adjourned for Lunch till twenty-five minutes past Fourteen of the Clock. The Lok Sabha re-assembled after Lunch at thirty minutes past Fourteen of the Clock.

[MR. DEPUTY-SPEAKER in the Chair]

श्री मनी राम बागड़ी (हिसार) : उपा-ध्यक्ष महोदय दो मेंम्बर श्रा रहे थे। उनको श्राने से रोक दिया गया। (व्यवधान)

MR. DEPUTY-SPEAKER: I am not allowing him.

Mr. Venkataraman to make a statement.

(Interruptions)*

MR DEPUTY-SPEAKER: Do not record any thing.

(Interruptions)*

MR. DEPUTY-SPEAKER: This is not correct. Anyway, do not do like this.

(Interruptions) *

MR. DEPUTY-SPEAKER: There is a way of putting the matters. They have given notice now. Just now they have showed me.

(Interruptions)*

MR. DEPUTY-SPEAKER: Please listen. Please wait. They should have gone and seen the Speaker, and he would have permitted. Then I would have permitted him also.

(Interruptions) *

MR. DEPUTY-SPEAKER: They do not follow the procedure.

(Interruptions) *

PROF. MADHU DANDAVATE (Rajapur): Please, Mr. Bagri can. coolly explain what the issue is, what developments have taken place. It concerns the entry into the House. One minute.

MR. DEPUTY-SPEAKER: If Mr. Bagri had seen the Speaker, it would have been all right. श्री मनीराम बागड़ी : उपाध्यक्ष महोदय, लोक सभा के डेमोकेटिक सोशलिस्ट पार्टी ग्रौर लोकदल के दो मेम्बर पार्लिया-मेंदरी. ग्राफ़िस, एनेक्सी में से ग्रा रहे थे, मगर पुलिस ने उनको नहीं ग्राने दिया ग्रौर कहा कि प्राइम मिनिस्टर का लंच है, इस लिए इधर से नहीं जा सकते । वे लोक सभा को ग्रा रहे थे। लोक सभा के मेम्बर को लोक सभा को ग्राते हुए रोकना बरी बात है, ग्रलत बात है ।

MR. DEPUTY-SPEAKER: Mr. Mani Ram Bagri, I will look into it. I said I will look into it. Now, Mr. Venkataraman to make a statement.

14.33 hrs.

SUPPLEMENTARY DEMANDS FOR GRANTS (KERALA), 1981-82

THE MINISTER OF FINANCE (SHRI R. VENKATARAMAN): I beg to present a statement (Hindi and English version) showing Supplementary Demands for Grants in respect of the State of Kerala for 1981-82.

SHRI SATYASADHAN CHAKRA-BORTY (Calcutta South): Earlier it was Assam Now it is Kerala! (Interruptions)

MR DEPUTY-SPEAKER: Now matters under Rule 377

14.35 hrs.

MATTERS UNDER RULE 377

(i) RAJADHYAKSH COMMITTEE RECOM-MENDATIONS ON STATE ELECTRICITY BOARDS WITH PARTICULAR REFE-RENCE TO INADEQUATE POWER SUP-PLY IN MAHARASHTRA.

श्रीमती ऊषा प्रकाश चौधरी (ग्रमरा-वली) : उपाध्यक्ष महोदय, महाराष्ट्र में उद्योगों एवम् किसानों को बिजली कम मात्रा में दी जा रही है, जिससे ग्रौद्योगिक उत्पादन तथा खेती पर ग्रसर पड़ रहा है। पम्प के माध्यम से खेतों की सिचाई की जाती है, लेकिन राज्य विद्युत बोर्ड द्वारा बिजली सिर्फ चार पांच घण्टे के लिए दी जाती है, जिससे कृषक पूर्ण रूप से फ़सल प्राप्त करने में सफलता प्राप्त नहीं कर पाते, उनकी पैदावार कम होती है। इस तरह उनका ग्राधिक बोझ भी ग्रधिक बढ़ जाता है ग्रीर पारिवारिक कढिनाइयों का सामना करना पड़ता है।

मेरे ही जिले मेलघाट में, जो कि एक ग्रादिवासी पहाड़ी क्षेत्र है, तथा ग्रास-पास के इलाकों में जिजली के खंबे तो सरकार ने लगा दिए हैं, लेकिन बिजली न होने की वजह से वहां ग्रंधकार ही रहता है। इसी प्रकार जितने भी पहाड़ी इलाके हैं, महाराष्ट्र में वहां भी स्वतन्त्रता के बाद बिजली की मुविधाएं तो दे दी हैं, लेकिन बिजली की मुविधाएं तो दे दी हैं, लेकिन बिजली की जनहीं

आदिवासियों तथा अल्प म-धारकों को णासन की तरफ़ मे पम्प वगैरह लग ने वे लिए मबसिडी तो दी गई है, लेकिन ग्रगर विद्युत प्राप्त न हो, तो सिंचाई का कार्य वैसा का वैसा ही पड़ा रहता है । भारत एक कृषि-प्रधान देश है और यहां के अधिक तर लोग खेती पर निर्भर करते हैं । उनका जीवन-स्तर तभी सुधर सकता है, जब कि उन्हें बिजली वगैरह की सुविधाए प्राप्त होती रहें और वे अपनी खेती से पूरी फ़सल प्राप्त कर सकें।

में सरकार से अनुरोध करती हूं कि वह राज्य बिजली बोर्डों के काम-काज के बारे में राजाध्यक्ष समिति की सिफ़ा-रिफ्रों पर तत्माल कार्रवाई करे, ताकि इनके काम-काज में सुधार हो सके। बिजली के उत्पादन और वितरण में वेन्द्र सरकार के प्रधिकाधिक ध्यान देना चाहिए, जिससे छवि और औद्योगिक विकास को गति मिल सके।
