

Central Government is adopting a step-motherly attitude in the matter towards Uttar Pradesh.

Sir, the quality of coal is very bad. Stones are being supplied in place of coal as a result of which electricity generation has gone down by 800 megawatts. Because of power cut, big industrialists have been compelled to close down their industries. It is also feared that many people will be rendered jobless because of this. In August, only 7 thousand metric tonnes of coal were supplied instead of 19 thousand metric tonnes to Obra Thermal Power Station. Against a demand of 10 thousand metric tonnes of coal from Anpara only 5400 metric tonnes were supplied to them. Similarly, only 600 metric tonnes of coal were supplied instead of 3 thousand metric tonnes to Pareea. The State is experiencing drought and the crops are drying up for want of irrigation. The state will fall in the grip of darkness at any time because of scarcity of electricity and the industries will also come to a grinding halt. Therefore, I would request the Government through you that sufficient quantity of good quality coal should be supplied to the Thermal Power Stations of Uttar Pradesh.

SHRI NAWAL KISHORE RAI (Sitamarhi) : Mr. Speaker, Sir, in Bihar trains from Muzaffarpur to Delhi and Patna to Delhi are running very late. Vaishali Express and Shaheed Express from Muzaffarpur, Magadh Express, Tinsukia Mail and A. C. Express from Patna are running very late. It is causing great hardship to the public. The catering service in these trains is very bad. Mr. Speaker, Sir, through you, I would like to draw the attention of the Hon. Minister of

Railways to make improvement in it without any delay so that the trains running late by 3-4 hours run on time and the catering service also could be improved.

SHRI BHEEM SINGH PATEL (Rewa) : Mr. Speaker, Sir, I am not familiar with the rules of making speeches in this House, but I would like to draw the attention of the Government, through you, to a very important point. The leader of the House is also sitting here who comes from the area adjoining Rewa and the leader of the opposition Shri Advani is also here. Shri Advani belongs to the party which is in power in Madhya Pradesh these days. I would like to draw the attention of all towards Ambedkar Adivasi Banwasi Nyaya Nagar, Bairiha Bund, Rewa. In this forest area no plantation was done by the department. The Adivasis and Vanwasis with due notice to the concerned authorities started living on an area of about 1000 acres. They began tilling the land. Nothing happened to these people for six months. They had settled on the land after giving due notice. They sowed 40 quintals of linseed there and dug three wells after boring mountainous terrain. These people were completely displaced on 18th January, 1991. Nearly 2500 bicycles, utensils, clothes, goats and hens etc. belonging to these people were taken away by the police and the feudal lords and till now nothing has been returned to them. A Commissioner was sent to that place to make an assessment whether the land was cultivable or not. The Commissioner did not reach there upto 5 p.m. and later the employees of forest department reached there alongwith goondas etc. and forcibly evicted the people. Nearly 40 people
