

[Translation]

SHRI MOHD AYUB KHAN : Mr Speaker, Sir, the hilly area is being discussed. In Rajasthan, Jhunjhunu and Sikar too have hilly areas. The areas of Khetri and Udaipur Vati are hilly areas. I want to know whether the facilities available in hilly areas will also be available to Jhunjhunu and Sikar's Khetri and Udaipur Vati areas?

SHRI BRAHMA DUTT : Our effort is that whatever little area of forest is there in Rajasthan it should remain protected and if Members plant new forests in Jhunjhunu and Sikar, then we will surely take steps to save them by putting up L.P.G plants.

**Centrally Assisted Industrial Projects
in Andhra Pradesh**

*360. SHRI V. TULSIRAM : Will the Minister of INDUSTRY be pleased to state :

(a) the details of centrally assisted industrial projects in Andhra Pradesh, at present;

(b) the proposals to set up such new projects in the State during 1988-89 and 1989-90 and particularly in Telengana Region; and

(c) the time by which such projects are expected to be set up?

THE MINISTER OF STATE IN THE DEPARTMENT OF INDUSTRIAL DEVELOPMENT IN THE MINISTRY OF INDUSTRY (SHRI M. ARUNACHALAM): (a) to (c) The emphasis during the Seventh Five Year Plan Period is to maximise the utilisation of the existing facilities through re-structuring, improved productivity, up-gradation of technology and modernisation of the existing units rather than setting up of new units. A list of the important on going industrial projects in Central Sector in Andhra Pradesh for which outlays have been provided in the Seventh Five Year Plan is given in the statement below.

The Annual outlay for the different projects for each financial year is determined after reviewing their progress every year. The annual plan proposals of the State Government of Andhra Pradesh as

well as the Central Ministries for the years 1988-89 and 1989-90 have not yet been finalised.

SHRI V. TULSIRAM : Mr. Speaker, Sir, and hon. Members of the august House,

... (Interruptions)

MR. SPEAKER : It is all right. He has come to the right track.

SHRI V. TULSIRAM : Mr. Speaker, Sir, my time will be over. Therefore, I do not want to say anything else on this.

MR. SPEAKER : You have come to the track very soon.

SHRI V. TULSIRAM : Mr. Speaker, Sir, my question was .

(a) the details of centrally assisted industrial projects in Andhra Pradesh, at present.

(b) the proposal to set up such new projects in the State during 1988-89 and 1989-90 and particularly in Telangana Region; and

(c) the time by which such projects are expected to be set up ?

Mr., Speaker, Sir, a short reply has been given to it.

MR. SPEAKER : Has it not satisfied you ?

SHRI V. TULSIRAM : Mr. Speaker, Sir, the answer given in this is that .

"The annual plan proposals of the State Government of Andhra Pradesh as well as the Central Ministries for the years 1988-89 and 1989-90 have not yet been finalised."

I want to tell the hon. Minister that it is a drought-affected area. My area Mehboobnagar and Rayalsema are very backward and drought-affected areas. I want to know if you are going to formulate some new project or going to set up a factory in such areas with the help of Central Government ?

[English]

SHRI J. VENGAL RAO : The hon. Member's question is about Centrally-assisted projects. There are no Centrally-assisted projects. There are only three types of projects in the Central State and the private sectors. No Centrally-assisted projects are there. This is about the first

question of the hon. Member. The hon. Member's second question is about the number of projects for 1988-89 and 1989-90. They are under the consideration of the Planning Commission. I know very well that for the existing industries, there is a power cut of 40% in Andhra Pradesh. How can they expect me to start new industries ?

[*Translation*]

SHRI V. TULSIRAM : Power shortage is a universal phenomenon. Power available with you should be utilised. The hon. Minister of Power is sitting here and he has all the powers.

Mr. Speaker Sir, this is my second supplementary. In the meantime I have read that you want to establish industries in the backward areas. Do you have any such idea ? The Central Government should not stop its subsidy in the drought-affected areas. Are you realising that by not giving the subsidy in such areas which are drought stricken the people are very much suffering ? If you will stop the subsidy, then the industries will come to a stop there. You should at least give it in the drought-affected areas. Will you please tell clearly about this if you are going to do so ?

[*English*]

SHRI J. VENGAL RAO : For the backward areas, the subsidy will be continued till the end of January 1988. Meanwhile, we are finalizing the Baijal Committee report, to establish growth centres in various States. Then we will create the infrastructure, with all the facilities. Then, you will not get all the subsidies. But you will get the facilities.

WRITTEN ANSWERS TO QUESTIONS

Development of Hollow Type Insulators by Bharat Heavy Electricals Limited

*352. **SHRI Y. S. MAHAJAN :**
SHRI P. M. SAYBED :

Will the Minister of **INDUSTRY** be pleased to state :

(a) whether the Bharat Heavy Electricals Limited has successfully developed hollow type insulators for 400 KV, the highest system voltage in the country, which were being imported so far ;

(b) whether the quality and performance efficiency of the insulators developed by the BHEL is upto international standards ;

(c) whether the BHEL will be in a position to meet the entire demand of such insulators ; and

(d) the expected savings of foreign exchange as a result of manufacture of those insulators ?

THE MINISTER OF INDUSTRY (SHRI J. VENGAL RAO) : (a) Yes, Sir. The Proto-type has been tested.

(b) Yes, Sir.

(c) Yes, Sir.

(d) Initially the annual saving in foreign exchange would be about Rs. 35 lakh, which would progressively increase to Rs. 200 lakh in the near future.

Expenditure for Non-Conventional Energy Development

*356. **CH. RAM PRAKASH :** Will the Minister of **ENERGY** be pleased to state :

(a) the expenditure incurred on non-conventional energy development so far during the Seventh Plan ;

(b) the remaining amount in the allocation for the Seventh Plan for this purpose ; and

(c) what tangible benefits to common people have accrued with so much expenditure incurred for the non-conventional energy sources ?

THE MINISTER OF ENERGY (SHRI VASANT SATHE) : (a) and (b) An expenditure of Rs. 242.83 crores is reported to have been incurred against an allocation of Rs. 244.35 crores in the Central sector
